HOWARTH, Patrick Hohn Fielding - born , 25.04.1916. Special Operations Executive

officer who after the war turned prolific author and broadcast his own poetry on the BBC. Obituaries: www.independent.co.uk:

ONE of the earliest members of the wartime Special Operations Executive, Patrick Howarth, did valuable work on its staff in London, and in training agents at various secret locations around Britain. Turning man of letters after the war, he published books on a wide variety of subjects as well as writing poetry. Notable among his prose works were two on the SOE, one of which, a collection of essays by SOE agents, he edited and the other he wrote.

Patrick John Fielding Howarth learnt at Rugby, like his friend Peter Wilkinson, the elements of resistance to authority, and he went on to St John's College, Oxford, from which he graduated just before the Second World War began. With a character at once genial and combative, stoutly patriotic, and good at keeping his mouth shut when he had to, he was an ideal recruit to the SOE.

The symbol MX1, allotted to him, meant and was meant to mean nothing to the outside world. To an initiate, it meant that he worked under the immediate eye of (Major-General Sir) Colin Gubbins, variously described as SOE's mainspring and its linchpin.

Gubbins originally ran the operations and training departments; by late 1943 he was executive head of the whole show under Lord Selborne. SOE's operations had to start slowly. There were no agents on the spot at first. They had to be found, trained and inserted — usually by parachute.

Howarth was never one to "speed glum heroes up the line to death" without taking his share of risk. He did parachute training as a matter of course, when it was far more dangerous than it is today. He also took part in SOE's main training courses, in paramilitary techniques on the Inverness-shire coast and in secret tradecraft at Beaulieu in the New Forest.

He never himself went on operations, for he commanded no foreign language well enough to pass for a native, but he made himself thoroughly useful on the Baker Street staff. He did spend several weeks in Italy in 1944, with a party of Polish friends, waiting to go on a sabotage mission into the Balkans, but after many postponements it was cancelled.

His tact and sympathy were invaluable when dealing with the governments-in-exile in wartime London, whose consent had usually to be sought before SOE could dispatch agents into their countries. How thoroughly he became imbued with SOE's spirit became clear after the war, in two of his books. One, Special Operations which he edited in 1955, was a collection of essays (already in print) by former members of SOE, recounting their authors' various astonishing adventures, from which the proceeds went to the Special Forces Club, of which Howarth was an original and lifelong member.

The other, Undercover, he wrote himself, and it came out in 1980. He was dissatisfied with the treatment that some of SOE's heroes and heroines had received from the popular press, and felt the official histories that had come out were too dry. So he gave his own recollections of such outstanding characters as Forrest Yeo-Thomas, GC, Alfgar Hesketh-Prichard and Christine Granville, and sketched the critical role SOE had played in keeping civilisation alive against Nazi barbarism.

After the war he had a brief spell in the foreign service, serving in the mission in

Warsaw. This he had to leave because he married a Polish wife — it turned out a disastrous marriage, and was soon dissolved.

He then turned full-time author. He wrote several books about the lifeboat service, of which he was a leading supporter. His two novels, The Dying Ukrainian and A Matter of Minutes, both appeared in 1951 and reflected corners of his wartime life. In the same year he published a retrospective of England in the year of the Great Exhibition of 100 years before. He wrote also on parliamentary questions, on the French Riviera, and on schoolboy stories, as well as a life of Sir John Squire, Squire: Most Generous of Men, which appeared in 1963.

His range of interests is shown by his life of Attila, king of the Huns, and the range of his intellect by his excellent Intelligence Chief Extraordinary (1986), a life of Sir William Cavendish-Bentinck, 9th, and last Duke of Portland. It was Cavendish-Bentinck who turned the Joint Intelligence Committee into a worthwhile body, which performed major tasks of strategic analysis during the Second World War. It did wonders for the chiefs of staff committee, under which it worked, and in Howarth it found a worthy analyst of its sucesses.

Like Squire, Howarth wrote verse, and in his seventies he gave up metropolitan life for the sake of country peace and quiet in Dorset, where he settled down to what Edward Grey once called the proper occupations of a gentleman, drinking wine and writing poetry. Play Back a Lifetime and The Four Seasons collected some of his poetical broadcasts.

A second marriage was short-lived. The death of Eva, his third wife, three years ago, of course distressed, but did not quite silence, him: he was broadcasting poetry this autumn.

Patrick Howarth, wartime SOE officer and author, was born on April 25, 1916. He died on November 12, 2004, aged 88.

Patrick John Fielding Howarth, poet, writer, public-relations officer and soldier: born Calcutta, India 25 April 1916; three times married; died Sherborne, Dorset 12 November 2004.

It was a guiding principle of Patrick Howarth's long and colourful life that he should do what he enjoyed doing. This took him on a journey through more careers than most people dream about: soldier, journalist, diplomat, biographer, historian, traveller and poet. The last was the most precious to him and poetry the talent for which he would most have liked to be remembered. Yet he suppressed it for more than 30 years.

Born in 1916 in Calcutta - his father was manager of the New Zealand Insurance Company - Howarth had visited every continent before he was six. His literary development began at Rugby School, where he fell for the poetry of Housman and Blake and began to write verse himself.

When Siegfried Sassoon came to talk to the school literary society, the 17-year-old Howarth presented him with some early work and got a distinctly favourable reaction. Two years later, in his first year at St John's College, Oxford, he entered for the Newdigate Poetry Prize, failing to win it, but getting a letter of praise and an invitation to dine at the High Table in Magdalen from one of the judges, C.S. Lewis.

Howarth's father had a business career in mind for his younger son, but Howarth at 22 had other ideas. A love of languages and a taste for travel took him to Poland where he edited a political quarterly, aimed at the Baltic and Scandinavian worlds, part of Poland's attempt, on the eve of the Second World War, to create a cordon sanitaire between Germany and Russia.

He also managed to play tennis for Britain, since the British Davis Cup team was prevented from attending the Polish national championships by the possibility of war. When it came, Howarth got out by the skin of his teeth and joined the Army in time to defend Bognor beach from invasion, moving on to Gibraltar and his only stab at pantomime. He wrote the lyrics for the Christmas 1940 production of Aladdin, directed by Lieutenant Anthony Quayle, who was to read one of Howarth's narrative poems on radio 40 years later.

Things then got a great deal more serious as the young soldier was recruited into Special Operations Executive (SOE) where, for several years, he was official controller of some of the most daring British agents in occupied Europe, including the gallant and glamorous Christine Granville.

After the war, Howarth was back in Poland as Press Attaché at the British Embassy in Warsaw, observing at first hand the descent of the Iron Curtain and working for an ambassador he much admired, Bill Cavendish-Bentinck, whose biography he afterwards wrote (Intelligence Chief Extraordinary: the life of the ninth Duke of Portland, 1986).

Warsaw in 1945 was a ruin comparable with Hiroshima and the British Embassy at first operated from the fourth floor of a former railway hotel. In spite of this, spirits were high, drink flowed and a succession of distinguished visitors came and went, including the composer Constant Lambert. Howarth had a vivid memory of standing with him among the ruins in a snow-storm, arguing furiously about the correct wording of a limerick.

It was on the same streets that he had a close encounter with death, knocked down and run over by a Red Army lorry. Although not expected to live, he was saved by the skill of a Jewish surgeon, who had somehow survived the Holocaust. Howarth never worried about death again.

Howarth left Warsaw abruptly, having married a Polish woman with - from the point of view of British Security - dubious family connections. The marriage was a disaster and soon collapsed. Almost as brief was his first job back in England with the Ministry of Town and Country Planning - Howarth had little time for the post-war urban vision of both left and right, lampooning it in his 1952 civil service satire, A Matter of Minutes.

Jean Le Harivel, né le 3 avril 1918 et mort le 6 mars 2006, fut, pendant la Seconde Guerre mondiale, un agent britannique du service secret britannique Special Operations Executive.

État civil : Jean Philippe Charles Le Harivel

Comme agent du SOE:

Nom de guerre (field name) : Georges 25 (le prénom Georges correspond à la fonction d'opérateur radio)

Nom de code opérationnel : HICCUP (en français HOQUET)

Parcours militaire : SOE, section F ; grade : lieutenant

Éléments biographiques:

Il est l'un des membres de la mission CORSICAN (à la fois saboteur, comme ses collègues, et radio de la mission) parachutée dans la nuit du 10 au 11 octobre 1941 à Beleymas, près de Bergerac ; et, comme les autres, il est arrêté par la police de Vichy dans les jours mêmes qui suivent son arrivée. Après un séjour à Périgueux, il est conduit au camp de Mauzac, d'où il s'évade, le 16 juillet 1942, avec dix camarades (voir l'article évasion de Mauzac). Pris en charge par le réseau d'évasion VIC (de la section DF), passé par l'Espagne mais arrêté par les Espagnols et interné à Miranda de Ebro, le groupe ne parvient à Londres qu'en octobre... Mais déjà, en avril 1943, Jean Le Harivel repart pour la France avec SCULLION 1, et doit, une nouvelle fois, revenir par l'Espagne, heureusement alors sans encombre. Ensuite Jean Le Harivel est affecté à l'état-major de la section F.

Distinctions

Royaume-Uni : Mention in Despatches,

France : Croix de Guerre 1939-1945.

Comments relating to a CSM GODDARD, made by SOE staff in 1944, are known to have been entered in error on the file of Erich SCHWARZ, aka Eric Ian SANDERS, HS 9/1330. As they are typed on the same folio as comments properly relating to SCHWARZ, it has not been possible to remove them for association with the correct GODDARD file.

RIPIOS AL MORO QUE HA PAGADO MIL MILLONES POR EL 10% DE EL CORTE INGLÉS

El pagano Sheikh Hamad Bin Jassim Bin Jaber Al Thani,
ex-primer Ministro de Qatar

Moro gordo, moro gordo,
moro de la morería,
el día que aquí viniste
España entera reía.
Desde las Torres de Kio
hasta el timo de Qatar
aquí apoquinan los moros
y se van sin rechistar.
Mil millones te ha soplado
ese moroso de Dimas
que es un mico muy taimado
en la vil chanchulleria.
Ni en vellones ni en ducados,
recobrarás la cuantía.
Aunque jures por Mahoma,
por Fatúm y por Alá

que a ti nadie te la da,
tú no cobras esa deuda
ni en manteca colorá.
Como mucho salchichillas,
de Francfurt o de Almaraz.
Y si te gusta Santiago,
Sanjacobos te darán.
En ajos ya ni lo sueñes
que ha subido mucho el precio
pa malgastarlo en un necio
con menos seso que un meme.
Hay en la sección de gangas
para lilas como tú
unos fantásticos tangas
pa llevar bajo el tutú.
Y después del Ramadán
tras terminar el cuscús
puedes celebrar los fastos
con un selfie del cucú.

la glamourose cabra

JAVIER CORIA SOBRE XAVIER VINADER

"Acaba de morir, a los 68 años, el periodista de investigación —de los de antes, cuando no existía Internet y el copia/pega— Xavier Vinader especializado en la extrema derecha y la guerra sucia de los estados. También escribió sobre terrorismo, corrupción, sectas y las bandas paramilitares y parapoliciales. Cubrió la invasión rusa y guerra de Afganistán, y la Revolución de los Claveles de Portugal. Fue militante del Partit Socialista Unificat de Catalunya (PSUC)."

ARGENTINA, EL SUICIDIO-ASESINATO DEL FISCAL NISMAN, Y EL NEORREALISMO JUSTICIALISTA

Se pongan como se pongan, las antiguas colonias siempre serán un mal remedo del Imperio. En España nuestros reyes y dictadores dormían rodeados de reliquias de santos en mejor o peor estado de conservación; la antesala del panteón de reyes escurialense se llama El Pudridero y todos los años paseamos por Semana Santa un monigote ajusticiado embadurnado de sangre.

En Argentina, el ecosistema del peronismo requiere una momia, un frasco de tinte capilar y una partida de gentuza con malos instintos. La momia puede ir teñida de rubio y empaquetada en su ataúd, o ir con un pelucón pintado de betún de Judea y en silla de ruedas. El fervor que despierta es el mismo. En España las factorías de reliquias y santos amojamados eran conventos nacionales o vaticanos. En Argentina, parece ser que fueron los puticlubs de carretera los que dieron esa indeleble pátina de zorrones de sifón y pajilleras de portal a Evita Perón y a Cristina Fernández de Kirchner. Las manos

de Perón, que nunca tocaron nada limpio, andan perdidas y la canalla está levantisca con la Justicia no justicialista.

En España, que nos hemos cargado al fiscal general de Lugo sin despeinarnos y al resto de sus colegas los tenemos de defensores de delincuentes reales, evasores y traficantes de drogas, no deja de sorprendernos lo descontrolado que tiene la Casa Rosada al servicio. Cuando en la Metrópoli algún cerdo huele ya muy mal, como Garzón, pica el billete para Buenos Aires y se hace kirchnerista. Ellos nos mandan sus psicoanalistas lacanianos, que no es poco.

No sabemos en qué fase ciclotímica decidió Cristina Fernández ordenar que dieran matarile al Fiscal Nisman. Cuando está deprimida se embadurna los morros de blanco y cuando le pilla la fase maniaca acaba con el lapiz perfilador de ojos enchafarrinándose las ojeras. Sabemos que, desde la fecha del óbito, la señora presidenta ha estado espitosa y lenguaraz y ha declarado, con la seguridad que sólo tienen los tontos y los locos, que ha sido un suicidio y ha sido un asesinato. En cualquiera de los dos casos para molestarla. El séquito de corte rosada la sigue al paso de la oca, pero es tal la rapidez con la que se les escapa la cabra que siempre los pilla con el paso cambiado

Sí podemos apuntar con bastante posibilidad de acierto, que el organizador de la "dudosa muerte" de Nisman es el Secretario de Seguridad Sergio Berni. Sólo el estratega de la defensa del Gendarme carancho y su jefe Galeano puede planear un asesinato encubierto como suicidio que ha sido percibido clamorosamente como el asesinato más chapucero de la historia argentina.

El problema de Berni es que está saturado de trabajo. Y, como todos los mafiosos, es un hombre con un corazón grande y mucho sentimiento. (La Loca ni siente ni padece)

Cuando llegó al apartamento de Nisman lo que más le preocupaba a él, como médico militar, era la salud del fiscal ¿Y si estaba vivo? ¿Y si a ese pobre hombre no le estaban asistiendo, engolfados todos, como estaban, en las tareas forenses? Es díficil saber qué área cerebral estaba funcionando la cabeza de Berni, si la de médico o la de militar argentino. En cualquier caso angustiarse por auxiliar a un occiso con rigor mortis completo no deja de revelar un empedernido optimismo laudable en otras circunstancias. Berni también quedó commovido por la entereza de la mamá del fiscal. Esto aclaró que era "como padre que tiene hijos" (difícil ser padre en otros supuestos).

Yo me malicio que era como hijo, porque la señora era la *doppelgänger* de la madre de Toni Soprano, Berni guarda un parecido inquietante con Toni y a Toni su madre se la tenía jurada. Si yo fuera compatriota de Berni le diría aquello de "analízatelo". Si la señora Garfunkel de Nisman toma su venganza, Berni morirá sin saber si lo ha matado su madre o la madre de la víctima. O si la madre de la víctima era también su madre y él ha matado a su hermano.

Berni acudio a la casa de Nisman, agobiado, sudoroso y cubierto de barro. No da a basto a deshacerse de cadáveres. Y, como Toni, lo tiene él que hacer todo.

El plan era claro: tiro en la sien, pistola al lado, muerto en el baño, cerraduras echadas por dentro y suicidio. Nadie tiene la llave, se llama a la *mamma* que, commocionada y en estado de shock, jurará que así se encontró a su hijo. Y si se resiste nos cargamos a la vieja también y decimos que es un atraco. No le salió nada a derechas.

Por lo pronto la *mater dolorosa* resultó ser una anciana resiliente al dolor, recalcitrante a cualquier manipulación y, muy consciente de que se las tenía con los asesinos de su hijo, se llevó a una amiga como testigo y protección. Insistió con la puntillosidad de un notario en que se filmara y se registrara todo lo que se llevaban. Además señaló que había una *notebook* encendida y que ella no había visto pistola cuando se asomó al baño. Berni no sabía qué era una madre judía hasta que se topó con la de Nisman.

A Berni lo ha perdido la manía de innovar que se da en la pitopausia. Sólo Trevanian es capaz de inventar un asesinato original en Argentina. No podía hacer desaparecer a Nisman porque en la patria no cabe un desaparecido más y cada vez que hay un plan urbanístico hay que trajinar desenterrando y volviendo a enterrar macabeos. No podía tirarlo por la ventana porque recién se estaba viendo el falso suicidio de Di Natale. Sobredosis de droga, tampoco, porque no te podías fiar que el sicario se metiera un chute a costa de la Seguridad Nacional y el fiscal quedara a medio matar. La cosa del atropello ni mentarla desde Carancho.

Lo que si tenía claro Berni era ubicar al finado en el baño. No por seguir patrones de conducta suicida, sino porque sabía que la encargada de la indagatoria iba a ser la fiscal Fein y a la señora fiscal o le ponías el muerto en espacio reducido o se le pasaba por alto. Si tardó tres días en encontrar un tercer acceso a la vivienda, podía dar vueltas acá y acullá sin toparse con el cuerpo hasta que algún vecino se quejara del olor.

La Dra. Fein da lástima. Ella dice que no duerme. Yo creo que el problema es que nunca ha llegado a estar despierta. A Fein le pasa lo que a los intelectuales españoles, que lo poco que han leído les ha provocado un Síndrome de Pickwick con recidivas crónicas. Fein tiene la figura y el mal humor de una dromedaria en período de cría. Cuando los periodistas insisten en que concrete algo, hora del deceso o resultados de pericias o autopsias, la señora fiscal arruga el belfo superior, baja los párpados a media persiana y escupe un dictamen forense.

Los dictámenes forenses que transmite Fein sobre algo tan quieto como un muerto y un escenario del crimen tienen la veleidad e inconstancia de un parte meteorológico inglés. Según Fein, Nisman murió a las 15:30, a las 15, a las 14, o de 10 a 12, o de 12 a 15 horas antes de que lo viera el médico forense. Finalmente, harta de tanta curiosidad malsana, zanjó la cuestión aseverando que murió "antes de la cena" (y que cada uno cene a la hora que le dé la gana). El cadáver se mueve más que un garbanzo en la boca de un viejo. Unas veces lo encuentran decúbito supino, otras decúbito prono. La pistola (que no vio la señora Garfunkel) la encontraron junto al cadáver, o debajo de éste, o encima del hombro como el loro de Silver. El orificio de entrada del disparo ha rotado 90º desde encima de la oreja derecha hasta 4 cms detrás de ésta y el disparo ha sido hecho desde la posición de cañón tocante hasta la muy pejiguera distancia de 2 (o 1) centímetros. La trayectoria del proyectil por ahora es ascendente, pero hay que estar preparados para que nos diga que Nisman murió de esclerosis lateral amiotrófica. Hay algo que ella tiene muy claro y repite encanada: No hay terceras personas. (un comentarista perspicaz sugirió que con una segunda bastaba). No hay intervención de terceras personas ni en caso de suicidio, ni en caso de suicidio inducido, ni en caso de homicidio. Un asesinato sin intervención de nadie haría cambiar la carátula del expediente de "muerte dudosa" a "muerte milagrosa". Fenómenos paranormales del kichnerismo.

Al contrario que Nisman, que ha resultado hiperactivo e hipercinético en la vida y en la muerte, la fiscala dromedaria prosigue su ruta a un ritmo inalterable. A veces hay que

despertarla y decir que se le ha olvidado un sospechoso, o una caja fuerte, o una rociada de sangre en el espejo, o un documento fundamental. Entonces se cabrea, pilla el bolso new-age y se va a casa de Nisman. Le ha tomado afición al apartamento tal cual las nenas del Comandante Chávez al palacio presidencial. Para ella es como ir al bingo. No sabe qué le espera. Un día se topará con restos de explosivo en el cenicero (los que "lamentablemente" no aparecían en la mano del occiso) o lo que sobró de la escopolamina, y dirá que Nisman se los dejo ahí después de suicidarse. El siguiente inquilino del piso 13 encontrará atornillada en un rincón a la fiscal Fein, versión bonaerense de Bartleby el escribiente.

Los sicarios son gente patriota. Y este era policía y patriota argentino. Un asesino venezolano lo habría asesinado con 60 tiros y antes le habría recitado el último discurso del comandante desde el cielo. Un matón mejicano no se habría resistido a balearlo, cortarle la cabeza y colgar del balcón una sábana diciendo *¡Viva Cristina, Yegua!* A un español lo habrían oido todos los vecinos vocear. O sea que desechen cualquier idea loca de intervención extranjera. Mucho menos iraní. Con Nisman en calzoncillos en plan yogurín, el suní termina añadiendo al crimen la agravante de violación.

CELEBRACIÓN FAMILIAR

En el décimo aniversario de Gatopardo

No hay nada como una celebración familiar para comprender porqué está en crisis esta institución.

Mis nueras vendrán ataviadas con lamé dorado, llevarán todo el joyero encima, y como son cegatas, pero consideran que las gafas afean, se habrán estucado y pintado a modo, como es su costumbre, inspiradas en la tanatopraxia para víctimas de accidente ferroviario. Parecen clones de la presidenta de Argentina. Se sienten arrebatadoras, y, tienen, como doña Obdulia Moncada, la misma inteligencia clara y escasísima que a los veinte años, cuando recalaron en mi familia derrochando desparpajo. Ahora rondan los cincuenta.

Mis hijos las suelen contemplar con esa mirada glaucomatosa que se les queda a los buenos maridos. Pertenenecen a esa extraña especie que, a falta de atractivo, abusa de la sacarina emocional y del glutamato ideológico, como mi difunto esposo, que Dios lo tenga en su gloria. Es un misterio como pueden ser tan parecidos a él.

Hoy he hecho una excepción y los he invitado a comer en casa y he hecho yo la comida, que es como echar margaritas a los cerdos, porque en sus respetables familias, cuando se ponen exquisitos, recurren a los platos precocinados, y las excrecencias cartilaginosas rebozadas con pan rallado, ultracongeladas, y tienen el

paladar estragado con la consabida acidosis gástrica nacional que tanto afea a los españoles. Pero, un día es un día: Gatopardo cumple diez años.

Mi testamento es motivo de inquietud en la familia. Me han lanzado chilindrinas e indirectas sobre las influencias indebidas que pudiera ejercer sobre mí el equipo de Gatopardo, para sustraerles a mis hijos lo que en justicia les pertenece. Y el hecho de que mi notario sea uno de mis más asiduos y más antiguos visitantes y escriba en esta bitácora, les hace sospechar lo peor.

A ver cómo le digo a mis retoños que el notario es el responsable de sus ojos azules... y que la única herencia que pueden esperar de mí es el reuma.

Con sincero afecto y admiración para Gatopardo

¡Gatopardo! ¡Gatopardo!, te lo digo L'agüela, se los digo ¡Con emoción!
Diez años de trabajo, esfuerzo y dedicación, bien merecen celebración.

¡Gatopardo! ¡Gatopardo! Maúlla con emoción
¡Gatopardo! ¡Gatopardo! La armonía en tu Equipo de Trabajo
Fortalece las esperanzas de los de abajo

Ayudando a que corruptos, no echen tierra a su corrupción.

¡Gatopardo! ¡Gatopardo! ¡No te rajes i ¡No te rindas!
¡Gatopardoi ¡Gatopardo! ¡No desmayes! ¡No desistas!
Porque el espacio que han ganado, trasciende las fronteras que colindas
El Pueblo vive desaliento por corruptos, que a todo ponen mil aristas

¡Gatopardo! ¡Gatopardo! Mercado Corrupto y Estado Corrupto hoy dominan
¡Gatopardo! ¡Gatopardo! ¡No son Molinos de Viento! ¡No son cabras!
Son personas que ambiciosas, provocan corrupción y contaminan
Por eso el Pueblo y la pluma que critica, da crédito a las obras y no, a las palabras.

¡Gatopardo! ¡Gatopardo! Delos guisos que platica L'agüela, no conozco su sazón.
No me guarden, yo no estuve, ya no llegué a la mesa, para celebrar diez años
En mi caso, sigo en este esfuerzo por combatir preventivamente muchos daños
Ya habrá oportunidad de celebrar aniversarios de, ¡La Vacuna, Contra la Corrupción!.

Venía directo a la celebración cuando, obligado por las circunstancias, tuve que desviarme de mi propósito y detenerme para dar soporte afectivo a una moza desconsolada. Es tan dura la viudez....
En fin, gajes del altruísmo.
Les ruego no dejen de avisarme para los fastos del 20º aniversario. Prometo llegar a tiempo, siempre y cuando las obligaciones que me impone la vocación de servicio me lo permitan.
Ah, casi lo olvido: ¡¡¡ Enhorabuena !!!

ANTECEDENTES DE HECHO

PRIMERO.- Se aceptan y se dan por reproducidos en lo esencial, los antecedentes de hecho de la Sentencia recurrida.

SEGUNDO.- Por el Juzgado de 1ª Instancia nº 86 de Madrid se dictó Sentencia de fecha 18 de diciembre de 2012, cuyo fallo es del tenor siguiente: "Que desestimando la demanda formulada por el procurador Manuel Lanchares Perlado, en nombre y representación de Endesa S.A., contra Antonio Moreno Alfaro, a quien representa el Procurador José Miguel Martínez Fresneda, debo absolver y absuelvo al demandado de las pretensiones contra él deducidas, todo ello sin efectuar especial pronunciamiento en costas."

Notificada dicha resolución a las partes, por ENDESA, S.A. se interpuso recurso de apelación alegando cuanto estimó oportuno y adjuntando documentos para su incorporación como medio de prueba en la segunda instancia. Admitido el recurso se dio traslado a la parte contraria que se opuso y adjuntó a su vez prueba documental, oponiéndose también al recurso el Ministerio Fiscal, y, en su virtud, previos los oportunos emplazamientos, se remitieron las actuaciones a esta Sección, ante la que han comparecido los litigantes, sustanciándose el recurso por sus trámites legales.

TERCERO.- Con fecha 17 de julio de 2013 la Sala dictó auto por el que se acordó admitir como medio de prueba los documentos aportados por ambas partes con sus respectivos escritos de interposición del recurso y oposición al mismo, y, no considerándose necesario la celebración de vista se señaló para la deliberación, votación y fallo del recurso el día 9 de abril de 2014, en que ha tenido lugar lo acordado.

CUARTO.- En la tramitación de este procedimiento se han observado las prescripciones legales.

FUNDAMENTOS JURIDICOS

PRIMERO.- Se formula demanda por Endesa, en la que indica, en esencia y entre otras cuestiones:

—Que el demandado es autor de una página web denominada “www.estafaluz.com” en cuyo seno éste indica, en esencia, que el gobierno y las compañías eléctricas engañan a los consumidores de energía eléctrica.
—Indica la actora que el demandado califica tal actuación de trama mafiosa, e indica que en el año 1984 se planifica una estafa en los precios del alquiler de los contadores de la luz. Los fabricantes de los aparatos contadores, controlados por las compañías eléctricas, imponen restricciones a los distribuidores para hacer antieconómica la compra del contador y obligar al usuario a alquilarla, suministrando datos falsos al Ministerio de Industria con el fin de que los precios de alquiler sean superiores a los que resultarían si los datos fueron reales.
—Posteriormente en 1987 se modifica el método de cálculo del precio de alquiler, que del 1,25% del precio de mercado, pasa a ser calculado aplicando al precio de alquiler anterior el coeficiente de actualización de la tarifa eléctrica. Con ello, pese a que el precio de mercado de los contadores disminuye con el paso del tiempo, sin embargo el coste de su alquiler, salvo contadísimas excepciones, se incrementa en la misma proporción que la tarifa eléctrica.
—En diciembre de 2001 se modifica la normativa para permitir que las compañías eléctricas continúen cometiendo la estafa.
—Indicaba que la cantidad estafada por la hoy demandante superaba los 1.500 millones de €.
—En otro apartado de la página web, continúa indicando la actora, relata lo que considera una estafa masiva con motivo del cobro del Interruptor de Control de Potencia, ya que debía instalarse por 8,64 € con un alquiler de 0,03 € por mes, pese a lo cual la hoy actora informa a sus consumidores que la solución más eficiente es instalar el Interruptor por la cantidad de 99 €.

Señalaba el demandante que al calificarse la conducta de las compañías eléctricas en general, y la actora en particular, como estafa, se estaba vulnerando su derecho al honor al presentarla como una entidad confabuladas con los poderes del Estado y el resto de agentes del sector eléctrico para engañar a los clientes y apropiarse de forma multimillonaria de aquello que no es suyo.

La parte demandada se opuso a la demanda alegando, entre otras cuestiones:
—Que el demandado, ingeniero industrial especializado en energía eléctrica, ha llegado a la conclusión de que existen excesos en la facturación que se ve facilitada por la complejidad técnica de la norma aplicable a la tarificación eléctrica, produciéndose una facturación en exceso que califica como fraude.
—Indicaba igualmente que eran numerosas las publicaciones que calificaban los comportamientos de la hoy demandante en términos incluso más gruesos que los que pudiera haber utilizado el demandado.
—La página web, continúa indicando la demandada, tiene por objeto defender a los usuarios y consumidores frente a lo que entiende el demandado son abusos de posición predominante en el mercado, conteniendo incluso un apartado donde se da detallada información y modelos de reclamaciones contra las prácticas de facturación fraudulentas denunciadas por el demandado, estando sustentadas sus afirmaciones y opiniones en argumentaciones técnicas, industriales y legales.
La sentencia que se recurre desestimó la demanda, al entender que, pese a la dureza las palabras utilizadas, dadas las circunstancias que concurrían en el supuesto, debía prevalecer el derecho a la libertad de expresión.

SEGUNDO.- Se aceptan y dan por reproducidos los fundamentos de la resolución recurrida, salvo en aquello en que puedan quedar contradichos por lo expuesto y razonado en la presente resolución.

TERCERO.- Alega la parte actora en su recurso la infracción del artículo 218 de la Ley de Enjuiciamiento Civil por inaplicación del deber de motivación, claridad y precisión en las sentencias.

Señala la recurrente que la sentencia recurrida impide determinar los motivos que han llevado al juzgador de instancia a desestimar su pretensión, ya que la sentencia recurrida recoge una relación sesgada e incompleta de párrafos sueltos de los escritos de demanda y contestación, realiza una síntesis de la jurisprudencia relativa a la colisión entre el derecho al honor y la libertad de expresión, y en el fundamento tercero, en pocas líneas, el juzgador resuelve el caso, sin establecer referencias fácticas claras, ya que utiliza términos indefinidos como “los aspectos”, “el problema”, “las palabras utilizadas”, reduciendo genéricamente la cuestión a la falta de puesta al día en la facturación de la tarificación eléctrica.

Tal alegación debe ser desestimada.

CUARTO.- En primer término, con arreglo al artículo 459 de la Ley de Enjuiciamiento Civil, no cabe alegar a través del recurso de apelación la existencia de infracciones procesales que pudieran haber sido denunciadas en la instancia y no lo fueron.

Si el hoy recurrente entendía que la motivación de la sentencia no era clara o era insuficiente, pudo y debió solicitar la aclaración o complemento de la sentencia, tal y como prevén los artículos 214 y 215 de la Ley de Enjuiciamiento Civil.

No habiéndolo hecho así no puede alegar a través de su recurso que la sentencia no está suficientemente motivada, ya que no utiliza los mecanismos procesales legalmente previstos para corregir tal supuesta infracción.

QUINTO.- Si bien lo indicado en el anterior fundamento ya sería motivo para desestimar tal alegación, caso cabe añadir que la motivación de la sentencia no obliga a dar una pormenorizada respuesta a todas y cada una de las alegaciones de las partes, ni exige que se haga alusión a todo acerbo probatorio existente en el proceso para determinar qué hechos se dan por probados, basta con dar una respuesta sustancial a las pretensiones formuladas, y que de la resolución puedan deducirse los motivos que llevan a resolver el litigio.

En el sentido indicado, cabe citar, por todas, la STC de 10-07-2000, la cual indica que *“el Tribunal Constitucional ha ido señalando unas pautas generales para determinar en cada caso si la posible falta de respuesta se traduce en una incongruencia vulneradora del art. 24.1 CE. Así, se ha afirmado que dicho precepto no garantiza el derecho a una respuesta pormenorizada a todas y cada una de las cuestiones planteadas, de manera que "si el ajuste es sustancial y se resuelven, aunque sea genéricamente, las pretensiones, no existe incongruencia, pese a que no haya pronunciamiento respecto a las alegaciones concretas no sustanciales [ya que] no cabe hablar de denegación de tutela judicial si el órgano judicial responde a la pretensión principal y resuelve el tema planteado" (STC 29/1987, de 6 de marzo, FJ 3), pues "sólo la omisión o falta total de respuesta, y no la respuesta genérica y global a la cuestión planteada, entraña una vulneración de la tutela judicial efectiva" (STC 8/1989, de 23 de enero, FJ 3). E incluso, este Tribunal Constitucional ha ido más allá, al afirmar que el silencio puede constituir una desestimación tácita suficiente, si bien en tales casos es necesario que así pueda deducirse de otros razonamientos de la Sentencia o pueda apreciarse que la respuesta expresa no era necesaria o*

imprescindib le (SSTC 68/1988, de 30 de marzo, FJ 3; 95/1990, de 23 de mayo, FJ 2; 91/1995, de 19 de junio, FJ 4; 85/1996, de 21 de mayo, FJ 3).”

En el presente supuesto el juzgador de instancia, tras reseñar la doctrina jurisprudencial que entiende aplicable al supuesto de autos, indica que en aplicación de la misma, considerando los aspectos de indudable interés público que presenta el problema y aún admitiendo la dureza las palabras utilizadas, considera que los procedimientos administrativos avalan la dura crítica del demandado, la falta de puesta al día en la facturación de la tarificación eléctrica, las fuertes tensiones creadas en la opinión pública española, que propició un contexto de discusión, la diferente intensidad con que se otorga el derecho al honor a las personas jurídicas, y atendidos los contenidos que afectan a la demandante, concluye que debe prevalecer la libertad de expresión.

A través de tales argumentaciones contenidas en la sentencia recurrida, a juicio de esta Sala resulta suficientemente determinado el motivo que lleva al juzgador de instancia a desestimar las pretensiones de la demandante, debiendo tenerse en cuenta que el mismo, a la hora de determinar las circunstancias concurrentes, se remite a la doctrina jurisprudencial que anteriormente ha reseñado, y en especial a la técnica de ponderación, técnica de ponderación que queda reseñada fundamentalmente en los apartados B y C del fundamento segundo, procediendo a reseñar en el fundamento tercero qué circunstancias fácticas toma en consideración a tal efecto, concluyendo en la prevalencia del derecho a la libertad de expresión del actor.

SEXTO.- Con respecto a que no existe una determinación de los hechos sobre los que se asienta la resolución recurrida, la misma en su fundamento tercero recoge las circunstancias que, a juicio juzgador de instancia, concurren en el supuesto (Vg.los procedimientos administrativos que avalan la dura crítica del demandado, falta de puesta al día de la facturación de la tarificación, fuertes tensiones creadas en la opinión pública española) y que motivan la desestimación de la demanda, circunstancias éstas que son claramente el sustento fáctico de la resolución dictada.

Cuestión distinta es que el juzgador no haya hecho referencia expresa a los medios de prueba que le llevan a dar por acreditadas tales circunstancias, pero no es ésta la cuestión que alega la recurrente, sino la inexistencia de unos hechos probados que realmente sí existen en la resolución que se recurre.

En todo caso, resulta claro que el juzgador de instancia efectúa una apreciación conjunta de la prueba, cuya viabilidad y licitud ha sido admitida reiteradamente por el Tribunal Supremo al señalar que *“Cuando la sentencia recurrida ha establecido los hechos mediante una apreciación conjunta de la prueba —como es el caso de la sentencia impugnada— no es lícito articular un motivo para desarticularla, a fin de que prevalezca un elemento probatorio sobre otros (SSTS 22 de julio de 2003, RC n.º 32845/1997 y 25 de noviembre de 2005, RC n.º 1560/1999), ni plantear cuestiones que implican la total revisión de la valoración de la prueba efectuada por la Audiencia Provincial, lo que es impropio de la naturaleza y función del recurso extraordinario por infracción procesal, pues se convertiría en una tercera instancia (SSTS de 29 de septiembre de 2009, RC n.º 1417/2005, 26 de octubre de 2010, RC n.º 2215/2006 y 12 de julio de 2011, RC n.º 254/2008).”* (Transcrito de la Sentencia del Tribunal Supremo de 22 de abril de 2013, y en igual sentido, entre otras muchas, Sentencia de 12 de julio de 2011).

SÉPTIMO.- Con respecto a que la ponderación es incompleta, ya que obvia, indica el recurrente, cualquier valoración o razonamiento sobre la existencia de requisitos de veracidad y de exposición no injuriosa o insultante, la sentencia recurrida entiende que dadas las cuestiones a las que alude en su fundamento tercero, puestas en relación con la extensísima reseña de jurisprudencia que recoge en el fundamento segundo, ha de prevalecer la libertad de expresión, con lo cual indica los motivos por los que entiende que ha de desestimarse la demanda.

Cuestión distinta es que el recurrente entienda que dado que no existe veracidad de lo manifestado por el demandado, o bien por las circunstancias concurrentes, las expresiones han de considerarse injuriosas, y su pretensión haya de prosperar, pero no por ello la sentencia deja de ser motivada.

OCTAVO.- Antes de analizar en concreto los hechos objeto de este proceso, procede realizar una reseña de la doctrina elaborada por el Tribunal Supremo en lo relativo a la protección al Derecho al Honor, su colisión con el derecho a la libertad de expresión y la ponderación de intereses que ha de realizarse para determinar la existencia o inexistencia de la intromisión ilegítima en dicho Derecho.

La doctrina elaborada por el Tribunal Supremo sobre el Derecho al Honor y su colisión con el Derecho a la Libertad de Expresión, establece las siguientes consideraciones y conclusiones:

La Libertad de Expresión recogida en el artículo 20 de la Constitución, implica el derecho a difundir libremente juicios, opiniones o creencias. Se trata por tanto del derecho a opinar, lo cual, entre otras cuestiones, la diferencia del derecho a la Libertad de Información, que está encaminada básicamente a la difusión de hechos (Sentencias del Tribunal Supremo de 10 de enero y 29 de febrero de 2012, entre otras).

El Derecho al Honor permite proscribir aquellos actos que atenten contra la dignidad de otra persona, menoscabando su fama o atentando contra su propia estimación (STS de 16 de febrero de 2010 y 1 de junio de 2010).

Ahora bien, ambos derechos pueden entrar en colisión, toda vez que, como resulta por lo demás de la realidad cotidiana, la expresión de opiniones o juicios de valor, puede menoscabar el Derecho al Honor ajeno.

En la colisión de ambos derechos deben ponderarse las circunstancias concurrentes, con el fin de determinar, atendidas las circunstancias del caso concreto, cuál de ambos derechos en liza ha de prevalecer.

No obstante, a este respecto debe tenerse en consideración que, así como el Derecho al Honor protege, cierto es, un Derecho Fundamental, pero de carácter esencialmente individual, la Libertad de Expresión se configura como un baluarte del propio Estado Democrático, que no puede existir si no se da dicha Libertad (STS 11 de marzo de 2009 y 10-01-2012 y SSTEDH de 23 de abril de 1992, Castells c. España y de 29 de febrero de 2000, Fuentes Bobo c. España).

Por ello, en principio es prevalente el Derecho a la Libertad de Expresión sobre el Derecho al Honor, de tal manera que incluso expresiones o manifestaciones desabridas, molestas o hirientes pueden quedar cobijadas y amparadas por la Libertad de Expresión (Ver STC de 17 de enero de 2000, 26 de febrero de 2001 y 15 de octubre de 2001), sin perjuicio de que la Libertad de Expresión no justifica expresiones o manifestaciones vejatorias o denigrantes vertidas de forma gratuita por no guardar relación con las ideas u opiniones que se expongan, y que por tanto

puedan ser consideradas innecesarias para el ejercicio del derecho a la Libertad de Expresión, ni por supuesto implica la consagración de un derecho al insulto (STC de 26 de febrero de 2001, 15 de octubre de 2001, 19 de julio de 2004, de 15 de noviembre de 2004, y de 28 de febrero de 2005, entre otras).

Si bien el honor es un derecho que ampara tanto a las personas físicas como jurídicas, el honor de las personas jurídicas no puede ser valorado con iguales parámetros que cuando se tratas de personas físicas, ya que en éstas la lesión afecta a su esfera interna, a su propio sentimiento de dignidad, y a la esfera externa, es decir a la apreciación que de él se puede realizar por terceras personas a consecuencia de las opiniones o manifestaciones vertidas, mientras que en las personas jurídicas, únicamente este último aspecto se ve afectado.
Como indica, por todas, la STS de 20 de Febrero de 2012:
"*por lo que respecta al derecho al honor de las personas jurídicas, aun cuando el mismo se halla reconocido en profusa jurisprudencia de esta Sala (SSTS de 20 de marzo 1997, 21 de mayo de 1.997, 15 de febrero de 2.000 y 5 de julio de 2.004), sin embargo tampoco cabe valorar la intromisión con los mismos parámetros que cuando se trata de personas físicas, porque respecto de estas resaltan dos aspectos: el interno de la inmanencia o mismidad, que se refiere a la íntima convicción o sentimiento de dignidad de la propia persona, y el externo de la trascendencia que alude a la valoración social, es decir, a la reputación o fama reflejada en la consideración de los demás (SSTS de 14 de noviembre de 2.002, 6 de junio de 2.003), y cuando se trata de las personas jurídicas resulta difícil concebir el aspecto inmanente por lo que la problemática se centra en la apreciación del aspecto trascendente o exterior -consideración pública protegible- (SSTS de 15 de abril 1.992 y 27 de julio 1.998), que no cabe simplemente identificar con la reputación empresarial, comercial, o en general del mero prestigio con que se desarrolla la actividad (STS 19 de julio de 2006, RC n.º 2448/2002 y 21 de mayo de 2009, RC n.º 2647/2004)".*

Otra cuestión que debe tomarse en consideración a la hora de ponderar la colisión de los referidos derechos, es la posible existencia de una disputa o controversia que haya motivado o propiciado la realización de las expresiones que se considere lesiva es al Derecho al Honor.

La jurisprudencia ha señalado a este respecto que la prevalencia de la Libertad de Expresión sobre el Derecho al Honor se refuerza cuando las expresiones atentatorias contra el Derecho al Honor se han vertido en el contexto de la contienda política (STS de 26 de enero de 2010, 13 de mayo de 2010 y 1 de diciembre de 2010), si bien ha entendido que tales consideraciones no puede quedar limitadas a supuestos de confrontación o controversia política (STS 10 de enero y 29 de febrero de 2012), habiéndose aplicado a controversias laborales, periodísticas, deportivas y de otra índole (STS de 22 de diciembre de 2010; 9 de febrero y 21 de abril de 2010; 18 de marzo de 2009).

Por otro lado, y en lo que se refiere a la utilización y evaluación de las expresiones formalmente denigratorias, las STS de 26-02-2014 y 17-01-2014 inciden en la necesidad de analizarlas en el seno del contexto en que se han producido, ya que la utilización de palabras o expresiones que, en principio, pudieran ser ofensivas, al ser puestas en relación con las circunstancias en que se realizan, pueden quedar amparadas por el derecho a la libertad de expresión.

Señala, en concreto, la Sentencia del Tribunal Supremo de 26 de febrero de 2014: "*No basta la mera crítica de la actividad profesional, sino que es menester la descalificación injuriosa o innecesaria del comportamiento profesional de una persona, especialmente mediante infamias que pongan en duda o menosprecien su probidad o su ética en el desempeño de aquella actividad; cosa que dependerá de las circunstancias del caso (STC 9/2007). En relación con ese último punto, de acuerdo con una concepción pragmática del lenguaje adaptada a las concepciones sociales, la jurisprudencia mantiene la prevalencia de la libertad de expresión cuando se emplean expresiones que, aun aisladamente ofensivas, al ser puestas en relación con la situación en que tiene lugar la crítica experimentan una disminución de su significación ofensiva y sugieren un aumento del grado de tolerancia exigible, aunque puedan no ser plenamente justificables (el artículo 2.1 de la LO 1/82 se remite a los usos sociales como delimitadores de la protección civil del honor). Por tanto, cuando las expresiones son formalmente denigratorias, hay que examinar el contexto en el que se producen, pues la polémica suscitada, el sentido del discurso y su finalidad pueden justificar dichas expresiones como ejercicio legítimo de la libertad de expresión en su vertiente del derecho a la réplica (SSTC 49/2001, de 26 de febrero, y 204/2001, de 15 de octubre, y STS de 16 de febrero de 2011, rec. nº 1387/2008).*"

Otra cuestión a tener en consideración es si se trata de cuestiones de interés general, ya que de ser así los límites a la crítica se amplían (Sentencia del Tribunal Supremo de 15 de octubre de 2013 y 20 y 29 de Julio de 2011, entre otras).

NOVENO.- Alega el recurrente que ha existido error en la técnica de ponderación constitucional para delimitar el derecho al honor frente a las libertades de expresión e información, con infracción del artículo 7.7 de la Ley Orgánica 1/1982, señalando el recurrente que el demandado califica la conducta de las compañías eléctricas en general, así como de la actora en particular, de estafa, utilizando expresiones de carácter injurioso tales como "mafia del kilovatio", califica a la demandante como "corsario", y señala a lo largo de su página web que la actora estafa, defrauda, depreda, expolia, hurta, aborda y asalta las cuentas corrientes de sus clientes a quienes miente y engaña.

Señala que la ponderación de los intereses en juego ha de realizarse en abstracto, y si bien la libertad de expresión e información son preponderantes sobre el derecho al honor, ellos así cuando resultan esenciales como garantía de una opinión libre y se ejercita por profesionales de la información a través de la prensa, careciendo el demandado de la condición de periodista, y el mismo a través de su página web pretende mantener abierta y sin obstáculo alguno las imputaciones delictivas dirigidas contra agentes del sector eléctrico que representaban a las personas contra las que en su día se querelló, desoyendo las resoluciones que zanjaron la cuestión.

Indica que la libertad de información ha de estar sustentada sobre el requisito de la veracidad, no respetando tal requisito, ya que las distintas imputaciones habían sido resueltas por órganos competentes, antes de que se publicase la página web, por lo que el demandado podía conocer que dichas resoluciones habían evidenciado la falsedad de sus imputaciones.

Considera igualmente que la información transmitida carece de relevancia pública o interés general, si bien admite que el mercado de la energía eléctrica y su regulación legal afecta a un servicio de primera necesidad y suele generar interés general y relevancia pública, no obstante en el momento de la publicación, junio de 2008, el interés que pudiera suscitar la información en ella contenida se ve mermada por la

falta de actualidad de lo que difunde, ya que la hipotética estafa de los contadores parte del año 1984 y tuvo su reflejo en distintos medios de comunicación en los años 2000 y 2001, pero actualmente el único interés que suscita el sector eléctrico son las subidas que experimenta su tarifa y, consecuentemente, la facturación.

Tales alegaciones debe ser desestimadas.

DÉCIMO.- En primer término, con respecto a la veracidad de los hechos, tal requisito únicamente es exigible en la libertad de información, dado que ésta se basa en poner en conocimiento de terceras personas determinados hechos. Sin embargo la libertad de expresión se refiere a la manifestación de opiniones o comentarios, por lo cual no le es aplicable el requisito de la veracidad (Sentencias del Tribunal Supremo de 10 de octubre de 2013, 7 de enero y 24 de marzo de 2014, entre otras).

No siempre es sencillo determinar cuándo nos encontramos ante un supuesto de manifestación de la libertad de información o de expresión, ya que las opiniones suelen sustentarse sobre los hechos que motivan la crítica u opinión, y a la inversa (Sentencias del Tribunal Supremo de 24 de marzo de 2014, 5 de mayo de 2000, 26 de enero de 2009, 4 de octubre de 2010 y 7 de enero de 2014, entre otras).

Por ello, si coexiste la divulgación de hechos con opiniones o comentarios relativos a los mismos, para discernir si nos encontramos ante un supuesto amparado por la libertad de expresión o la de información será preciso determinar cuál de ambos derechos es preponderante.

Será preponderante la libertad de expresión cuando, pese a existir un relato o exposición de hechos, las manifestaciones vertidas por el demandado estén encaminadas fundamentalmente a realizar una crítica o evaluación de los hechos que relata (Sentencias del Tribunal Supremo de 29 de febrero de 2012, de 24 de marzo de 2013 y 7 de enero de 2014, entre otras).

UNDÉCIMO.- En el presente supuesto se desprende de lo actuado, y en especial de los pasajes a los que alude el demandante en su demanda como más relevantes, que el demandado a través de la página web hace referencia a una serie de normas que regulan aspectos del suministro de energía eléctrica, básicamente lo que se refiere a los contadores y al Interruptor de Control de Potencia, así como diferentes recursos entablados por el propio demandado o por otras personas contra la hoy actora, y sobre la base de ello efectúa las acerbas críticas que dirige, entre otros, a la parte hoy actora.

De ello se desprende que predomina en la actuación del demandado el ejercicio de su libertad de expresión frente al de información, ya que si bien su crítica se sustenta en hechos y datos, éstos se configuran como la base sobre la que formula sus conclusiones y opiniones sobre la actuación, entre otros, de la hoy actora.

Cierto es que a través de sus comentarios alude en ocasiones a connivencias de las compañías eléctricas, o de la actora particular, con distintos poderes del Estado o entre los suministradores de energía y los fabricantes de contadores, pero tales pretendidas connivencias son más la manifestación de una opinión que pretende deducir de los hechos que transmite y analiza, que la transmisión de hechos con ánimo de informar.

DUODÉCIMO.- Si bien lo indicado en el anterior fundamento lleva a prescindir de la

veracidad de las manifestaciones del hoy demandado, cabe no obstante señalar, a efecto de apurar la tutela judicial efectiva, que el informe de la Comisión Nacional de Energía viene a coincidir en lo sustancial con los hechos expuestos por el hoy demandado, al menos en lo que se refiere al coste de alquiler de los aparatos contadores y a las consecuencias adversas para el consumidor de la normativa existente, así como con respecto a la no instalación de aparatos contadores en propiedad.

Debe tenerse en cuenta que es constante la jurisprudencia que indica que la veracidad no ha de ser absoluta y total, bastando con que los hechos esgrimidos sean sustancialmente ciertos, siendo compatible la veracidad con inexactitudes, afirmaciones controvertibles, e incluso con errores que no afecten a lo esencial de los hechos transmitidos (Sentencias del Tribunal Supremo de 10 de enero de 2012,31 de julio de 2002, 26 de abril de 2001 y 12 de noviembre de 1990, entre otras).

Dicho Informe, aportado como documento 27 de la contestación, señala en su consideración decimotercera que la evolución de los precios máximos de alquiler de los equipos de medida y control no ha ido en paralelo con la evolución del IPC. La evolución seguida por los precios máximos de alquiler de los equipos de medida y control ha sido idéntica a la experimentada por las tarifas eléctricas: si las tarifas subían, en la misma proporción subían los precios máximos de alquiler, y viceversa; y aunque en los últimos ejercicios la tónica ha sido de una progresiva disminución de dichas tarifas, y con ello de los precios de alquiler, éstos podrían haber disminuido aún más dada la evolución experimentada por los precios de los equipos de medida y control (folio 298).

Igualmente señala en su conclusión sexta que desde el año 1987, la evolución de los precios máximos de alquiler de los equipos de medida y control ha sido idéntica que la experimentada por las tarifas eléctricas, lo cual considera como inadecuado dado que los costes en los que incurren las empresas distribuidoras por prestar el servicio poco tiene que ver con el servicio prestado por el alquiler de equipos de medida (folios 254 y 255).

La conclusión décima señala que aunque la regulación ha permitido que los consumidores adquiriesen equipos de medida y control en propiedad, la realidad demuestra que la mayoría de ellos son en régimen de alquiler, indicando que la razón principal no es otra que los precios de venta a los consumidores son sensiblemente superiores a los de las empresas distribuidoras (folio 256).

Por otro lado, y en lo que se refiere a la instalación del Interruptor de Control de Potencia, no se llega a cuestionar por la actora la veracidad de la normativa que el hoy demandado invoca en su página web, así como la información enviada por la hoy actora a los consumidores, que son los hechos sobre los que el hoy demandado sustenta su opinión.

Cuestión distinta es que la opinión vertida sea o no errónea -lo cual no desvirtúa el amparo del derecho a la libertad de expresión, ya que las opiniones, incluso cuando se trate del ejercicio del derecho de libertad de información, no tienen porqué ser veraces, ya que pertenecen al terreno de la opinión o creencia de que las emite, y no al terreno de los hechos-o que la calificación que da el actor a los mismos sea excesiva, lo cual se analizará posteriormente.

DECIMOTERCERO.- Con respecto a que el demandado carece de la condición de

periodista, tal condición no es imprescindible para ejercer el derecho a la libertad de expresión o incluso de información, tal condición únicamente permite a tales derechos tener un ámbito de cobertura superior frente a posibles intromisiones al derecho al honor.

Por otro lado, el propio demandante indica que el demandado es ingeniero industrial, y se desprende de lo actuado que el mismo tiene conocimientos específicos en la materia se aborda en su página web, por lo cual si bien no se trata de la opinión de un periodista, se trata de la opinión de un técnico en la materia, por lo cual, el hecho de que no sea un periodista —aparte de que como se indicaba anteriormente ejerce básicamente su derecho a la libertad de expresión—, no viene a significar en el presente supuesto que se trate de comentarios u opiniones emitidas por quien ejerce una exacerbada crítica sin tener un conocimiento mínimo de la cuestión controvertida.

DECIMOCUARTO.- En cuanto a que se trata de cuestiones de interés general, concurre tal requisito ya que, tal y como reconoce el propio recurrente, la cuestión relativa al suministro de energía eléctrica es una cuestión que, por afectar a un servicio de primera necesidad, suscita el interés general.

El interés general al que alude la jurisprudencia no puede ser entendido como sinónimo a cuestión de actualidad o que esté necesariamente enmarcada dentro de una controversia existente en el momento en que se divulgan los comentarios u opiniones. De ser así, la libertad de expresión no ampararía a quien con su opinión pudieran crear dicha controversia o poner de actualidad una determinada cuestión, ya que en tales hipotéticos supuestos no existiría una controversia ya creada, con lo cual la libertad de expresión podría llegar a convertirse en una entelequia, toda vez que no podrían verterse opiniones que generen controversia, sino cuando la controversia ya ha sido creada previamente.

El que se trate de una materia de interés general ha de entenderse en el sentido de que se refiera a cuestiones que trasciendan el mero afán de poner de relieve o divulgar cuestiones intrascendentes para el público en general, sin que sea preciso que se trate de una cuestión de candente actualidad.

En el presente supuesto la actuación del demandado se desenvuelve en el campo del suministro de energía eléctrica, y fundamentalmente en lo relativo a determinados aparatos de medición o relacionados con dicho suministro, lo cual claramente es una cuestión que por afectar potencialmente a los consumidores de un servicio de primera necesidad debe considerarse de interés general.

Incide en lo indicado el hecho de que se acompañan con la contestación a la demanda (documentos 48 a 61), artículos de distintos medios de comunicación que hacen referencia fundamentalmente a la cuestión relativa a los aparatos contadores de energía eléctrica, y si bien se trata de publicaciones, en su mayor parte, de los años 2000 a 2003, no obstante tal atención de los medios de comunicación a dicha cuestión corrobora que nos encontramos ante una cuestión que no sólo suscita el interés del hoy demandado.

Por otro lado, la página web contiene un apartado encaminado a poner a disposición de los usuarios de la misma formularios para efectuar reclamaciones en distintos supuestos de facturación irregular, por lo que, con independencia del mayor o menor sustento que tales reclamaciones pudieran tener, la página web sirve de vehículo para propiciar a los consumidores el conocimiento de las irregularidades que el demandado considera existen, y la posibilidad de reclamar por ellas.

DECIMOQUINTO.- Con respecto a las expresiones y calificaciones que de la conducta de la parte actora realiza el recurrente, éstas son realmente desabridas y claramente descalificadoras de la actora, no obstante, tal y como indica la jurisprudencia anteriormente reseñada, para evaluar si las expresiones utilizadas constituyen un ataque al derecho al honor han de ponderarse las circunstancias concurrentes, y se han de analizar las expresiones en el contexto en el que son vertidas, determinando si se trata de expresiones que, pese a su carácter denigratorio, guarden relación con la cuestión controvertida.

DECIMOSEXTO.- En el presente supuesto debe tenerse en cuenta, a juicio esta Sala:

—Que el demandado se refiere, como queda indicado, a cuestiones de interés general. Ofrece, por lo demás, formularios dirigidos a consumidores al objeto de que puedan canalizar sus reclamaciones.

—La parte actora es una persona jurídica, cuyo derecho al honor tiene un contenido y consecuente ámbito de protección de menor entidad que cuando se trata de personas físicas.

—Las expresiones denigratorias que utiliza el demandado, se realizan como la conclusión que éste extrae de la normativa y actuación de la actora que analiza, y si bien son claramente desabridas e hirientes, no obstante no se pueden entender como expresiones denigratorias gratuitas, en el sentido que a este término otorga la jurisprudencia reseñada en esta materia, es decir, expresiones desvinculadas de las cuestiones que tratan y proferidas con el único y exclusivo afán de insultar o menospreciar, ya que tales expresiones se revelan como la manifestación de la opinión que al actor merece la conducta y situación que evalúa y sobre la que opina.

—Cabe añadir sobre lo indicado en el anterior párrafo, que el actor, cuando califica como estafa determinadas actuaciones de la actora, como serían las relativas a los aparatos contadores y a la información remitida por la hoy actora a sus abonados, hace referencia explícita al artículo 248.1 del Código Penal, y explica el porqué entiende que concurren los requisitos que tal tipo penal establece.

Con ello, cualquier usuario de la página web puede comprobar que tal calificación de los hechos obedece a la opinión estrictamente personal que de los mismos extrae el demandado, no dejando lugar a dudas sobre el hecho de que, efectivamente, tales hechos hayan sido considerados como estafa más que por el propio demandado. De tal manera que la denigración que con ello se produce, tiene la incidencia que la credibilidad y solvencia que se otorgue a la opinión personal del demandado.

Si bien esta circunstancia por sí sola no llevaría a justificar la actuación del demandado, no obstante es una cuestión a ponderar a la hora de determinar si ha existido intromisión ilegítima en el derecho al honor.

Por lo indicado, y teniendo en consideración además que el derecho a la libertad de expresión es prevalente sobre el derecho al honor, considera esta Sala que la conducta del demandado queda amparada por su derecho a la libertad de expresión, lo cual conduce a desestimar el recurso.

DECIMOSÉPTIMO.- Concurren dudas de hecho y de derecho en el presente supuesto que justifican, por aplicación del artículo 394, al que remite el artículo 398, ambos de la Ley de Enjuiciamiento Civil, la no imposición de las costas causadas en esta alzada pese a la desestimación del recurso.

Efectivamente, si bien la conducta del demandado se entiende amparada por su derecho a la libertad de expresión, no obstante las expresiones denigratorias que

utiliza hacen preciso analizar dicha conducta a la luz de la doctrina emanada del Tribunal Supremo, lo que implica efectuar una evaluación de los hechos, lo cual es una cuestión que depende en gran medida del criterio que al respecto se adopte, por lo cual el resultado de este recurso ofrecía fundadas dudas de hecho y de derecho.

No es obstáculo a lo indicado el hecho de que ya en la primera instancia se haya considerado que la conducta del demandado estaba justificada, dado que, pese a ello, la calificación de la conducta del demandado como amparada por su derecho a la libertad de expresión, era una cuestión que, a juicio esta Sala, continuaba suscitando dudas de hecho y de derecho cuya resolución depende en gran medida, como se indicaba, del criterio que se adopte al respecto.

VISTOS los artículos citados y demás de general y pertinente aplicación

FALLAMOS

Que DESESTIMANDO el recurso de apelación interpuesto por ENDESA, SA. contra la sentencia de fecha 18 de diciembre de 2012 dictada en autos de Procedimiento Ordinario 46/2012 del Juzgado de Primera Instancia nº 86 de Madrid en los que fue demandado D. ANTONIO MORENO ALFARO, DEBEMOS CONFIRMAR Y CONFIRMAMOS la referida resolución, no haciendo imposición de las costas causadas en esta alzada.

La desestimación del recurso determina la pérdida del depósito constituido, de conformidad con lo establecido en la Disposición Adicional 15ª de la Ley Orgánica 6/1985 de 1 de julio, del Poder Judicial, introducida por la Ley Orgánica 1/2009, de 3 de noviembre, complementaria de la ley de reforma de la legislación procesal para la implantación de la nueva oficina judicial.

Contra la presente resolución cabe interponer recurso de casación por los motivos previstos en el artículo 477.2.1º de la Ley de Enjuiciamiento Civil, en relación con lo dispuesto en la Disposición Final Decimosexta de la misma Ley, si concurren los requisitos legalmente exigidos para ello, el cual habrá de ser interpuesto por escrito a presentar en el plazo de veinte días ante este mismo Tribunal, que habrá de cumplir las exigencias previstas en el artículo 481 de dicho Texto legal, previa constitución, en su caso, del depósito para recurrir previsto en la Disposición Adicional Decimoquinta de la Ley Orgánica del Poder Judicial, debiendo ser consignado el mismo en la cuenta de depósitos y consignaciones de esta Sección, abierta en Banco de Santander Oficina Nº 6114 sita en la calle Ferraz nº 43, 28008 Madrid, con el número de cuenta 2579-0000-00-0320-13, bajo apercibimiento de no admitir a trámite el recurso formulado.

Así, por esta nuestra Sentencia, lo pronunciamos, mandamos y firmamos.

PUBLICACIÓN.- Firmada la anterior resolución es entregada en esta Secretaría para su notificación, dándosele publicidad en legal forma y expidiéndose certificación literal de la misma para su unión al rollo. Doy fe.

LIBERTAD DE EXPRESION

“Pobre voz confinada a ser oída en la nada”

Voces encadenadas
a silencio tan cruento,
las almas condenadas,
el callar es tormento.

Obrar con libertad,
garantía majestad,
libertad de expresión,
sueño de mí Nación.

Obstruye el pensamiento
la maldita censura,
limita el intelecto,
es del diablo su hechura.

El miedo paraliza,
el cerebro agoniza,
pobres hombres silentes,
todos son insipientes.

Dictadura en la cumbre,
ya se hizo costumbre,
legislando se abraza
la pinche “ley mordaza”.

Prohibir información,
cegar puntos de vista,
la perversa intención
de “estadistas” fascistas.

Que la boca cerremos,
quieren esos cabrones,
que dientes apretemos,
“chitón” a las razones.

¿Expresarte? . . . ¡jamás!,
nada puedes decir,
tal vez se escuchen más
tus quejas al morir.

El yugo del bozal
llegó a la yugular,
si te impiden hablar
las ideas desangrar.

Mas, el ser de conciencia

no lo permitirá,
pues perdiendo su esencia,
a servil llegará.

Un pueblo sometido
siempre será vencido,
represión del gobierno
¡mandémosla al averno!

Venturoso aquel día,
en que, sin cobardía,
usemos la palabra
sin censura macabra.

asesinados a tiros por devotos mahometanos, el 7 de enero de 2015, en la sede de Charlie Hebdo, en París:

Maldecimos a sus asesinos. Malditos sean de día y malditos sean de noche; malditos sean cuando se acuesten y malditos sean cuando se levanten; malditos sean cuando salgan y malditos sean cuando regresen. Que su madre no los perdone. Que la cólera y el enojo divino y humano se desaten contra esos hombres y arroje sobre ellos todas las maldiciones escritas y por escribir. Que se borren sus nombres bajo los cielos y los expulsen de todos los pueblos, abandonándolos al Maligno con todas las maldiciones del cielo escritas y por escribir. Que nadie mantenga con ellos comunicación oral o escrita, que nadie les preste ningún favor, que nadie permanezca con ellos bajo el mismo techo o a menos de cuatro yardas, que nadie lea y escuche nada dicho, escrito o trascripto por ellos, y cuando mueran sean echados en una balsa de purines y que el estiercol de cerdo los acoja por toda la eternidad.

¡Qué menos!

AGENCIA TRIBUTARIA Y PROTECTORADO DE FUNDACIONES: ¿QUÉ HAY DE LAS DENUNCIAS DE DIEGO CATALÁN CONTRA LA FUNDACIÓN RAMÓN ARECES POR FRAUDE FISCAL Y CONTABLE?

TEXTO DE LA DENUNCIA:

Es copia literal:

A la atención de la Agencia Tributaria. Delegación de Madrid
Madrid, a 30 de julio de 2007

Estimados sres:

La Fundación Ramón Menéndez Pidal solicita se investiguen las posibles irregularidades fiscales que, a continuación, se detallan:

La Fundación Ramón Areces ha declarado en su Memoria Oficial de Actividades 2004-2005:

1. Que financió la publicación de la Historia de la Lengua Española, de Ramón Menéndez Pidal, publicada y editada por esta Fundación.

2. Que financió las investigaciones de su presidente, Diego Catalán Menéndez Pidal durante este período.

La Fundación Ramón Menéndez Pidal hace constar que, ni en esos años ni después, ha recibido subvención, ayuda, ni cantidad alguna en ningún concepto, como pueden comprobar en la declaración fiscal de la Fundación Ramón Menéndez Pidal, en sus Libros de Cuentas y en el Libro de Actas que están a disposición de sus Inspectores Fiscales. Como tampoco ha recibido subvención, ayuda ni cantidad alguna Diego Catalán Menéndez-Pidal en las fechas indicadas.

El 18 de diciembre de 2006 la Fundación Ramón Menéndez Pidal hizo una comunicación formal a la Fundación Areces y a todos y cada uno de sus patronos, solicitando rectificaran el error contable y fiscal, ya que tales afirmaciones por su parte exigían nuestra complicidad en esa irregularidad, cosa que no estábamos dispuestos a consentir.

Al no recibir respuesta ni haber obtenido rectificación, rogamos tengan a bien tomar buena nota de esta solicitud y de nuestra absoluta transparencia en lo referente a nuestros deberes con la Hacienda Pública.

Por si hubiera facturas o recibos presentadas a ese organismo de control tributario que así lo justificaran, solicitamos y nos ponemos a su disposición para un examen pericial que pueda dictaminar sobre la autenticidad de las firmas, ya que la Fundación Ramón Menéndez Pidal hacer constar que tales afirmaciones no se corresponden con la realidad.

Atentamente,

Diego Catalán
Presidente de la Fundación Ramón Menéndez Pidal

Es copia literal:
A la atención de la Subsecretaria General Técnica. División del Protectorado de Fundaciones:

Madrid, 27 de julio de 2007

La Fundación Ramón Menéndez Pidal (NIF G-78519451 y con nº 121 en el Registro de Fundaciones del Ministerio de Educación y Ciencia) expone ante el Protectorado de Fundaciones los siguientes hechos, cuya gravedad ruega se tenga en consideración a la hora de tramitar su denuncia:
Antecedentes: Desde su constitución, en 1984, la Fundación Ramón Menéndez Pidal firmó un Convenio con la Fundación Ramón Areces, según el cual ambas Fundaciones se comprometían a velar por la conservación de la Casa Menéndez Pidal, sede de la Fundación Ramón Menéndez Pidal y propiedad de la Fundación Ramón Areces, por la continuidad de la labor de investigación histórica y filológica , por la conservación de sus valiosísimos archivos (propiedad de Diego Catalán Menéndez Pidal) y por la preservación y acrecentamiento de su biblioteca (propiedad de la Fundación Ramón Menéndez Pidal). Las relaciones entre ambas Fundaciones se hallan formalizadas preceptiva y estatutariamente por un Consejo Mixto de Patronos, cuya presidencia y poder de convocatoria recae en el Presidente de la Fundación Ramón Areces, Don Isidoro Álvarez Álvarez (o, en su ausencia, uno de los patronos vocales de la Fundación Ramón Areces). En este Consejo se supervisa el cumplimiento de las obligaciones que las dos Fundaciones han contraído por la conservación de la Casa Menendez Pidal y el patrimonio cultural que alberga.
Hasta febrero de 2004, estas relaciones fueron correctas y de acuerdo a la normativa legal. Pero, a partir de ese año, en que la Fundación Ramón Menéndez Pidal inicia las gestiones, ante las autoridades competentes, para solicitar de éstas el mayor grado de protección urbanística a la casa y jardín y la consideración del conjunto como Bien Cultural (protección concedida por el Ayuntamiento de Madrid, con número de expediente 713/2005/000337, que ha declarado el Olivar de Chamartín espacio protegido), la Fundación Ramón Areces no sólo ha incumplido todas y cada una de sus obligaciones como firmante del Convenio de 9 de mayo de 1984, sino que ha iniciado una escalada de acosos a la Fundación Ramón Menéndez Pidal , llegando incluso a asaltar la sede, invalidando el cierre de la puerta y manipulándola para una posterior intrusión, lo que ha obligado a la Fundación Ramón Menéndez Pidal a interponer dos denuncias el día 12, una en Comisaría de Chamartín, (nº atestado 14.764) y otra el mismo día en el Juzgado Decano de Madrid) y a hacer público los continuos atropellos

que está sufriendo:

1. La Fundación Ramón Areces ha dejado de cumplir hasta las más elementales obligaciones de conservación y mantenimiento de la Casa Menéndez Pidal y de su Jardín Catalogado, durante siete semestres, en los años 2004, 2005, 2006 y 2007. Ha incumplido la obligación de convocar el Consejo Mixto de Patronos, en la reunión preceptiva semestral, a pesar de las peticiones formales de la Fundación Ramón Menéndez Pidal, y no ha contestado a ninguna de sus cartas en que se le informaba de problemas graves relativos a esta cuestión.

2. Si la voluntaria y meditada política de abandono del cuidado del perímetro tapiado, el sistema de calefacción, el jardín histórico, muros, bajantes y aleros y tejados de la casa (repetidamente denunciada en las cartas y actas de la Fundación Ramón Menéndez Pidal), que, si aún no ha afectado gravemente a la conservación de este enclave natural e histórico se debe, exclusivamente, a que la Fundación Ramón Menéndez Pidal ha asumido, durante todos estos años, la onerosa carga del mantenimiento de una finca y casa que corresponde a la Fundación Ramón Areces, y al hecho de que su Presidente, así como otras personas de bien con vergüenza civica, han colaborado mediante su desinteresado trabajo y su dinero personal para que este valiosísimo patrimonio cultural no se deteriorara o sucumbiera, porque, hay que subrayar que esta dejación de responsabilidades por parte de la Fundación Ramón Areces se refiere a una propiedad que tiene la máxima protección urbanística y `por lo tanto debe ser mantenida en perfecto estado, siendo punible contribuir por acción u omisión a su deterioro,.

3. Pese a esos desvelos, ante la imposibilidad legal de realizar en su sede obras estructurales, que no le competen, el Patrimonio de la Fundación Ramón Menendez Pidal ha sufrido daños irreparables en su Biblioteca (secciones Moderna e Hispanoamericana) y en su prestigio institucional al haber tenido que mantener inaccesibles a los investigadores durante todos estos años sus valiosos fondos hispanoamericanos.

4. La Fundación Ramón Areces ha dejado de pagar las partidas presupuestarias correspondientes a esos siete semestres, tanto las referentes a suministros, comunicaciones, conservación de la propiedad y seguridad, como las destinadas a Mantenimiento, restauración e incremento del patrimonio y sede, como aquellas destinadas a la investigación filológica, conservación y catalogación de los fondos documentales y publicaciones. El montante de esta deuda asciende a más de 600.000 euros.

5. Un hecho aún más grave es que la Fundación Ramón Areces ha publicado en su Memoria oficial de Actividades de 2004-2005 que sigue subvencionando, en virtud del citado Convenio, a la Fundación Ramón Menéndez Pidal y los trabajos de investigación que en ella dirige el profesor D. Diego Catalán Menéndez-Pidal, y cita, en concreto entre los libros publicados con su mecenazgo la Historia de la Lengua Española, obra póstuma de Ramón Menéndez Pidal. Llegando incluso a presentarse fraudulentamente como mecenas ante el público y la prensa en la ceremonia de su presentación en la Real Academia Española, cuando lo cierto es que la Fundación Ramón Menéndez Pidal no ha recibido ni un euro de la Fundación Ramón Areces ni en 2004, ni en 2005, ni después (y se ha visto obligada a desmentir oficialmente en la 2ª edición de la citada obra el haber sido subvencionada por ella). La gravedad de este hecho, sobre el que Diego Catalán, presidente de la Fundación Ramón Menéndez Pidal, llamó la atención al presidente de la Fundación Ramón Areces, don Isidoro Álvarez, y demás Patronos de la misma,

sin que respondieran a las cartas, no es de índole protocolaria sino de transparencia fiscal.
Si, con posterioridad al año 2003, la Fundación Ramón Areces ha hecho una declaración en el Protectorado de Fundaciones y en el Ministerio de Hacienda en este sentido, la Fundación Ramón Menéndez Pidal solicita su rectificación inmediata y pide, además, una auditoría de la inspección fiscal del Ministerio de Hacienda, y del Protectorado de Fundaciones sobre la contabilidad de la Fundación Ramón Areces, independientemente de las acciones legales que solicitemos de organismos internacionales.

Firmado: Diego Catalán.
Presidente de la Fundación Ramón Menéndez Pidal

(Fin de la copia)

Practicamos la elegancia social de reproducir estas denuncias cada cierto tiempo, para escarnio de quienes las ocultan.

En cualquier país civilizado, los interventores del Ministerio de Hacienda, la Inspección de la Agencia Tributaria, y el Protectorado de Fundaciones, habrían levantado libros y habrían hecho una auditoría a fondo.

En este país de mangantes, los periodistas de la "prensa seria", fieles a la *omertá* mafiosa, los responsables políticos, los jueces y los funcionarios que no han investigado y perseguido el delito, enfrentados con su deshonra, pública y notoria, ni siquiera han tenido la decencia de suicidarse.

Ya no hay hombres.

El espía que surgió del frío.

Memoria de la Fundación Ramón Areces 2004-2005 donde detallan sus inversiones desgravables,
completamente falsas, con la anuencia de García de la Concha, la Real Academia Española y la Real Academia de la Historia:

La Real Academia de la Historia ha concedido su Medalla de Oro al Excmo. Sr. D. Isidoro Álvarez Álvarez, presidente de la Fundación Ramón Areces, en testimonio de agradecimiento al eficaz apoyo que viene prestando la Fundación a las actividades de la Real Academia. Se hizo entrega de la Medalla en sesión académica celebrada el día 17 de diciembre de 2004.

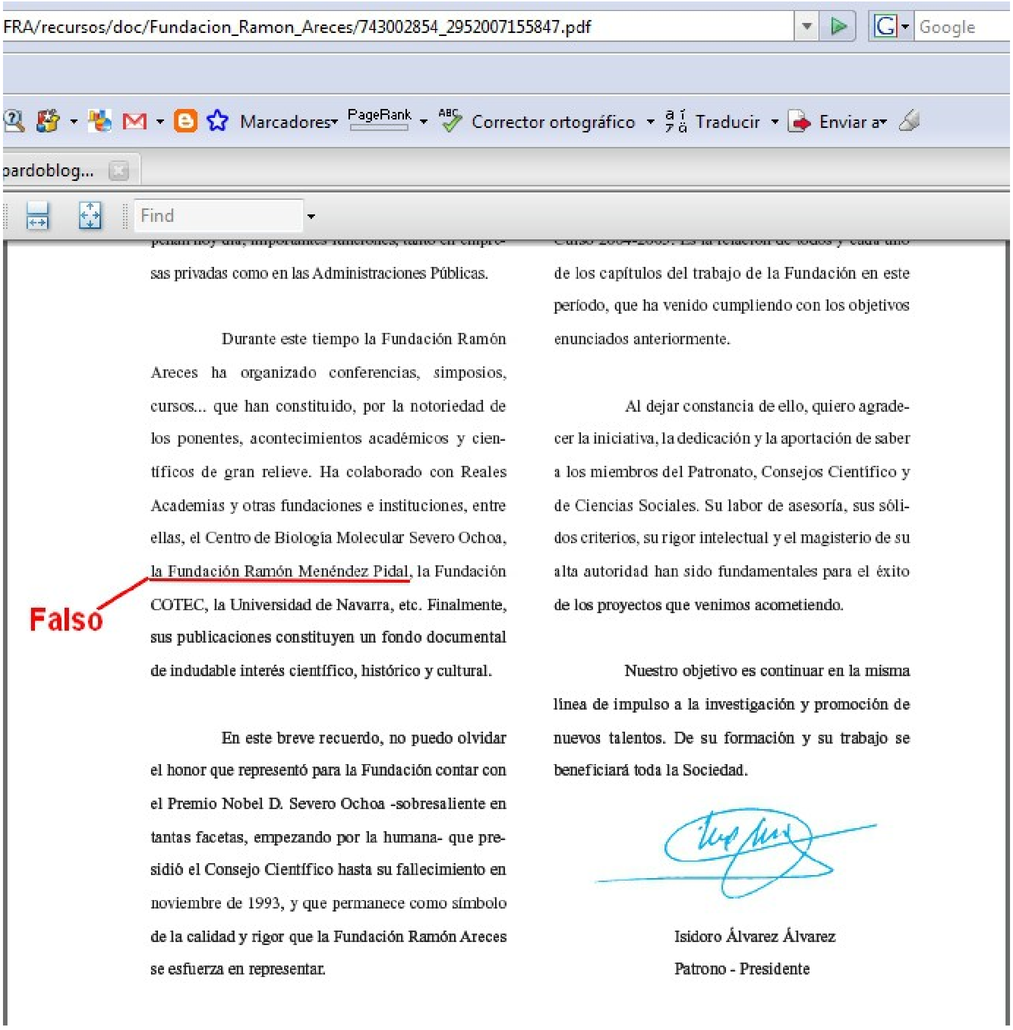
De otra parte, la Real Academia Española y la Fundación han firmado un Convenio para la financiación de los trabajos de revisión del léxico económico del Diccionario de la Lengua Española.

Acto de la firma del Convenio con el director de la Real Academia Española, D. Víctor García de la Concha.

- CONVENIO CON LA FUNDACIÓN RAMÓN MENÉNDEZ PIDAL.

En 1984 la Fundación Ramón Areces adquirió el inmueble donde vivió y trabajó hasta su muerte el ilustre historiador y filólogo, D. Ramón Menéndez Pidal. Mediante un convenio suscrito con la Fundación Ramón Menéndez Pidal, se le concedió a ésta la ocupación y uso del inmueble, con el fin de que sirviera como sede y centro de trabajo de dicha Fundación. En esta casa se conserva la biblioteca y el archivo documental de D. Ramón Menéndez Pidal.

Asimismo, la Fundación Ramón Areces presta una Ayuda destinada a los trabajos de investigación que dirige el profesor D. Diego Catalán Menéndez-Pidal, habiéndose publicado diversos trabajos como fruto de su labor investigadora. Entre estos trabajos cabe destacar "El Archivo del Romancero" y, muy recientemente, "Historia de la Lengua española", obra póstuma de D. Ramón Menéndez Pidal, ordenada y concluida por el Profesor Catalán.



sas privadas como en las Administraciones Públicas.

Durante este tiempo la Fundación Ramón Areces ha organizado conferencias, simposios, cursos... que han constituido, por la notoriedad de los ponentes, acontecimientos académicos y científicos de gran relieve. Ha colaborado con Reales Academias y otras fundaciones e instituciones, entre ellas, el Centro de Biología Molecular Severo Ochoa, la Fundación Ramón Menéndez Pidal, la Fundación COTEC, la Universidad de Navarra, etc. Finalmente, sus publicaciones constituyen un fondo documental de indudable interés científico, histórico y cultural.

En este breve recuerdo, no puedo olvidar el honor que representó para la Fundación contar con el Premio Nobel D. Severo Ochoa -sobresaliente en tantas facetas, empezando por la humana- que presidió el Consejo Científico hasta su fallecimiento en noviembre de 1993, y que permanece como símbolo de la calidad y rigor que la Fundación Ramón Areces se esfuerza en representar.

de los capítulos del trabajo de la Fundación en este período, que ha venido cumpliendo con los objetivos enunciados anteriormente.

Al dejar constancia de ello, quiero agradecer la iniciativa, la dedicación y la aportación de saber a los miembros del Patronato, Consejos Científico y de Ciencias Sociales. Su labor de asesoría, sus sólidos criterios, su rigor intelectual y el magisterio de su alta autoridad han sido fundamentales para el éxito de los proyectos que venimos acometiendo.

Nuestro objetivo es continuar en la misma línea de impulso a la investigación y promoción de nuevos talentos. De su formación y su trabajo se beneficiará toda la Sociedad.

- CONVENIO CON LA FUNDACIÓN RAMÓN MENÉNDEZ PIDAL.

En 1984 la Fundación Ramón Areces adquirió el inmueble donde vivió y trabajó hasta su muerte el ilustre historiador y filólogo, D. Ramón Menéndez Pidal. Mediante un convenio suscrito con la Fundación Ramón Menéndez Pidal, se le concedió a ésta la ocupación y uso del inmueble, con el fin de que sirviera como sede y centro de trabajo de dicha Fundación. En esta casa se conserva la biblioteca y el archivo documental de D. Ramón Menéndez Pidal.

Asimismo, la Fundación Ramón Areces presta una Ayuda destinada a los trabajos de investigación que dirige el profesor D. Diego Catalán Menéndez-Pidal, habiéndose publicado diversos trabajos como fruto de su labor investigadora. Entre estos trabajos cabe destacar "El Archivo del Romancero" y, muy recientemente, "Historia de la Lengua española", obra póstuma de D. Ramón Menéndez Pidal, ordenada y concluida por el Profesor Catalán.

Prefacio a la 2ª edición de la *Historia de la Lengua Española de Ramón Menéndez Pidal* , con PS donde se denuncia la falsedad contable y fiscal de la Fundación Ramón Areces

PALABRAS PRELIMINARES

La presente obra consta de dos volúmenes. En el primero se halla, desnuda de cualquier aditamento, la Historia de la lengua española *de Ramón Menéndez Pidal en primera edición póstuma. Completa, hasta donde llegó a escribirla. Auténtica, en cuanto que su contenido es totalmente menéndez-pidalino. Fruto de toda una vida casi centenaria, fue largamente deseada por cuantos conocieron a Ramón Menéndez Pidal y apreciaron su magisterio. Cosas de la vida la dejaron inconclusa y encajonada. Ha sido tarea compleja, larga y azarosa ponerla en la forma en que ahora puede leerse.*

Quien quiera saber más acerca de ella acuda al volumen segundo. Allí se explica, de mano de Menéndez Pidal, sobre qué bases conceptuales fue concebida y, de la mía, cómo y en qué tiempos y circunstancias se construyó (desde sus cimientos, hasta los últimos retoques en la fachada). También detallo con qué originales he contado para editar cada parte, capítulo o apartado y cómo han sido utilizados. Índices varios ayudarán al lector apresurado o interesado en acceder sólo a ciertos temas o detalles a bucear en el millar largo de páginas escritas por Menéndez Pidal.

D. C.

P.S. *La segunda edición mejora a la primera en la corrección de una serie de errores, en general tipográficos, y respecto al infundado reconocimiento de haber contado con el apoyo de entidades ajenas a la Fundación Ramón Menéndez Pidal.*

JOAN MARAGALL: ODA A ESPANYA

ODA A ESPANYA

Escolta, Espanya, —la veu d'un fill
que et parla en llengua —no castellana:

parlo en la llengua — que m'ha donat
la terra aspra:
en'questa llengua — pocs t'han parlat;
en l'altra, massa.

T'han parlat massa — dels saguntins
i dels que per la pàtria moren:
les teves glòries — i els teus records,
records i glòries — només de morts:
has viscut trista.

Jo vull parlar-te — molt altrament.
Per què vessar la sang inútil?
Dins de les venes — vida és la sang,
vida pels d'ara — i pels que vindran:
vessada és morta.

Massa pensaves — en ton honor
i massa poc en el teu viure:
tràgica duies — a morts els fills,
te satisfeies — d'honres mortals,
i eren tes festes — els funerals,
oh trista Espanya!

Jo he vist els barcos — marxar replens
dels fills que duies — a que morissin:
somrients marxaven — cap a l'atzar;
i tu cantaves — vora del mar
com una folla.

On són els barcos. —On són els fills?
Pregunta-ho al Ponent i a l'ona brava:
tot ho perderes, —no tens ningú.
Espanya, Espanya, —retorna en tu,
arrenca el plor de mare!

Salva't, oh!, salva't —de tant de mal;
que el plo' et torni feconda, alegre i viva;
pensa en la vida que tens entorn:
aixeca el front,
somriu als set colors que hi ha en els núvols.

On ets, Espanya? —no et veig enlloc.
No sents la meva veu atronadora?
No entens aquesta llengua —que et parla entre perills?
Has desaprès d'entendre an els teus fills?
Adéu, Espanya!

COLETTE, VACUNA CONTRA LA ESCUELA LITERARIA DE LOS ATESTADOS DE LA GUARDIA CIVIL

La lectura de los atestados de la guardia civil y de la policía es una experiencia casi mística. El minucioso cuidado con el que describen la escena del delito, y ese premioso estilo narrativo con el que evitan muy mucho dejar cabo suelto, me han procurado arrugas imperecederas en el entrecejo.

En un choque entre un camión y una moto, si el motorista quedó decapitado, y su cabeza vino a traspasar el cristal de la ventanilla de un coche ajeno al accidente, se referirían al descabezado llamándole *"presunto cadaver"*, e informarán de que la cabeza que se encontró *"no presentaba signos aparentes de vida"*. La descripción del punto kilométrico exacto del accidente y las declaraciones de los testigos suelen hacerse en esa prosa de Muñoz Molina que tanto gusta a Píramo, un escandallo donde se alterna la exahustiva enumeración de cada pijadica, con la absoluta incapacidad para describir y narrar sin embelecos.

Para nuestra desgracia, el arte de escribir requiere tener el vocabulario básico y usarlo con rigor y conocimiento, evitando suponer que el lector es un gilipollas irredento que no tiene otra cosa que hacer que leer inanidades en una prosa mas líada que la pata

de un romano, y con menos chicha que una sopa de asilo.

Para desintoxicarse, después de frecuentar el erial patrio de la literatura actual, es conveniente leer y releer a Colette, que, incluso traducida en español —si no hay más remedio— es un remanso límpido del que emerge el idioma y el talento inimitable, purísimos, sin impostar.

Le Blé en herbe **(1923), Colette, éd. Flammarion, 2004:**

"Le bain quotidien, joie silencieuse et complète, rendait à leur âge difficile la paix et l'enfance, toutes deux en péril. Vinca se coucha sur le flot, souffla de l'eau en l'air comme un petit phoque. Le foulard tordu découvrait ses oreilles roses et délicates, que les cheveux abritaient pendant le jour, et des clairières de peau blanche aux tempes qui ne voyaient la lumière qu'à l'heure du bain. Elle sourit à Philippe, et sous le soleil d'onze heures le bleu délicieux de ses prunelles verdit un peu au reflet de la mer. Son ami plongea brusquement, saisit un pied de Vinca et la tira sous la vague. Ils « burent » ensemble, reparurent crachant, soufflant, et riant comme s'ils oubliaient, elle ses quinze ans tourmentés d'amour pour son compagnon d'enfance, lui ses seize ans dominateurs, son dédain de joli garçon et son exigence de propriétaire précoce. " (Página 13)

"Elle le suivit sans mot dire, dans le sentier de la douane en corniche à flanc de falaise. Ils foulaient l'origan poivré et les derniers parfums du mélilot. Au-dessous d'eux, la mer claquait en drapeaux déchirés et léchait onctueusement les rocs. Sa force repoussait vers le haut de la falaise des bouffées tièdes, qui portaient l'odeur de la moule et l'arôme terrestre des petites brèches où le vent et l'oiseau sèment, en volant, des graines." (Página 33)

"Des champignons moites sortaient de terre, et les araignées des jardins, à cause des nuits plus fraîches, rentraient le soir dans la resserre aux jouets et s'y rangeaient sagement au plafond." (Página 39)

"Une main blanche plongea trois doigts dans le verre et les retira aussitôt. Le feu d'un diamant brilla, reflété dans le cube de glace que serraient les trois doigts. La gorge serrée, Philippe but, en fermant les yeux, deux petites gorgées, dont il ne perçut même pas le goût d'orange acide ; mais quand il releva les paupières, ses yeux habitués discernèrent le rouge et le blanc d'une tenture, le noir et l'or assourdi des rideaux. Une femme, qu'il n'avait pas vue, disparut, emportant un plateau tintant. Un ara rouge et bleu, sur son perchoir, ouvrit son aile avec un bruit d'éventail, pour montrer son aisselle couleur de chair émue...

— Il est beau, dit Phil d'une voix enrouée.

— D'autant plus beau qu'il est muet, dit Mme Dalleray.

Elle s'était assise assez loin de Philippe, et la fumée verticale d'un parfum qui brûlait, répandant hors d'une coupe l'odeur de la résine et du géranium, montait entre eux. Philippe croisa l'une sur l'autre ses jambes nues, et la Dame en blanc sourit, pour accroître la sensation de somptueux cauchemar, d'arrestation arbitraire, d'enlèvement équivoque qui ôtait à Philippe tout son sang-froid." (Página 54)

De nada, ya saben que me gusta ser útil.

2) AUTO DE APERTURA DE JUICIO ORAL. DILIGENCIAS PREVIAS Nº 2677/08 PIEZA SEPARADA Nº VEINTICINCO JUZGADO DE INSTRUCCIÓN NUMERO TRES PALMA DE MALLORCA

Primera parte: 1) AUTO DE APERTURA DE JUICIO ORAL. DILIGENCIAS PREVIAS Nº 2677/08 PIEZA SEPARADA Nº VEINTICINCO JUZGADO DE INSTRUCCIÓN NUMERO TRES PALMA DE MALLORCA

PRIMERO.- Conviene distinguir entre aquellos acusados que han sido destinatarios de acusaciones tanto por el Ministerio Fiscal como por las demás partes personadas que al respecto se han posicionado, y aquéllos otros sobre los que recaen serias divergencias entres los acusadores. Tanto en un grupo como en el otro, ni la unanimidad eximiría a este Instructor de valorar el material instructor obrante en la presente Pieza Separada de cara a decidir sobre la apertura del juicio oral, ni la discrepancia le habría necesariamente de conducir a desestimar la apertura.

Existe, por tanto, conjunción de criterios entre todos los acusadores, no porque todos ellos hayan ejercido su derecho con la misma extensión, que no lo han hecho, sino en tanto ninguno de ellos se ha opuesto a la apertura respecto de personas determinadas interesando en su favor el sobreseimiento, a que debe aperturarse el Juicio Oral contra Don Diego Torres Pérez, Don Iñaki Urdangarín Liebaert, Don Marco Antonio Tejeiro Losada, Doña Ana María Tejeiro Losada (no así en cuanto a la extensión), Don José Luis Ballester Tuliesa, Don Jaume Matas Palou, Don Gonzalo Bernal García, Don Miguel Ángel Bonet Fiol, Don Juan Carlos Joaquín Alía Pino, Don Jorge Vela Bargues, Doña Elisa Maldonado Garrido, Don José Manuel Aguilar Colas, Don Luis Lobón Martín y Doña Mercedes Coghen

Alberdingk-Thijm.

Así lo entiende el Ministerio Fiscal.

La Abogacía del Estado solicita la apertura del juicio oral sólo contra Don Diego Torres Pérez y Don Iñaki Urdangarín Liebaert en razón del carácter restringido que le dio a su personación pero en ningún momento postula que se deniegue la apertura frente a otros acusados.

Por las mismas razones la Abogacía de la Comunidad Autónoma de las Illes Balears solicita la apertura del juicio oral sólo contra Don Jaume Matas Palou, Don José Luis Ballester Tuliesa, Don Iñaki Urdangarín Liebaert, Don Diego Torres Pérez, Don Gonzalo Bernal García, Don Juan Carlos Joaquín Alía Pino, Don Miguel Ángel Bonet Fiol y Don Marco Antonio Tejeiro Losada, pero no se advierte en su escrito oposición alguna a que se aperture el juicio oral frente a otras personas.

La Representación Procesal del Sindicato "Manos Limpias" también solicita la apertura del juicio oral contra Don Iñaki Urdangarín Liebaert, Don Diego Torres Pérez, Doña Ana María Tejeiro Losada, Don Marco Antonio Tejeiro Losada, Don Jaume Matas Palou, Don José Luis Ballester Tuliesa, Don Juan Carlos Joaquín Alía Pino, Don Gonzalo Bernal García, Don Miguel Ángel Bonet Fiol, Don Luis Lobón Martín, Don Jorge Vela Bargues, Doña Elisa Maldonado Garrido, Don José Manuel Aguilar Colas y Doña Mercedes Coghen Alberdingk-Thijm, con independencia de que asimismo haga extensiva su acusación a otras personas de las que más adelante se hablará.

La Representación Procesal de Don Joan Calabuig Rull, de Don Salvador Broseta Perales, de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia, solicita la apertura del juicio oral sólo contra D. Iñaki Urdangarín Liebaert, D. Diego Torres Pérez y D. Alfonso Grau Alonso pero en atención a razones de estrategia procesal, de tal manera que no se pronuncia respecto de las demás personas que sí han sido destinatarias de acusación en el entorno geográfico valenciano.

Nada es de reseñar al respecto en cuanto a la Abogacía General de la Generalitat Valenciana dado su carácter limitado al solo ejercicio de la acción civil reparadora.

Este es el posicionamiento del Ministerio Fiscal y de las demás partes acusadoras sobre, en unos casos la procedencia, y en otros la no oposición a la apertura del juicio oral contra Don Diego Torres Pérez, Don Iñaki Urdangarín Liebaert, Don Marco Antonio Tejeiro Losada, Doña Ana María Tejeiro Losada, Don José Luis Ballester Tuliesa, Don Jaume Matas Palou, Don Gonzalo Bernal García, Don Miguel Ángel Bonet Fiol, Don Juan Carlos Joaquín Alía Pino, Don Jorge Vela Bargues, Doña Elisa Maldonado Garrido, Don José Manuel Aguilar Colas, Don Luis Lobón Martín y Doña Mercedes Coghen Alberdingk-Thijm y, con independencia de las matizaciones que

sobre la participación supuestamente delictiva de algunos de ellos quepa hacer más adelante, este hasta ahora Instructor es del parecer, tal como así ya lo reflejó y trató de fundamentar en el Auto de Acomodación a las Normas del Procedimiento Abreviado de fecha 25 de junio del presente año, en la parte que del mismo sobrevivió al Auto que, en trámite de Recurso de Apelación, dictó la Sección Segunda de la Iltma. Audiencia Provincial en fecha 7 de noviembre de este mismo año, que existen racionales indicios contra los referidos acusados relativos a la comisión de los delitos de prevaricación del artículo 404 del Código Penal, fraude a la administración del artículo 436 del Código Penal, falsedad documental por funcionario público del artículo 390.1, 1°, 2° y 4° del Código Penal, falsedad documental por particulares del artículo 392.1 del Código Penal en relación con el artículo 390 apartados 2° y 3° del mismo texto legal, falsedad en documento mercantil del artículo 392.1 del Código Penal en relación con el artículo 390 apartados 2° y 3° del mismo texto legal, malversación de caudales públicos de los artículos 432.1 y 432.2 del Código Penal, estafa consumada de los artículos 248.1, 250.1.1° y 6° y 250.2 del Código Penal, estafa intentada de los artículos 248.1, 250.1. 6°, 250.2 y 16 del mismo Cuerpo Legal, contra la Hacienda Pública del artículo 305 con la agravante del párrafo segundo apartado a) -uso de personas interpuestas para ocultar al verdadero obligado tributario y blanqueo de capitales del artículo 301.1 del Código Penal y tráfico de influencias tipificado en los artículos 428 y 429 del mismo Texto Legal, en su redacción anterior a la Ley Orgánica 5/2012 de 22 de junio, de los que selectivamente les acusa el Ministerio Fiscal, la Abogacía del Estado, la Abogacía de la Comunidad Autónoma de las Illes Balears, la Representación Procesal del Sindicato “Manos Limpias” y la Representación Procesal de Don Joan Calabuig Rull, de Don Salvador Broseta Perales, de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia.

Tales indicios, al margen de la valoración que, en conjunción con las pruebas que se practiquen en el plenario, pueda hacer el Tribunal sentenciador, tienen entidad suficiente para que los acusados tengan que enfrentarse a un juicio oral donde, en el sentido que se desprenda, se esclarezca definitivamente la intervención que han tenido y entidad penal que pudiera tener, por lo que, de conformidad con el artículo 783.1 de la Ley de Enjuiciamiento Criminal, solicitada que ha sido la apertura del Juicio Oral y no concurriendo el supuesto nº 2 del artículo 637 del mismo Cuerpo Legal y existiendo indicios racionales de criminalidad contra los acusados, procede ya en este momento apuntar la apertura del juicio oral, cuando menos, contra Don Diego Torres Pérez, Don Iñaki Urdangarín Liebaert, Don Marco Antonio Tejeiro Losada, Doña Ana María Tejeiro Losada, Don José Luis Ballester Tuliesa, Don Jaume Matas Palou, Don Gonzalo Bernal García,

Don Miguel Ángel Bonet Fiol, Don Juan Carlos Joaquín Alía Pino, Don Jorge Vela Bargues, Doña Elisa Maldonado Garrido, Don José Manuel Aguilar Colas, Don Luis Lobón Martín y Doña Mercedes Coghen Alberdingk-Thijmen conforme a lo que el Ministerio Fiscal y demás partes acusadoras han solicitado.

SEGUNDO.- En el caso de determinados acusados, no sólo es que no exista unanimidad entre los acusadores a la hora de explicitar su reproche penal o que unos guarden silencio respecto de la imputaciones que hacen los otros, sino que algunos de ellos plasman su criterio decididamente exculpatorio frente a ciertas imputaciones instando de este Juzgado que se pronuncie sobre un recabado sobreseimiento de la causa frente a ellos.

Me estoy refiriendo a Doña Cristina Federica de Borbón y Grecia, a Doña Ana María Tejeiro Losada, sólo respecto de determinados delitos, a Don Alfonso Grau Alonso, a Don Gerardo Corral Cuadrado, a Don Miguel de la Villa Polo, a Don Miguel Tejeiro Losada y a Don Salvador Trinxet Llorca.

Respecto de todas estas personas el Ministerio Fiscal interesa, en los Anexos 1 referido a la primera, 2 referido a la segunda y 3 referido a los restantes, que se decrete por razones de fondo el sobreseimiento parcial de la causa al tiempo que otras de las partes solicitan la apertura del juicio oral frente a ellas, lo que obliga a que este Juzgado se posicione al respecto y explique el sentido en que lo hace.

En cuanto a Don Miguel Tejeiro Losada la acusación le viene de la mano de la Representación Procesal del Sindicato “Manos Limpias” quien le imputa haber sido cooperador necesario de todos los delitos descritos cometidos en el seno de las Comunidades Valenciana y de las Illes Balears, así como Fundación Madrid 16 y del delito de blanqueo de capitales.

A la sazón conviene dejar constancia que Don Miguel Tejeiro Losada fue recurrente del Auto de este Juzgado de 25 de junio de 2.014, de Transformación a los Trámites del Procedimiento Abreviado, y que la Sección 2ª de la Iltma. Audiencia Provincial fue muy explícita al respecto calificándolo como una especie de eminencia gris que, de una manera u otra, siempre se encontraba presente en prácticamente todos los estadíos delictivos que rodearon a la Asociación Instituto Noos de Investigación Aplicada, a Don Iñaki Urdangarín Liebaert y a Don Diego Torres Pérez.

Fue Secretario de la Junta Directiva de aquélla desde el 23 de septiembre de 2.003, siguió ostentando tal cargo a partir del 20 de marzo de 2.006, fue Secretario de la Fundación Areté, comisionado por los dos anteriores para que buscara la creación de dos sociedades fiscalmente opacas, una en Belice y otra en Londres y a tal fin contactó con Don Salvador Trinxet Llorca, quien a través de su entidad Braxton Consulting S.L. adquirió de un Gabinete de Abogados de Belice la entidad Blossomhill Assets Inco., que se encontraba inactiva, carente de ubicación física propia, mobiliario, material de oficina ni de trabajadores y algo parecido cabe decir de De Goes Center for Stakeholders Management LTD, tratándose en ambos casos de empresas fantasmas. Fue quien aperturó cuentas en entidades bancarias residenciadas en Andorra, apoderado de otras y tuvo

decisiva intervención en la constitución de la entidad Aizoon S.L. auténtica máquina defraudatoria.

No en balde el Auto de 7 de noviembre de 2.014, dictado por la Sección 2ª de la Iltma. Audiencia Provincial, para justificar la desestimación de su recurso, le dedica lo siguiente: "... *no cabe duda que el recurrente por formar parte integrante de la As ociación Institu to Noos y ser el encargado del área financiera y contable de esta sociedad y de sus filiales y por la misma relación de confianza y de asesoramiento que ejercía, podía o tenía que saber de la existencia de ese giro de facturas falsas y que las mismas permitían a las entidades obtener beneficios fiscales irregulares y al mismo tiempo malversar fondos públicos. No en vano era el asesor fiscal del grupo. El recurrente ostentaba un claro dominio funcional de estos hechos y no solo estaba en la entidad origen del dinero y de la actividad, en calidad de vocal, sino que asesoró a Diego Torres para que a través de un experto en fiscalidad internacional - sobre todo porque Miguel no domina el inglés - adquiriesen las sociedades fiduciarias De GOES CENTER inglesa, a su vez controlada por BLOSOOMHILL ASSETS IN C; y fue él quien dio instrucciones a Mario Sorribas para que constituyera la filial española (DE GOES CENTER SL), todo lo cual iba a posibilitar el entrecruzamiento de facturas entre ambas para que el dinero procedente del grupo Noos - en el 50% de la participación que en los beneficios correspondía a su cuñado - , pudiera ser transferido al extranjero, ocultando por la existencia de una sociedad matriz en Belice, administrada por un hombre de paja elegido al efecto, la titularidad del dinero que pertenecía a Diego Torres y a su mujer Ana Tejeiro. Es importante destacar que el notario con el que trabajaba el grupo de empresas y amigo personal de Miguel Tejeiro manifestase que éste era el asesor financiero de todo el conglomerado y que diseñó toda la operativa y que no se hacía nada sin su as esoramiento. La documentación hallada en el registro del despacho con documentos manuscritos sobre triangulaciones y operaciones de cruce de facturas y de utilización de sociedades fiduciarias opacas en paraísos fiscales indiciariamente avala estas manifestaciones. El mismo Iñaki explica que era asesor suyo y el notario señala también que fue el propio Miguel Tejeiro, quien para utilizar a la Infanta de escudo fiscal, hizo que participase en Aizoon al 50%, desoyendo la recomendación del notario… El perfil de Miguel, en calidad de abogado especialista en temas tributarios y la vinculación y conocimiento que Miguel tenía respecto de Salvador Trinxet (Grupo Braxton, anteriormente integrado en su bufete Medina-Tejeiro), redundan en la idea que la actuación de asesoramiento prestada por el recurrente no fue en absoluto neutra sino que pudo haber intervenido como inductor…”*

Tales argumentos, que se estiman plenamente vigentes al no haber acontecido desde que se vertieron ningún dato que los desvirtúe, abocan a la desestimación del sobreseimiento interesado.

Llegado el turno a Don Salvador Trinxet Llorca se está en el caso de decir que el pronunciamiento sobreseedor respecto del mismo, dictado por este Juzgado en su Auto de 25 de junio de 2.014, fue revocado por la

Sección 2ª de la Iltma. Audiencia Provincial en base a los siguientes argumentos que procede sean trasladados:

"…*existen indicios de que el apelado Salvador, ha podido incurrir en un delito de blanqueo de capitales, por cuanto fue la persona a la que se dirigió Miguel Tejeiro para constituir la estructura de las sociedades fiduciarias que iban a permitir, al menos a Diego Torres y a su mujer, transferir al extranjero el dinero presuntamente malversado a través del Instituto Noos…Salvador Trinxet es un experto en fiscalidad internacional y con anterioridad había trabajado en el bufete Medina-Tejeiro. El propio Trinxet reconoce que recibió el encargo de Miguel Tejeiro de adquirir dos sociedades en el extranjero, una en Londres y la matriz de esa en Belice. Explicó que también le encargó que ambas compañías tuvieran un mismo administrador.*

La administración recayó a cargo de la entidad Corporate Directores Services Ltd, que según la secretaria del Sr. Trinxet pertenecía al grupo Braxton, que era propiedad del propio Trinxet. El mismo Trinxet admitió que la persona que físicamente ejercía la administración de las sociedades era un individuo panameño, Gustavo Alberto Newton Herrera, que era administrador de docenas de sociedades.

Reconoció, también, que junto con ese encargo, por el que recibió la suma de 12.000 euros, se comprometió a gestionar las facturas que le remitía Noos a la empresa Inglesa DE GOES CENTER LTD a través de su despacho y que él a su vez se las remitía para su tratamiento a un despacho de abogados en Londres -que es la que según su secretaria se encargaba de la contabilidad del grupo Braxton en el extranjero -Trinxet también reconoció que ayudó a Miguel Tejeiro a solucionar unos problemas con la banca de Luxemburgo en donde Miguel Tejeiro abrió sendas cuentas a nombre de las sociedades de Belice y Londres. La empleada de Trinxet señaló que ella recibía las facturas del Instituto Noos de Ana Tejeiro y de Marcos Tejeiro y que se las remitía a la firma de abogados Ingleses Center For Satkeholders Management LTD, que se encargaba de llevar la contabilidad. Esta testigo admitió que la facturación era tanto de Noos a De Goes Center como de Blossomhill Assets Inc. a de Goes. Por otra parte, se ha de tener presente que las sociedades Blossomhill Assets Inc. y De Goes Center For Stakeholder Management LTD eran virtuales y que no operaban en la realidad. De facto el propio Trinxet dijo que de Goes tenía un domicilio del grupo Braxton en Londres para recibir la información bancaria. Atendiendo a todas estas circunstancias hay que pensar que Salvador Trinxet al aceptar el encargo y durante la gestión de la facturación, era consciente, o debía de serlo, de que con su actuación se generaba un peligro de que la emisión de las facturas y la constitución de las sociedades opacas, dado que a través de las mismas se pretendía ocultar a sus verdaderos titulares, así como quién estaba detrás de sus cuentas en Luxemburgo, tuviera por objeto blanquear dinero procedente de actividades delictivas, en tanto en cuanto aquél se pretendía lavar a través de facturas falsas. No parece muy convincente que el Salvador Trinxet

dijera que creyó que la constitución de las sociedades tenía por objeto el que el Instituto Noos fuese a operar en el extranjero, pues en tal caso no era necesario constituir sociedades filiales. Además, Salvador Trinxet sabía que la entidad DE GOES LTD y su administrador no eran los verdaderos gestores de las citadas sociedades, sino que en realidad tras de ellas se escondía Diego Torres y los ingresos obtenidos a través de una entidad sin ánimo de lucro (IN). De igual modo tenía que resultar altamente sospechosa la apertura de sendas cuentas bancarias en Luxemburgo. Parecía bastante claro o altamente sugestivo que lo que se pretendía era ocultar los fondos que recibían ambas sociedades y si ello es así al Sr.Trinxet, dada su condición de experto en fiscalidad internacional, tenía que representársele como altamente posible o previsible que, atendiendo a la anormalidad de la operativa, la procedencia de tales fondos pudiera provenir de actividades delictiva y cuando menos de la emisión de facturas falsas, así como que a través de dicha estructura se estuviera eludiendo el pago de impuestos, por mucho que estos no hayan sido devengados en dicho momento al estimar la Agencia Tributaria que los imputados no tenían obligación de declarar los ingresos ilícitos provenientes de la malversación por razones de non bis in idem y porque respecto a determinadas anualidades su punición, a tenor de la fecha en que el procedimiento se dirigió a los imputados por estos ilícitos, ya habían prescrito – nos referimos a las anualidades de 2005 y 2006. Finalmente, Salvador Trinxet es quien actuando con poderes de Gustavo Alberto Newton (De Goes Center inglesa) entre finales de 2009 y principios de 2010 vende a la Fundación Deporte Cultura e Integración Social todas las participaciones de De Goes (la española), menos una, que pertenece a Mario Sorribas y, en momento posterior, actuando con un poder de Mario Sorribas (Administrador de De Goes S.L.), vende esa única participación a la Fundación Deporte Cultura e Integración Social, de modo que esta acababa siendo propietaria de De Goes. La operativa concluye cuando de la totalidad de las participaciones de la que era titular FDCIS, Ana Tejeiro acaba comprando una de su marido Diego Torres.

Como quien ahora resuelve coincide en este momento con tal criterio, procede desestimar la petición sobreseedora respecto de Don Salvador Trinxet Llorca.

Abordando la petición de sobreseimiento provisional formulada por el Ministerio Fiscal respecto de Don Gerardo Corral Cuadrado se está en el caso de asumir su parecer pues que tal acusado, tuvo una escasa intervención que quedó limitada a ser designado contacto, junto con Don Mario Sorribas Fierro, éste sobreseído en firme, en el seno de un Convenio Marco en cuya génesis no intervino, tampoco en su seguimiento pues que nunca fue objeto de desarrollo y, aunque como Director General Adjunto – Director Financiero- de la Sociedad Anónima Madrid 16- materializó el pago de las cantidades que se camuflaron como donativos, no consta que fuera él quien concertara ni autorizara su pagó a la Fundación Deporte Cultura e Integración Social ni tampoco quien diseñó ese ropaje.

Algo parecido podemos decir respecto de Don Miguel de la Villa Polo cuya intervención se redujo a la suscripción de un Convenio Marco del que no se desprendía ninguna prestación económica y que nunca fue objeto de desarrollo ni seguimiento, careciendo de capacidad para autorizar los pagos en calidad de donaciones cuyo diseño como tales tampoco fue idea ni obra suya.

El Ministerio Fiscal y la propia Representación Procesal de Don Alfonso Grau Alonso interesan se decrete el sobreseimiento provisional del afectado y a tal respecto procede una vez más insistir en que, tanto el primero como la Sección 2ª de la Iltma. Audiencia Provincial y este proveyente, coincidimos en que la Fundación Turismo Valencia Convention Bureau era una fundación de interés público sujeta a las normas sobre contratación administrativa, y ello tanto por su sistema de financiación, dependencia y control público municipal e interés general que satisface, y en justificación de tal posicionamiento ya se han vertido argumentos más que suficientes que no se van ahora a reiterar. No obstante, sigue siendo del parecer este proveyente, y en ello comparto argumentaciones con el Ministerio Fiscal, que la Fundación Turismo Valencia Convention Bureau ha venido siempre funcionando como entidad privada, incluso en sus relaciones contractuales, sin la oposición, al menos que se sepa, de ningún grupo municipal del Ayuntamiento de Valencia, incluido quien en este momento ejerce la acusación; que ese criterio fue también el sostenido por la asesoría externa de la Fundación así como por la Sindicatura y el Tribunal de Cuentas en tiempo coincidente con la suscripción de los Convenios llamados Valencia Summit; que la iniciativa en la gestión de los mismos siempre la ostentó Cacsa y que, aunque no se discute que la Fundación Turismo Valencia Convention Bureau le dio su beneplácito ello aconteció en el seno de la Junta de Patronos, procede apuntar su sobreseimiento.

Los testigos que depusieron en Valencia los días 28 y 29 del pasado mes de noviembre, incluidos aquéllos que desvelaron la convocatoria que la Subdirectora de la Fundación, cuando menos tan desafortunadamente, les cursó en los días que precedieron a su comparecencia, parece que para unificar criterios de cara a sus inminentes declaraciones, y que, por haberla con acierto desoído, merecen crédito, vinieron a coincidir en que, aunque el Sr. Grau tenía un papel preponderante en la Fundación –no en vano era su Presidente- y por ello era quien proponía los distintos proyectos, entre ellos el ahora cuestionado, siempre gozaron de libertad de criterio para oponerse a cualquiera de ellos por lo que, aunque no se diera una votación formal, los acuerdos se tomaban colegiadamente por la Junta de Patronos, por lo que en atención a lo anterior y a lo que en el Auto de Transformación a las Normas del Procedimiento Abreviado se expuso al respecto y que se da por reproducido, procede acceder al sobreseimiento provisional de la presente Pieza Separada respecto de Don Alfonso Grau Alonso, conforme al artículo 641.2º de la Ley de Enjuiciamiento Criminal.

El Ministerio Fiscal solicita el Sobreseimiento Provisional de la Causa respecto de los delitos contra la Hacienda Pública, prevaricación, fraude a la

Administración, falsedad documental, estafa y malversación de caudales públicos imputados a Doña Ana María Tejeiro Losada, al amparo del artículo 641 de la Ley de Enjuiciamiento Criminal, por inexistencia de indicios racionales de criminalidad, al tiempo que interesa el mantenimiento de su imputación por un presunto delito de blanqueo de capitales.

El Ministerio Fiscal manifiesta concordar determinados pasajes del Auto dictado por la Sección Segunda de la Iltma. Audiencia Provincial de 7 de noviembre de 2.014 y este proveyente se suma a tal concordia pero difiere de las conclusiones que de la misma extrae ya que, indiciariamente constatado que era la administradora de diversas entidades que integraban el entramado societario; que además era quien se encargaba de las contrataciones que se han revelado escandalosamente ficticias a efectos de lucrar ilícitamente beneficios fiscales entre los que se cuentan la libertad de amortización del artículo 109 del Texto Refundido de la Ley del Impuesto sobre Sociedades, la amortización de los elementos nuevos del inmovilizado material y de las inversiones inmobiliarias y del inmovilizado intangible y tipo de gravamen reducido del artículo 114 de la Ley, ideando simulaciones contractuales para trabajos que nunca se habrían de realizar; que además intervino activamente en el trasiego de dinero a través de entidades bancarias radicadas en el extranjero; y que, por añadidura, tanto ella como su hermano Marco Antonio eran los encargados de la circulación de facturación falsa a la sociedad fiduciaria De Goes Center for Stakeholders Management LTD a través del despacho de Don Salvador Trinxet Llorca, no puede darse por hecho, como sí lo hace la Agencia Estatal de Administración Tributaria traspasando su estricto ámbito cognoscitivo, que Doña Ana María Tejeiro Losada no participara en la toma de decisiones de la Asociación Instituto Noos de Investigación Aplicada, ni en las sociedades del grupo, ni en la elaboración de proyectos, ni en su presentación y venta a determinados clientes, ni era quien elaboraba la facturación, ni la que determinaba los importes, personas o entidades a quienes se debían girar las facturas.

En posesión de los anteriores datos deberá, pues, ser en el seno del juicio oral donde, tras la práctica de las pruebas que se estimen oportunas, se fije cuál era la real distribución de roles entre ella y su marido, procediendo con ello desestimar la petición de sobreseimiento parcial de la causa planteada.

Tanto el Ministerio Fiscal por razones de fondo (Anexo 1 a su escrito de acusación) como la Representación Procesal de Doña Cristina Federica de Borbón y Grecia por razones procesales, a las que luego aludiré junto con las en tal sentido esgrimidas también por el primero, instan que se decrete el sobreseimiento provisional de esta Pieza Separada respecto de ella.

Las argumentaciones de naturaleza procesal serán objeto de un ordinal separado y, en cuanto a las de fondo, se está en el caso de decir que pocas o, más bien, ninguna imputación ha sido tan profusamente fundamentada –cosa distinta es que lo haya sido a gusto de todos- como la de Doña Cristina Federica de Borbón y Grecia. No la ha habido fuera de esta causa y

bien lo saben el Ministerio Fiscal y Srs. Letrados, perfectamente conocedores de que la práctica ordinaria en los Juzgados y Tribunales para convocar a una persona a prestar declaración en calidad de imputada se solventa con una muy escasa literatura, abismalmente distante de la que se ha empleado en el presente caso.

Pero es que, y esto es mucho más importante aún, tampoco lo ha sido en el seno de la presente Causa en que han pasado por este Juzgado el resto de imputados sin que quien ahora resuelve tuviera que afanarse, ni nadie se lo reclamara, en justificar su llamada con una exhaustividad que ni remotamente puede compararse con la utilizada para la convocatoria de Doña Cristina Federica de Borbón y Grecia o cualquier otra actuación judicial en que se la contemplara.

Así, en el Auto de fecha tres de abril de 2.013 ya se explicaron las razones de su llamada a declarar en calidad de imputada y el cambio de criterio operado respecto del Auto de fecha cinco de abril de 2012 –cosa bien distinta es el grado de convencimiento que pudieran generar toda vez que, recurrido en Apelación por el Ministerio Fiscal y Representación Procesal de la afectada, no obtuvo el favor de la Iltma. Provincial.

Siguiendo las insinuaciones de la propia Audiencia, y tras meses de intensa investigación, se produjo un segundo intento que se plasmó en el Auto de fecha siete de enero del presente año. También en él se trató de motivar que la citación de la afectada era una consecuencia ineludible de las diligencias que se habían practicado, obligadamente reconducidas ya a dos ámbitos mucho más estrictos, los propios de los tipos penales contra la Hacienda Pública y de blanqueo de capitales, y no de ningún enfermizo empecinamiento de este proveyente.

Algún grado más de convencimiento, o de incertidumbre sobre el resultado de su impugnación, debió tal resolución desplegar cuando el Ministerio Fiscal y la propia Representación Procesal de Doña Cristina Federica de Borbón y Grecia coincidieron en aquietarse a ella, optando porque la citada compareciera “voluntariamente”. Ello no impidió que, a pesar de lo procesalmente pacífico de su convocatoria, tanto ante los distintos medios informativos como también en el curso de su declaración mostraran su radical rechazo a ésta que sí, en cambio, no ha debido ser inútil de cara a interesar a su raíz, cuando menos, la declaración de partícipe a título lucrativo de la convocada

El Auto de Acomodación de la presente Pieza Separada a las Normas del Procedimiento Abreviado de 25 de junio de este año también se hizo eco de similares motivaciones que además incluían, como obligado era, la valoración de la declaración prestada por Doña Cristina Federica de Borbón y Grecia ante este Juzgado.

Casi todas las partes afectadas por tal resolución hicieron uso de su derecho a impugnar la referida resolución, entre ellas y con respecto a la persona objeto de este análisis, el Ministerio Fiscal y su Representación Procesal, siendo los recursos resueltos por la Sección 2ª de la Iltma. Audiencia Provincial mediante Auto de siete de noviembre del presente año

que, en atención a la persona que nos ocupa mantuvo su imputación como cooperadora necesaria de dos delitos contra la Hacienda Pública -sin contar con las posibilidades que ofrecía la defraudación fiscal en sede del Impuesto de Sociedades de Aizoon S.L. del ejercicio 2.007- al tiempo que revocaba la de por blanqueo de capitales.

Zanjada debería haber quedado la cuestión hasta el dictado de la presente resolución pero no ha sido así ya que el Ministerio Fiscal vuelve a plantear la cuestión, por razones de fondo, solicitando el sobreseimiento provisional de la Causa respecto de Doña Cristina Federica de Borbón y Grecia.

Se ha hecho constancia del historial de la controvertida imputación porque todos los argumentos que se expusieron con ocasión de cada una de sus, por llamarlas de algún modo, etapas se tienen que dar necesariamente por reproducidos, y no es que los peticionarios no tengan el derecho a interesar incansablemente el sobreseimiento ahora postulado sino que, a no concurrir ningún nuevo dato, y ninguno puede en buena lógica sobrevenir al estar cerrada en firme la instrucción, el resultado que habrán de merecer tales solicitudes será fácilmente adivinable, que no es otro que la procedencia de que su tratamiento quede reservado a la fase de plenario.

La presunción de inocencia, respecto de la que, con una clara referencia a este concreto caso, se ha aireado a los cuatro vientos que no existe en España, y de cuya conculcación también se hace eco el Ministerio Fiscal, no estriba en cerrar los ojos ante las sospechas que puedan darse sobre la comisión de un delito, sino continuar la investigación hasta que aquéllas se desvanezcan o se tornen en indicios racionales. Caso de lo segundo, dar la oportunidad a la persona por ellos afectada para que, con instrucción y observancia de sus derechos, facilite las explicaciones que se le demanden y tenga por conveniente; valorarlas para, caso de resultar convincentes, sobreseer las actuaciones o, en su defecto, posibilitar que las partes acusadoras ejerzan frente a ellas la acción penal; si así lo hacen valorar los escritos de acusación, decidir sobre la apertura o no del juicio oral frente a quienes resulten acusados y, en su caso, el propio desarrollo de aquél donde, para abocar a una sentencia condenatoria, los indicios incriminatorios habrán de adquirir la condición de pruebas.

Este es el "iter" que se ha seguido y se pretende seguir respecto de Doña Cristina Federica de Borbón y Grecia, que ha sido incluso aún más garante que con los demás imputados, y cualquier censura debiera venir por ese lado, por lo que la alegada indefensión, si es que existe en algún recóndito tramo que no es adivinable, sería la misma que padecerían todos los imputados de esta Causa y de todas las demás que se siguen en el país, con lo que lo correcto no es postular el cambio de criterio de un Juez sino el legislativo de todo un sistema judicial que, si algún reproche cabría hacerle y no es que este Instructor lo haga porque nunca están de más las garantías, es el de hipergarantista.

Se está totalmente de acuerdo con la afirmación del Ministerio Fiscal de

que éste ni puede ni debe tolerar eventuales distorsiones en función del perfil personal, social o de otra índole de un determinado ciudadano pero, aparte de que no debiera pasar por alto que tan sacralizada función también le está atribuida a los Juzgados y Tribunales frente a las actuaciones de quienes ante ellos intervienen, se rechaza enérgicamente que ninguno de los Órganos Judiciales que en esta causa han tomado decisiones que contemplaran a Doña Cristina Federica de Borbón y Grecia haya podido incurrir en semejante distorsión.

TERCERO.- Los escritos de acusación presentados por las Representaciones Procesales del Sindicato "Manos Limpias" y la común de Don Joan Calabuig Rull, de Don Salvador Broseta Perales, de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia contienen una singularidad que no se da en ninguno de los restantes que han tenido acceso a la presente Pieza Separada.

Se trata de que el ejercicio de la acción penal que en los mismos se hace frente a Doña Cristina Federica de Borbón y Grecia, en parte respecto de Doña Ana María Tejeiro Losada, Don Miguel Tejeiro Losada, Don Salvador Trinxet Llorca, Don Alfonso Grau Alonso, Don Gerardo Corral Cuadrado y Don Miguel de la Villa Polo no es compartido por el Ministerio Fiscal, tampoco por la Abogacía del Estado y tampoco por la de esta Comunidad Autónoma.

No obstante, aún siendo todos singulares hay quienes lo son más que otros. Me refiero a Doña Cristina Federica de Borbón y Grecia y a Doña Ana María Tejeiro Losada pues que son las únicas respecto de las que el Ministerio Fiscal extrae de esa falta de comunión la conclusión de que la Representación Procesal del Sindicato "Manos Limpias" carecería de legitimación para el pretendido ejercicio en tanto esa posibilidad le estaría vedada a la pretendiente en razón de que el título bajo el cual está personada es el de Acusadora Popular.

Antes de entrar a resolver la cuestión planteada deviene inevitable trasladar a esta resolución dos reflexiones:

La primera es que, aparte de que el Ministerio Fiscal presentó su escrito de acusación cuando todavía nadie lo había hecho, este Juzgado no dio traslado de los que lo fueron hasta que venció el plazo para su presentación, de lo que se desprende que su certeza sobre que ni la Abogacía del Estado ni la de la Comunidad Autónoma de las Illes Balears acusarían a Doña Cristina Federica de Borbón y Grecia como cooperadora necesaria de dos delitos fiscales y a Doña Ana María Tejeiro Losada, sólo como cooperadora de uno de blanqueo de capitales, la habría obtenido, o como deducción derivada de sus posicionamientos anteriores o de un conocimiento extraprocesal de sus intenciones.

La segunda guarda relación con la mención que hace el Ministerio Fiscal en el Anexo 1 a su escrito de acusación cuando textualmente dice: *"En el*

elenco de funciones del Ministerio Fiscal, y no precisamente función menor o secundaria, se encuentra la de promover y garantizar la unidad de criterio en la aplicación la Ley penal y procesal en todo el Estado"

Pues bien, si esto es así y no se discute que no lo sea, no se acaba de comprender por qué la misma petición que plantea respecto de Doña Cristina Federica de Borbón y Grecia y de Doña Ana María Tejeiro Losada no la hace extensiva a los acusados Don Miguel Tejeiro Losada, Don Salvador Trinxet Llorca, Don Alfonso Grau Alonso, Don Gerardo Corral Cuadrado y Don Miguel de la Villa Polo, que se encuentran rigurosamente en la misma situación procesal, de los que en esta concreta cuestión se desentiende y deja abandonados a su exclusiva suerte, sin su especial apoyo y al margen de esa pretensión de promoción y garantía de unidad de criterio en la correcta aplicación del artículo 782.1 de la Ley de Enjuiciamiento Criminal.

Como se desconocen las razones de esa diferencia de trato, este Juzgado habrá de sortearla haciendo extensivos a todos ellos los resultados que extraiga del análisis de la cuestión planteada.

Entrando ya en ella, veamos si la regulación normativa del instituto de la Acción Popular avalaría alguna limitación de sus facultades procesales.

La elevación a rango constitucional, aunque discutiblemente a derecho fundamental, del acceso a la Acción Popular tuvo lugar a través del artículo 125 de la Carta Magna que se expresa en términos del tenor literal siguiente: *"Los ciudadanos podrán ejercer la acción popular y participar en la Administración de Justicia mediante la institución del Jurado, en la forma y con respecto a aquellos procesos penales que la ley determine…".*

Ninguna limitación respecto de la acción popular, como cauce legítimo en la lucha contra los delitos perseguibles de oficio, es posible vislumbrar en el aludido precepto que se limitaba a constitucionalizar para los nuevos tiempos, sin ningún tipo de cortapisas ni abandono a la legislación subordinada, un derecho que ya había sido recogido en el artículo 255 de la Constitución de 1.812, 98 de la Constitución de 1.869 y 29 de la de 1.931, ampliamente consolidado y regulado en cuanto a su contenido y exigencias, tal como hoy se le conoce, nada menos que desde la entrada en vigor de la Ley de Enjuiciamiento Criminal, allá por el año 1.882 y que incluso la Sentencia del Tribunal Supremo 702/2003 calificó como fundamental, siendo sólo respecto a la participación en la institución del Jurado, tanta veces pluriresucitada y única que estaba por regular, que abandona a la legislación ordinaria la determinación de la forma en que se deberá llevar a cabo y los procesos en que será de aplicación, tal como ciertamente, aunque con bastante retraso, aconteció con la Ley del Jurado 5/1995, de 22 de mayo, que sólo a su través cobro virtualidad esta institución.

Trasladados a la Ley Orgánica del Poder Judicial, establece ésta en su artículo 19 que *"los ciudadanos de nacionalidad española podrán ejercer la acción popular, en los casos y formas establecidos en la ley".*

El art. 20.3 de la misma Ley establece: *"No podrán exigirse fianzas que por su inadecuación impidan el ejercicio de la acción popular, que será*

siempre gratuita".

El art. 406 dice que *"el juicio de responsabilidad penal contra Jueces y Magistrados podrá incoarse por providencia del Tribunal competente o en virtud de querella del Ministerio Fiscal, o del perjudicado u ofendido, o mediante el ejercicio de la acción popular"*.

Así pues, ninguna merma en las facultades procesales del acusador popular cabe entrever en este Cuerpo Legal.

Mudados a la Ley de Enjuiciamiento Criminal, concretamente a su artículo 101, que trata de la legitimación necesaria para el ejercicio de la acción popular, dice que *"la acción penal es pública"* y que *"todos los ciudadanos españoles podrán ejercitarla con arreglo a las prescripciones de la Ley"*.

Como el reenvío a las "prescripciones de la Ley" podría representar el umbral para la exigencia de determinados requisitos, bien "ab initio" o sobrevenidos, se hace obligado peregrinar en el resto de su articulado llegándose al artículo 270 de la Ley Adjetiva que se expresa en los siguientes términos: *"Todos los ciudadanos españoles, hayan sido o no ofendidos por el delito, pueden querellarse, ejercitando la acción popular establecida en el artículo 101 de esta Ley".*

Este precepto cobra doble interés. De una parte porque, a los efectos de que ahora se trata, no contiene absolutamente ninguna limitación, exigencia o subordinación respecto del ejercicio de la acción penal que pudieran llevar a cabo el Ministerio Fiscal y Acusadores Particulares en sentido estricto; y, de otra, porque el precepto aborda expresamente la inexigibilidad del requisito de que el Acusador Popular haya sido ofendido por el delito, y si el legislador hubiera deseado que el ejercicio de la acción popular se condicionara a que el ofendido o el Ministerio Fiscal hicieran lo propio, ocasión clara tenía para haberlo hecho constar, pero no lo hizo.

Lo mismo podemos decir de su artículo 761 que, en la medida en que establece que *"el ejercicio por particulares, sean o no ofendidos por el delito, de la acción penal o de la civil derivada del mismo habrá de efectuarse en la forma y con los requisitos señalados en el Título II del Libro II, expresando la acción que se ejercite"*, está sometiendo a los mismos condicionantes la "actio ex delicto" atribuida al ofendido como a quien no revista tal condición.

Aquí finaliza la referencia que la Ley de Enjuiciamiento Criminal hace de forma expresa y específica al término "Acusación Popular". No obstante sí que hace muy variadas alusiones al Acusador Particular y convendría examinar si con ocasión de ellas introduce alguna discriminación en el tratamiento de uno y otro acusador.

En este sentido el artículo 19 posibilita que el acusador particular pueda promover y sostener cuestiones de competencia y a nadie se le ocurriría pensar que esta opción le estuviera vedada al acusador popular y de hecho nunca lo ha estado.

Lo mismo cabría decir respecto del artículo 53, concretamente referido a la capacidad para recusar, que fuerza a resolver si esta posibilidad quedaría

fuera del menú procesal que se le ofrece al ejerciente de la acción popular. Pues bien, aparte de un consolidado "usus fori", por si alguna duda cupiere, que no cabe, nos resolvería la cuestión el artículo 218 de la Ley Orgánica del Poder Judicial cuando relaciona quienes están al respecto legitimados para recusar: *"En los asuntos penales, el Ministerio Fiscal, el acusador popular, particular o privado, el actor civil, el procesado o inculpado, el querellado o denunciado y el tercero responsable civil"*.

No hay que adivinar la inserción del acusador popular sino que literalmente lo está. Así pues la Acusación Popular tiene al respecto exactamente las mismas facultades que las demás partes y prueba de ello es que recientemente y en esta misma Causa la Representación Procesal del Sindicato "Manos Limpias" ha hecho uso de ellas sin objeción de las demás partes, pareciendo quedar muy claro que hasta el momento "acusador particular" es un término comprensivo del "acusador popular"

El artículo 37 da entrada en la tramitación de la inhibitoria al acusador particular pero ninguna mención hace del popular. ¿Acaso cabría deducir que hallándose personado aquél, se debería tramitar el incidente sin contar con él? Desde luego la práctica cotidiana de los Juzgados no es esa.

Menciones al acusador particular contienen los artículos 105 y 108 de la Ley de Enjuiciamiento Criminal, de las que se desprende una vez más que acusador particular es un término que deviene extensivo a popular.

El artículo 141 reserva a la modalidad de auto las resoluciones que decidan incidentes o puntos esenciales que afecten de una manera directa a los imputados o procesados, responsables civiles, acusadores particulares o actores civiles. ¿Cabría argumentar que si los destinatarios de tales resoluciones fuesen los acusadores populares carecería de virtualidad el precepto?

Lo mismo del 142 respecto de las sentencias.

El art. 240 previene la posibilidad de condenar en costas al querellante particular o actor civil cuando resultare de las actuaciones que han obrado con temeridad o mala fe. ¿La omisión del acusador popular significaría que mediando en su actuar el mismo grado de ligereza quedaría a salvo de ese pronunciamiento?

El 270 establece que el particular querellante, cualquiera que sea su fuero, quedará sometido, para todos los efectos del juicio por él promovido, al Juez de instrucción o Tribunal competente para conocer del delito objeto de la querella, siendo impensable pretender que ese sometimiento no sería predicable respecto del acusador popular.

El art. 280 es aún más explícito cuando, después de decir que el particular querellante prestará fianza de la clase y en la cuantía que fijare el Juez o Tribunal para responder de las resultas del juicio, se excepciona al ofendido y sus herederos o representantes legales, lo que fuerza a entender que dentro del término querellante particular se ha de prestar cobertura a quienes no han sido ofendidos por el delito.

El art. 385 autoriza al Ministerio Fiscal o al querellante particular para instar, y al Juez acordar, que los procesados presten cuantas declaraciones

consideren convenientes para la averiguación de los hechos, y absolutamente a nadie se le ocurriría argumentar que de esta posibilidad estaría privado el acusador popular.

Lo mismo cabe decir del art. 466 que previene notificar al actor particular el nombramiento de peritos. Igual respecto del 501 que ordena notificar al Ministerio Fiscal y querellante particular el auto elevando la detención a prisión o dejándola sin efecto, o del 623 sobre notificación del auto de conclusión del sumario.

Al objeto de evitar el irremediable sobreseimiento de la causa que se produciría cuando en ésta no existiere querellante particular dispuesto a sostener la acusación y el Ministerio Fiscal lo solicitara, el art. 642 previene que se haga saber la pretensión del Ministerio Fiscal a los interesados en el ejercicio de la acción penal, para que dentro del término prudencial que se les señale comparezcan a defender su acción si lo consideran oportuno. Hay que recordar que se trataría de ofendidos no personados pero a los que obligatoriamente se les debió previamente haber ofrecido el procedimiento conforme al art. 109 y, sin embargo, optaron por no personarse en la causa, siendo por ello que la ausencia del querellante particular sólo puede venir referida al acusador popular y lo mismo respecto de los artículos 644 y 645.

El art. 651 establece que, devuelta la causa por el Fiscal, el Secretario judicial la pasará por igual término y con el mismo objeto al acusador particular, si lo hubiere, quien presentará el escrito de calificación. ¿Podría justificar la doctrina que más adelante se expondrá excluir de este trámite al acusador popular? Resueltamente, afirmar que sí reconduciría al absurdo.

El art. 689 trata la cuestión de la conformidad del procesado con la acusación más grave y, para que aquélla surta los efectos que le son propios, el precepto sólo contempla dos calificaciones, la del Ministerio Fiscal y la del querellante particular.

La no expresa mención del acusador popular ¿podría interpretarse en el sentido de que cabría sentencia de conformidad si el procesado discrepara de la que aquél hiciera? Decididamente, una conformidad en el seno de la discrepancia sería la cuadratura del círculo.

La omisión en el art. 734 del acusador popular ¿podría ser interpretada como que en el acto del juicio oral se le debiera denegar la venia para emitir su informe?

El artículo 761 aborda la cuestión de la forma a que se habrá de acomodar el ejercicio de la acción penal por los particulares y expresamente inserta en el término tanto a los ofendidos por el delito como a quienes no lo han sido.

El art. 782 merecerá por la peculiar trascendencia interpretativa llevada a cabo por el Tribunal Supremo un tratamiento separado.

Para cuando el Juez de Instrucción decrete la apertura del juicio oral sólo a instancia del Ministerio Fiscal o de la acusación particular el art. 783 introduce el trámite consistente en que el Secretario Judicial dará nuevo

traslado a quien hubiere solicitado el sobreseimiento por plazo de tres días para que formule escrito de acusación, salvo que hubiere renunciado a ello, trámite del que sería impensable privar al acusador popular por el sólo hecho de serlo.

En otro apartado del mismo precepto se dice que al acordar la apertura del juicio oral, resolverá el Juez de Instrucción sobre la adopción, modificación, suspensión o revocación de las medidas interesadas por el Ministerio Fiscal o la acusación particular. Pues bien, si a este término se le diera la interpretación restringida que se pretende, resultaría que el Juez de Instrucción quedaría excusado de pronunciarse sobre lo que al respecto hubiera podido interesar el acusador popular por lo que la situación una vez más abocaría al absurdo, estado de cosas que se repetiría en el marco del artículo 800 y 801 para los juicios llamados rápidos y de la conformidad con la acusación más grave.

El art. 900, que nos dice cómo debemos redactar la sentencia, establece que, entre otros extremos, se expresarán los nombres de los acusadores particulares que en ella hayan intervenido. ¿Acaso la omisión del acusador popular podría interpretarse como que habría que silenciar en el cuerpo de la resolución la intervención que aquél hubiera tenido?

El artículo 916 y siguientes de la Ley de Enjuiciamiento Criminal, cuando establecen los requisitos que ha de revestir el recurso de casación por quebrantamiento de forma, impone al querellante particular la obligación de ofrecer la constitución del depósito preceptivo y previene las consecuencias de no hacerlo, sin que nunca nadie haya entendido que de esta exigencia estuviera exento el acusador popular.

Del análisis expuesto se desprende que el término acusador o querellante particular nunca ha sido utilizado por nuestra Ley Procesal como contraposición a acusador popular, al que no se menciona pero cuya intervención nadie discutiría, sino como contrapunto al acusador institucional, es decir el Ministerio Fiscal.

Mayor trascendencia para el caso que nos ocupa tiene el artículo 782.1 de la Ley Procesal, pues que es el pretendido sustento de la llamada “doctrina Botín”, en tanto pareciera ordenar al Instructor que acuerde el sobreseimiento de la causa si así lo solicitaren el Ministerio Fiscal y el acusador particular.

De entender este último término en su sentido más restrictivo, reconducido al ofendido por el delito, se desprendería que aquéllos que no lo son carecerían de legitimación para instar la continuidad del proceso y por consiguiente, en el trámite en que nos encontramos, interesar la apertura del juicio oral.

No participa este Instructor de esa interpretación restrictiva por varias razones: De una parte, a tenor de lo anteriormente expuesto carece de sentido que, si durante todo el articulado de la Ley de Enjuiciamiento Criminal, a la acepción acusador o querellante particular le ha dado el legislador una extensión ambivalente comprensiva de todas las partes que ejercen la acción penal distintas del Ministerio Fiscal y a esta modulación se

ha venido pacífica e inveteradamente aquietando la doctrina científica y la cotidiana práctica de los tribunales, no es de recibo que, llegados al trámite de la fase intermedia, el acusador popular se convierta en una figura puramente inútil.

De otra, aunque por incongruente resultara incomprensible, podría admitirse que así fuera la realidad si el legislador, apartándose de su trayectoria, expresamente contemplara la situación del ejerciente de la acción popular en solitario privándole de una legitimidad que hasta ese momento había gozado. No ha sido así y la dicción legal en este supuesto es exactamente la misma que en las menciones precedentes.

Lo que el artículo 782.1 de la Ley de Enjuiciamiento Criminal, fiel reproducción del anterior artículo 790.3, que en el Procedimiento Ordinario de Sumario no contenía discriminación alguna para el Acusador Popular y, por tanto, ninguna imposibilidad legal existía para que el juicio oral se abriera sólo a su instancia, vino a establecer para el Procedimiento Abreviado, y por demás en lógica aplicación del principio acusatorio, es que sin acusación no cabe la apertura del juicio oral, de tal manera que si el Ministerio Fiscal y las demás partes acusadoras personadas, comprendiendo en ellas tanto las particulares en sentido estricto como las populares, no instan la apertura de juicio y sí, en cambio, el sobreseimiento, el Juez no tiene otra alternativa más que acordarlo.

En aquellos supuestos en que no estuviera personada en la causa ninguna acusación distinta del Ministerio Fiscal se le ofrece al Juez Instructor la posibilidad de dilatar y, en su caso, eludir el sobreseimiento interesado por aquél participándolo a los perjudicados u ofendidos directamente por el delito quienes, por ser conocidos y tasados, son los únicos posibles destinatarios de tal ofrecimiento, que nunca podría hacerse a la ciudadanía en abstracto, y quienes de personarse, en este caso como acusación particular en sentido estricto, podrían oponerse, incluso con éxito, a la pretensión sobreseedora formulada por el Ministerio Fiscal.

Los artículos 783, 800 y 801 de la Ley de Enjuiciamiento Criminal vienen a confirmar una vez más y sin lugar a dudas la interpretación ambivalente del término “acusación particular”, ya consustancial en el Texto Procesal.

Interpretar el artículo 782.1º de la Ley de Enjuiciamiento Criminal, sacándolo de su contexto pretendiendo deslegitimar al ejerciente de la acción popular para interesar la apertura del juicio oral, rompe la armonía con el resto de la Ley Adjetiva y vaciaría de contenido el artículo 125 de la Constitución si se exigiera que se ejercitara la acusación popular necesariamente secundando la que el Ministerio Fiscal u otras partes hayan hecho.

Así pues, cuando el legislador ha querido establecer (véase art. 102 de la Ley de Enjuiciamiento Criminal) supuestos de falta de legitimación para el ejercicio de la acción penal abiertamente lo ha hecho, al igual que cuando ha tenido a bien limitar su ejercicio por razón del parentesco (art. 103) o de la naturaleza del delito (art. 104) pero nótese bien que no

estableció absolutamente ninguna prohibición ni limitación para el Acusador Popular, y no debió ser por olvido ya que los referidos preceptos vienen precedidos por el art. 101 que de forma rotunda previene que la acción penal es pública y que todos los ciudadanos españoles podrán ejercitarla con arreglo a las prescripciones de la Ley.

Es por ello que cuando el legislador ha querido introducir alguna discriminación respecto del Acusador Popular expresamente lo ha hecho, como cuando con ocasión de la constitución de un depósito para la interposición de recursos dice que en el orden penal este depósito será exigible únicamente a la acusación popular o cuando en el artículo 281.1 libera de la obligación de prestar fianza al querellante particular ofendido por el delito, lo que a "sensu contrario" pone de manifiesto que para el legislador pueden existir querellantes particulares distintos de aquéllos, pero en el supuesto que ahora se trata no es el caso.

Así pues, en lo no especialmente previsto por la Ley se habrá de entender que no cabe establecer exigencias para el acusador popular que limiten el ejercicio de su derecho.

Por mucho que se argumente y fervor con que se haga, no fue este parecer compartido por la Sala Segunda de nuestro Tribunal Supremo que en su sentencia Nº 1.045, de 17 de diciembre de 2.007, desestimó los recursos de casación por infracción de Ley interpuestos por las Acusaciones Populares, Asociación para la Defensa de Inversores y Clientes e Iniciativa per Catalunya Verds, contra el auto dictado por la Sección Primera de la Sala de lo Penal de la Audiencia Nacional, de 20 de diciembre de 2006, dictado en el Procedimiento Abreviado núm. 53/1992, en sede de juicio oral y resolviendo la cuestión previa, de nulidad de la apertura del juicio oral, al estar exclusivamente solicitada por la acusación popular personada en la causa, nulidad pretendida a la que se adhirieron la Abogacía del Estado y las defensas.

Tan novedosa era la doctrina que se pretendía instaurar que, ante la falta de acuerdo sobre la aplicación al caso de otros precedentes del Tribunal Supremo, que en el sentido ahora pretendido no existían, la Sala optó por convocar un Pleno Jurisdiccional para establecer la doctrina aplicable a las cuestiones planteadas por los recurrentes.

En la aludida sentencia se dice que la Ley 38/2002, de 24 de octubre, de reforma parcial de la Ley de Enjuiciamiento Criminal, sobre procedimiento para el enjuiciamiento rápido e inmediato de determinados delitos y faltas, y de modificación del procedimiento abreviado vino en su Exposición de Motivos a reconducir el término "acusación particular" a ofendido por el delito, y es cierto que en el apartado III de tal Exposición se trata el caso de que el Ministerio Fiscal solicitara el sobreseimiento y no estuviesen personados los ofendidos como perjudicados ejercientes de la acusación particular, pero la mención que se hace es a los solos efectos de trasponer al procedimiento abreviado la previsión, ya existente en el procedimiento ordinario, de hacerse saber la pretensión del Ministerio Fiscal a dichos interesados en el ejercicio de la acción penal, pero de ahí no cabe

extraer la conclusión de que el distanciamiento de la Causa del Ministerio Fiscal y de los ofendidos por el delito, deslegitime al Acusador Popular que ya estuviere personado para continuar desempeñando modélicamente su papel. De haber sido así, qué trabajo le hubiera costado al legislador haberlo expresado y dado una redacción explícita sobre la cuestión al artículo 782 de la Ley de Enjuiciamiento Criminal.

Buena prueba de que esa equívoca mención en la Exposición de Motivos, que no en su articulado, no zanjó la cuestión en el sentido hoy pretendido es que la Sala 2ª del Tribunal Supremo había alumbrado la Sentencia 168/2006, de 30 de enero, en la que textualmente se decía: ***"El art. 125 CE recoge la acción popular y los arts. 101 LECr. y 19 LOPJ concuerdan con el precepto constitucional, sin que, en la normativa reguladora de tal clase de acción se contenga regla alguna que permita entender que el art. 790.6 LECr., cuando preveía el supuesto de que el Ministerio Fiscal o la acusación particular solicitaron la apertura del juicio oral, estaba excluyendo la legitimación de la acusación popular para hacerlo, o estaba limitando esa legitimación a una aptitud subordinada a otras acusaciones***. ***Entre los encauzamientos legales a que aluden los arts. 25 CE, 19 LOPJ y 101 LECr. no se encuentra aquella restricción.***

Así pues, en aquél entonces el Tribunal Supremo parecía tener claro que la Ley 38/2002, de 24 de octubre, de Reforma Parcial de la Ley de Enjuiciamiento Criminal sobre procedimiento para el enjuiciamiento rápido e inmediato de determinados delitos y faltas, y de modificación del procedimiento abreviado, no introdujo en éste último ninguna modificación que privara o limitara la legitimación del Acusador Popular para ejercer la acción penal en solitario en supuestos similares al ahora contemplado.

No se discutía ni se discute ahora la legitimidad constitucional del legislador para introducir en el artículo 782.1 de la Ley de Enjuiciamiento Criminal modalizaciones para el ejercicio de la acción popular. Simple y llanamente que no lo hizo, y así lo entendió en su momento el propio Tribunal Supremo.

Han debido transcurrir nada menos que cerca de dos años para que el mismo Tribunal cambiara de criterio en relación con el encausamiento de varios directivos del Banco de Santander, entre los que no en vano se encontraba Don Emilio Botín Sanz de Sautuola García de los Ríos, del que recibe abreviado y coloquial nombre la nueva directriz jurisprudencial.

Sin merma del respeto y acatamiento que merece tal sentencia, se dice en ella que el núm. 2 del artículo 782 de la Ley de Enjuiciamiento Criminal identifica al acusador particular con los "directamente ofendidos o perjudicados" y que por dos veces no mencionó a la acusación ejercida por quienes no son directamente ofendidos.

Ciertamente tal identificación efectivamente se hace pero a los efectos limitados de hacerles saber la pretensión del Ministerio Fiscal a los directamente ofendidos o perjudicados conocidos, no personados,

ofrecimiento que deviene obvio no se puede llevar a cabo al colectivo impreciso e indeterminado de la ciudadanía.

En este estado de cosas, la Sala Segunda del Tribunal Supremo, no se olvide nunca que convocada en Pleno Jurisdiccional a estos efectos, desestima los recursos formulados y confirma el auto de la Sección Primera de la Sala de lo Penal de la Audiencia Nacional de 20 de diciembre de 2.006.

A pesar de las razonables labores de convencimiento que debieron discurrir en el curso de las deliberaciones de cara a obtener la unanimidad o una más abultada mayoría, decididamente no contribuyeron a formar ésta determinados Magistrados.

Así el inicial Ponente, Excmo. Sr. D. Julián Sánchez Melgar, emitió un voto particular del que procede destacar:

> *El único argumento de la Audiencia es la estricta interpretación literal del mencionado precepto (art. 782.1). Ninguna otra interpretación avala esta tesis, como comprobaremos.*
>
> *Como veremos más adelante, esta interpretación no ha sido nunca seguida, ni por la jurisprudencia de esta Sala Casacional, ni por la doctrina dimanante de las Audiencias Provinciales, ni por el Tribunal Constitucional, aunque en este caso no haya habido un pronunciamiento concreto en esta materia, pero sí declaraciones generales muy explícitas, a favor de la posición contraria (pro actione), como analizaremos más adelante, ni tampoco ha sido interpretado de esta forma, al menos de forma unánime, por la doctrina científica, ni por la práctica diaria de los tribunales. Es más, la propia Audiencia de instancia, razona, dándose cuenta de ello, que la nueva redacción "despeja, a juicio del tribunal, las dudas que pudieran existir bajo la antigua regulación", pues ahora, dicen los jueces "a quibus", hay que entender que el legislador utiliza esa categoría jurídico procesal (se refiere a la acusación particular),"en sentido estricto y propio, como los directamente ofendidos o perjudicados personados". "Sin embargo, no se comparte esta interpretación, como justificaremos a continuación".*
>
> *"Si el problema lo es de legitimación procesal, como parece entenderlo así la Audiencia, no hay razón alguna para mantener esa interpretación, que está en contra, no solamente de toda nuestra tradición procesal, sino de la existencia misma de la institución que conforma la acusación popular, constitucionalizada hoy en el art. 125 de nuestra Carta Magna , lo que repite el art. 19 de la Ley Orgánica del Poder Judicial, pero evidentemente ya instaurada lejanamente, al menos desde la vigente Ley de Enjuiciamiento Criminal, de 14 de septiembre de 1882. En efecto, ya en ésta, y desde hace mucho más de un siglo, el art. 101, disponía y dispone que "la acción penal es pública", y que "todos los ciudadanos españoles podrán ejercitarla con arreglo a las prescripciones de la ley", e incluso por los extranjeros en los casos citados. Correlativamente, el art. 270 de la Ley de*

Enjuiciamiento Criminal, nos dice: "todos los ciudadanos españoles, hayan sido o no ofendidos por el delito, pueden querellarse, ejercitando la acción popular establecida en el art. 101 de esta ley". Esa fórmula en que se concreta la mención del "particular querellante", referida sin duda a la acusación popular, que no particular estrictamente, es la qu e ha originado que la ley procesal adjetiva no se exprese con todo el rigor debido a lo largo de su articulado, cuando lo que quería decir era acusador popular, llamándole en cambio "Los acusadores populares pueden solicitar diligencias probatorias, asistir a los actos de instrucción sumarial con plenitud de derechos y obligaciones procesales, y verificar peticiones, tanto en la fase intermedia del proceso penal, como durante el desarrollo del juicio oral, no vulnerándose nunca el principio acusatorio por parte del Tribunal sentenciador, aunque solamente la acusación popular hubiera mantenido determinada pr etensión punitiva en conclusiones definitivas. Del propio modo, pueden ejercitar cuantas acciones impugnatorias por vía de recurso les conceda la ley, como cualquier otro acusador, público o privado. Incluso pueden velar por la imparcialidad del Tribunal sin restricción alguna, pudiendo recusar a sus miembros... *Y es más, pueden incluso perseguir penalmente a jueces y magistrados".*

Si se citan todos esos artículos de nuestro ordenamiento jurídico procesal, es para dejar clara una idea: en ninguno de ellos, ni en toda la Ley de Enjuiciamiento Criminal, se encuentra uno solo que limite los poderes de disposición y actuación de la acusación popular, por razones de fondo, como poder de disposición dife renciado de las demás acusaciones, públicas o privadas. Entonces, surge la pregunta: ¿cómo es posible que el precepto debatido, el art. 782.1 de la Ley de Enjuiciamiento Criminal, suponga precisamente una limitación tan sustancial a la actuación de la acusación popular? Entenderlo así, no puede ser conforme a derecho ".

"Lo propio ocurre ya en el curso del juicio oral. Si la acusación pública o particular, retiran su pretensión punitiva, no hay problema para el plenario siga adelante con sólo la acusación popular. Entonces, ¿cómo es posible que con anterioridad no tenga esa misma facultad jurídico-procesal? Deviene así una interpretación que choca contra todos los principios procesales, y que sencillamente no puede sostenerse. De manera que si eso quiso decir la ley, para nosotros tendría que haberlo especificado de manera tajante, sin emboscadas ni expresiones de dudoso entendimiento, y aún así, bien podría plantearse la cuestión previa ante el Tribunal Constitucional, por estar cercenando derechos constitucionales, que en modo alguno resultan de una clara lectura de nuestra Carta Magna".

"Y siguiendo con el asunto que nos ocupa, la STS 851/2006, de 5 de julio, nos lo vuelve a repetir con distintas palabras: "A diferencia de otros sistemas (Francia o Italia), en LECrim. no rige el principio del

monopolio del Ministerio Fiscal en cuanto al ejercicio de la acción penal. El artículo 101 LECrim. consagra el principio de la acción popular (artículo 125 CE), en cuanto la acción penal es pública y todos los ciudadanos españoles podrán ejercitarla con arreglo a las prescripciones de la Ley, es decir, sean o no ofendidos por el delito. A su vez, el artículo 270 LECrim., establece que todos los ciudadanos españoles, hayan sido o no ofendidos por el delito, pueden querellarse, ejercitando la acción popular establecida en el artículo 101 de esta Ley, incluso los extranjeros por los delitos cometidos contra su persona o bienes. La acción de los particulares, pues, concurre con la oficial, que sólo se excluye en los casos enumerados en el artículo 104 LECrim. Como consecuencia de ello, formalmente el acusador particular es parte principal, no siendo coadyuvante sino litisconsorte en relación con el Ministerio Fiscal, de forma que en relación con la actividad procesal, apertura del juicio, determinación de su objeto o presupuestos de la condena, la acusación particular se encuentra en situación de igualdad, estando regulada por los mismos requisitos que la oficial representada por el Ministerio Fiscal".
"De no seguirse la interpretación que se propone, esta Sala, desde luego, deberá precisar el alcance de la expresión "ofendidos o perjudicados" por el delito, que dará lugar a la consideración en concepto de personación como acusación particular, y no como popular. Y ello porque contar con tal consideración procesal, será la clave para el acceso al trámite controvertido, pudiendo solicitar la apertura del juicio oral, o el sobreseimiento. En efecto, no siempre es fácil de determinar cuál es el concreto ofendido o perjudicado por el delito, sobre todo en función de aquellos delitos cuyo bien jurídico protegido no es la vida, integridad física, honor, libertad o patrimonio de un particular, sino cuando se trata de intereses difusos o colectivos. ¿Quién es el perjudicado por un delito contra la Administración Pública: solamente el Abogado del Estado, solamente el particular afectado por la resolución prevaricadora, o todos los ciudadanos? ¿Quién es el afectado por un delito medioambiental? ¿Quién respecto a un delito contra la defensa nacional? ¿Quién en un delito contra la salud pública, cuando la jurisprudencia reiteradamente declara que no se puede confundir con la salud individual de cada uno de los destinatarios de las sustancias? Y por fin, ¿quién es el ofendido en un delito contra la Hacienda Pública? ¿Solamente el Abogado del Estado, como representante del Erario Público? ¿Hacienda no somos todos? Téngase en cuenta que los intereses difusos en la sociedad deben ser protegidos por la acción popular, como fue reconocido en Sentencia de esta Sala, la 751/1993, de 1 de abril, bajo el argumento de que "en el caso concreto estudiado se ha sacrificado efectivamente un bien jurídico, no de persona individual, pero sí de sociedades concretas, como la que ha ejercitado la acción popular, y de la sociedad en general…"

En parecido términos emitió voto particular el Excmo. Sr. D. Joaquín Delgado García.

Lo mismo el Excmo. Sr. Don Perfecto Andrés Ibáñez de cuyo voto particular es de destacar: *"Así, en el supuesto contemplado, es decir, cuando el perjudicado-acusador particular y el Ministerio Fiscal instasen el sobreseimiento de la causa en los términos que allí se dice, el acusador popular interesado en la apertura del juicio oral quedaría reducido a la irrelevancia, eclipsándose como parte procesal en ese momento del trámite. Para llegar a esta conclusión, la sala de instancia se sirve de un singular patrón interpretativo de corte microliteralista, que opera por deconstrucción del vigente orden procesal penal en uno de sus aspectos más caracterizadores. En efecto, pues empieza por restringir el marco legal a unos pocos enunciados que selecciona oportunamente de algunos de los artículos reguladores del procedimiento abreviado; y, al fin, termina reduciendo el que es un referente normativo complejo a la única disposición primero citada".*

"*Pero lo cierto es que cabe otra inteligencia de este orden normativo: la sostenida de manera regular a lo largo de más de un siglo por la doctrina procesalista y los tribunales. E incluso por el Ministerio Fiscal, antes de su llamativo cambio de actitud con ocasión de este asunto. En el que -sumando atipicidades- concurre también un desacostumbrado modo de operar del Abogado del Estado, cuya renuncia al ejercicio de la acción, ciertamente inusual, le obligaba a dejar la causa pero no a asumir en ella la paradójica posición de oficioso coadyuvante de la defensa. Pues, en el proceso penal, el acusador particular no tiene más alternativa que permanecer como tal o retirarse: tertium non datur".*

"*Por acusador particular se conoce en nuestro derecho, de manera indistinta, al portador de un interés particular o personal y a quien hace uso de la acción popular"*.

"…*la opción de ejercitar la acción penal está universalmente asociada a la calidad de ciudadano español (art. 101 Lecrim.) Salvo, es obvio, en aquellos pocos supuestos en que la ley la reserva a los ofendidos por el delito. Todo, porque, en nuestro sistema: "La acción penal es pública" (art. 101). Y esta connotación ontológica preside todo su tratamiento legal. E impone el único modo de lectura autorizado del resto de las normas procesales vigentes en la materia, incluidas las del procedimiento abreviado. Es una cuestión de sistema, que hace que una acción que es pública por definición, no cambie de naturaleza (para hacerse no-pública) sólo por el carácter no-institucional del sujeto que la promueve".*

"…la petición de todas las partes acusadoras solicitando el sobreseimiento vincula al juez, que debe acordarlo. La petición de juicio oral de alguna de las partes impide que el juez acuerde el sobreseimiento, aunque otras partes acusadoras lo soliciten".

"*Por todas estas consideraciones, resulta obligado concluir que la peculiar e innovadora interpretación que, a instancia del Fiscal, ha llevado a cabo la Sección Primera de la Audiencia Nacional en este asunto, no sólo comporta*

una esencial ruptura del sistema de la Ley de Enjuiciamiento Criminal, que, desde luego, no tiene justificación en ésta ni en ninguna otra norma, sino que además, conduce directamente al absurdo".

"El modelo de Estado constitucional de derecho, al que responde el español actual, no parte de un (a mi juicio inexistente) principio de confianza en las instituciones, sino, al contrario, de un sano principio de desconfianza frente a todo ejercicio de poder, patente en la previsión de un complejo sistema de controles; en la articulada oposición de toda una serie de dispositivos de garantía junto/frente a las distintas expresiones de aquél. Así, por poner un ejemplo bien próximo, en el caso de la jurisdicción, con el establecimiento del deber de justificar de forma explícita las decisiones; precisamente, porque su bondad y su legitimidad no se presumen sólo por la calidad institucional del emisor y la regularidad del trámite. Por eso, y para el asunto que nos ocupa, la incorporación de la acción popular a nuestro ordenamiento es una elocuente manifestación de tal sana desconfianza, en este caso frente al Fiscal, al que, si fuera de otro modo, no se habría escatimado el monopolio de la iniciativa de la persecución en el campo penal".

"La opción, acogida primero en el art. 101 Lecrim y ahora también en el art. 125 CE -aunque sea una singularidad española- goza de un fundamento inscrito en la raíz misma de la vigente forma estatal. Y de su rendimiento habla toda una nutrida fenomenología empírica, histórica y actual, acreditativa de la, tan demostrada como indeseable, universal exposición y permeabilidad del Ministerio Público a las sugestiones y contingencias de la política en acto, en perjuicio de la (que debería ser) exclusiva sujeción a la legalidad. Es cierto que la acción popular también está expuesta a posibles usos espurios, de los que asimismo hay sobrados ejemplos. Pero, aparte de que éstos podrían/deberían conjurarse en buena medida mediante el control judicial de su ejercicio, no cabe ignorar que es merced a éste como en nuestro país ha sido posible la persecución de un significativo número de acciones criminales imputables a sujetos públicos".

"Así, tanto por la aludida razón de principio como por buenas razones de experiencia, aún con todos los riesgos (insisto que en buena medida conjurables), la acción popular es una institución benemérita, esencial para suplir vacíos -nada hipotéticos- de iniciativa institucional en la persecución penal, cuya relevancia como factor de "salud pública" justifica el trato dado a la misma por el legislador histórico y por el constituyente.

"Con el resultado de producir una suerte de constructo autocontradictorio, que da con una mano la iniciativa procesal autónoma que luego quita con la otra, en el momento de la apertura del juicio oral. En casos como éste, cuando más cuenta, pues, en efecto, si la acción popular responde, como responde, a la finalidad que acaba de ilustrarse, nunca tendría mayor sentido su actuación que ante la cuestionable renuncia a mantener la acción penal por parte de los sujetos institucionales que tienen atribuida por ley esa función".

"…situar en el punto de partida del trabajo interpretativo la lectura aislada

de una expresión, haciéndola significar en su aislamiento; y enfrentar luego el significado así obtenido con el que resultaría de atender al contexto en el que la misma se inscribe, es una manera técnicamente incorrecta y nada rigurosa de proceder".

El Magistrado Excmo. Sr. Don José Manuel Maza Martín también se sumó a la discrepancia y así entre sus argumentaciones son de trasladar las siguientes:

"…*podríamos estar consagrando la vulneración de esa tutela judicial efectiva al no exigir mayor motivación para desestimar la pretensión del acusador, respecto de la solicitud de apertura del Juicio oral, que la mera cita del precepto procesal así interpretado".*

"*¿Quién en lo sucesivo se tomará la molestia de constituirse como Acusación Popular, con las dificultades y enojos que ello conlleva, sabiendo que en un momento decisivo del procedimiento, con efectos absolutamente letales para el discurrir de éste, su posición procesal resultará por completo ineficaz?".*

"…*va a suponer a partir de ahora un tratamiento para la Acusación Popular, dentro de ese Procedimiento Abreviado, distinto del que ésta misma goza en el Sumario Ordinario, provocando, de paso, un inexplicable caso más de esquizofrenia procesal, para unirse a la cada vez más crecida lista de supuestos de esta clase que va ofreciendo paulatinamente nuestro fragmentado ordenamiento".*

"*Si se me apura aún más, en el presente caso resultaría incluso discutible negar, desde el estricto punto de vista de la coherencia del sistema y de la justicia material a él vinculada, la legitimación para obtener la apertura del Juicio oral, que eso es lo que en definitiva se está acordando, a quien, aún con los ropajes procesales del Acusador Popular, está ejercitando su derecho como contribuyente, de manera por tanto tan próxima a la de un verdadero perjudicado, frente a quienes sostienen que podrían haber defraudado a la Hacienda Pública nada menos que más de 2.500.000.000 de euros.*

"*La respuesta parece ser, en criterio de la mayoría, la de que su pretensión no ha de valer nada, y sí quedar anulada por el criterio en contrario del Ministerio Fiscal y de la Abogacía del Estado, ésta última en tanto que representación de esa Hacienda Pública. Cuando si bien se ve, tendría que ser precisamente en estos casos en los que el derecho a acusar ejercido por uno, o varios ciudadanos, discrepantes de instituciones tan respetables como el Fiscal o el Abogado del Estado, más debería hacerse valer, a la vista del inequívoco espíritu que movió al autor del artículo 125 de nuestra Constitución , pues si partimos de una confianza absoluta en que organismos tales como el Ministerio Fiscal o el propio Ejecutivo, superior jerárquico en definitiva de los Servicios jurídicos del Estado, son plenamente suficientes para adoptar la correcta decisión acerca de la procedencia o no de la solicitud de apertura del Juicio oral, lo que en realidad nos estaríamos planteando es la conveniencia de la existencia misma de la Acusación Popular".*

"No se nos ocultan, antes al contrario conocemos perfectamente los excesos y abusos cometidos por medio de esta institución, en búsqueda ocasionalmente no de la realización de la Justicia sino de intereses personales o particulares espurios e, incluso, hasta inconfesables, pero, al margen de que la experiencia nos ha demostrado que ambos objetivos no resultan siempre incompatibles, lo cierto es que la solución para todo ello habría de venir de la mano de una más precisa regulación legal de esta materia, que intente poner remedio a tales usos indeseables, y no por la vía de cercenar las posibilidades de un instituto procesal que, no lo olvidemos tampoco, en tantas ocasiones vino a resultar en la práctica el único mecanismo a la postre eficaz para posibilitar el enjuiciamiento y condena de gravísimos hechos cometidos en este país, que están aún hoy en la mente de todos".

"Tengamos presente que en este caso concreto, fuera válido procesalmente o no el presupuesto acusatorio, lo cierto es que la Instructora de la causa se pronunció en el sentido de considerar que sí que había fundamento bastante, a la vista del resultado de las pruebas practicadas, para proceder a la apertura del Juicio oral por la posible existencia de conductas delictivas, en una Resolución motivada y posteriormente revocada por el Auto de la Sala, con el acuerdo de sobreseimiento que es objeto del presente Recurso".
"¿Querría decirse acaso que la Acusación Popular sólo puede tener presencia realmente efectiva en aquellos procedimientos en los que no hay Acusación Particular?". "Pues parece que eso no es lo que dice el artículo 125 de la Constitución Española, ni las normas reguladoras del Procedimiento Ordinario ni el propio precepto analizado".
"…de impedirse no por un pronunciamiento de sobreseimiento de fondo, sino por una cuestión relativamente formal, como en este caso acontece, el enjuiciamiento de los hechos, a los imputados se les está privando de esa oportunidad de demostrar su inocencia y de evitar, al margen de consideraciones jurídicas sobre la inocencia que siempre ha de presumírseles, el oneroso estigma social de la sospecha permanente sobre su posible comportamiento criminal sustraído al enjuiciamiento".
Quien también se suma al alzamiento contra el voto de la mayoría es el Magistrado Excmo. Sr. Don Miguel Colmenero Menéndez de Luarca quien se expresa en los siguientes particulares:
"…establecida con carácter general en el proceso penal de la LECrim la posibilidad de la acción popular, las limitaciones a su ejercicio deben ser solamente las que resulten de la ley".
"En este sentido debe tenerse en cuenta que ni la Constitución ni la LECrim establecen directamente ninguna limitación a la acusación popular una vez que ha sido tenida por parte en el proceso de que se trate. En ningún caso, y este aspecto se relaciona con el principio de celeridad del proceso, se le impone el sostenimiento de las mismas pretensiones que mantienen el Ministerio Fiscal o la acusación particular, ni se limita su actuación por el

hecho de que aquéllos ya concurran efectivamente en el proceso con una pretensión de castigo".

"Tampoco, en ningún caso, las consideraciones constitucionales al derecho de defensa conducen a situar directamente a la acusación popular en una posición subordinada a otras acusaciones, impidiéndole acusar si alguna de éstas no lo hace o imponiéndole la adhesión a las tesis de las ya formuladas".

"Por otro lado, la jurisprudencia del Tribunal Constitucional se ha mostrado en contra de una interpretación restrictiva (por todas STC 311/2006) de las condiciones de ejercicio de la acción popular una vez que ha sido establecida con carácter general para un determinado proceso o clase de proceso".

'Y en mi opinión, la interpretación según la cual el artículo 782.1 contiene una enumeración cerrada que excluye a la acusación popular, no es posible".

"En primer lugar porque solamente resultaría de una interpretación literal del artículo 782.1, que además se efectúa considerándolo aisladamente respecto de los demás preceptos de la LECrim, incluso de aquéllos que son coetáneos del anterior al haber sido también redactados por la misma ley que modificó la procesal, la Ley 38/2002 ".

"...no puede dejar de tenerse en cuenta que cuando la ley ha optado por la expresión el Fiscal y el acusador particular en el artículo 782.1, lo hace manteniendo al ti empo otros preceptos que, empleando los mismos términos, no admiten esa int erpretación literal " .

"...es cuestionable que, en el marco general de la regulación, la obtención de una mayor celeridad, cuando ni siquiera en la tramitación de los juicios rápidos, regulados asimismo en la Ley 38/2002, se excluye su presencia e intervención junto al Ministerio Fiscal y la acusación particular, y cuando, además, en caso de concurrir otras acusaciones no se imponen limitaciones a su ejercicio".

"Finalmente, es preciso record que la decisión final acerca de la apertura del juicio oral, es decir, el control acerca de la continuación del proceso cuando existe alguna acusación, o dicho de otra forma, la garantía d e que el juicio oral no se abrirá caprichosa o arbitrariamente o solamente a causa de intereses privados absolutamente des conectados de cualquier consideración hacia el interés públi co, o incluso contrarios al mismo, no se atribuye en la Ley al Ministerio Fiscal ni a la acusación parti cular, sino al Juez, cuya posición en el proceso está presidida por otros principios, y caracterizada muy especialmente por la independencia. Es por eso, que la acusación formalizada por la acción popular, en ningún caso determinará por sí sola, la apertura del juicio oral, pues será preciso que el órgano jurisdiccional al qu e compete la decisión la considere racionalmente justificada".

Otro discrepante con la decisión mayoritaria fue el Excmo. Sr. Don Luciano Varela Castro. Son planteamientos del mismo que este proveyente resalta como de mayor interés para el caso que nos ocupa, sin merma de

los restantes, los que a continuación siguen:
"...*independientemente de que podría el legislador diversificar dicho estatuto de parte del acusador popular, ni es posible citar un ejemplo de disposición en que lo hiciera, ni se encuentra en la doctrina procesal afirmación alguno de supuestos de diferencia entre el trato legal dad o al acusador particular en relación con el popular".*
'*Por primera vez en la historia procesal española, en lo que se refere a la perspectiva de lege data, se suscita con esta sentencia un caso en el que los derechos y cargas procesales del acusador popular se cercenan en relación con el elenco reconocido respecto del acusador ofendido por el delito ".*
"*La doctrina procesal ha mantenido siempre que, en lo que concierne a la apertura del juicio y determinación del objeto, la acusación no oficial (particular o popular) tiene idéntico valor y está regulada por análogos requisitos que la oficial ".*
'*Y desde luego, a tal invocación jurisprudencial, no le avala ningún cambio legislativo. Como con ac ertada exactitud reflejaba la ponencia inicial, y ahora su voto particular, el texto de la Ley de Enjuiciamiento Criminal ha permanecido absolutamente incólume en lo que aquí interesa, pese a su reforma por ley 38/2002".*
"*Es verdad que, si el art. 782.1 de la Ley de Enjuiciamiento Criminal se refiriese solamente al acusador particular ofendido por el delito, el sobreseimiento sería ineludible aunque hubiese acusador particular no ofendido. Pero la cuestión, en la que discrepo de la mayoría, no es ésa. Es, cabalmente, si la voz "particular" en aquel precepto expresa también, como creo, o no, como dice la mayoría, al acusador no ofendido ni perjudicado por el delito".*
"*La Jurisprudencia ha sido constante en proclamar que el acusador popular puede ser el único mantenedor de acusación que justifique la apertura del juicio oral, cualquiera que sea la posición adoptada por las demás partes*".

"*Dijo entonces, en efecto, este Tribunal en relación con la calificación de "adhesiva" que la Audiencia, no el Supremo, había conferido a la acusación popular que "..queda fuera de toda duda que dicho ejercicio tanto para los perjudicados como para los que no lo son es autónomo y con plenitud de facultades, por tanto independiente del ejercicio de esa acción por parte del Ministerio Fiscal*".
"*Desde luego en la reciente Sentencia núm. 168/2006 de 30 de enero se reiteró esa doctrina jurisprudencial, en tal particular mantenida sin que jamás presentase una sola fisura. Así se rechaza el recurso que se fundaba en "...haberse permitido el ejercicio de la acción popular contra Jon tras la petición de sobreseimiento por el Ministerio Fiscal; y haberse acordado la apertura del juicio oral a instancia ún icamente de la acusación popular,..." estimando entonces que ello, permitido por la ley procesal, no conculcaba ni el derecho a la tutela judicial, ni a un proceso con todas las garantías ".*
"*La conclusión que vengo defendiendo -admisión de la posibilidad de que el*

acusador popular mantenga posición diversa de la de las demás acusaciones, públicas o privadas- se ve reforzada por la doctrina del Tribunal Constitucional cuando salva la constitucionalidad del art. 113 de la Ley de Enjuiciamiento Criminal"

'Pues bien, si esa es la doctrina constante, sin fisuras , de este Tribunal, la abrupta ruptura, que la nueva decisión implica en tal precedente doctrina, exige, a mi modesto entender: a) Que se deje clara constancia de que tal ruptura tiene lugar; y b) Que se den buenas razones que sustituyan a las que antes avalaban lo contrario".

"Suponer que, cuando el art. 782.1 de la Ley de Enjuiciamiento Criminal dice que el Juez acordará el sobreseimiento, cuando sea solicitado por el Ministerio Fiscal y el acusador particular, esta palabra tiene, en el lenguaje del legislador, el mismo significado atribuido por la doctrina, que lo diferencia de popular, carece de fundamento. En efecto, a mi modesto entender, el lenguaje de la Ley de Enjuiciamiento Criminal desconoce tal diferenciación".

Tan cualificadas discrepancias, que sin duda debieron en vano intentar ser disuadidas en el proceso deliberante y que en lo no trasladado, por razones de economía, a la presente resolución no ven disminuida su contundencia, no impidieron que la voluntad mayoritaria prosperara y con ello que se diera luz a la sentencia que se comenta cuya aplicabilidad al caso que ahora nos ocupa, sin contemplar la trascendencia de otra posterior de la que más adelante se hablará, es más que discutible.

El artículo 1º del Código civil, después de decir que las fuentes del Ordenamiento Jurídico español son la ley, la costumbre y los principios generales del Derecho, da entrada a la jurisprudencia como complementadora de aquél a través de la doctrina que, de modo reiterado, establezca el Tribunal Supremo al interpretar y aplicar la ley, la costumbre y los principios generales del derecho.

Por lo tanto, no es cuestionable el valor que como fuente complementaria del derecho tiene la doctrina emanada de nuestro Tribunal Supremo. Sin embargo, la sentencia de la Sala Segunda de nuestro Tribunal Supremo Nº 1.045, de 17 de diciembre de 2.007, fue la primera dictada quebrando una rancia trayectoria del mismo Tribunal que sin fisuras venía atribuyendo legitimación a la Acusación Popular para interesar con éxito y en solitario la apertura del Juicio Oral. Así pues, habrá que esperar a conocer, primero, qué grado de reiteración ha obtenido el criterio interpretativo sentado en la misma ya que una sola sentencia, por muy ilustrativa que pudiere resultar, no crea jurisprudencia, que sólo se obtiene cuando ese criterio es favorablemente acogido, cuando menos, por otra ulterior, y en segundo lugar procede determinar qué identidad, similitud o analogía guarda el caso que ahora nos ocupa con el en aquélla resuelto que haga adivinable que, llegado el caso a su sometimiento a casación por infracción de ley o doctrina legal, será resuelto en el mismo sentido.

Abordando prioritariamente por razones de método la segunda cuestión, se aprecia que entre el supuesto de autos y el en la cita contemplado

existen serias diferencias:

Así, en el llamado caso "Botín" formalmente no existía perjudicado ya que quien ostentaba la defensa de tal posición, la Abogacía del Estado, se desentendió de todo perjuicio y solicitó el sobreseimiento libre de la causa por entender que los hechos no eran constitutivos de delito. En el caso que ahora se trata la Abogacía del Estado sí que se estima perjudicada, sí que ejercita la acción penal y consecuentemente interesa la apertura del juicio oral, haciéndolo justamente por dos delitos de fraude a la Hacienda Pública, que son precisamente de los que acusa a Don Iñaki Urdangarín Liebaert; y similar planteamiento hace el Ministerio Fiscal.

El supuesto al que el artículo 782.1 prestaba su apoyo, que era el de "si el Ministerio Fiscal y el acusador particular solicitaren el sobreseimiento de la causa…" difiere sustancialmente del que ahora se contempla, en el que ni el primero ni el segundo instan que se aborte el procedimiento. Ello quiere decir que la continuación de la causa a través de la apertura del juicio oral en el caso "Botín" se cuestionaba que pudiera quedar abandonada, si así se le quería llamar, a la iniciativa del Acusador Popular, pero ello no así en el presente en que, al no haber quedado satisfecho el interés social y el individual, aún sin la intervención de quienes teóricamente se presentaran como sus exclusivos paladines, indefectiblemente se produciría la apertura del juicio oral si bien con una extensión subjetiva algo distinta ya que la Agencia Estatal de Administración Tributaria, que se atribuye la cualidad de perjudicada, elige, no en el ámbito tributario administrativo lo que podría ser una apreciación lógica, sino penalmente y a su capricho a las personas que habrán de responder por ello excluyendo inexplicablemente a otras que, tanto por este proveyente como por la propia Sección Segunda de la Iltma. Audiencia Provincial, se han estimado indiciariamente cooperadoras necesarias a su comisión.

Si el legislador, según la sentencia 1045/2007, pretendía dotar de celeridad a un proceso pensado para delitos de escasa gravedad y de sencilla tramitación, y por esa razón eliminó, según se dice, la posibilidad de que se abriera el juicio oral con la sola petición de la Acusación Popular, en el caso de autos, en que el juicio irremediablemente tendrá lugar y siendo de compleja ejecución los delitos cometidos, no se adivina qué ahorro temporal se obtendría apartando a la Acusación Popular.

En este mismo sentido viene a pronunciarse el eminente jurista Don Enrique Gimbernat cuando dice, *"La mencionada sentencia del TS argumenta a favor de la doctrina Botín que, teniendo en cuenta que el procedimiento abreviado tiene como finalidad –frente al procedimiento ordinario, cuyas reglas se aplican a los delitos sancionados con pena superiores a los nueve años de prisión– imprimir al proceso la mayor rapidez posible, «estando satisfecho el interés social [representado por el MF] y el interés del perjudicado por el delito, está también justificado que se adopten medidas de celeridad ». Pero si este argumento tiene algún sentido, sólo es aplicable al supuesto de hecho de la STS 1045/2007, en el que el MF y el abogado del Estado solicitaron –y obtuvieron– el*

sobreseimiento de la causa y, con ello, la no celebración del juicio oral, pero pierde toda su fuerza de convicción –si es que alguna vez la tuvo– en el asunto Nóos, donde en cualquier caso se van a juzgar los dos delitos fiscales supuestamente cometidos por Urdangarín"

En palabras del propio Tribunal Supremo: *"Es cierto que la aplicación de la doctrina jurisprudencial sentada en anteriores precedentes resulta obligada. Pero también lo es que para que esa vinculación sea efectiva, es indispensable una identidad entre el objeto de ambos recursos. De lo contrario, si aceptáramos la forzada extensión aplicativa de una doctrina jurisprudencial concebida para supuestos diferentes, estaríamos quebrantando el significado mismo del precedente".*

El Ministerio Fiscal resta importancia a estos matices cuando, aludiendo a la reflexión que hizo la Sección 2ª de la Iltma. Audiencia Provincial en su Auto de 7 de noviembre pasado, argumenta que el sobreseimiento del artículo 782 LECrim comprende, sin matices ni distinciones, tanto el sobreseimiento total de la causa como el sobreseimiento parcial con relación a persona determinada".

El Catedrático de Derecho Penal de la Universidad Complutense de Madrid, Don Enrique Gimbernat Ordeig, que, aún cuando su opinión no sea dogma de fe, no deja de ser una consensuadamente muy autorizada, dice en un artículo publicado recientemente y a propósito del anterior comentario del Ministerio Fiscal, lo siguiente:

"*Contra esto hay que decir que "causa", en el sentido de la LECrim, son todas las actuaciones dirigidas al esclarecimiento de un determinado delito, tanto si en ellas aparecen imputadas, inculpadas o acusadas una o varias personas, y que, en consecuencia, cuando el sobreseimiento es total –es decir, afecta a todas las personas contra las que se ha dirigido la acción penal-, lo que se sobresee es la causa, mientras que, si es parcial, la causa no se sobresee, sino que sigue viva para todos aquellos que no han sido sobreseídos parcialmente. Y así, el art. 634, párr. segundo LECrim. caracteriza al "sobreseimiento total" porque "se archiva la causa". Y, por su parte, en los casos de sobreseimiento total del art. 637.1º y 2º -porque bien el hecho no se ha perpetrado, bien no constituye delito- el art. 638 establece que "podrá declararse, al decretar el sobreseimiento, que la formación de la causa no perjudica a la reputación de los procesados", precepto que sólo es posible entender en el sentido de que por causa (sobreseída) se entienden todas las actuaciones practicadas para el esclarecimiento de un determinado delito y dirigido contra todas las personas contra las que en un principio se ejerció la acción penal. En cambio, en los casos de sobreseimiento parcial, como la causa sigue viva, la causa no se sobresee, sino que continúa en vigor para todos aquellos que no se han beneficiado de tal sobreseimiento, tal como establece el art. 640 LECrim, según el cual: "En el caso 3º del artículo 637, se limitará el sobreseimiento a los autores, cómplices o encubridores que aparezcan indudablemente exentos de responsabilidad criminal, continuándose la causa respecto a los demás que no se hallen en igual caso".*

Aún así, no está de más despejar la primera cuestión, es decir saber si la trayectoria marcada por la sentencia de la Sala 2ª del Tribunal Supremo Nº 1.045/2.007, de 17 de diciembre, se ha mantenido con posterioridad, es decir si alguna otra sentencia de la misma Sala la ha acogido en su seno y con qué matizaciones, y en esta labor nos situamos ante la sentencia Nº 54/2.008, conocida vulgarmente como Caso Atutxa, dictada por la Sala 2ª del Tribunal Supremo en fecha 8 de abril de ese año, que con carácter previo a la resolución del recurso de casación interpuesto por la Representación Procesal del Sindicato Colectivo de Funcionarios Públicos "Manos Limpias" contra la sentencia dictada por la Sala de lo Civil y Penal del Tribunal Superior de Justicia del País Vasco, absolutoria por delito de desobediencia, y que sustancialmente enjuiciaba la negativa de la Mesa del Parlamento Vasco a decretar la disolución del Grupo Parlamentario Araba, Bizkaia ETA Guipuzkoako Sozialista Abertzaleak, tal como había sentenciado en firme la Sala Especial prevista en el artículo 61 de la Ley Orgánica del Poder Judicial en fecha 23 de marzo del 2003, le instó a que se pronunciara acerca de la influencia que frente a la apertura del juicio oral, acordada por el Juez Instructor con el exclusivo respaldo de la petición de la Acusación Popular, podría desplegar la doctrina sentada en la aludida sentencia 1045/2007.

Así lo hizo el Tribunal Supremo señalando a este respecto que el criterio de la legitimidad de la restricción fijada por el art. 782.1 LECr, no podía extenderse ahora, como pretendían la defensa de los recurridos y el propio Ministerio Fiscal, a supuestos distintos de aquéllos que explicaban y justificaban su doctrina.

Prosigue la sentencia: *“En definitiva, la solicitud de aplicación de la doctrina fijada en nuestra anterior sentencia 1045/2007 exige tomar como punto de partida la diferencia entre el supuesto que allí fue objeto de examen y el que ahora motiva nuestro análisis. Y es que sólo la confluencia entre la ausencia de un interés social y de un interés particular en la persecución del hecho inicialmente investigado, avala el efecto excluyente de la acción popular. Pero ese efecto no se produce en aquellos casos en los que, bien por la naturaleza del delito, bien por la falta de personación formal de la acusación particular, el Ministerio Fiscal concurre tan solo con una acción popular que insta la apertura del juicio oral. En tales casos, el Ministerio Fiscal, cuando interviene como exclusiva parte acusadora en el ejercicio de la acción penal, no agota el interés público que late en la reparación de la ofensa del bien jurídico”.*

“Si el Fiscal insta el sobreseimiento, condicionar la capacidad de la acción popular para obtener la apertura del juicio oral a una previa petición coincidente con la suya, emanada del perjudicado por el delito, conduce a situaciones imprevisibles. De entrada, convierte el hecho contingente de la presencia o ausencia del perjudicado en el proceso, en un presupuesto habilitante para que una de las partes pueda desplegar todas las posibilidades inherentes a su estatus. Además, otorga la llave del proceso a

una parte que, por definición, puede no estar presente en ese mismo proceso, hecho inevitable cuando se trata de la persecución de delitos que afectan de modo especial a intereses supraindividuales. Y es precisamente en este ámbito en el que se propugna el efecto excluyente, donde la acción popular puede desplegar su función más genuina. Tratándose de delitos que afectan a bienes de titularidad colectiva, de naturaleza difusa o de carácter metaindividual, es entendible que el criterio del Ministerio Fiscal pueda no ser compartido por cualquier persona física o jurídica, que esté dispuesta a accionar en nombre de una visión de los intereses sociales que no tiene por qué monopolizar el Ministerio Público".

"La tesis sugerida por la parte recurrida y el Ministerio Fiscal, tampoco es ajena a importantes problemas prácticos que, en el fondo, son expresión bien elocuente de la ausencia de una aceptable fundamentación técnica para el efecto excluyente de la acción popular".

"De aceptar esa solución que transforma a la acción popular en una parte subordinada, no resultaría fácil, por ejemplo, resolver aquellos supuestos en los que el perjudicado que accede a la llamada del Juez instructor, interesa la apertura del juicio oral por delitos distintos de aquéllos por los que pretende formular acusación el actor popular".

"Tampoco resuelve aquellos otros casos en los que la acusación particular solicitara un sobreseimiento parcial, en discrepancia con el criterio del acusador popular, que podría estar interesado en acusar a todos los imputados".

Por tanto, nuestro criterio de la legitimidad de la restricción fijada por el art. 782.1 de la LECrim no puede extenderse ahora, como pretenden la defensa de los recurridos y el Ministerio Fiscal, a supuestos distintos de aquéllos que explican y justifican nuestra doctrina".

Lo que se acaba de trasladar no son fragmentos de votos particulares discrepantes, aunque también los hubo, sino la nueva doctrina emanada de la Sala Segunda del Tribunal Supremo que avalaba que en tales supuestos la acción popular estaba facultada para solicitar la apertura del juicio oral.

Este mismo criterio se reiteró en la sentencia Nº 8/2010, de 20 de enero, que forzosamente ha de hermanarse con la sentada en la sentencia 1045/2007, y ello sólo puede y debe hacerse en el sentido de que en los supuestos genéricos ha de aplicarse ésta mientras que en los específicos contemplados en la sentencia 54/2008 será la nueva doctrina interpretativa la que deberá regir.

Esto nos lleva a la necesidad de determinar cuáles habrán de ser esos singulares supuestos que constituirán la excepción. La sentencia 54/2008 los viene a clasificar en dos tipos: Los que se derivan de la propia naturaleza del delito a enjuiciar y los que encuentran su explicación en la falta de personación formal de la acusación particular entendida en sentido estricto. Ambos criterios son independientes de tal manera que no cabe exigir su acumulativa concurrencia y que esto es así lo evidencia el propio texto de la sentencia comentada.

La consecuencia a extraer es que si la naturaleza del delito por el que se

pretende abrir el juicio oral legitima al acusador popular para interesar su apertura, poco ha de importar que exista o no personado un acusador particular en sentido estricto.

La pregunta sobre qué tipos de delitos encajarían en esa legitimadora naturaleza nos la facilita la propia sentencia cuando dice: *"delitos que afectan a bienes de titularidad colectiva, de naturaleza difusa o de carácter metaindividual".*

De ahí resulta obligado plantearse si participan los delitos contra la Hacienda Pública de esa naturaleza.

Aunque ya la duda ofendería, el artículo 31 de la Constitución establece entre los deberes de los ciudadanos el de contribuir al sostenimiento de los gastos públicos.

La introducción en nuestro derecho del delito fiscal se produce por la Ley 50/1977, de 14 de noviembre, de Medidas Urgentes de Reforma Fiscal que, en sus artículos 36 y 37, aborda la implantación de una nueva figura delictiva que sirviera como instrumento eficaz para la represión penal del fraude tributario.

Ello no obstante, lo que se presentaba como un avance innovador en la configuración del delito fiscal quedó seriamente empequeñecido al atribuir el artículo 37 de esa misma Ley, a través del mecanismo de la prejudicialidad administrativa, únicamente a la Administración tributaria la iniciativa para promover la acción penal.

Este entuerto lo deshizo la Ley Orgánica 2/1985, de 29 de abril, de reforma del Código Penal en materia de delitos contra la Hacienda Pública que, al suprimir la prejudicialidad administrativa, configuró con ello el delito fiscal como público y, con ello, perseguible de oficio.

El artículo 103 de la Ley 31/1990, de 27 de diciembre, de Presupuestos Generales del Estado para 1.991 creó, integrada en las Administraciones Públicas Centrales y adscrita al Ministerio de Economía y Hacienda a través de la Secretaría de Estado de Hacienda, y con la denominación de «Agencia Estatal de Administración Tributaria», un Ente de Derecho Público de los previstos en el art. 6.5 de la Ley General Presupuestaria, con personalidad jurídica propia y plena capacidad pública y privada.

En el llamado «Documento para la Discusión del Plan estratégico de la AEAT», se dice que: *«En resumidas cuentas, la estrategia de la Agencia ha de perseguir la justificación social de la Administración tributaria mediante la calidad de su gestión y una visión dual presidida por el principio de conseguir, al mismo tiempo, un servicio a los contribuyentes y mayor profundidad en la lucha contra el incumplimiento tributario. La Agencia debería dar respuesta a un entorno que, junto a una necesidad de modernización y de afrontar el reto de la internacionalización de la economía española, con su incorporación al Mercado Único Europeo, incluirá una previsible demanda social generalizada tanto de simplificación tributaria en particular y de mejora de los servicios administrativos en general, como de una mayor igualdad tributaria mediante el control del incumplimiento fiscal».*

El 30 de junio de 2.005 se concierta un Convenio entre la Agencia Estatal de Administración Tributaria y la Secretaría de Estado de Justicia en materia de prevención y lucha contra el fraude fiscal y, fruto de ese Convenio, en diciembre del año siguiente se elabora lo que es dado en llamar Primer Informe del Observatorio Administrativo que hace su presentación con las siguientes citas: *"Los incumplimientos fiscales, no sólo perjudican los intereses de la Hacienda Pública* ***y con ello los de la mayoría de los ciudadanos, que cumplen sus obligaciones fiscales,*** *sino que también introducen un factor de competencia desleal en el sector en que se producen y, en resumen, en la economía española… el fraude fiscal, expresión de una profunda insolidaridad social…****El bien jurídico protegido no es sólo el Erario público entendido como el patrimonio de la Hacienda Pública, sino los valores constitucionales consagrados en el artículo 31.1 CE, incluido el justo reparto de la carga tributaria y el deber de lealtad de los ciudadanos con la Administración Pública*** *propia de un Estado social y democrático de Derecho".*

A pesar de tan contundente cita, consciente la Administración Tributaria de que estos principios no calarían fácilmente en el cuerpo social, se decidió a llevar a cabo unas amplias campañas institucionales de pretendida concienciación Tributaria entre las que habrá de ser resaltada, por ser un clásico del que se ha hecho un prolífico uso, las más de las veces cargado de ironía, la de que "Hacienda somos todos" y las muy recientes que cierran un diálogo con el eslogan oficial de la campaña: "Lo que tú defraudas, lo pagamos todos"

Esto fuerza a plantearse la naturaleza del delito contra la Hacienda Pública como atentado a un bien jurídico colectivo de interés general y que por tanto no vulnera un bien jurídico individual, que pudiera ser propio y exclusivo de la AEAT.

Se coincidirá en que, situados ante la evasión impositiva, cualquiera que sea la consecuencia que de ello se derive para el erario público, el perjudicado directo no es en puridad la Hacienda Pública por mucho que preste su nombre al Título XIV del Libro II del Código Penal.

Sobradas experiencias personales lo avalarían. Ante un determinado volumen de evasión fiscal, el Gobierno de turno, que ve disminuido sus ingresos, efectúa una automática compensación recortando los servicios públicos, aumentando la presión fiscal o, lo que es más frecuente, ambas cosas a la vez, pero en todo caso es el indeterminado colectivo de los ciudadanos el que se ve directamente afectado por el delito. Ello no es óbice a que sea la Agencia Estatal de Administración Tributaria quien, como gestora de los fondos públicos que los contribuyentes han puesto a su disposición, lleve a cabo los actos administrativos de comprobación y cuantificación del fraude, ejerza en su caso labores de auxilio a los Juzgados y Tribunales y, a través de la Abogacía del Estado, como no podía ser de otro modo, se persone como acusación particular al no poder hacerlo directamente los ciudadanos, a quienes les resultaría de imposible

cuantificación el perjuicio que para cada uno de ellos ha representado la picaresca fiscal pero que no por esa imposibilidad quedan privados de su condición de ofendidos.

Este criterio es asumido por el TS en sus sentencias de 27 de diciembre de 1990, 643/2005 y 774/2005.

Precisamente en este mismo sentido el Magistrado Excmo. Sr. D. José Manuel Maza Martín hace en su voto particular a la sentencia del Tribunal Supremo 1045/2007 una sabia reflexión que se vuelve a reproducir: *"Si se me apura aún más, en el presente caso resultaría incluso discutible negar la legitimación para obtener la apertura del Juicio oral a quien, aún con los ropajes procesales del Acusador Popular, está ejercitando su derecho como contribuyente, de manera por tanto tan próxima a la de un verdadero perjudicado…".*

Llegar a la conclusión de que en los delitos contra la Hacienda Pública el perjudicado, o el único perjudicado, es la Abogacía del Estado sería tanto como decir que ante un fraude del que fuera víctima una comunidad de propietarios el perjudicado sería su administrador y no aquéllos.

El Ministerio Fiscal ya anuncia en su escrito que una decisión como ésta quedaría anatematizada como una falta de respeto al principio de igualdad ya que entiende que *"no es sostenible que un ciudadano sometido a los Tribunales de Vizcaya no se exponga al Juicio Oral, y sometido a un Juzgado o Tribunal de Baleares no sólo se le abra juicio oral sino que además pueda ser condenado".*

Tal discurso admonitorio no puede ser compartido. En primer lugar se desconoce si el caso sometido a los Tribunales de Vizcaya es idéntico al que ahora se trata; en segundo lugar la independencia judicial conlleva la admisión de la posibilidad de sostener criterios distintos sobre cuestiones complejas (en esta Comunidad se posibilita que un Juez de Instrucción pueda recibir declaración en calidad de imputados a aforados autonómicos, posibilidad que no se da en otras y, sin ir más lejos el Ministerio Fiscal formula acusación contra quien fue Presidente de esta Comunidad Autónoma y no le ha sido posible hacerlo por hechos similares a quien lo fue de Valencia); en tercer lugar estaría por ver qué Tribunales serían los que tendrían que cambiar de criterio; y, por último, lo de que "además pueda ser condenado", parece que es una de las alternativas, no la única, por las que ha de pasar quienes por sus propios méritos se enfrentan a un juicio y que constituye su propia esencia .

Así pues, la conclusión de este debate no puede ser otra que la Representación Procesal del Sindicato "Manos Limpias" y la común de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia, están en el presente caso absolutamente legitimadas para acusar y postular la apertura del juicio oral frente a las personas en que lo han hecho con independencia de que de ello se hayan abstenido el Ministerio Fiscal, Abogacía del Estado

y Abogacía de la Comunidad Autónoma de las Illes Balears.
CUARTO.- En cuanto a las medidas cautelares se adoptarán a petición del Ministerio Fiscal y demás partes acusadoras las que se dirán en la parte dispositiva de esta resolución.
QUINTO.- Solicitada que ha sido la declaración de una posible responsabilidad civil respecto de las entidades mercantiles Shiriaimasu S.L., Virtual S.L., Intuit S.L., Aizoon S.L., Noos Consultoría Estratégica S.L., Blossom Hills Assets, De Goes Center for Skateholder Management Ltd., De Goes Center for Skateholder Management S.L., Asociación Instituto Noos de Investigación Aplicada y Fundación Deporte, Cultura e Integración Social, procede dar traslado a las mismas de los escritos de acusación.
SEXTO.- Solicita la común Representación Procesal de la Asociación Instituto Noos de Investigación Aplicada, de Don Diego Torres Pérez, de Doña Ana María Tejeiro Losada, de Virtual Strategies, S.L., de Noos Consultoría Estratégica, S.L., de la Fundación Deporte, Cultura e Integración Social, de Shiriaimasu, S.L. y de Intuit Strategy Innovation Lab, S.L. que el plazo de diez días previsto por el artículo 784 de la Ley de Enjuiciamiento Criminal se eleve a noventa en atención al volumen y complejidad de la Causa.

Indiscutible la dificultad, por no decir imposibilidad, que representa, al menos para las defensas de los acusados que han sido destinatarias de los más numerosos reproches penales, evacuar el trámite que a través de esta resolución se abrirá en el escaso plazo de diez días y, por lo tanto, ninguna duda debe mediar sobre que procede sea ampliado.

Ahora bien, tan cierto como que los diez días devienen ridículos es que los noventa interesados se advierten excesivos y, en esa labor de moderación, se está en el caso de fijar como plazo adecuado el de veinte días, que es el mismo que inicialmente se estableció respecto de las acusaciones en el Auto de Acomodación a las Normas del Procedimiento Abreviado y que luego se suspendió por el tiempo que mediaba hasta que la Sección 2ª de la Ilma. Audiencia Provincial resolviera los recursos de Apelación interpuestos contra aquél y que, tres que lo hiciera, quedó luego reducido al legal de diez.

Cierto que, por unas u otras razones, las partes acusadoras han dispuesto desde el 25 de junio, si no para ultimar hasta sus propios términos sus escritos de acusación, sí para el estudio de la causa si es que previamente no lo hubieran hecho como sería lo lógico, pero de ese mismo interregno y para los mismos fines han tenido posibilidad de disponer las defensas de los acusados pues que la incertidumbre sobre los que acabarían siéndolo a expensas de que la despejara la Sección 2ª de la Iltma. Audiencia Provincial no era predicable con la misma intensidad respecto de todos ellos.

Pues bien, si a ello se añade que la carga de la prueba gravita sobre el Ministerio Fiscal y demás partes acusadoras en tanto los acusados vienen favorecidos por el principio de presunción de inocencia, será el plazo de veinte días el que se habrá de fijar para que las defensas de éstos últimos

evacuen el trámite que se dirá.

En atención a lo expuesto,

DISPONGO

PRIMERO.- Se decreta la apertura del Juicio Oral contra las personas y por los supuestos delitos que se dirán:

1º DON JAUME MATAS PALOU:

De todos los hechos supuestamente delictivos relatados en el Título A. Apartado II.B relativo a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, en concepto de autor directo del artículo 28 del Código Penal

De todos los hechos supuestamente delictivos relatados en el Título A, Apartado II.C relativo a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, en concepto de autor directo del artículo 28 del Código Penal

De los hechos supuestamente delictivos relatados en el Título A. Apartado II.D relativo a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, en concepto de autor directo del artículo 28 del Código Penal

De todos los hechos supuestamente delictivos relatados en el Título A, Apartados III, IV, V y VI, y Títulos C. D y E, relativos a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, excepto del delito de falsedad en documento mercantil, en concepto de autor directo del artículo 28 del Código Penal.

De todos los hechos delictivos relatados en el Título A. Apartados III, IV y VII, VIII y IX, y Títulos C, D y E, relativos a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, excepto del delito de falsedad en documento mercantil, en concepto de autor directo del artículo 28 del Código Penal.

De todos los hechos supuestamente delictivos relatados en el Apartado Primero A) del escrito de acusación de la Abogacía de la Comunidad Autónoma de las Illes Balears, a excepción del delito de falsedad documental por funcionario público, en concepto de autor.

De todos los hechos supuestamente delictivos relatados en el Apartado Primero B) del escrito de acusación de la Abogacía de la Comunidad Autónoma de las Illes Balears en concepto de autor directo del artículo 28 del Código Penal.

De todos los hechos supuestamente delictivos relatados en el Apartado Primero C) del escrito de acusación de la Abogacía de la Comunidad Autónoma de las Illes Balears en concepto de autor directo del artículo 28 del Código Penal.

De todos los hechos supuestamente delictivos relatados en el Apartado E) del escrito de acusación presentado por la Representación Procesal del Sindicato "Manos Limpias", referidos a la Comunidad Autónoma de las Illes Balears, en concepto de autor.

De todos los hechos supuestamente delictivos relatados en el Apartado F) del escrito de acusación presentado por la Representación Procesal del

Sindicato “Manos Limpias”, referidos a la Comunidad Autónoma de las Illes Balears, en concepto de autor.
De todos los hechos supuestamente delictivos relatados en el Apartado G) del escrito de acusación presentado por la Representación Procesal del Sindicato “Manos Limpias”, referidos a la Comunidad Autónoma de las Illes Balears, salvo el correspondiente al delito de falsedad en documento mercantil, en concepto de autor.
De todos los hechos supuestamente delictivos relatados en el Apartado H) del escrito de acusación presentado por la Representación Procesal del Sindicato “Manos Limpias”, referidos a la Comunidad Autónoma de las Illes Balears, salvo el delito de falsedad en documento mercantil, en concepto de autor.
De todos los hechos supuestamente delictivos relatados en el Apartado I) del escrito de acusación presentado por la Representación Procesal del Sindicato “Manos Limpias”, referidos a la Comunidad Autónoma de las Illes Balears, excepto el delito de falsedad en documento mercantil, en concepto de autor.
2º DON JOSÉ LUIS BALLESTER TULIESA:
Respecto de todos los hechos supuestamente delictivos relatados en el Título A. Apartado II.B relativo a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, en concepto de autor directo del artículo 28 del Código Penal, excepto del delito de falsedad en documento público por funcionario público.
De todos los hechos supuestamente delictivos relatados en el Título A, Apartado II.C relativo a la Comunidad Autónoma de las Islas Baleares, del escrito de acusación del Ministerio Fiscal, en concepto de autor directo del artículo 28 del Código Penal
De los hechos supuestamente delictivos relatados en el Título A. Apartado II.D relativo a la Comunidad Autónoma de las Islas Baleares del escrito de acusación del Ministerio Fiscal en concepto de autor directo del artículo 28 del Código Penal
De todos los hechos supuestamente delictivos relatados en el Título A, Apartados III, IV, V y VI, y Títulos C. De los hechos supuestamente delictivos relatados en la Conclusión Primera del escrito de acusación presentado por la Representación Procesal de Don Joan Calabuig Rull, de Don Salvador Broseta Perales, de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel

Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia, referidos a los Convenios llamados Valencia Summit: a).- Por el delito continuado de prevaricación (art. 404 CP), en calidad de cooperador necesario y conforme al artículo 65.3 del Código Penal; b).-Por el delito continuado de tráfico de influencias (art. 429 CP), en concepto de cooperador necesario del artículo 65.3 del Código Penal; c).- Por el delito continuado de malversación de caudales públicos (art. 432.1 y 2 CP), en calidad de cooperador necesario y conforme al artículo 65.3; y d).- Por el delito continuado de fraude (art. 436 CP) en calidad de cooperador necesario y conforme al artículo 65.3 del Código Penal.
Las referidas acusaciones sólo serán acumulativas en lo que no se solapen entre sí.
SEGUNDO.- Se desestiman las solicitudes de sobreseimiento formuladas por el Ministerio Fiscal respecto de Doña Cristina Federica de Borbón y Grecia y Doña Ana María Tejeiro Losada, la formulada por la propia Representación Procesal de la primera y la presentada por Don Salvador Trinxet Llorca.
TERCERO.- Se desestiman las peticiones de apertura de juicio oral formuladas contra Don Alfonso Grau Alonso por la Representación Procesal del Sindicato “Manos Limpias” y la común de Don Joan Calabuig Rull, de Don Salvador Broseta Perales, de Doña Anaïs Menguzatto García, de Don Vicent Manuel Sarrià Morell, de Doña Isabel Dolz Muñoz, de Don Pedro Miguel Sánchez Marco, de Doña Pilar Calabuig Pamplo y de Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia, decretándose respecto del afectado el Sobreseimiento Provisional de la presente Pieza Separada al amparo del artículo 641.2º de la Ley de Enjuiciamiento Criminal.
CUARTO.- Se desestiman las peticiones de apertura de juicio oral formuladas contra Don Gerardo Corral Cuadrado y Don Miguel de la Villa Polo formuladas por la Representación Procesal del Sindicato “Manos Limpias”, respecto de los que se decreta el Sobreseimiento Provisional de la presente Pieza Separada al amparo del artículo 641.2º de la Ley de Enjuiciamiento Criminal.
QUINTO.- Se declara la posible responsabilidad civil de los mencionados en el Apartado 1º de esta resolución así como de las entidades mercantiles Shiriaimasu S.L., Virtual S.L., Intuit S.L., Aizoon S.L., Noos Consultoría Estratégica S.L., BlossomHills Assets, De Goes Center for Skateholder Management Ltd., De Goes Center for Skateholder Management S.L., la Asociación Instituto Noos de Investigación Aplicada y la Fundación Deporte, Cultura e Integración Social.
SEXTO.- No se acuerda ninguna medida de carácter personal y, en cuanto a las de naturaleza civil, se ratifican las que en su día se acordaron y continúen vigentes.
SÉPTIMO.- En razón de las penas que en abstracto establece el Código

Penal para cada uno de los supuestos delitos por los que se abre el juicio oral, el Órgano competente para su enjuiciamiento es la Iltma. Audiencia Provincial de Palma y no el Juzgado de lo Penal.

OCTAVO.- Notifíquense los escritos de acusación a los acusados y posibles responsables civiles a quienes se dará traslado de todo lo actuado si no estuvieren ya personados, y a quienes la Sra. Secretaria de este Juzgado emplazará para que en el plazo común de veinte días, al que se amplia el legal de diez, en atención a la complejidad de la causa, presenten sus escritos de defensa frente a las acusaciones formuladas, con el apercibimiento de que, de no hacerlo en el plazo indicado, se entenderá que se oponen a aquéllas y seguirá el procedimiento su curso.

NOVENO.- Fórmense las piezas de responsabilidades pecuniarias que no estuvieren ya abiertas, requiriendo a los acusados para que presten fianza en las siguientes cuantías:

Don Jaume Matas Palou, Don José Luis Ballester Tuliesa y Don Gonzalo Bernal García en la de 3.506.781 euros.

Don Miguel Ángel Bonet Fiol en la de 167.421euros.

Don Juan Carlos Alía Pino en la de 155.421 euros.

Don Luis Lobón Martín en la de 4.176.000 euros.

Don Jorge Vela Bargues y Doña Elisa Maldonado Garrido en la de 2.784.000 euros.

Don José Manuel Aguilar Colas en la de 1.392.000 euros.

Doña Mercedes Coghen Alberdingk-Thijm en la de 152.000 euros.

Don Iñaki Urdangarín Liebaert en la de 14.957.262 euros.

TERCERO.- Que, recurrida la anterior resolución en Apelación, la Sección 2ª de la Iltma. Audiencia Provincial dictó en fecha 7 de noviembre del presente año Auto cuya parte dispositiva literalmente decía: "1.- Estimar parcialmente los recursos de apelación interpuestos por el Ministerio Fiscal y la representación procesal de Cristina de Borbón y Grecia, en el sentido de disponer el sobreseimiento de las actuaciones por lo que al delito de blanqueo se refiere, manteniendo las imputaciones por su cooperación en sendos delitos contra la Hacienda pública referidos a los ejercicios económicos de las anualidades 2007 y 2008. 2.- Estimar el recurso de apelación interpuesto por el Grupo de concejales del PSOE del

Ayuntamiento de Valencia y el que a su vez ha interpuesto sobre el mismo motivo el Sindicato Manos Limpias, acordando incluir en el auto de transformación como imputado al Vicealcalde del Ayuntamiento de Valencia Don Alfonso Grau Alonso. 3.- Estimar el recurso de apelación interpuesto por el Sindicato Manos Limpias e incluir como imputados en relación al convenio de colaboración suscrito por la Fundación Deporte, Cultura e Integración Social y la Fundación Madrid 16, a Miguel de la Villa Polo y Gerardo Corral Cuadrado. 4.- Estimar el recurso de apelación del Sindicato Manos Limpias, respecto a la posibilidad que concede al auto recurrido y sin necesidad al respecto de practicar nuevas diligencias de investigación o de tener que tomar de declaración, para poder formular acusación contra Iñaki Urdangarín Liebaert, Diego Torres Pérez y Ana Tejeiro Losada, por delito de blanqueo de capitales y en los términos expuestos en el cuerpo de esta resolución. 5.- Estimar el recurso de apelación interpuesto por el Sindicato Manos Limpias e incluir como imputado a Don Salvador Trinxet Llorca. 6.- Desestimar el recurso de apelación interpuesto por la representación de Don Iñaki Urdangarín Liebaert. 7.- Desestimar el recurso de apelación interpuesto por Diego Torres y Ana Tejeiro. 8.- Desestimar el recurso de apelación interpuesto por la representación procesal de Marcos Tejeiro Losada. 9.- Desestimar el recurso de apelación interpuesto por la representación procesal de Miguel Tejeiro Losada. 10.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Luis Lobón Martín. 11.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don José Manuel Aguilar Colás. 12.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Jorge Vela Bargues. 13.- Desestimar el recurso de apelación interpuesto por la representación procesal de Doña Elisa Maldonado Garrido. 14.- Desestimar el recurso de apelación interpuesto por la representación procesal de Doña Mercedes Coghen Alberdingk-Thijm. 15.-Desestimar el recurso de apelación interpuesto por el Sindicato Manos Limpias contra el sobreseimiento dispuesto respecto de Don Carlos García Revenga y Don Mario Sorribas Fierro. 16.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Jaime Matas Palou".

CUARTO.- Que en fecha 10 de noviembre de 2.014 recayó Providencia que, entre otros pronunciamientos, contenía el que textualmente decía: "2° Levantar la suspensión decidida por Auto de fecha 4 de julio del presente año, del plazo de diez días hábiles del que disponían las partes acusadoras y quien ejerce la acción civil para que presentaran sus escritos de acusación solicitando la apertura del juicio oral en la forma prescrita por la Ley o bien el sobreseimiento de la causa, sin perjuicio de que sólo excepcionalmente puedan interesar la práctica de las diligencias complementarias que consideren imprescindibles para formular acusación, e iniciar el cómputo del referido plazo".

QUINTO.- Que en fecha 21 de noviembre del presente año recayó Auto

que, entre otros pronunciamientos, contenía los que textualmente decían: "**2°** Desestimar el Recurso de Reforma formulado por la Representación Procesal de Don Alfonso Grau Alonso contra la Providencia de fecha 10 del presente mes que se confirma íntegramente. **3°** Acceder a la práctica de las diligencias subsidiariamente propuestas por la Representación Procesal de Don Alfonso Grau Alonso en su escrito que tuvo acceso a éste Juzgado el 16 de junio del presente año y, en consecuencia, acordar las siguientes que tendrán lugar en el edificio de la Ciudad de la Justicia de Valencia… **4°** Suspender el plazo para que el Ministerio Fiscal y demás partes acusadoras presenten sus escritos de acusación que se reanudará en lo que le reste el día 3 de diciembre del presente año, de tal manera que el plazo finalizaría el día 5 de diciembre con posibilidad de presentarse los escritos hasta las 15 horas del día hábil siguiente, que sería el 9 de ese mismo mes".

SEXTO.- Que tal trámite ha sido evacuado en momento oportuno tanto por el Ministerio Fiscal como por las demás partes acusadoras, a excepción del Partido Popular de las Islas Baleares que se ha abstenido de hacerlo, con el resultado que obra en la Causa, recayendo en fecha diez de este mes Providencia que literalmente decía: "Dada cuenta, el anterior escrito de solicitud de sobreseimiento presentado por la Representación Procesal de Don Alfonso Grau Alonso más otro adjuntando diversas resoluciones, escrito de acusación del Ministerio Fiscal al que adjunta cinco Anexos, de la Abogacía del Estado, de la Abogacía de la Comunidad Autónoma de les Illes Balears, de la Abogacía General de la Generalitat Valenciana en representación de la empresa pública "Ciudad de las Artes y de las Ciencias S.A.", sólo ejerciente de la acción civil, de la Representación Procesal del Sindicato "Manos Limpias", de la Representación Procesal común de Don Joan Calabuig Rull, Don Salvador Broseta Perales, Doña Anaïs Menguzatto García, Don Vicent Manuel Sarrià Morell, Doña Isabel Dolz Muñoz, Don Pedro Miguel Sánchez Marco, Doña Pilar Calabuig Pamplo y Don Felix Melchor Estrela Botella, miembros del Grupo Municipal Socialista del Ayuntamiento de Valencia, y escrito presentado por la Representación Procesal de Doña Cristina Federica de Borbón y Grecia interesando el sobreseimiento de las actuaciones respecto de su representada, de los que se dará traslado entre sí y a las demás partes personadas, únanse a la Pieza Separada de su razón mediante la apertura de los Tomos que sean necesarios y quede la presente Pieza Separada sobre la mesa del proveyente para estudio y resolución..."

SÉPTIMO.- El Ministerio Fiscal solicita la apertura del juicio oral ante la Iltma. Audiencia Provincial contra Don Diego Torres Pérez, Don Iñaki Urdangarín Liebaert, Don Marco Antonio Tejeiro Losada, Doña Ana María Tejeiro Losada, Don José Luis Ballester Tuliesa, Don Jaume Matas Palou, Don Gonzalo Bernal García, Don Miguel Ángel Bonet Fiol, Don Juan Carlos Joaquín Alía Pino, Don Jorge Vela Bargues, Doña Elisa Maldonado Garrido, Don José Manuel Aguilar Colas, Don Luis Lobón Martín, Doña Mercedes

Coghen Alberdingk-Thijm y, sólo como partícipe a título lucrativo, contra Doña Cristina Federica de Borbón y Grecia.

La descripción de los hechos que constituyen la fundamentación fáctica de las imputaciones se encuentra en su Conclusión Primera y se divide en varios grupos: A) Los acaecidos en la Comunidad Autónoma de les Illes Balears; B) Los acontecidos en la Comunidad Autónoma de Valencia; C) Del modo en que los responsables del Instituto Noos desviaban los fondos públicos a compañías mercantiles de su propiedad a través de facturas ficticias; D) Creación de una estructura societaria fiduciaria opaca con sede matriz en un paraíso fiscal; E) Del abandono simulado de Don Iñaki Urdangarín Liebaert en marzo de 2.006 del Instituto Noos y de la mercantil Noos Consultoría Estratégica S.L., Fundación Areté y Fundación Deporte, Cultura e Integración Social; F) Los pagos de la Fundación Madrid 16 a la Fundación Deporte, Cultura e Integración Social; G) Levantamiento del velo; H) Delito contra la Hacienda Pública respecto de Don Iñaki Urdangarín Liebaert por el impuesto de la renta de las personas físicas de los ejercicios 2.007 y 2.008; I) Delito contra la Hacienda Pública respecto de Don Diego Torres Pérez por el impuesto de la renta de las personas físicas del ejercicio 2.007; J) La utilización por parte de Don Diego Torres Pérez y Don Iñaki Urdangarín Liebaert de los fondos públicos sustraídos y de las cantidades objeto de las cuotas defraudadas a la Hacienda Pública. Participación de Don Marco Antonio Tejeiro Losada y Doña Ana María Tejeiro Losada en actividades de ocultación de bienes; K) La participación a título lucrativo de Doña Cristina Federica de Borbón y Grecia de los fondos públicos sustraídos y de las cantidades objeto de las cuotas defraudadas a la Hacienda Pública; L) La participación a título lucrativo de Doña Ana María Tejeiro Losada de los fondos públicos sustraídos y de las cantidades objeto de las cuotas defraudadas a la Hacienda Pública; M) Los procedimientos de contratación administrativa. Los convenios de colaboración. Utilización fraudulenta de dicha figura; y N) De la actuación procesal de los acusados Don José Luis Ballester Tuliesa y Don Marco Antonio Tejeiro Losada.

Tales grupos se subclasifican y cada uno de los apartados viene acompañado de una muy extensa descripción de los hechos que lo integran y que se da por reproducida extrayendo de todo ello cinco conclusiones más, para luego proponer los medios de prueba que estimó convenientes.

En su conclusión segunda el Ministerio Fiscal calificó los hechos que describe tal como sigue:

A.- Los hechos relatados en el Título A, Apartado II.B relativo a la Comunidad Autónoma de las Illes Balears constituyen un delito de prevaricación del artículo 404 del Código Penal; un delito de fraude a la Administración del artículo 436 del Código Penal y un delito de falsedad documental por funcionario público del artículo 390.1, 1°, 2° y 4° del Código Penal.

La prevaricación respecto al Decreto Resolución de fecha 16 de febrero

de 2004 dictado por D. Juan Carlos Alía Pino y al informe jurídico previo elaborado por D. Miguel Ángel Bonet Fiol, en tanto dictado y realizado, respectivamente, previa omisión deliberada del correspondiente procedimiento administrativo; y el dictar resoluciones administrativas arbitrarias e ilegales tendentes a favorecer a empresas vinculadas a los acusados con desprecio de las normas legales es constitutivo de un delito de prevaricación continuada del artículo 404.

La falsedad documental respecto a la simulación en el Decreto e informe citados de la existencia de una cláusula de exclusividad. La simulación de expedientes administrativos mediante documentos oficiales inveraces, la alteración de elementos esenciales en los documentos oficiales de dichos expedientes y la inveracidad en el contenido de dichos documentos, todo ello realizado por funcionarios en los expedientes administrativos supone el delito del articulo 390.1.1°, 2° y 4° del C.P.

Tras la proposición de las pruebas que estimó oportunas el Ministerio Fiscal, a través de diversos "otrosíes", interesa lo que a continuación sigue:

OTROSÍ PRIMERO: Procede acordar las oportunas fianzas para asegurar las responsabilidades pecuniarias solicitadas en la sexta conclusión del presente escrito y el tercio mas que exige el articulo 589 de la Ley de Enjuiciamiento Criminal.

OTROSÍ SEGUNDO: Se de traslado del escrito de acusación a los responsables civiles relacionados en el apartado VII de los "Medios de Prueba", a los efectos oportunos.

OTROSÍ TERCERO: Se interesa el Sobreseimiento Provisional de la causa, al amparo del artículo 641 de la Lecrim, respecto a Doña Cristina Federica de Borbón y Grecia, por inexistencia de indicios racionales de criminalidad.

En el Anexo nº 1, que se adjunta al presente escrito, se exponen las razones que justifican la citada petición de archivo.

OTROSÍ CUARTO: Se interesa el Sobreseimiento Provisional de la causa, al amparo del artículo 641 de la Lecrim, respecto a Doña Ana María Tejeiro Losada, respecto a todos los hechos delictivos objeto de imputación, excepto el delito de blanqueo de capitales, por inexistencia de indicios racionales de criminalidad.

En el Anexo nº 2, que se adjunta al presente escrito, se exponen las razones que justifican la citada petición de archivo.

OTROSÍ QUINTO: Se interesa el Sobreseimiento Provisional de la causa, al amparo del artículo 641 de la Lecrim, respecto a Don Alfonso Grau Alonso, Don Miguel Tejeiro Losada, Don Salvador Trinxet Llorca, D. Gerardo Corral y D. Miguel de la Villa, por inexistencia de indicios racionales de criminalidad.
En el Anexo nº 3, que se adjunta al presente escrito, se exponen las razones que justifican la citada petición de archivo.
OTROSÍ SEXTO: Se interesa la aplicación del artículo 782.1 de la Ley de Enjuiciamiento Criminal respecto de Doña Cristina Federica de Borbón y Grecia y Doña Ana María Tejeiro Losada en relación a los delitos contra la Hacienda Pública que, en su caso, sean objeto de acusación por la Acusación Popular.
En el Anexo nº 4, que se adjunta al presente escrito, se exponen las razones que justifican la citada petición de archivo.
OCTAVO.- La Abogacía del Estado solicita la apertura del juicio oral ante el Juzgado de lo Penal contra Don Diego Torres Pérez y Don Iñaki Urdangarín Liebaert y, sólo en calidad de partícipes a título lucrativo, contra Doña Cristina Federica de Borbón y Grecia y Doña Ana María Tejeiro Losada.
La descripción de los hechos que constituyen la fundamentación fáctica de su imputaciones se encuentra en su Conclusión Provisional Primera, que se da por reproducida, y que califica como constitutivos de tres delitos de fraude a la Hacienda Pública del artículo 305.1 del Código Penal de 1995, de los que estima son autores directos e inmediatos Don Diego Torres Pérez y Don Iñaki Urdangarín Liebaert sin la concurrencia de circunstancias modificativas de la responsabilidad penal, interesando se les imponga a cada uno la pena de 3 años y 6 meses de prisión, accesorias, multa del triple de la cuota defraudada en cada ejercicio (con 360 días de arresto sustitutorio en caso de impago, previa excusión de bienes) y pérdida de la posibilidad de obtener subvenciones públicas o crédito oficial y del derecho a gozar de beneficios o incentivos fiscales durante un período de seis años, para cada uno de los delitos.
La pena se solicita en su mitad superior, al concurrir en el presente supuesto el subtipo agravado de la utilización de personas interpuestas por aplicación del artículo 305-1-a) del Código Penal, como son todas las sociedades de primer y segundo nivel antes descritas que conformaban el llamado entramado Noos.
Solicita sean condenados al pago de las cuotas defraudas, que son de 442.968,29 euros por el delito por el IRPF del año 2.007 de Don Diego Torres Pérez; y de 182.005,27 y 155.138,48 euros por los delitos por el IRPF de los años 2.007 y 2.008 de Don Iñaki Urdangarín Liebaert, cantidades a las que deben añadirse los intereses de demora.
Asimismo interesa la condena de Doña Ana María Tejeiro Losada y de Doña Cristina Federica de Borbón Grecia, al pago de las sumas de 221.484.145 euros y 168.571.875 euros, respectivamente, como partícipes a título lucrativo, en atención a que estas personas, esposas de Don Diego Torres Pérez y de Don Iñaki Urdangarín Liebaert, respectivamente, han venido

disfrutando de los bienes con los que ambos acusados se han lucrado, participando de esta forma de los efectos de los delitos contra la Hacienda Pública objeto de acusación (artículo 122 del CP).
Otrosí primero dice que procede acordar las oportunas fianzas para asegurar las cantidades pecuniarias reclamadas como responsabilidad civil y multas, incrementado en un tercio conforme prevé el artículo 589 de la Ley de Enjuiciamiento Criminal.
Otrosí segundo dice que se dé traslado de este escrito de acusación a los responsables civiles a los efectos legales oportunos.
NOVENO.- La Abogacía de la Comunidad Autónoma de las Illes Balears solicita la apertura del juicio oral ante la Iltma. Audiencia Provincial contra Don Jaume Matas Palou, Don José Luis Ballester Tuliesa, Don Iñaki Urdangarín Liebaert, Don Diego Torres Pérez, Don Gonzalo Bernal García, Don Juan Carlos Joaquín Alía Pino, Don Miguel Ángel Bonet Fiol y Don Marco Antonio Tejeiro Losada.
La descripción de los hechos que constituyen la fundamentación fáctica de sus imputaciones se encuentra en el Apartado Primero de su escrito, que se da por reproducido, a su vez subclasificado en los epígrafes A.- LA OFICINA DE PROYECTO VINCULADA AL PATROCINIO DEL EQUIPO CICLISTA ILLES BALEARS; B.- LA CONTRATACIÓN DEL SEGUIMIENTO DEL EQUIPO CICLISTA BANESTO-ILLES BALEARS y C.- LOS CONVENIOS PARA LOS EVENTOS ILLES BALEARS FORUM, éste último a su vez dividido en C.1- PRIMER CONVENIO DE COLABORACIÓN y C.2.- SEGUNDO CONVENIO DE COLABORACIÓN, calificándolos como sigue:

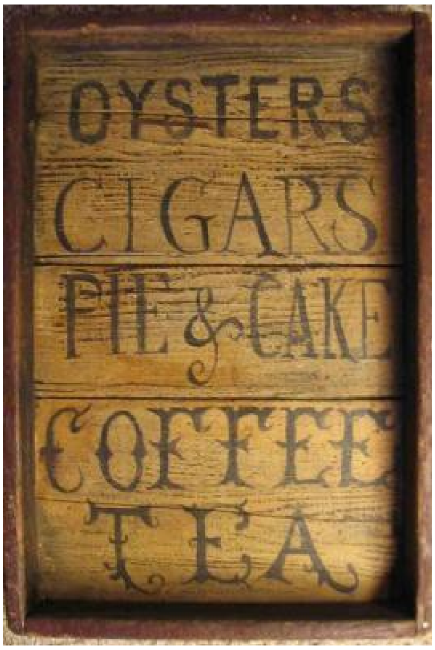
HORÓSCOPO PARA MANDUCANTES AFLIGIDOS DE «COIUNDAE TRISTITIA» (COMPLETO)



Aries:(nacidos entre el 21 de marzo y el 21 de abril):

No deberias iniciar nuevas relaciones mientras no cambies el menú: las conservas de legumbres cocidas, adobadas con glutamatos y conservantes, las bolsas de patatas ultracongeladas ya cortadas, fritas con el infame aceite de girasol, lacias y descoloridas como monjas preconciliares, el bistec pasado por la sartén de consistencia cartilaginosa, lleno de binzas, y la consabida naranja de postre, te abocará, como hasta ahora, a la *coiundae tristitia*. Que te creas muy intelectual porque lees el suplemento cultural de *El País* dice mucho de las deficiencias que ha sufrido tu pobre cerebro.

Cáscatela hasta que aprendas a cocinar y a comer bien.

Tauro: (nacidos entre el 21 de abril y el 20 de mayo)

Quizas tus amantes de paso, con sádico sentido del humor, te hayan hecho creer que eres un portento porque en 49 segundos, eres capaz de preguntar eso de "*¿gozas, vida?*" y encender los cigarrillos de después. La eyaculacion precoz suele afectar quienes inician y rematan la apertura de las latas y la bolsas de embutidos en menos de un minuto, y engullen, no comen.

Tu madre te habrá dicho que las mujeres son malas, y es verdad, porque si fueran buenas cualquiera de las que dejaste con dos palmos de narices, te la habrían cortado en rebanadas para echársela a los perros por el bien de la especie.

Dedícate al sexo tantrico con tu mano hasta que aprendas la importancia de los tiempos de coción y deglución.

Géminis: (nacidos entre el 21 de mayo y el 21 de junio)

El único condimento que utilizas en la cocina y en el dormitorio es la sal gorda, sin pajolera idea sobre las especias, las hierbas aromáticas, los tiempos de coción y de horneado; porque nadie te ha quitado de la cabeza que esas atrocidades culinarias que

perpetra tu madre a fuego vivo, a base de grasa sin mesura ni control, y su empeño en que no seas *un cocinicas*, son el *summun* de la exquisitez y el buen gusto. No es que no encuentres tu media naranja, es que el edipo te tiene estragados el paladar y la sesera.

Hazte gay pasivo en la clandestinidad, y coquetea con la anorexia y la bulimia hasta que te quedes huérfano y puedas disfrutar de una comida aliñada y sazonada como es de ley.

Cáncer:(nacidos entre el 21 de junio y el 21 de julio)

Cualquiera que no haya comido caliente durante su infancia y juventud puede dar en enólogo pontificante, devoto de la cocina deconstruida y el estilo de emplatar Joan Miró daltónico y présbita, consumidor de la sección *gourmet* de *El Corte Inglés,* con el hígado hipertrofiado de pato y el pimiento de piquillo relleno con algo similar al aljez como productos estrella. Como resultado, la vida sexual se suele convertir en una trepidante abstinencia con una creativa panoplia de broncas filosofantes como excusa para la flojera.

Enclaústrate en un cenobio con tu mano, con esporadicas salidas para ver cine birmano o kosovar en versión original y sonido dolby.

Leo (nacidos entre el 22 de julio y el 21 de agosto):

La idea del bocadillo de varios pisos, edificado con todos los alimentos indigestos a tu alcance, untado con mayonesa, y regado con una *Coca Cola light*; el set completo de guarrerías embolsadas con sabor a queso de axila de oveja que sueles consumir ha dado al traste con cualquier atisbo de deseo de hacerte padre que pudiera aquejar —hipotéticamente— a tus sufridas y efímeras relaciones.

El desconsuelo y la desesperacion que sientes ante la mera idea de comerte una ensalada, unas hortalizas, unas legumbres cocinadas sin casquería ni manteca se corresponde exactamente con el que produce tu escorzo.

Sigue pelándotela solo (si es que te la puedas encontrar aún) y cuando eso no baste, apuntate a los grupos que celebran los solsticios abrazando a los árboles y besando (con lengua) los huecos que dejan los xilófagos.

A buen hambre no hay pan duro.

Virgo (nacidos entre el 22 de agosto y el 22 de setiembre):

Esos rituales (cuando te alisas el pelo y la corbata, verificas los botones de la chaqueta, te tiras de las mangas, compruebas el cierre centralizado del coche, una y otra vez, etc.) no es porque seas cuidadoso, son signos de una neurosis obsesiva como cuando, antes de empezar a comer, distribuyes los alimentos en el plato por colores, por tamaños, texturas, y orden alfabético, y amasas la miga del pan con los dedos como si fueran mocos.

En la intimidad, en el fuego más ardiente de la pasión, primero doblas y metes en bolsas la ropa que ha de ir a la tintorería, cuelgas en perchas forradas tu traje y lo cepillas concienzudamente, llevas la ropa sucia al cesto del cuarto de baño, haces tus abluciones con la meticulosidad que te caracteriza, te pones el pijama, abres el embozo de la cama en el ángulo de 45 grados que prefieres, y no es raro que descubras estupefacto que tu amada se ha ido a sus quehaceres sin dejar ni una nota de

explicacion.

Cursa biblioteconomía, y descubre el sublime erotismo consistente en rellenar los huecos en las estanterías.

Libra (nacidos entre el 22 de setiembre y el 22 de octubre):

Ni Pablo de Tarso tiene tu empuje evangelizador: el zumo de apio y nabo, la ensalada de algas rehidratadas con brotes de soja, la *mousse* de calendulas con sésamo tostado, y el té de retama y nomeolvides son el dogma de fe culinario con el que rebates cualquier desvío doctrinal que no pase por la herboristería.

No es raro que te falle la hueste generativa, que el comercio carnal te llene de zozobra, que no des la ida por la venida con el gurú, el psicoanalista, y la casa de tu madre donde te resistes numantino, y te niegas a empujarte un par de huevos fritos y unos tacos de jamón, que es lo que más te gusta en el mundo.

Sigue la senda de la abstinencia, el vegetarianismo, la macrobiótica, la holística, y no sigas dandole vueltas a la idea de hacerte antropófago con la rubia que te vende el tofu: las damas se acarician, se besan, se follan, no se comen.

Escorpio (nacidos entre el 23 de octubre y el 22 de noviembre):

Quien te hizo creer en las virtudes erotizantes de la murria, el cenizo, y la egolalia narrativa de tus pasados logros te engañó miserablemente. Ser otro borrrachuzo en la movida madrileña, otro actor de teatro, otro director de un corto que jamás se estrenó, otro pintor mural, otro músico ágrafo, sólo puede motivar deseos bastante confesables y poco caritativos.

Si a eso se une esa dieta desatinada, repetitiva y escasa por pura roñosería y el trasiego de cervezas para inspirarte la narración de anécdotas en las que el resto de la humanidad queda pingando, y tú reluces como un héroe helénico que tiene como latiguillo aquello de *"como yo digo"* , no hay más remedio que concluir que el entusiasmo erótico que inspiras ha de ser perfectamente descriptible.

No te empeñes. Huye de las mujeres, que te esquivan, y dedícate a la asfixia autoerótica con el cable del teléfono.

Sagitario (nacidos entre el 22 de noviembre y el 22 de diciembre):

Como los malos actores, en la cama y en la mesa sobreactúas: eso de exhibir el set de sacacorchos, termómetro, alcoholímetro, de diseño italiano, inspirado en las herramientas de dentista, para una botella de Rioja del montón, dar un sorbito al vino y enjuagarte con él las arcadas gingivodentarias, la bóveda palatina, el piso de la boca, el velo del paladar, los pilares anteriores del velo y el istmo de las fauces con los ojos cerrados se nota mucho que lo has aprendido usando un colutorio de marca blanca que te ha quemado el paladar.

La anilla vibradora mariposa, las bolas chinas, el arnés vibrador de doble penetracion, modelo conejito rampante, el azotador para juegos de *bondage*, los profilácticos de varios colores y sabores que tienes en la mesilla, y sacas de vez en cuando para desmpolvar, no logran disimular que tu idea del sexo la has sacado de la explicación que dieron en el *Foro Todo Motor* sobre el funcionamiento del émbolo y el pistón en el Seat Panda, y que desconoces clamorosamente la anatomía femenina.

Tira a la basura el Curso de sibarita por correspondencia y el diploma del Seminario de Artes amatorias, y hazte misógino.

Capricornio (nacidos entre el 23 de diciembre y el 20 de enero):

Eres de los que masticas cien veces cada bocado, cada idea, cada concepto, y te has convertido en una excrecencia social del que huye cualquiera que tenga ojos y oidos. Lo peor es que nadie te dijo que, con tu envergadura intelectual, ganarías puntos si comieses con la boca cerrada, y adoptaras el silencio como tu mejor aliado.

No es raro que ni pagando a tocateja encuentres hetaira profesional que te haga un servicio: tu idea del erotismo consiste en usar el cuerpo femenino como si fueran aquellos timbres que apretabas insistentemente para recibir improperios y maldiciones de los vecinos, y aquellos buzones que atorabas con basura y palos como sublime diversión ante la falta de amigos con los que jugar.

Mortifícate, hazte adepto de los Legionarios de Cristo, donde encontrarás compañía apropiada , y no te empeñes en formar parte de la raza humana.

Acuario (nacidos entre el 21 de enero y el 21 de febrero):

Tu dedicación a la poesía postista y al surrealismo no es lo que te ha convertido en un aspirante al Alzheimer, sino ese empeño tuyo en considerar que la falta de ingenio se puede enmarscarar con estrambóticas frases sin sentido, producto de un hogar donde se ignoraban las leyes que rigen el paladar y la cocina, por culpa de una madre con aspiraciones a bachillera, cultiparla y maestra de escuela.

Los guisados de tu madre, en los que la legumbres tuvieron la dureza de los balines; la verdura, la consistencia y la textura de las babas empotradas en las comisuras de la boca de los beatos, y el sabor de un sorbete de mocos, te estropearon el paladar y la oportunidad, y no hay cristiana a la que puedas convencer de que saber de memoria y recitar a Gamoneda ha de suplir la maña y la seducción que no tienes.

Firma unos cuantos manifiestos en defensa del futuro imperfecto de subjuntivo y achaca tu falta de exito con editores, lectores y mujeres a tu valiente defensa del idioma.

Piscis (nacidos entre el 22 de febrero y el 21 de marzo):

La creencia de que formas parte de la raza superior, y el rancho del cuartel y la música militar forman parte de la civilización occidental, sólo puede ser producto de una malformación neurológica que te impide percibir la quintaesenciada atrocidad del Ejército en todas sus manifestaciones. Y te hace concebir las relaciones de pareja como el asalto de una posición enemiga, en la que el sexo femenino, cautivo y desarmado, ha de quedar recluido lejos de la zona noble donde folgan y disfrutan los combatientes después de la batalla.

Deja las mujeres. Resignate y déjate follar por la soldadesca apestando a sudor y ajo, que es lo que de verdad te va a gustar.

ARTURO PÉREZ REVERTE HA REESCRITO EL QUIJOTE

(...).aquella gente debía de ser del pueblo del rebuzno, y así se lo dijo a Sancho..."

En tocante a la lengua,
lo tuyo es la felación;
me has capado El Quijote,
lo has dejado con tal mengua
que parece un estrambote,
un librito de ración.

Eres blando como un higo
y te gusta hacerte el duro,
y aunque tú quieras creerte
—porque te llamas Arturo —
un escritor que divierte,
eres un Laurén Postigo,
y eres un Pérez Reverte.

Moraleja:

Reverte, da asco verte
y aún más asco da leerte.

Arturo Pérez-Reverte
que es sastre de profesión
al traje de un gran señor
le ha metido la tijera,
con el mundo por montera,
armándose de valor
y despreciando a la muerte...
¡Salvo que el pobre finado
dueño de la vestimenta
no puede vengar su suerte!

Se ha quedado los retales
que llaman a distracción,
dejando al sir en pañales.
Pues con ellos, don Arturo
el de la cara de piedra,
puedes hacerte un macuto,
le pones dos tapas negras,
lo firmas por el reverso
y te llamas escritor.
Pues con tu imaginación
no llegas ni a los zapatos
de esas telas que cortaste,
¡No he de llamarte ni sastre,
sólo te diré censor!

Y otras cosas te dijera
si ahora delante te viera,
pues no te falta vergüenza
ni a mi me falta valor.
Que quien da tantas lecciones,
por mucho que se acomode
si falta el respeto al arte
no es un buen educador.
¡A que jode!
¡Quién tuviese quince años
para poder despreciarte!

Arturo, niño precoz,
en cuestiones de cultura,
sintió pronto gran hartura
e hízose lector veloz.

Si leyó a Garcilaso,
a Lope o a su escuela,
quedó muy poca secuela
en ese cerebro escaso.

Y concluyó de Cervantes,
que si no se lo leía,
aparte de la alegría,
se lo terminaba antes.

Gran patriota, sin empacho
confundía a D'Alembert

por despreciar al gabacho.

Es de nota el egotismo,
que en leer libro tollazo,
sólo se dio gran gustazo,
cuando se leyó a sí mismo.

Eligió ser periodista,
que en esta bendita España,

ROMANCE DE LA ENAMORADA DE UN MUERTO

33 ENAMORADA DE UN MUERTO

a)

En las huertas de mi padre
herido me le he hallado.
Cosíle las sus heridas
con la aguja del bordado,
y atéselas, bien atadas,
con tocar de mi tocado.
Tres años lo tuve muerto
en mi cámara encerrado.
Cada vez que le iba a ver
parecía vivo y sano;
lavaba su blanco rostro
con rosas y vino blanco,
le mudaba la camisa
todos los viernes del año.
Van días y vienen días,
la carne se iba dañando.
Un día, por mi desgracia,
se le descoyuntó un brazo.
—¿A quién contaré mi mal?,
¿a quién iré yo a contarlo?
Si se lo digo a mi madre,
es mujer y lo dirá;
si se lo digo a mi padre,
luego me manda matar;
¿si un tío, que tengo monje,
me lo quisiera enterrar?
Se lo diré a mi tío,
que sabe de bien y mal.—
—Tío mío, tío mío,
un favor vengo a buscar:
tengo mis amores muertos,

¿si me los quiere enterrar?
—Yo te los enterraré;
tus ojos no han de llorar.

La narración en primera persona, la poética indeterminación de la identidad de ese "le" con el cual se presenta al muerto, que nunca llega a saberse si hace referencia a un hombre previamente conocido por la "enamorada" o si meramente convierte a un desconocido mortalmente herido en el destinatario del amor de la doncella, el cambio de asonante al pasar del monólogo narrativo a las palabras dirigidas al tío, son recursos poéticos, todos ellos, magníficamente gobernados, que inscriben al romance en la mejor tradición de los romances escena, de que tanto gustaron los ambientes cortesanos que, en el tránsito del siglo XV al XVI, sacaron a la luz el romancero oral venido de la Edad Media. Y, sin embargo, no hay la menor noticia del romance en los Siglos de Oro.

En el Romancero del siglo XX, que nos lo ha salvado del olvido, es, desde luego, un romance marginado. Sólo nos es conocida una versión de la tradición judeo-española. Fue recogida, hacia 1904, por José Benoliel, en Tánger. Pero nos basta, pues es espléndida. A ella se debe todo lo mejor de la aquí publicada. La tradición catalana lo conserva, en cambio, bien: figura ya en todas las colecciones impresas en el siglo XIX, y cuando, en 1970, por primera vez lo estudié, pude manejar y comentar otras 27 versiones, procedentes de las más varias regiones del Principado y de Mallorca. En Aragón, también ha subsistido, pero no como romance autónomo, sino interpolado en el de "El conde Niño" (o "Amor más poderoso que la muerte"); esa misma simbiosis se documenta también en Canarias. Que, en un tiempo pasado, el romance tuvo difusión en la tradición peninsular castellana nos lo asegura un romance "a lo divino", recogido en Aliseda y Torrejoncillo (Cáceres), en que se adapta un pasaje de la "Enamorada de un muerto" para combinarlo con versos que contrahacen los de otro romance viejo: el del "Entierro de Fernand Arias". Mediante la asociación de los dos temas que convergieron en un solo romance en Aragón y en Canarias, surgió una historia trágica, de argumento completo, recargada de sucesos, que no puede considerarse falta de unidad argumental, ni dramáticamente mal construida, según puede verse en la versión con que a continuación ejemplifico el resultado:

b)

—Melisenda, si durmieres,
si durmieres, despertad,
oirías a la sirena
cómo cantaba en el mar.
—No es la sirenita, madre,
que no tiene tal cantar;
es un rico mancebito
que a mí me viene a rondar.
—Si eso supiera yo, hija,
le mandaría matar.—
—¡Escúchame, dama hermosa,
si me quieres escuchar,
veinticinco heridas tengo,
la que menos es mortal,
y otras tantas mi caballo,
desde la cincha al petral!—
Ya baja la dama hermosa
con su aguja de bordar,

ya baja la dama hermosa,
   tendido lo vino a hallar.
Estándoselas cosiendo,
   se le fuera a desmayar;
lo cogiera entre los brazos,
   lo llevó bajo un rosal.
Allí lo viste y lo calza
   como si hubiese de andar;
le lavaba la boquita
   con agua linda de azahar,
para que no oliese a muerto
   cuando lo fuera a besar.
Un día grande de fiesta,
   día de San Sebastián,
mudándolo de camisa,
   se quiso descoyuntar.
—¡Ay, desgraciada de mí,
   qué vida voy a llevar!
Si se lo digo a mi madre,
   es cosa que lo dirá;
si se lo digo a mi padre,
   luego me manda matar.
Se lo diré a mi tío,
   dentro del Pilar está.
—Tío mío, tío mío,
   secretos os vengo a dar:
los amores se me han muerto,
   llevádmelos a enterrar.—
Al bajar de la escalera,
   un abrazo le fue a dar:
—Id con Dios, los mis amores,
   pronto os iré a visitar.—
A los tres y no cumplidos,
   la infantita muerta está.
A él lo entierran en la iglesia,
   a ella en gradas del altar.
De ella nació una azucena,
   de él un rico naranjal.
La reina, llena de envidia,
   luego lo mandó cortar;
como el tronco era verde,
   siempre volvió a rebrotar.

El romance de la “Enamorada de un muerto” tiene, por otra parte, el interés de haber sido fuente de una balada post-medieval en éuskara: “Goizian goizik”. Esta balada “histórica” narra la muerte de Pierre d’Irigaray, en Soule, el 8 de julio de 1633, en el día mismo de sus esponsales con Gabrielle de Lohitéguy; pero la tercera estrofa de la canción da al caso un giro novelesco y la cuarta lo transforma en legendario, al tomar claramente como modelo el romance castellano:

Zazpi urthez atxiki nuen senharra hillik khanberan,
   egunaz arrosapian eta gauaz bi besoen artean.
Zidroin urez garbitzen nuen astean egun batean,

astean egun batean eta ortzirale-goizean.

Siete años tuve a mi marido muerto en la cámara,
de día bajo un rosal, de noche entre mis brazos.
Con agua de limón le lavaba una vez por semana,
una vez por semana, los viernes por la mañana.

REYNALDO CASTRO MELGAREJO: LA VACUNA CONTRA LA CORRUPCIÓN

El blog mexicano "La vacuna contra la corrupción" de Reynaldo Castro Melgarejo, economista y ciudadano de bien, que está entre nuestros enlaces, desarrolla otro aspecto del Teorema de Bell (**1**):

"Propongo: El Combate Preventivo de la Corrupción desde los Municipios. Basado en:

1) La Transparencia en el origen y destino de los recursos públicos desde los municipios y

2) La participación preventiva de los ciudadanos, como contrapeso efectivo y oportuno contra la corrupción o desviación de los recursos públicos de funcionarios de cualquier partido político.

Problemas a resolver: Dos problemas estructurales.

1) En México, la alternancia en el Poder Político no ha dado resultados, poniendo en riesgo la democracia. La inseguridad y violencia, son argumentos que lo confirman, entre otros, como el crecimiento de la pobreza.

2) En México se administra la Corrupción. Basta ver las históricas cifras de daño patrimonial presentadas cada año por la Auditoría Superior de la Federación (ASF) y otros Órganos Internos de Control de dependencias federales, estatales y municipales; porque la rendición de cuentas es reactiva y no preventiva. Con ello se pierden miles de millones de pesos

cada año. Empresarios dicen que el costo de la corrupción es del 10% del PIB y Ciudadanos del estado de Michoacán, que el 25% de los recursos federales van a la corrupción. Presidentes municipales se quejan de extorsiones, por bajar recursos públicos de origen federal, cuyas comisiones no debieran existir y mencionan que alcanzan más del 30%, imponiéndoles las empresas que supuestamente construirán las obras pactadas.

El Impacto es: romper ese sistema viciado que administra la corrupción y no permite que haya Transparencia en el origen y destino de los recursos públicos desde los municipios.

Beneficia a ciudadanos en general y la actividad de los empresarios:

1) Al empoderar a los ciudadanos para que sean contrapeso preventivo y oportuno contra la corrupción, y puedan participar en la deliberación de prioridades y toma de decisiones en el uso de los recursos públicos de procedencia federal, estatal y municipal;

2) A los empresarios, les dará certeza de que, para hacer sus inversiones no tienen que pagar comisiones o beneficios indebidos a funcionarios y la inversión pública y privada, tendrá un mayor efecto multiplicador en beneficio del crecimiento del mercado interno, que redundará favorablemente en el desarrollo económico y humano y social de la población en los municipios.

Valoro que merece ser presentada porque es una aportación a la economía que fortalece nuestros sistemas económicos como lo dije en Londres, no hay mano invisible que corrija los serios desequilibrios que están causando grandes problemas a la gobernanza en todos los países; porque mi aportación ayudará a lograr mejores resultados para combatir preventivamente, las condiciones existentes para que haya “Mercado Corrupto” y “Estado Corrupto”.

El Combate Preventivo de la corrupción, debe ser con base en, la transparencia en el origen y destino de los recursos públicos desde los municipios.

¿Por qué? Porque la confianza de los ciudadanos en sus gobernantes, se ha roto."

No hay ni un problema en México, España o la Conchinchina que no repercuta en el resto del mundo. No hay mal particular que no forme parte del mal universal. Bueno sería que los ciudadanos lo comprendieran y lo reflexionaran nuestros representantes.

De nada. Ya saben que me gusta ser útil, incluso cuando me salgo de tiesto.

Muchas Gracias A L'agüela y todo el Equipo de Gatopardo. Falta mucho Esfuerzo para lograr este urgente cambio estructural, que es en beneficio de las personas en general, en las que inevitablemente están incluidos los que se niegan, obstruyen y retrasan este cambio en México, o en otro País, respetando las condiciones similares o diferentes de la relación entre sociedad y gobierno, la cual debemos hacer ambos factores, Transparente siempre, en todas las actividades que representan el uso de los recursos públicos.

LA ROSA DEL AZAFRÁN. LA CAZA DEL VIUDO

La caza del viudo ("¡Conformidad! ¡Qué voy a hacer!...").

CORO

—¿Y agora, ¿qué vas a hacer?
¡Lo tienes que cavilar!
Si te has quedao sin mujer.
¡Así no puedes estar!

CARRACUCA

—Yo mesmo me he calculao
que en algo debo pensar.

MONIQUITO

—El pobre está apabullao.

CORO

—¡Se va a tener que casar!

CARRACUCA

—Yo comprendo que yo solo
con las cinco criaturas
voy a verme en un apuro
pa sentarles las costuras...

MONIQUITO

—¿Quién les cose? ¿Quién les plancha?
¿Quién les barre? ¿Quién les guisa?
¿Quién les suena las narices?
¿Quién les lava la camisa?

CARRACUCA

—¡Son tan chicos!

MONIQUITO

—¡Son tan guarros!

CARRACUCA

—¡Tan corticos!

MONIQUITO

—¡Tan cerraos!

CARRACUCA

—Sin su madre están perdíos.

MONIQUITO

—¡Sí que están extraviaos!

(Cuatro MUJERES apartan a CARRACUCA, rodeándole.)

GRUPO 1.º

—La Juliana
de casarse contigo tie gana;
pues ya sabes que es medio tontiza,
y es sana y rolliza
como una manzana…

MONIQUITO (Cogiendo a CARRACUCA y llevándoselo a otro lado.)

—¡No me gusta pa ti la Juliana!

(Otro grupo de MUJERES se apodera de CARRACUCA, rodeándole.)

GRUPO 2.º

—La Clementa
va a cumplir este mes los cuarenta,
y es tan guapa y graciosa entavía
que nadie diría
los años que cuenta…

MONIQUITO (Repitiendo el juego.)

—¡Pues tampoco me va la Clementa!

GRUPO 1.º

—¿Y a ti qué te importa?

GRUPO 2.º

—¿Y a ti que te va?

CARRACUCA

—Cuando lo hace será conveniente.

TODAS

—¡Cuándo él lo consiente
por algo será!

MONIQUITO

La Juliana no me gusta
porque tiene un ojo tuno,
y no digo na del otro
porque no tiene más que uno.
Y tocante a la Clementa,
¡cuántas cosas te diría!

CARRACUCA

—Pues ahórrate el inventario,
¡porque fue mi ama de cría!

GRUPO 1.º

—Ten en cuenta que eres viudo.

GRUPO 2.º

—Que no hay tantas pa escoger.

MONIQUITO

Pero al menos que en visita
no la tenga que esconder.

(Un tercer grupo de cuatro aparta a MONIQUITO, rodeándole.)

GRUPO 3.º

—La Calixta,
si la hubiás encargao a un artista,
no le sale tan mona y tan maja,
porque es una alhaja
de hermosa y de lista.

CARRACUCA (Apartando a MONIQUITO.)

—¡Es muy poco pa mí la Calixta!

(Un cuarto grupo capta y rodea a MONIQUITO.)

GRUPO 4.º

—La Jacoba,
¡hay que verla moviendo la escoba
o guisando en las ollas de barro
y el lomo de guarro
lo bien que lo adoba!

CARRACUCA (Despreciativo)

—¡Que se vaya a fregar la Jacoba!

GRUPO 4º

—¡Pues sí que eres tonto!

GRUPO 3º

—¡Pues no pides na!

GRUPO 2º

—¡Querrá una princesa!

GRUPO 1º

—¡La reina querrá!

(Conforme dicen su frase se van a una esquina cada grupo.)

TODAS (Con coquetería.)

—Si tú quieres, Carracuca,
yo no tengo inconveniente.

MONIQUITO

—Si es que el médico le ha dicho
que no tome na caliente.

(Después de mirar pícaramente a CARRACUCA y de mostrarle cada una un poco de pantorrilla)

FELIPE II

FELIPE II (1527+1598) Rey de España, de Portugal y de las Indias, que heredó de su padre, Carlos I de España y V de Alemania. Su reinado es la continuación exacerbada de un modo de reinar austero e inhumano.

Después de que el barón flamenco Montigny muriera ajusticiado sin juicio, mediante garrote vil, y amortajado con un hábito franciscano para ocultar las huellas de su muerte atroz, el rey se jacta en carta al duque de Alba: "*Se ha llevado todo tan bien que, hasta ahora, todo el mundo cree que ha muerto de enfermedad*"1. Su corresponsal no era ni más ni menos que su verdugo en las matanzas de Flandes.

Su primogénito, el príncipe Carlos no habló hasta los tres años, y fue un niño enfermizo y deforme, con la cabeza desproporcionada, que sentía especial placer en ver asar vivos a los animales, era colérico, contrahecho, y atacaba a mordiscos. En una de sus enfermedades, fue desenterrado el cadáver de Fray Diego, muerto un siglo antes, para acostarlo con el enfermo y curarlo con su contacto.

Felipe II, viendo que no podría ser su sucesor, lo hizo prisionero de Estado por alta traición, hasta que murió.

Felipe II se refugió en El Escorial, un caserón encalado, umbrío, donde el mausoleo y el "pudridero" le aguardaban, y las reliquias de los santos recibían su celo fervoroso entre procesiones, oraciones, novenas, y aquejado del mismo delirio místico y necrófilo que tuvieron otros monarcas de su dinastía.

Los cirujanos le extirparon un tumor de la rodilla y cuatro del pecho, y durante cincuenta y tres días estuvo en la misma cama, sin lavarlo ni mudarlo, mientras la gangrena invadía sus llagas.

Cuando le preguntaron si sufría al írsele cayendo las carnes podridas, a trozos, Felipe II contestó santamente: "*Sí, sufro; pero los pecados me duelen más que las llagas*."

Gatopardo

1)

El caso de Montigny merece conocerse con todos sus detalles. El rey reúne al Consejo para oir sus pareceres, asistiendo el Príncipe de Éboli, el Cardenal Espinosa y Eraso; (…) la mayoría opina por darle un bocado," pero el rey prefiere que sea ahorcado en sigilo, haciendo creer al público que murió de enfermedad. Así, pues, el Barón de Montigny es trasladado de la torre de Segovia a Simancas, cuyo gobernador Peralta inspira bastante confianza para lo que se quiere hacer

El rey, dice la orden remitida a Peralta, no quiere que se sepa que Montigny ha sido ejecutado; debéis, pues, hacer creer que su muerte ha sido natural, y asegurar el secreto de esta ejecución, todo lo que un secreto pueda asegurarse en este mundo. (*)

Un médico va públicamente a visitar al preso; se encargan y traen de la ciudad remedios contra la fiebre, y entretanto, un alcalde, un fraile y un verdugo salen de Valladolid. Lo que deben hacer hora por hora, esta prevenido y prescrito por la mano misma del rey. La caridad en el crimen es llevada tan lejos, que hay largas recomendaciones para que se anuncie con precauciones al noble Montmorency la muerte ignominiosa, en garrote, evitandose así que se condene por la desesperación. Hase de confortar su piedad y su valor para impedir por todos los medios que intente darse la muerte: se le dará el tiempo de una noche y un día *para que se confiese, reciba los sacramentos y se arrepienta. Cuanto a este importante punto, no ha de tolerarse ninguna negligencia.* El religioso debe de ser docto y prudente, y sería bien escoger a Fray Hernando del Castillo, que está en el Colegio de San Pablo. Se permitira al condenado hacer testamento, aunque estando confiscados todos sus bienes, no tenga nada que legar; pero se le dejara entender que puede disponer de ellos si consiente en disponer sus últimas voluntades, en los términos que emplearía un hombre enfermo en su última hora, lo que hara creer mejor en una muerte natural. Se le permitira también escribir a su mujer, pero en el mismo concepto de un hombre que se siente gravemente enfermo y en el articulo de la muerte. Luego que haya sido agarrotado, se le revestirá con un hábito de franciscano, calándole bien la capucha, en manera que tape bien las señales del garrote en la garganta: los que lo metan en el ataúd, no han de saber nada del secreto, y el entierro será público y pomposo, como cumple a un gran señor, cuya

muerte prematura se deplora.

La orden real, con fecha 1º de Octubre de 1570, fue puntualmente cumplida, y dando cuenta al Duque de Alba de este asesinato, el rey le escribe: "Resta agora que nos hagáis luego sentenciar su causa, como si hubiera muerto de su muerte natural, de la manera que se sentenció la del Marqués de Vargas y enviaréisme copia de lo que allá se hiciere."

La formalidad era necesaria para la confiscación de los bienes.

KEPA OSORO ITURBE, DE ©LECTYO, Y OTROS PLAGIOS A CLOTILDE TAMBRONI

Kepa Osoro Iturbe, de ©LECTYO, "*la plataforma social de la gente de la lectura, creada por la Fundación Germán Sánchez Ruipérez para el intercambio de ideas y la promoción de tu YO profesional. Contigo queremos construir la comunidad más estimulante de Latinoamérica y España en torno al mundo de la lectura y los libros*", que auspicia también el Programa de Cooperación Transfronteriza España-Portugal, como paniaguado especialista en "lectura y comprensión lectora", con su consabido aviso *"©All rights reserved"* —como todos los plagiarios— escribe y publica lo siguiente:

"Clotilde Tambroni (Bolonia 1758-Bolonia 1817) fue una filóloga, lingüista y poeta italiana, a caballo entre los siglos XVIII y XIX. Aquí os dejo su poema `Balance´." (**PS 2**)

Todo eso sin decir de dónde copió el poema en español, que se supone pensó que fue escrito, en su origen, en italiano, —y por lo tanto, pensaría que hubo un traductor— que ha plagiado sin citar y reconocer procedencia, para ponerlo en su web con el candado *"©All rights reserved"*.

Nosotros, en Gatopardo, publicamos bajo licencia Creative commons:

Atribución-NoComercial-Compartir Igual (CC BY-NC-SA)

es decir, derecho de copia y reproducción libre, siempre y cuando se reconozca la autoría y procedencia, sea no comercial, y se transmita en los mismos términos.

Vamos, que no estamos por la labor de que un vivalavirgen, al amparo de fundaciones de dudoso proceder, le pegue el moco del *"©All rights reserved"* a lo nuestro.

Y se columpia Kepa Osoro Iturbe, naturalmente, atribuyendo el poema a la catedrática de griego de *l'Università di Bologna di fine Settecento italiano*, cosa rara para cualquier lector medianamente culto, que se daría cuenta de que, en su estilo y factura, los poemas de Clotilde Tambroni que publicamos en Gatopardo son

contemporáneos.

¡Qué astuto el bicho!

Julymurillo , de algunospoemas.wordpress.com, publica en la sección "Letras italianas" el poema que rebautiza como "**No hables jamás**", y atribuye a "Clotilde Tambroni, 1758-1817", que resulta ser el poema CONSEJOS A MÍ MISMA publicado en Gatopardo, de nuestra apócrifa Clotilde Tambroni, que nunca formó parte de las letras italianas y, que sepamos, no anduvo por el *settecento* italiano ni español.

Esperamos respuesta a las preguntas realizadas en su blog:

¿Quién ha traducido al español este poema archidesconocido y perfectamente apócrifo, de Clotilde Tambroni?

¿De qué blog lo copió, sin citar procedencia mediante enlace, segun los cánones del creative commons? (Por no hablar de los cánones de la cortesía más elemental entre delincuentes...)

Y siguiendo la racha de plagios, con fecha 26-03-2008, el titular del boboblog http://www.fotolog.com/blacketernity se adjudicó la autoría del poema CUANDO SONRÍES de Clotilde Tambroni, publicado en Gatopardo el 17/08/2006.

Por todo lo que antecede, todos los que hacemos Gatopardo hemos rogado a Clotilde Tambroni que escriba aprovechando todo el renglon, cosa que le permitirá encontrar lectores tan presentables como los nuestros. El tufo a rastacuero y chorizo indocumentado de sus sablistas es insufrible.

Ya lo dijo aquel romance,
La poesía es lo que tiene:
un menda de mete en trance
balbucea, si le conviene
y no tiene más alcance,
que no es cosa que se cene.

Es lo que me pasa a mí,
no lo hago por fardar,

no es asunto baladí
si no rimo por rimar
es que no doy más de sí
salvo después de cenar.

Autor: Kepa Osoro Iturbe

Buenas tardes.

Leo desde Perú -donde estoy desde dos semanas y por eso no os he contestado antes- su sarcástico comentario y tengo que comentar lo siguiente:

1. En primer lugar, PIDO DISCULPAS con absoluta humildad pues mi error no se debió a mala intención sino quizá a una mala lectura de la información de origen que leí vía el blog de Javier Coria (http://javiercoria.blogspot.com/2014/10/balance-poema.html).

2. Si a alguien debo pedir disculpas es a él, a quien no cité porque en su post no había ningún comentario personal sino la mera transcripción del texto. Si Javier hubiera reflexionado de algún modo a partir del texto de Clotilde.

3. La cita a Gatopardo era INNECESARIA como sabe cualquier persona inteligente, pues en el universo de internet es imposible rastrear los orígenes de la mayoría de las informaciones. Coria citaba en la parte inferior del post en el que recogía el citado poema a Gatopardo.

4. No hay ninguna intención de plagio ni de vulneración de la exquisitez profesional que debemos guardar todos aquellos que estamos en esto de la difusión de la cultura.

5. Cualquiera que siga mi trayectoria profesional en diversas instituciones y mi trabajo en Lectyo y en diversos foros tendrá claro que soy una persona rigurosa que SIEMPRE QUE PUEDE –salvo errores como el que nos convoca- cita las fuentes de sus cometarios,

informaciones y conocimientos.

6. La persona o personas que están detrás de Gatopardo –es curioso y lamentable que no den la cara y acompañen sus comentarios con su nombre y apellidos- harían bien en profundizar, por ejemplo, en los diversos post que incorporo en Lectyo y así podrán comprobar que no solo suelo citar las fuentes de los textos sino que reivindico incluso que se cite también en el caso de las imágenes.

7. Precisamente en el post de Gatopardo que incorpora el poema de Tambroni se presenta una fotografía de la que se dice que es "biblioteca en Londres después del blitz", pero no se cita su origen.

8. Por tanto, lecciones las justas. La manera de exponer su queja –que puede ser razonable y por eso comienzo disculpándome- es del todo inadmisible porque lo más elegante hubiera sido escribirme directamente (Lectyo permite escribir a cada miembro de modo privado), mostrándome su malestar y enfado de modo que yo les hubiera escrito PIDIENDO DISCULPAS y hubiera incorporado un post corrigiendo mi error.

9. Llamarme "paniaguado", "plagiario", "vivalavirgen", "bicho"… demuestra que el autor de su comentario es una persona deleznable, miserable y amargada.

10. Y, por cierto, la Fundación Germán Sánchez Ruipérez, es una institución de un bien merecido internacional prestigio como sabe cualquier persona que tenga algo que ver con la lectura.

11. Soy consciente de que cometo errores, de que tengo muchísimas cosas que aprender, de que ninguno de mis conocimientos proviene de mi sabiduría innata o de mis méritos sino de que la vida me ha otorgado el privilegio de compartirla con un sinfín de personas –niños, jóvenes, docentes, bibliotecarios…- que me han regalado su experiencia, sus conocimientos y lo mejor de sí mismos. Así que de ninguna manera les permito que me falten al respeto de forma tan injusta.

12. Exijo que introduzcan esta respuesta en su blog y que introduzcan un comentario pidiéndome disculpas pues creo sinceramente que las merezco.

Es legítimo escribir y promover blogs con tintes disruptivos, contestatarios, revolucionarios, críticos, sarcásticos…, hasta ahí todo bien, pero hay una línea que no debemos traspasar y es la de pisotear el derecho al honor. Ustedes lo han hecho del modo más abyecto.

Autor: Gatopardo a Kepa Osoro Iturbe

Viene a ser lo mismo pero con contumacia: el blog de Javier Coria, donde se repicó el poema, publica bajo licencia creative commons, y puso el enlace directo preceptivo al poema de Clotilde Tambroni publicado aquí: tiene perfecto derecho, pues. Y que repique algo de Gatopardo es un honor, y lo agradecemos, porque Coria es un gran escritor.

Ya me dirás a qué santo te encomendaste de las leyes del copyright para pillar el poema, y reproducirlo sin enlace al blog de Javier Coria, de donde dices que lo copiaste,y publicándolo bajo restricción de "©All rights reserved", sin pedirle permiso ni pagarle aranceles.

Y lo peor: bajo los auspicios de la Fundación Sánchez Ruipérez, que tengo yo ganas de ver qué dice el Tribunal de Cuentas de sus convenios, subvenciones y concursos.

Ni modo que me crea que eso es una conducta honorable tuya y de tus señoritos, ni aunque me enseñéis el pañuelo con las tres rosas de la honra.

Y, Kepa, a ver si te pones al día en lógica y retórica, que echas a hablar y durmes a las ovejas.

Autor: Javier Coria

Como sabrá ahora, señor Kepa Osoro, Clotilde Tambroni es el seudónimo de una amiga que viene colgando poemas hace años en el blog de Gatopardo, y una lectura atenta de dichos poemas, lectura que cabría suponer en alguien que trabaja en una "Red de

profesionales de la lectura", sabría que son textos contemporáneos, nada más fijándose, por ejemplo, en las expresiones y giros lingüísticos; por no hablar del hecho de que no se cita a ningún traductor, importante cuando hablamos de poemas, y que los que sí tenemos la cortesía intelectual de citar las fuentes, no habríamos pasado por alto.

Señor Osoro, creo que hubiera quedado como un señor si se hubiera parado en el primer punto de su respuesta:

1. En primer lugar, PIDO DISCULPAS (las mayúsculas son suyas) con absoluta humildad pues mi error no se debió a mala intención sino quizá a una mala lectura de la información de origen que leí vía el blog de Javier Coria.

Quite el "quizá", leyó mal, porque si no hubiera visto que cito la fuente con un enlace, y cualquiera que no esté tan ocupado como usted y con más pericia, no se hubiera quedado en mi blog y hubiera ido a la fuente citada. Es muy poco elegante, después de coger un texto que se publica con licencia Creative commons y llevárselo a una web que publica con Copyright (© 2014 LECTYO. All rights reserved), que pretenda echarme la culpa a mí por no añadir ningún comentario o reflexión al poema y, por tanto y según su leal saber y entender:

3. La cita a Gatopardo era INNECESARIA (las mayúsculas son suyas) como sabe cualquier persona inteligente (?) (la interrogación es mía), pues en el universo de internet es imposible rastrear los orígenes de la mayoría de las informaciones. Coria citaba en la parte inferior del post en el que recogía el citado poema a gatopardo.

Pero querido, en esta ocasión lo ¡TENÍA A HUEVO!, no sólo podía citar mí blog de donde cogió el poema, sino el original de Gatopardo, y no tenía que buscar por el "universo de Internet" que según usted "cualquier persona inteligente conoce", sino simplemente utilizar el enlace a la fuente que yo, como es de rigor, le proporcionaba, sin tener que buscar en ignotos horizontes cibernéticos. También es poco elegante cargar contra los autores del blog de Gatopardo y decirles cómo y en qué condiciones deben aparecer; quizá si leyera muchos de los contenidos de este blog (sin llevarse nada sin citar, por favor) se daría cuenta que, a veces, cuando se publica aquello que algunos nunca quisieran ver publicado, la necesidad lleva a tomar pequeñas medidas de seguridad. Además, ¡carajo!, un estudioso como usted no ignorará el uso de los seudónimos en la literatura o en el periodismo.

Y esos cantos jesuíticos haciéndose el ofendido, cual diva, y exigiendo que le "pidan disculpas", mejor no comentarlos, pero son más propios de una ópera bufa.

Por lo demás, si el blog o la web donde usted trabaja, y la fundación que lo auspicia, se financian con ayudas y subvenciones públicas, estoy por solicitarle al ínclito exministro de Cultura, señor César Antonio Molina Sánchez, que su paga de este mes nos la pase a Gatopardo, a Clotilde y a un servidor, que daremos buena cuenta de la soldada en algún garito de mala muerte, de esos que no frecuentan "lectores profesionales".

Le mando estas líneas a su dirección de correo que me ha facilitado al escribirme, y que me fue imposible encontrar en su web, y los mensajes privados se puede hacer pero bajo registro –y no me apetecía dicho registro-, pero como veo que su respuesta se ha hecho pública, por su petición, en los comentarios del blog de Gatopardo hago lo mismo con este mensaje.

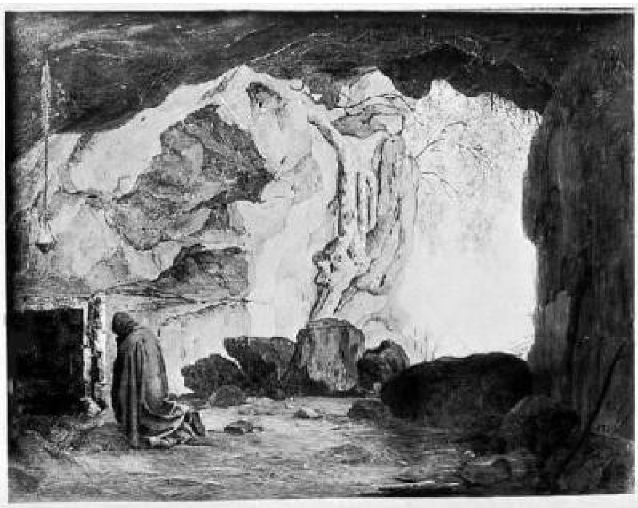
ROMANCE PENITENCIA DE RODRIGO



32 PENITENCIA DE RODRIGO

Don Rodrigo estaba malo,
   cama de rosas tenía,
la Muerte a su cabecera
   haciéndole compañía.
—Por Dios te pido, la Muerte,
   año y medio más de vida.
—Sólo te dejo, Rodrigo,
   hora y media no cumplida.—
Por el Val de las Estacas
   va Rodrigo en aquel día,
relumbrando van sus armas
   como el sol de mediodía.
Bajó unas vegas abajo,
   subió unas sierras arriba,
donde cae la nieve a copos
   y el agua menuda y fría,

donde canta la culebra,
   la sierpe le respondía,
y se encontró a un ermitaño
   que vida santa allí hacía.
—Por Dios te pido, ermitaño,
   por Dios y Santa María,
que me digas la verdad
   y me niegues la mentira:
el que duerme con mujeres
   si tiene el alma perdida.
—El alma perdida, no,
   no siendo hermana o prima.
—Ésa fue la mi desgracia,
   ésa fue la mi desdicha,
que dormí con una hermana
   y una prima que tenía.
Confiésame, el ermitaño,
   por Dios y Santa María.
—Confesado ya estás, hijo,
   yo absolverte no podía;
el que duerme con hermana
   se condena en la otra vida.—
Estando en estas razones,
   una voz del cielo oía:
—Absuélvelo, confesor,
   absuélvelo, por tu vida,
y dale de penitencia
   conforme lo merecía.—
Lo metiera en una tumba
   con una culebra viva,
de siete varas de largo,
   siete de cola tendida;
la culebra era muy brava,
   siete cabezas tenía.
El bueno del ermitaño
   tres veces iba allí al día:
una iba a la mañana,
   otra iba al mediodía,
otra iba por la tarde
   cuando oscurecer quería.
—¿Cómo te va, penitente,
   con tu mala compañía?
—La compañía era buena,
   mejor que yo merecía.—
—¿Cómo te va, penitente,
   penitente aventajado?
—Vame bien, que la culebra
   a comerme ha comenzado,
ha comenzado a comerme
   por donde más he pecado.
Ya me llega al corazón,
   que era lo que más sentía,
si me quieres ver morir,

trae una luz encendida.—
Campanas de siete torres
de par en par se tañían.
¡Dichoso del penitente
que para el cielo camina!

La penitencia del rey don Rodrigo, encerrado con una culebra en su fosa, es un tema tardíamente incorporado a la leyenda hispano-arábiga de “El conde don Julián y la invasión musulmana de España”.

Esta leyenda, inicialmente documentada en autores que escriben en árabe y piensan dentro de la tradición árabe, llegó a la literatura cristiana por influjo de la historiografía de al-Andalus sobre la historiografía del Norte de la Península, primero escrita en latín y luego en lengua romance. Pero, una vez arraigada en ella, a los componentes procedentes de la cultura árabe, se fueron incorporando otros de origen cristiano. A mediados del siglo XIII, cuando el erudito arzobispo de Toledo don Rodrigo Ximénez de Rada compuso su historia *De rebus Hispaniae*, su narración del fin del reino godo heredaba ya una compleja y vistosa suma de “motivos” legendarios que habían ido agregándose al tema y entrecruzándose a lo largo de sus muchos siglos de vida historiográfica en árabe y en latín. Sin embargo, la conversión de la leyenda en una novela de amplio desarrollo sólo vino a tener lugar como resultado de una nueva utilización de un texto árabe (el viejo “*Ajbar muluk al-Andalus*” de Ahmad ibn Muhammad al-Razi, escrito en el siglo X) por la historiografía portuguesa de comienzos del siglo XIV en la llamada Crónica do mouro Rasis, y, a partir de esta obra, en la, también portuguesa, Crónica geral de Espanha de 1344 y en la Crónica sarracina de Pedro de Corral, fechable en 1443. En esta última obra y en otros textos historiográficos independientes de ella que se escalonan entre 1390 y el último tercio del siglo XV, es donde, tras un cierto tiempo de vida latente, hace su aparición el sub-tema de la penitencia del rey Rodrigo.

Al éxito de la crónica novelesca de Corral, muy difundida en manuscritos y por la imprenta del siglo XV, se deben los más de los romances referentes al rey Rodrigo del Romancero viejo. En ellos son patentes los elementos narrativos basados en la lectura de la Crónica sarracina.

Entre los textos publicados por la imprenta en el siglo XVI, que versifican episodios o escenas narrados por Corral, se halla un largo romance de 116 octosílabos, incluido en diversos Pliegos sueltos y Romancerillos, referente a la suerte del rey Rodrigo después de haber perdido España. Aunque simplifica la serie de episodios ideada por el cronista, abundan en el romance los recuerdos directos y coincidencias de detalle que vinculan su narración a la de la novela histórica de 1443.

El romance tradicional del siglo XX desechó de la larga narración juglaresca, que nos conserva la imprenta del siglo XVI, su episodio inicial, referente a un primer encuentro del rey con un pastor, y se centró en el de mayor dramatismo. Su dependencia textual respecto al texto juglaresco es indiscutible y el proceso de adaptación a una estructura y a un lenguaje poético propios del romancero de tradición oral es similar al de tantos otros romances con antecesores letrados; pero es curioso observar que en las versiones de la tradición oral moderna se detectan varios y muy precisos recuerdos de la narrativa de Corral que el romance juglaresco impreso en el siglo XVI no recogía (la culebra tiene varias cabezas; el sufrido penitente declara al ermitaño que le va “bien, gracias a Dios, y mejor que él merecía”; la culebra, “pasado medio día, ...le llegó a las telas del coraçón, e dio luego su espíritu”; “en aquella ora que

el espíritu dio, todas las campanas del lugar fueron movidas por sí mesmas”). ¿Hubo un texto previo al del romance juglaresco al cual remonte la tradición oral? o ¿siguió actuando la lectura de la *Crónica sarracina* como fuente de innovaciones en el curso de la vida tradicional del romance? Está claro que, sólo una vez perdida la memoria histórica sobre el pecado del Rodrigo a quien el ermitaño impone, por mandato divino, la bárbara penitencia, pudieron producirse innovaciones como la de justificar esa penitencia con el “crimen” del incesto confesado por el Rodrigo indeterminado que teme condenarse en la otra vida, esencial en el romance tradicional moderno. Pero, por otra parte, sabemos que, en tiempos de Cervantes, dueñas como la Rodríguez y escuderos como Sancho sabían ya el romance con variantes surgidas por tradición oral ajenas al viejo texto impreso; y que en una de esas versiones constaban los versos:

Ya me comen, ya me comen
  por do más pecado avía,

variante en que se resume, con brevedad tradicional, lo narrado en el romance juglaresco diciendo:

Dios es en la ayuda mía
  —respondió el rey don Rodrigo—
la culebra me comía,
  cómeme ya por las parte
que todo lo merecía,
  por dónde fue el principio
de la mí muy gran desdicha,

que (con cambio de asonante) aún pervivía en el Romancero del siglo XX, según recoge la versión aquí publicada:

ha comenzado a comerme
  por donde más he pecado,

diciseisílabo basado en una versión oída en Las Médulas (en El Bierzo) por Víctor Said Armesto, en setiembre de 1905, a las labradoras Celestina y Ana María Ramos (de 78 y 35 años). El proceso de incorporación de la narración romancística letrada, inspirada en la crónica novelesca, a la poética del Romancero oral tuvo, por tanto, muy diversas etapas.

La descontextualización histórica de la penitencia, según el testimonio cervantino, no se había producido entre los cantores populares del romance en 1615. No ignoraban que el penitente era el rey que atrajo sobre su pueblo la ira divina, materializada en las huestes sarracenas vencedoras de los cristianos en Guadalete. En la tradición oral del siglo XX el tema pervive en el Noroeste de la Península (en Tras-os-montes, Sanabria, El Bollo, El Bierzo, Lugo, Asturias y la montaña leonesa) y en Chile, pero ya nadie relaciona al penitente con tamaño pecado, y nadie tiene noticia de que el Rodrigo encerrado con la culebra hubiera sido rey, a excepción de una solitaria versión de Vinhais, en Tras-os-montes. Como consecuencia de ello, la confesión con el ermitaño, heredada del romance letrado, necesitó una visualización escénica que los transmisores del romance supieron desarrollar, recurriendo a motivos y materiales descriptivos, de procedencia muy dispar, que les proporcionaba la poética tradicional. En mi versión, se hacen presentes varios de ellos, en que el erudito puede reconocer la influencia generativa de otros romances, pero que, en la tradición oral de “*La penitencia de Rodrigo*”, funcionan como tropos. Gracias a ellos, el viejo tema de la penitencia con la

culebra es un poema, no una reliquia.

AUDIENCIA PROVINCIAL. SECCIÓN SEGUNDA PALMA DE MALLORCA. APELACIÓN PENAL. ROLLO 491/14. AUTOS DPA 2677/08 (Pieza 25)
Juzgado de Instrucción número 3 de Palma. A U T O NÚM.627/2014

En Palma de Mallorca a 7 de noviembre de 2014

I.-ANTECEDENTES PROCESALES.-

PRIMERO.- Por las acusaciones populares ejercidas por el sindicato Manos Limpias y el Grupo Socialista del Ayuntamiento de Valencia se recurre en apelación directa el auto de fecha 25 de junio de 2014 dictado por el Juzgado de Instrucción número 3 de Palma, impugnando ambas representaciones el sobreseimiento acordado respecto del Vicealcalde de Valencia y presidente del patronato de la Fundación Turismo Valencia Convention Bureau (FTVCV) Don Alfonso Grau Alonso.

Por su parte, Manos Limpias en solitario demanda el mantenimiento de la imputación respecto de Mario Sorribas Fierro, a quien considera mano derecha del Sr. Urdangarín, tanto en Noos como en AIZOON, así como partícipe en la utilización de las sociedades instrumentales De Goes Center Ford Stakelhorder S.L. – la española -; De Don Carlos García Revenga, por su participación en la Junta Directiva del Instituto Noos como tesorero y a su vez Secretario de la Infanta Doña Cristina. De Salvador Trinxet Llorca, como autor intelectual del entramado de sociedades extranjeras para lograr que los fondos malversados remansasen en cuentas en Andorra, Luxemburgo y Suiza. Y de Miguel de la Villa Polo – Director General del Ayuntamiento de Madrid - que firmó el contrato entre la Fundación Madrid 16 y la Fundación Deporte Cultura e Integración Social (FDCIS); y Don Gerardo Corral Cuadrado en calidad de Director financiero de la Sociedad Madrid 16 SAU (sociedad anónima unipersonal), ya que fue él la persona que ordenó el pago de los donativos a favor de FDCIS.

Ambos recursos han sido impugnados por las defensas de los apelados a quienes afecta el sobreseimiento, así como por el Ministerio Fiscal.

SEGUNDO.- Por las defensas de los imputados Sres. Urdangarín, de su esposa la Infanta Doña Cristina de Borbón y Grecia, del matrimonio formado por Diego Torres Pérez y Ana Tejeiro Losada y sociedades a ellos vinculadas, de los Sres. Marcos y Miguel Tejeiro Losada, de Jaime Matas Palou,de Jorge Vela Bargues, Sr. Aguilar Colás, Sr. Lobón Martín y de la Sras. Maldonado y Coghen, se ha recurrido la decisión de continuar en su contra las actuaciones por los trámites del proceso abreviado. Algunos de ellos han recurrido previamente en recurso de reforma: representación del matrimonio Torres-Tejeiro y sociedades a ellos vinculadas y Jaume Matas – También recurrió el Sr. Bernal, pero finalmente no ha impugnado en apelación el auto resolutorio de la reforma -. Estos recursos han sido impugnados por el Sindicato Manos Limpias, que en su escrito de apelación además de solicitar que se dejase sin efecto el sobreseimiento respecto de los imputados antes indicado, postuló el mantenimiento de otras imputaciones y su ampliación respecto del Sr. Urdangarín, así como del matrimonio firmado por el Sr. Torres y su mujer Ana Tejeiro Losada, por un delito de blanqueo de capitales.

El sindicato Manos Limpias se opuso expresamente a los recursos de apelación promovidos por los imputados recurrentes con dedicación especial y en escrito aparte al formulado por la defensa de la Infanta Doña Cristina y por el Ministerio Fiscal y por Don Iñaki UrdangarínLiebaert, adhiriéndose a la apelación de los Concejales del Grupo Socialista del Ayuntamiento de Valencia.

Los concejales de Partido Socialista del Ayuntamiento de Valencia también y previamente a la apelación formularon recurso de reforma respecto del sobreseimiento del Vicealcalde del Ayuntamiento de Valencia Alfonso Grau Alonso.

TERCERO.- El Ministerio Fiscal formuló recurso de apelación en contra del mantenimiento de la imputación de la Infanta Doña Cristina de Borbón por los delitos de cooperación al fraude fiscal y de blanqueo de capitales, así como de Doña Ana Tejeiro Losada por cooperación en el fraude fiscal que se atribuye cometido a su marido Diego Torres. En escrito de alegaciones impugnó los restantes recursos de apelación, solicitando la confirmación del archivo de las actuaciones respecto de los imputados favorecidos por la decisión sobreseyente.

CUARTO.- Por su parte, la Letrada del Estado en representación de la Agencia Tributaria, presentó escrito en el que manifestaba su intención de no formular acusación por delito fiscal contra la Infanta Doña Cristina y contra la Sra. Tejeiro Losada, con base a las conclusiones del informe avance 4 elaborado por los Inspectores de Tributos autores del citado informe, de manera que consideraba que lo procedente era sobreseer la causa contra las mismas por tales ilícitos.

QUINTO.- Sustanciado los recursos de referencia, el Juez instructor dispuso estar a la espera de resolver los previos recursos de reforma para remitir las apelaciones directas de manera conjunta y en una sola pieza. La remisión de las actuaciones se produjo en fecha 9 de septiembre pasado y se verificó mediante un disco duro externo que incluía la totalidad de la causa – por cierto sin disponer la elaboración de índice o guión que permitiera conocer y analizar el contenido de los archivos, extremo agravado porque en algunos casos las partes han aludido genéricamente,sin citar el folio concreto, a la ingente documentación y declaraciones de testigos e imputados que conforma el contenido de los archivos que incorporaba el disco duro -.

SEXTO.- Una vez recibidas las actuaciones, si bien no se dejó constancia en la causa, lo que se hace ahora, se solicitó la comparecencia de un experto informático con el objeto de proceder a la apertura del disco duro externo remitido por el juzgado, para verificar

que el mismo se podía efectivamente abrir y examinar cómo estaba organizado su contenido – insistimos, sin guión ni índice alguno que facilitase la localización de los particulares necesarios para su posterior estudio (cabe recordar que la Ley es clara respecto a que para la resolución de los recursos se remitirán solo los particulares necesarios y no la totalidad de la causa, sin perjuicio de que la Sala pudiera reclamarla)-. Una vez hecho esto el disco duro fue volcado en el ordenador que en la Sección Segunda de esta Audiencia se halla a disposición de la Secretaria judicial. A partir de ahí, se solicitó la adquisición a la Gerencia del Ministerio de Justicia de un disco externo a fin de posibilitar que el ponente y Magistrados de la Sala pudieran manejar las actuaciones y empezar al estudio de las mismas, tanto en las dependencias judiciales como en sus domicilios, y de su ingente contenido.

SÉPTIMO.- Mientras se estaba a la espera de que por la Gerencia se adquiriese el citado disco duro – para lo cual fueron necesarios varios días a fin de que la solicitud fuera aprobada y el disco se remitiera desde la capital del estado -, por parte del Presidente de esta Sala se dispuso de inmediato, el día 10 de septiembre, poner en conocimiento del Ilmo. Presidente de esta Audiencia la conveniencia de que para la resolución de los plurales recursos y habida cuenta de la complejidad que suponía la remisión de las actuaciones en la forma dicha (en su totalidad y sin purgar el Juez Instructor solo aquello que en verdad fuera relevante, restringiendo la socorrida fórmula de solicitar la remisión de todas las actuaciones, con el agravante de que ello se verificó sin guión ni relación alguna), se procediera al nombramiento de un único ponente, lo que así se verificó previa reunión de toda los integrantes de esta Sección, recayendo dicho nombramiento en virtud de acuerdo gubernativo del Ilmo. Presidente de esta Audiencia Don Carlos Gómez Martínez, en la persona del Magistrado Diego Jesús Gómez-Reino Delgado, Presidente de esta Sección.

OCTAVO.- Notificado el anterior nombramiento por Diligencia de ordenación del mismo día 10 de septiembre, en la que se disponía estar a la espera de examinar los recursos para fijar día para la deliberación y fallo, en su caso, previa celebración de una o de varias vistas, si es que se considerase preciso acudir a eso para una mejor y más fundada formación de la convicción del tribunal llamado a conocer de los recursos, la acusación popular Sindicatos Manos Limpiasen escrito de 16 de septiembre procedió a formular recurso de reforma contra la indicada diligencia de nombramiento de ponente único, en solicitud de que los recursos interpuestos (con la dificultad que entrañaba el hecho mismo de que la causa fuera remitida en disco duro y digitalizada) se repartieran entre todos los Magistrados de la Sala siguiendo el criterio habitual de trabajo, recurso que, con la oposición del Ministerio Fiscal y de la Abogacía del Estado, fue rechazado por decreto de la Secretaria Judicial de 23 de septiembre, con base en que el acuerdo gubernativo del Presidente de esta Audiencia antes comentado, era el que determinaba el ponente elegido, en la medida en que tal elección surgía de una reorganización de la distribución del trabajo interno del Tribunal y no de las normas de reparto, ya que todos los recursos provenientes del Juzgado de Instrucción número 3 de esta ciudad, por estar así establecido por normas de reparto aprobadas por la Sala de Gobierno del TSJB, son competencia de esta Sección Segunda, por tener asignado el conocimiento de los recursos sustanciados por los Juzgados de Instrucción de Palma con número impar, mientras que los pares corresponden a la Sección Primera.

NOVENO.- Desestimada la petición de la distribución de los recursos por Magistrados en lugar de su asignación a uno solo, como criterio más racional, favorecedor de la economía procesal y de una mejor y más ordenada distribución del trabajo ordinario de la Sala, ya que la elección de un solo ponente posibilitaba que éste concentrase su trabajo en la resolución de los varios recursos, quedando relevado de otras funciones

que serían asumidas por un suplente, por la representación del Sindicato Manos Limpias y una vez se acordó por Providencia de 23 de septiembre fecha para la deliberación y fallo de los catorce recursos: el día 23 de octubre y se indicó cuales serían los componentes de la Sala que los resolvería: junto con el ponente, los Magistrados Sr. Jiménez y Sra. De la Serna, se presentó escrito promoviendo la recusación del Magistrado ponente y de la Magistrada Sra. de la Serna.

DÉCIMO- Formulada la recusación se ordenó tramitar la misma, dando traslado del escrito de recusación a las demás partes a fin de que alegasen lo que estimasen oportuno respecto a la causa en que se sustentaba la presunta parcialidad invocada o por si consideraban que concurría otra distinta. El Ministerio Fiscal, la defensa de Salvador Trinxet, así como la Abogacía del Estado se opusieron a la recusación, sin que el resto de partes hiciera alegación alguna.

UNDÉCIMO- Verificado el tramite anterior, los Magistrados recusados evacuaron informe de fecha 2 de octubre, oponiéndose a la recusación planteada, del cual se dio traslado al Magistrado instructor y posteriormente al TSJB, por ser el órgano competente para resolver la recusación promovida al afectar a más de un Magistrado.

DUODÉCIMO.- El incidente de recusación resultó finalmente rechazado en fecha 31 de octubre, lo que se participó a esta Sala, recobrando el Magistrado ponente y la otra componente del Tribunal su cometido, a los efectos, el primero, de proponer la resolución a considerar (ya en estudio tras deliberaciones previas y prácticamente culminadas antes de que como consecuencia del incidente de recusación aquellas se suspendieran – no se puede olvidar que la sustanciación de recursos previos posibilitó a esta Sala tener un conocimiento, sino profundo, sí bastante amplio de la causa) y, su compañera y el Magistrado Sr. Jiménez,de deliberar y debatir sobre la misma y, luego, a someter dicha propuesta o sus modificaciones introducidas como consecuencia de los debates a votación.

DÉCIMOTERCERO.- Finalmente y dado que la resolución de la recusación se produjo con posterioridad a la fecha señalada para la deliberación, votación y fallo de los recursos, prevista para el día 23 de octubre, por Providencia del día 3 de noviembre se señalo nueva fecha para la deliberación coincidiendo esta con la de esta resolución, la cual es el resultado de aquella, alcanzada en plurales encuentros de los componentes de este tribunal.

II.-FUNDAMENTOS JURÍDICOS.-

PRIMERO.- Constituye el objeto de la presente resolución los varios recursos –en total catorce– interpuestos por partes acusadoras y las defensas de algunos de los imputados contra el auto de fecha 25 de junio de 2014, en virtud del cual el Juez de Instrucción número 3 de Palma, en la denominada pieza separada 25 del caso matriz conocido como Palma Arena –pieza nombrada como caso o causa Noos -, ordena la continuación de las presentes actuaciones por los trámites del procedimiento abreviado contra determinados imputados, dando traslado de las actuaciones al Ministerio Fiscal, a la Abogacía del Estado como perjudicada por los presuntos delitos fiscales cometidos por los matrimonios Torres-Tejeiro y Urdangarín-Borbón y a las acusaciones populares para en su caso formulasen escrito de acusación o el sobreseimiento que corresponda y disponiendo el sobreseimiento respecto de otros tantos imputados.

Las partes acusadoras populares personadas, Sindicato Manos Limpias y Concejales Socialistas del Ayuntamiento de Valencia, pretenden que se revoque el auto de

transformación a fin de que se incluya en el mismo a determinados imputados.

Las defensas de los imputados contra los que se ha ordenado proseguir el procedimiento con excepción hecha de algunos de ellos: Don José Luis Ballester Tuliesa (a la sazón Director General de Deportes del Govern Balear y Presidente de la Comisión Ejecutiva de la Fundación Illesport), Don Gonzalo Bernal García (Gerente de la Fundación Illesport), Don Juan Carlos Alía Pino (Gerente del Instituto Balear de Esport e integrado en el Patronato de la Fundación Illesport) y Don Miguel Ángel Bonet Fiol (Jefe del departamento jurídico de Ibatur – Instituto Balear de Turismo), apelan el auto demandando el sobreseimiento respecto de sus defendidos.

El Ministerio Fiscal ha postulado la confirmación del auto apelado, con excepción hecha de solicitar el sobreseimiento libre respecto de la Infanta Doña Cristina de Borbón y Grecia por entender que no ha podido cometer los delitos contra la hacienda pública y de blanqueo de capitales que le atribuye sumariamente el Juez Instructor; y el sobreseimiento parcial respecto de Doña Ana Tejeiro Losada, al considerar que no existen indicios de que hubiera podido cometer un delito contra la hacienda pública en el impuesto de la renta de su marido del ejercicio del año 2007.

Las defensas de los imputados respecto de los que el auto apelado ha dispuesto el sobreseimiento de la causa han impugnado los recursos interpuestos por las Acusaciones populares solicitando el mantenimiento de la imputación y pase de la causa a la fase intermedia dirigida a solicitar la apertura de juicio oral.

Para una mejor comprensión, estudio y resolución de los distintos recursos hemos decidido seguir el siguiente esquema:

.- Sucinta referencia episódica a la resolución objeto de recurso y trascendencia penal de los hechos relatados.

.- Consideraciones sobre el alcance y finalidad del auto transformador ordenando la continuación de las actuaciones por los trámites del proceso abreviado.

.- Legislación aplicable a tener en cuenta a la hora de la resolución de los recursos y breve referencia a los contratos de colaboración.

.- Estudio de los contratos de colaboración sometidos a controversia.

.- Examen de cada uno de los catorce recursos sometidos a revisión en esta alzada y respuesta dada por esta Sala en cada caso.

.- Consideraciones finales.

SEGUNDO.- *Sucinta referencia a los hechos justiciables que contiene el auto recurrido y su calificación jurídica*.

Según se desprende, en esencia y sistematizando, de los hechos que el Instructor narra en el auto apelado y que estima presuntamente probados a partir de la ingente cantidad de diligencias de investigación practicadas; los imputados Don Iñaki Urdangarín Liebaert y Don Diego Torres Pérez, el primero yerno del entonces Rey de España Don Juan Carlos de Borbón y Borbón – hoy cuñado de su Majestad Felipe VI por abdicación del padre – con el objeto de aprovecharse de la influencia que representaba que en la Asociación Instituto Noos figurasen en su órgano de dirección como Presidente el Sr. Urdangarín, su esposa e hija del Rey la Infanta Doña Cristina como vocal y su

secretario particular como tesorero Don Carlos García Revenga, lo cual era publicitado a través de un folleto en el que además de aparecer el yerno del Rey Don Iñaki Urdangarín como Presidente del Instituto y su mujer como vocal, el Sr. Revenga figuraba como Secretario de la Casa del Rey (extremo que no era cierto, ya que únicamente era Secretario personal de Doña Cristina); planearon, sin el concurso de Doña Cristina y del Sr. García Revenga, que actuaban como meras figuras decorativas, utilizar la citada Asociación para principalmente contratar con administraciones públicas, todo ello con la finalidad de obtener lucro ilícito.

La utilización de dicha entidad Asociación Instituto Noos, que formalmente se anunciaba como asociación sin ánimo de lucro, y con base y sustento en la influencia que representaba publicitar que la misma estaba integrada en su órgano de dirección por miembros de la Familia Real, dando así externamente la impresión de que, por consiguiente, gozaba de su respaldo implícito, habría facilitado que el Instituto Noos durante los años 2004 a 2006 hubiera obtenido contratos con entidades públicas instrumentales, viéndose favorecida la entidad Instituto Noos porque se habrían eludido intencionadamente las normas de contratación administrativa que rigen tales contratos al intervenir en ellos entidades públicas que, no obstante regirse por el Derecho privado, les resultaba de aplicación la entonces vigente Ley de Contratos del Sector Público; y en concreto se habría orillado la observancia en tales contrataciones del cumplimiento de los principios de trasparencia, publicidad, no discriminación y concurrencia competitiva.

Los responsables de las entidades contratantes (fundaciones de interés público y sociedades mercantiles públicas), actuando con el visto bueno de las administraciones a las que las citadas entidades públicas sujetas al Derecho privado se hallaban vinculadas funcional y económicamente - Generalitat Valenciana, Ayuntamiento de Valencia, Govern Balear y Ayuntamiento de Madrid - con el deseo de agradar a la Familia Real y afectados en sus decisiones por la influencia ejercida por Don Iñaki Urdangarín a través del Instituto Noos, al formar parte de su órgano de dirección su mujer la Infanta Doña Cristina de Borbón y su secretario personal como tesorero, aunque a éste se le atribuía el título de Secretario de la Casa del Rey; y presentado en el mismo como una entidad sin ánimo de lucro – cuando ello no era verdad – habrían aceptado llevar a cabo la contratación propuesta por el Instituto Noos, utilizando para ello entidades públicas instrumentales – fundaciones y sociedades anónimas públicas -, lo que le habría permitido eludir el procedimiento de contratación pública y al mismo tiempo evitar la fiscalización previa del gasto. Todo ello, según el Juez Instructor, con el objeto y finalidad espuria de plegarse a la influencia desplegada por el Sr. Urdangarín y planeada por éste y por Diego Torres, ya que si bien el primero era el que se encarga del aspecto comercial y era la imagen del Instituto frente a las administraciones con las que negociaba y a las que ofrecía la realización de determinados eventos (esto es, quien proponía la idea – que por tanto no provenía de la administración -); el segundo era el que se encargaba de la organización y funcionamiento del Instituto Noos.

La influencia ejercida a la hora de verificar la contratación habría sido tal, junto con el deseo de las administraciones implicadas por acceder a los proyectos propuestos por los Sres.Urdangarín y Torres y por congratularse con la familia Real, que aparentaba estar detrás del Instituto Noos e interesada, en consecuencia, en la viabilidad de la contratación y de los proyectos o eventos que constituían su objeto, que ni siquiera el precio de los contratos consistentes en la organización de eventos o en proyectos para tal fin vinieron establecidos con cargo a estudios previos y serios que fijasen esos precios con arreglo a criterios de mercado, todo lo cual habría permitido que el Instituto Noos –o Noos Consultoría- o la Fundación Deporte Cultura e Integración Social, como integrante del grupo y creada por Iñaki Urdangarín a través de un testaferro para lavar

la mala imagen que se empezaba a predicar en algunos foros del Instituto Noos, nacida a partir de una intervención que tuvo lugar en el Parlamento Balear a cargo de un representante del Partido Socialista de Baleares, estableciera para la realización de los eventos contratados un precio muy superior al coste real que suponía su ejecución, lo cual habría permitido, con la colaboración de las entidades públicas intervinientes, siquiera por omisión, obtener beneficios ilícitos derivados del sobrecoste de los eventos y por tanto consumar el apoderamiento de fondos públicos.

Siguiendo resumidamente con el relato fáctico propuesto por el Instructor – aunque buscando darle una narración episódica más accesible - los Sres. Iñaki UrdangarínLiebaert y Diego Torres Pérez, no solo habrían ideado aprovecharse de que el Instituto Noos se promocionaba como entidad sin ánimo de lucro y que en sus órganos de dirección figuraban miembros de la familia Real, que los citados utilizaba como meras figuras decorativas, ya que no participaban de sus intenciones de lucro ilícito, ni conocían sus propósitos defraudatorios del dinero público, sino que auxiliadas por otras personas se sirvieron de un entramado de sociedades: unas propiedad al 50% por Diego Torres y su esposa Ana María Tejeiro Losada, como son: Virtual Strategies S.L., Intuit Strategy Innovation Lab, S.L., Shiriaimasu S.L., Noos Consultoría Estratégica S.L (esta a partir de julio de 2007), la cual en algunos casos actuaba como administradora y, otra, AIZOON S.L., propiedad al 50% de Iñaki Urdangarín y de su esposa la Infanta Doña Cristina de Borbón y Grecia; todas ellas carentes de estructura empresarial y con mera apariencia jurídico-formal, para emitir facturas falsas – o al menos la mayor parte – al Instituto Noos, siendo que en realidad todo este conglomerado o entramado de empresas satélites y el Instituto Noos funcionaban y era en la realidad una y la misma entidad, controlada y dirigida por sus Jefes y socios al 50% los Sres. Urdangarín y Torres.

Todas estas entidades, que en un momento dado llegaron a ocupar físicamente un mismo local diáfano, en realidad, en opinión del Juez a quo, eran utilizadas en cada momento como simple instrumento formal, sin que fuera perceptible su propia individualización, ni resultaba fácil distinguir, ni siquiera para sus propios empleados, las actividades desarrolladas por cada una, creyendo todos ellos que prestaban servicios únicamente para NOOS, percibido éste como un grupo o marca.

Esta forma de proceder permitía dos cosas: la primera, vaciar el Instituto Noos de los fondos públicos obtenidos de las contrataciones formalizadas durante los años 2004 a 2006 por la realización de los eventos Valencia Summit, Illes Balears Fórum, preparación de la candidatura de los primeros Juegos Europeos, convenio de colaboración con la Fundación Madrid 16 – porque aunque éste se suscribió con la Fundación Deporte Cultura e Integración Social, fue creada por Iñaki y Diego Torres como otra entidad vinculada al grupo NOOS, y su repartimiento entre los socios Sres.Urdangarín y Torres, ya que el Instituto Noos al ser jurídicamente una entidad sin ánimo de lucro no podía y tenía prohibido repartirse beneficios y, por otro lado, aumentar y simular que los gastos del Instituto Noos habían sido superiores a los costes reales, ocultando de este modo el sobreprecio facturado por la organización de los eventos.

Del mismo modo la utilización de estas sociedades interpuestas – tanto las del matrimonio formado por Diego Torres y Ana Tejeiro, como Iñaki Urdangarín a través de AIZOON S.L., coparticipada por su esposa la Infanta Doña Cristina al 50% -, habría posibilitado que en el impuesto de sociedades de estas empresas se obtuvieran ilícitas ventajas fiscales por facturas giradas entre ellas que no tenían contenido real, así como por la aplicación como desgravación en el impuesto de sociedades de gastos que no

habían sido generados en el ejercicio de la actividad – ya que estas empresas carecían de estructura empresarial - y porque a través de la contratación ficticia de trabajadores se beneficiaban de la aplicación de la libertad de amortización.

Toda esta forma de proceder se habría mantenido inalterable durante los ejercicios de las anualidades de 2004 y 2005, hasta que formalmente en marzo de 2006, por presiones de la Casa Real, como consecuencia de las quejas habidas en el seno del Parlament Balear por el sobrecoste de los eventos Illes Balear Fórum, el Sr. Urdangarín, su esposa y el Secretario de la Infanta Don Carlos García Revenga causaron baja en el Instituto Noos, pasando a asumir su presidencia el imputado y socio de Urdangarín Diego Torres Pérez.

Pese a ese abandono formal el Sr. Urdangarín habría seguido vinculado a los proyectos del Instituto Noos y constituido en diciembre de 2006 a través de un testaferro, amigo y vecino suyo (Don Joaquín BoixareuAntolí, quien habría dotado a la misma de fondos por importe de 30.000 euros, que luego le fueron devueltos con ocasión de la disolución, cesión de activos y pasivos que en su favor hizo la Fundación Areté, constituida en mayo de 2006, por Diego Torres e Iñaki Urdangarín con una aportación o dotación de 15.000 euros, cada uno) la Fundación Deporte Cultura e Integración Social (FDCIS), la cual habría sido creada por los Sres.Urdangarín y Torres con la intención de traspasar a esta las actividades del Instituto Noos con entidades públicas por razones de imagen, debido a las quejas que había suscitado en sede del Parlamento de las Illes Balears y en una revista precisamente la contratación del evento Illes Balears Forum dado su elevado coste y porque la Casa Real había solicitado al Sr. Urdangarín que diera por terminadas sus actividades en la Asociación Instituto Noos.

Con todo y como consecuencia de las advertencias que a Iñaki Urdangarín le había manifestado la Casa Real, por mediación del Conde de Fontao, Don José Manuel Romero Moreno, a partir del 2006 los Sres. Urdangarín y Torres deciden repartirse los clientes del grupo o marca NOOS, quedándose Iñaqui con clientes particulares y Diego Torres con clientes públicos y privados.

Explica asimismo el auto recurrido que en un momento dado los Sres. Torres y Urdangarín a principios del año 2006 acordaron, ideado por el primero, la constitución de una estructura societaria fiduciaria en el extranjero, lo que posibilitaría la emisión de facturas de estas empresas filiales al Instituto Noos u a otras del grupo. Esta estrategia financiera, puesta en marcha con intermediación del asesor fiscal y experto en la materia Don Salvador Trinxet Lorca, auxiliado por los hermanos Miguel y Marcos Tejeiro Losada, cuñados de Diego Torres, posibilitaría no solo utilizar las empresas fiduciarias: una en España DE GOES CENTER FOR STAKEHOLDER MANAGEMENT S.L., participada, menos en una participación que pertenecía al Sr. Sorribas, por otra Inglesa (DE GOES CENTER FOR STAKELHOLDER MANAGEMENT LTD) y esta a su vez controlada por otra en Belice (BLOSSOMHILL ASSETS INIC, administrada por CORPORATE DIRECTORS SERVICES LTD, con un administrador: Don Gustavo Alberto Newton Herrera, que a su vez era un hombre de paja o testaferro, sino que además permitía que parte de los fondos públicos malversados remansasen en Luxemburgo, localidad en la que la empresa de Belice era titular de cuentas corrientes y que el Sr. Torres manejaba como persona con firma en dichas cuentas y a su vez apoderado por el testaferro Gustavo Newton Herrera.

Las investigaciones y comisiones rogatorias libradas a Andorra, Luxemburgo y Suiza habrían permitido conocer que Diego Torres y su mujer tenían cuentas abiertas en bancos de esos países, habiendo realizado transferencias entre distintas cuentas,

resultando que en la cuenta del BancoCreditSuisse número 81889, intitulada a nombre del matrimonio, después de haber transferido anteriormente fondos del Banca privada de Andorra al Banco Credit Agrícole de Luxemburgo, en fecha 17 de julio, justamente poco después de haber sido citado a declarar como imputado el Sr. Torres,habrían depositado en el citado Banco Suizo la cantidad de 961.666 euros, suma que provendría presuntamente de los ilícitos beneficios obtenidos por la malversación de fondos públicos y fraude a la Hacienda pública, así como del blanqueo de dinero, pero que el Juez considera impune al no estar tipificado en el Código Penal en la fecha de los hechos la figura del auto-blanqueo, cuya comisión, por tanto y por dicho motivo, no atribuye al matrimonio Torres-Tejeiro, ni tampoco al Sr. Urdangarín.

En el auto apelado el Juez a quo,sin perjuicio de afirmar que las contrataciones públicas fueron delictivas y que por tanto la responsabilidad civil se contrae a la nulidad de los contratos con obligación de restituir los fondos públicos recibidos, con base en los informes de la Agencia Tributaria que analizaron las facturaciones del Instituto Noos y de esta con empresas del grupo y de estas entre sí, llega a la conclusión de que el importe del dinero público recibido y no justificado como consecuencia de los distintos eventos que obtuvo el Instituto Noos, así como la Fundación Deporte Cultura e Integración, asciende a una cantidad estimada de 4.431.013 euros (dentro de la cual no se incluyen los donativos recibidos por Noos de la Fundación Madrid 16, ni de los contratos celebrados por Noos Consultoría dirigidos a la creación de la Oficina Proyecto y otros vinculados al patrocinio del equipo ciclista BANESTO-ILLES BALEARS -), a pesar de que el auto apelado describe estas conductas como presuntamente delictivas, e incluso sugiere que el patrocinio del equipo ciclista, al margen de la naturaleza civil del contrato, fue también delictivo por obedecer su contratación a la influencia ejercida por el InstitutoNoos, personalizada en Iñaki Urdangarín, sobre el entonces Presidente de la Comunidad Autónoma de las Illes Balears Don Jaime Matas Palou, influencia que se habría visto canalizada a través de la mediación del que fuera Director General de Deportes del GovernPepoteBallesterTuliesa y amigo personal del Sr. Urdangarín, por haber sido ambos deportistas olímpicos y haber compartido vivencias en la Residencia de deportistas de élite Joaquín Blume en Barcelona.

De acuerdo con este sucinto relato, el Instructor estima sumarialmente acreditado: que los Sres.Urgangarín y Torres han podido cometer los delitos de prevaricación por inducción y de tráfico de influencias, por cuanto al haberse aprovechado de su parentesco con la Familia Real y de una entidad sin ánimo de lucro que parecía contar con el respaldo Real, habrían ejercido presiones, influyendo y determinando la voluntad de políticos y responsables de las entidades contratantes para firmar distintos contratos de colaboración y sus adendas, relativos a los eventos Valencia Summit, Illes Balear Fórum, Preparación de los Primeros Juegos Europeos y convenio marco con la Fundación Madrid 16, contratos que se habrían realizado al margen del procedimiento de contratación, el cual se habría eludido precisamente para evitar la concurrencia competitiva y asegurar que las contrataciones iban a ser otorgadas al Instituto Noos y, consecuentemente al yerno del Rey, y no a otra entidad o empresa.

Al mismo tiempo considera el Juez que, ambos encartados habrían podido cometer un delito de fraude a la administración como medio para la malversación, pues la firma de estos convenios vino precedida de negociaciones previas con responsables políticos y gestores de las entidades públicas contratantes, que se habrían plegado a la influencia ejercida por el Sr. Urdangarín, con el fin de agradar a la Casa Real, y que accedieron, contraviniendo la legalidad, a que los contratos se verificasen al margen de cualquier concurrencia y de la necesaria transparencia.

El delito de malversación se produciría por cuanto la contratación ilícita habría posibilitado la disposición indebida de fondos públicos, propiciada porque los eventos se presupuestaron atendiendo al precio fijado e impuesto unilateralmente por el Instituto Noos y no con arreglo al valor de mercado.

Asimismo, el Juez Castro sostiene que Iñaki Urdangaríny Diego Torres al haber utilizado el Instituto Noos aparentando que se trataba de una entidad sin ánimo de lucro, dicho engaño causante de la firma de estos convenios o contratos podría ser constitutivo de un delito de estafa y en concreto en lo que respecta al convenio para la preparación de los Juegos Europeos, ya que se intentaron cobrar trabajos inexistentes emitiendo con tal finalidad certificaciones falsas.

El Juez Instructor en la resolución combatida extiende sus imputaciones contra las personas que trabajando para el grupo Noos, habrían intervenido en el área fiscal, de contabilidad y de tratamiento de facturas – los hermanos Marcos y Miguel Tejeiro Losada -, así como en la constitución de la estructura fiduciaria en el extranjero. A estas personas, al igual que los responsables de los entes administrativos contratantes, también, les atribuye su presunta participación en los delitos de prevaricación, tráfico de influencias, fraude y malversación de caudales públicos.

Finalmente el Juez a quo y con fundamento en los informes de la Agencia Tributaria –informes avance 2, 3 y 4- atribuye a los Sres.Torres Pérez y Urdangarín Liebaert la comisión de tres delitos fiscales por defraudación en el impuesto de la renta – dado que la Agencia Tributaria considera que ambos imputados a través del entramado societario vinculado al grupo y de la entidad Noos ocultaban la percepción de ingresos por actividades del trabajo, ya que todo el grupo era una simple simulación-. De los tres delitos uno habría sido cometido por el Sr. Torres (IRPF del 2007) y los otros dos por el Sr. Urdangarín (IRPF de los años 2007 y 2008). Respecto de las anualidades anteriores 2005 y 2006, que fueron los ejercicios en los que Noos obtuvo los mayores y más elevados ingresos por contratación pública, la responsabilidad penal por defraudación se habría extinguido por prescripción.

Asimismo, el Juez Castro entiende que las esposas de ambos imputados Doña Ana Tejeiro y la Infanta Doña Cristina habrían cooperado en la comisión de estos delitos por el hecho de formar parte de las sociedades del entramado utilizadas por ambos imputados para defraudar en el impuesto de la renta: Ana Tejeiro por ser copartícipe y en algunos casos administradora de las entidades Virtual Strategies S.L., Intuit Strategy Innovation Lab, S.L., Shiriaimasu S.L., Noos Consultoría Estratégica S.L, a partir de julio de 2007; y Doña Cristina por ser copropietaria juntamente con su marido al 50% de la mercantil limitada AIZOON. Y la Infanta, a su vez, podría haber cometido un delito de blanqueo de capitales, por cuanto a partir del año 2006 – en que ya podría conocer las irregularidades del Instituto Noos por haber sido ya alertada por la Casa Real -, de las cuentas titularidad de AIZOON, que contenían dinero proveniente de la malversación, así como dinero defraudado a la Hacienda pública por no haber sido declarado en los impuestos de la renta de su marido de los ejercicios de las anualidades 2007 y 2008, habría dispuesto de tales fondos para atender a gastos familiares y personales en la forma en que se señala en el auto combatido.

TERCERO.- *Del objeto y finalidad del auto transformador:*

Tiene declarado con reiteración esta misma Sala en infinidad de resoluciones cuya cita, por conocida resulta ociosa, que la finalidad que tiene el auto transformador en el procedimiento abreviado no es otra que, de una parte, delimitar el objeto fáctico del

proceso estableciendo los hechos justiciables que el Juzgador ha considerado esclarecidos durante la instrucción (art.779.4 de la Lecrim), pues con dicha resolución se agota la fase investigativa. Por eso, si alguna de las partes discrepa del agotamiento de la instrucción es este el momento procesal oportuno para impugnar dicha decisión y solicitar nuevas pruebas; y de otra parte, establecer la persona o personas que han podido participar en tales hechos.

Por lo que hace a la delimitación objetiva esta no ha de concretarse de modo exclusivo y único a efectuar un relato fáctico de los hechos justiciables (que en supuestos de escasa complejidad – lo que no ocurre en el caso presente - pueden venir establecidos por remisión a lo actuado, pues la verdadera imputación se produce en el momento mismo de la toma de declaración del imputado), sino también precisa un juicio provisorio de imputación sobre los mismos y referido a los indicios de criminalidad sobre los que se asientan y a la vinculación de estos con los sujetos presuntamente responsables, ya que la responsabilidad penal es siempre personal, así como al encaje jurídico y calificación que provisionalmente de tales hechos cabría realizar.

La finalidad de dicho juicio de acusación no es otra que la de evitar que las personas imputadas en un procedimiento penal puedan verse sometidas a una acusación infundada por delito y por tanto a un juicio público sin base o fundamento alguno. Y constituye una garantía procesal para el sujeto imputado equivalente al auto de procesamiento en el proceso ordinario, por cuanto a partir de su dictado se da traslado formalmente de la acusación que se deduce en su contra, y que, generalmente coincide ya con la que le ha sido puesta de manifiesto en su toma de declaración, de suerte que si finalmente es sometido a juicio no podrá ya ser acusado por hechos distintos ni diferentes a los que le son entonces comunicados. En caso contrario se quebrantaría el derecho a la defensa, en su dimensión del derecho a tomar conocimiento de la acusación, así como al proceso debido.

Por el contrario, no existe vinculación definitiva en cuanto a la calificación jurídica provisional que de tales hechos pueda realizar el Juzgador, mas bien dirigida a ordenar el procedimiento y a situar los hechos justiciables en un entorno antijurídico que justifique su tipicidad, por cuanto ni es misión suya, sino de las acusaciones personadas, el ejercicio de la acusación, ni queda vedada la posibilidad de una posterior alteración por la vía de las conclusiones definitivas, siempre que el cambio jurídico operado tras la actividad probatoria a evacuar en el plenario esté soportado en el respeto, en lo esencial, a los hechos justiciables que incorpora el auto de transformación, a salvo de las normales modalizaciones periféricas que puedan surgir como consecuencia del devenir del acto del plenario.

Un cambio inusitado y sustancial en la acusación respecto de los hechos justiciables (no así de su tipificación, pues la indefensión siempre es fáctica y no jurídica) podría igualmente producir la quiebra del derecho a la defensa.

Por lo que se refiere al alcance de ese juicio de acusación que ha de contener el auto transformador –a cuyo examen ha de ceñirse la actividad revisora de esta Sala-, no es más que una convicción judicial provisoria o hipotética referida a la posibilidad o probabilidad de que se hayan podido cometer uno o varios delitos (o mejor hechos provisionalmente subsumibles como tales) cuyo cauce de enjuiciamiento esté previsto en el proceso abreviado y que en dicho delito o delitos hayan podido participar de alguna manera, directa o indirecta, los sujetos imputados.

Asimismo y en tanto en cuanto la imputación requiere que los hechos justiciables

tengan trascendencia penal, resulta necesario que el Juzgador realice por mera aproximación, un encaje jurídico o calificación provisoria de tales hechos, de modo que puedan ser subsumidos en uno o varios tipos penales, sin que esté obligado el Juez Instructor, cuya misión fundamental y prioritaria es esclarecer los hechos punibles desechando aquellos de contenido penalmente irrelevante o inocuo, a acertar en dicha calificación, pues tiene carácter provisional y no es a él precisamente por el reparto de funciones que existe en nuestro sistema procesal, sino al Ministerio Fiscal y a las Acusaciones personadas, a las que les corresponde ejercer la labor acusatoria.

En el sentido indicado (referido al alcance y finalidad de la resolución transformadora), se ha expresado el TS en su sentencia de fecha 13 de diciembre de 2007 EDJ 2007 243085 cuando al tratar el contenido y función del auto de transformación ha dicho que esta resolución constituye solamente la "expresión de un juicio de inculpación formal efectuado por el Juez de Instrucción, exteriorizador de un juicio de probabilidad de una posible responsabilidad penal" (v. STS de 10 de noviembre de 1999 EDJ1999/34247), por lo que su finalidad "no es la de suplantar la función acusatoria del Ministerio Fiscal, anticipando el contenido fáctico y jurídico de la calificación acusatoria, sino únicamente conferir el oportuno traslado procesal para que ésta pueda verificarse, así como para expresar el doble pronunciamiento de conclusión de la instrucción y de prosecución del procedimiento abreviado en la fase intermedia" (v. STS de 2 de julio de 1999 EDJ1999/20599).

Del mismo modo el Auto 3766/2010 (Rec 20048/2009) del TS de fecha 7 de abril de 2010 (dictado en causa especial) nos recuerda que el denominado juicio de acusación no le incumbe establecer con certeza las afirmaciones fácticas que fundan la imputación. Le corresponde únicamente la determinación de una veracidad probable de las afirmaciones sobre los datos históricos, únicos verificables, y respecto de los cuales una valoración jurídica pueda concluir que son constitutivas de delito.

Es decir, que procede dictar esta resolución cuando no concurren los supuestos de sobreseimiento previstos, por un lado, en los artículos 637 1.º y 641 1º y, por otro lado, en el artículo 637.2º, todos de la Ley de Enjuiciamiento Criminal. En suma cuando existe en la acusación un mínimo de seriedad y fundamento, el criterio ha de ser siempre depurar las eventuales responsabilidades penales en sede de juicio oral y el sobreseimiento tiene carácter residual, siendo por tanto en esos casos la excepción frente a la regla general: el juicio oral en donde se garantiza que el enjuiciamiento de los hechos se verificará bajo los principios de publicidad, oralidad, inmediación y contradicción.

Más recientemente, y ahondando en el precedente anterior, recuerda la STS, 2ª, de 15 de junio de 2011 (ROJ: STS 5781/2011) que la decisión transformadora tiene únicamente el alcance de determinar una veracidad probable de las afirmaciones sobre los datos históricos del caso, verificados por el instructor, y proyectar sobre los mismos una valoración jurídica que permita concluir que son constitutivos de delito, lo que equivale a la procedencia de dictar esta resolución cuando no concurran los supuestos de sobreseimiento previstos en los artículos 637.1, 641.1 y 637.2 , todos ellos LECrim.

Conforme a las resoluciones trascritas, por vía de recurso contra la decisión transformadora, se debe examinar si el supuesto es de tal claridad y diafanidad incontrovertida que el sobreseimiento es patente o debe seguirse la tramitación y celebrarse el juicio. Basta, pues, con comprobar que el sobreseimiento debe excluirse, teniendo en cuenta las circunstancias concurrentes, para dar respaldo y confirmación a la decisión transformadora.

Por tanto, únicamente cuando el juicio de acusación, entendido en términos de mera probabilidad, pero no de certeza, verificado por el Juez en el auto transformador y en concreto cuando la versión judicial que el mismo contenga aparezca grave y patentemente errónea, ilógica o equivocada o cuando las imputaciones que el auto vierte contra el o los apelantes sean absolutamente infundadas, voluntaristas, arbitrarias, o carentes de toda base o fundamento, habrá lugar a disponer el sobreseimiento y en el resto de las situaciones, incluso en aquellos supuestos dudosos, en razón a que el criterio sobreseyente opera siempre de modo residual, habrá que disponer la continuación del procedimiento hasta la celebración del juicio.

El juicio de probable de acusación, por tanto, no precisa detenerse en la calidad y entidad de los indicios de criminalidad y por tanto en si las imputaciones que contemplael auto transformador alcanzan o no el canon de suficiencia constitucional requerido (nos referimos a la calidad de los indicios de criminalidad) para obtener, más allá de toda duda razonable, un pronunciamiento de condena y desvirtuar la presunción de inocencia que ampara a toda persona imputada, pues dicha presunción solo puede enervarse o destruirse a partir del actividad probatoria que se evacue en el acto del plenario con las debidas garantías procesales y pleno respecto a los principios y, no puede, ni debe ser nunca éste – nos referimos al examen de la suficiencia de los indicios y menos aún cuando se trata de prueba indiciaria - el objeto de la decisión transformadora, que en modo alguno puede por ello en orden a la valoración fáctica y jurídica equipararse o asimilarse a una sentencia. Basta y es suficiente para dictar el auto transformador y formalizar la imputación como paso previo al juicio con que los hechos justiciables que describe el Juez Instructor hayan podido ocurrir y que los mismos puedan revestir los caracteres de uno o de varios delitos cuyo enjuiciamiento ha de verificarse por los trámites del proceso abreviado.

También la Sentencia del TS número 326/2013, de 1 de abril, insiste en que el auto de transformación tiene por cometido realizar un juicio de razonabilidad de la acusación y de la procedencia de celebrar juicio oral o en su caso de decretar el sobreseimiento y señala que ese juicio de acusación tiene un alcance doble: delimitar los hechos justiciables y evaluar su carácter típico. Este contenido, explica el Alto Tribunal, constituye una exigencia tras la reforma operada en la Ley de Enjuiciamiento Criminal por la LO 38/2002, que incorpora la doctrina Constitucional aplicable.

Concretamente, explica la citada sentencia que la acusación por unos hechos en el procedimiento abreviado exige de unos presupuestos:

a) Que el imputado haya sido informado de los hechos y haya declarado (o al menos, haya podido declarar) sobre ellos. A esta idea se refirió en extenso la muy conocida STC 186/1990, de 15 de noviembre .

b) Que en el auto de transformación (art. 779.1.4 LECrim) se haya ordenado proceder por tales hechos: es un filtro que ha de efectuar el Juez de Instrucción depurando el objeto procesal de forma que expulse mediante el sobreseimiento aquellos hechos investigados respecto de los que no haya indicios fundados de comisión; y ordene la prosecución respecto de aquellos otros que cuentan con una base indiciaria sólida. Es esta una primera vertiente del irrenunciable juicio de acusación que en el procedimiento abreviado aparece de forma no muy lógica desdoblado en dos momentos diferentes complementarios. Esta función de esta resolución que o no tenía en la normativa anterior a la reforma de 2002, o que aparecía de forma muy desvaída, fue recuperada o, mejor, introducida por tal modificación legislativa.

c) Que exista una parte legitimada que formule acusación por tales hechos.

d) Que el Juez de Instrucción a la vista de la acusación realice – en referencia al auto de apertura de juicio - una nueva evaluación (segundo filtro del juicio de acusación) constatando si son típicos y si hay fundamento para abrir el juicio oral (en este segundo aspecto se reproduce una valoración del material que ya debió efectuarse antes). En caso contrario habrá de decretar el oportuno sobreseimiento.

Por lo expuesto y abundando en lo ya expuesto, al estar sustentado el auto transformador sobre una probabilidad de acusación y en la medida en que la decisión sobreseyente es residual, en el contexto de situaciones de dudosa imputación no rige el principio in dubio pro imputado o pro reo, pues este se halla reservado al ámbito propio y específico del plenario, una vez se halla practicada la prueba propuesta, sino que la duda que pueda existir, siempre que la acusación esté dotada de un mínimo fundamento, de base o sustento, a fin de evitar que la presunción de inocencia pueda resultar frontalmente vulnerada – cosa que solo ocurrirá en aquellos casos en los que la acusación aparezca patentemente infundada-, debe resolverse decidiendo a favor de continuar el procedimiento y de ordenar la celebración del juicio oral, rigiendo ya entonces, una vez éste haya tenido lugar, si las dudas acusatorias se mantienen y persisten, el indicado principio pro acusado haciendo que la balanza probatoria se incline a su favor.

Por lo que se refiere a la calificación jurídica provisoria que contenga el auto de transformación, en todo caso debemos añadir que es jurisprudencia reiterada la que señala que el dictado del auto transformadorno supone el ejercicio de la acción penal y, por ello el Juez instructor no está obligado a atinar o ser preciso a la hora de verificar la calificación jurídica de los hechos que contenga el auto de transformación, ya que se trata de una función, la de la calificación y acusación, que corresponde a las partes acusadoras y que para el Juez instructor tiene un objeto fundamentalmente dirigido a realizar una labor crítica a fin de concluir que los hechos investigados tienen carácter punible y sobre todo que su subsunción jurídica por un determinado tipo penal supone la ordenación del procedimiento para que éste se sustancia por los trámites del proceso abreviado y no en cambio por el proceso sumario, el Jurado o por el juicio verbal de faltas.

A este respecto y en su sentencia núm. 1182/2006 de 29 noviembre RJ 2007250 nuestro alto Tribunal nos recuerda que el marco fáctico que el Tribunal sentenciador no puede sobrepasar, no es el que figura en el auto de transformación, sino el de las conclusiones definitivas de las partes acusadoras. Ha declarado la Sala Segunda del TS con reiteración que el auto referido es equivalente en el Procedimiento Abreviado al auto de procesamiento en el proceso ordinario, el cual no opera con efecto preclusivo de la calificación de las acusaciones en el ámbito del principio acusatorio, toda vez que si éste exige que el acusado tiene derecho a conocer la acusación de tal manera que pueda ejercer una plena defensa y contradecir los hechos que se le imputan, este derecho se ve satisfecho cuando las conclusiones provisionales de las acusaciones ponen formalmente en su conocimiento las pretensiones de las mismas. Por consiguiente, ni el auto de procesamiento, ni el de transformación, tienen la finalidad de definir inflexiblemente el objeto del proceso – constituido por las pretensiones de la acusación y defensa – sino conferir al acusado ciertos derechos a partir de la determinación de su legitimación pasiva (SSTS de 23 de febrero de 2004 [RJ 2004, 2771] y 18 de octubre de 2005 [RJ 2005, 8129]). El Tribunal sentenciador, debe, pues, pronunciarse sobre las pretensiones que le demandan las partes procesales, entre las que no se encuentra el Juez de Instrucción, y del mismo modo que en el proceso ordinario la acusación se

formalizará respecto de «los hechos punibles que resulten del sumario» (art. 650 LECrim [LEG 1882, 16]), no de los que figuren en el auto de procesamiento, sin establecer limitación alguna, igualmente debe suceder en relación con el procedimiento abreviado, máxime cuando la Ley ha previsto la posibilidad de que al auto de transformación no le siga de forma inmediata el escrito de acusación, sino que se practiquen nuevas diligencias a solicitud de las acusaciones que puedan aportar nuevos datos (art. 790.1 y 2) sobre los hechos investigados.

Finalmente el artículo 779 señala que será nulo el auto de transformación cuando contenga hechos punibles sobre los que el imputado no haya prestado declaración en calidad de imputado (Art.779.1.4).

Este precepto ha de ser puesto en relación con lo dispuesto en el artículo 775, en cuya virtud:" En la primera comparecencia el Juez informará al imputado, en la forma más comprensible, de los hechos que se le imputan…".

El fundamento de lo preceptuado en el artículo 779, antes referido, es que la investigación oficial realizada en el marco de las diligencias previas de procedimiento abreviado no se verifique a espaldas del imputado (pues en principio la asistencia Letrada no es necesaria, a salvo de que intervenga en su toma de declaración y en diligencias que el Juez estime imprescindible su participación y en todo caso llegado el trámite de calificación), de tal modo que para evitar que ello se produzca es preciso que en la primera comparecencia se le informe de los hechos punibles.

CUARTO.- *De la normativa aplicable a los contratos de colaboración suscritos entre la Asociación Instituto Noos y las entidades públicas sometidas al Derecho privado para la realización de los eventos I les Balears Fórum, Valencia Summit y Preparación de la Candidatura de los Juegos Europeos. Así como de la contratación levada a cabo entre Noos Consultoría aplicada – entidad del grupo Noos – y la Fundación I lesport apropósito del contrato de patrocinio suscrito entre la Fundación y la entidad ABARCA SPORT. Normativa aplicable en el ámbito Comunitario y Estatal:*

En primer lugar hemos de tener en cuenta la **Directiva 89/665/CEE del Consejo de las Comunidades Europeas, de 21 de diciembre de 1989**, relativa a la coordinación de las disposiciones legales, reglamentarias y administrativas referentes a la aplicación de los procedimientos de recurso en materia de adjudicación de los contratos públicos de suministros y de obras.

En aplicación de esta Directiva se enmarcan las Sentencias del TJCE de 15 de mayo y de 16 de octubre de 2003. En virtud de esta Jurisprudencia del TJCE, dictada en aplicación de la citada Directiva del Consejo, se dispuso que tratándose de organismos públicos que tuvieran estatuto de Derecho privado estas entidades no podían quedar fuera de su regulación.

A raíz de la doctrina que incorporan estas Sentencias del TJCE, se declaró que la normativa española no había incorporado la antes aludida Directiva 89/655, dado que la normativa de la Ley de Contratos del Sector público (Real Decreto Ley 2/2000, vigente en la fecha de los hechos), excluía indebidamente del ámbito de aplicación de las reglas de contratación, a las sociedades mercantiles bajo control público.

Como consecuencia de ello la **Ley 62/2003, en vigor desde el 1 de enero de 2004, de medidas fiscales, administrativas y de orden social** y en aplicación de la Directiva referida y Jurisprudencia que la interpretó, amplió el ámbito subjetivo para la aplicación de la normativa de contratación pública; y dispuso que la Ley de contratos del

sector público, aprobada por Real Decreto Legislativo 2/2000, de 16 de junio, por el que se aprobó el texto refundido de la Ley de Contratos de las Administraciones Públicas (Vigente hasta el 16 de Diciembre de 2011) era aplicable además de a las administraciones estatal, a los organismos autónomos, en todo caso, y las restantes entidades de derecho público con personalidad jurídica propia, vinculadas o dependientes de cualquiera de las Administraciones Públicas, siempre que en aquéllas se dieran los siguientes requisitos:

a) Que hubieran sido creadas para satisfacer específicamente necesidades de interés general que no tuviesen carácter industrial o mercantil.

b) Que se tratase de entidades cuya actividad estuviera mayoritariamente financiada por las Administraciones Públicas u otras entidades de derecho público, o bien, cuya gestión se hallara sometida a un control por parte de estas últimas, o cuyos órganos de administración, de dirección o de vigilancia estuvieran compuestos por miembros más de la mitad de los cuales fueran nombrados por las Administraciones Públicas y otras entidades de derecho público (art. 1.3).

Asimismo y de acuerdo con el artículo 2.1 quedaban sujetas a la normativa de contratos públicos las entidades de derecho público no comprendidas en el ámbito definido en el artículo anterior y las sociedades de derecho privado creadas para satisfacer específicamente necesidades de interés general que no tuvieran carácter industrial o mercantil, siempre que, además, concurriesen alguno de los requisitos contenidos en el párrafo b) del apartado 3 del artículo anterior, les serían de aplicación las prescripciones de esa Ley relativas a la capacidad de las empresas, publicidad, procedimientos de licitación y formas de adjudicación para los contratos de obras, suministros, consultoría y asistencia y servicios de cuantía igual o superior, con exclusión del Impuesto sobre el Valor Añadido, a 5.923.624 euros (equivalente a 5.000.000 de derechos especiales de giro), si se trataba de contratos de obras, o a 236.945 euros (equivalentes a 200.000 derechos especiales de giro), si se trataba de cualquier otro contrato de los mencionados.

En la Disposición Adicional 6ª se indicaba que para el resto de los contratos las sociedades a que se refería el apartado 1 del artículo 2, ajustarían su actividad contractual a los principios de publicidad y concurrencia, salvo que la naturaleza de la operación a realizar fuese incompatible con estos principios.

El Real Decreto Ley 5/2005, de fecha 11 de marzo de 2005 de Reformas Urgentes para el impulso a la productividad y para la mejora de la contratación pública, que entró en vigor el 15 de marzo, modificó el ámbito subjetivo de la aplicación de la normativa de contratos e incluyó en su artículo 2, juntamente con las sociedades mercantiles públicas alas fundaciones del sector público, siempre que, además, concurrieran alguno de los requisitos contenidos en el párrafo b) del apartado 3 del artículo anterior: creadas para satisfacer intereses públicos y que dependieran o estuvieran financiadas en su mayor parte por la Administración a ellas vinculadas.

El citado Real Decreto 5/2005 citado pasó a modificar también la Disposición Adicional sexta del Texto Refundido de la Ley de contratos titulada “Principios de contratación del sector público”, pasando a recoger lo siguiente:

Las sociedades mercantiles y las fundaciones del sector público a que se refiere el apartado 1 del artículo 2, para los contratos no comprendidos en él, así como las restantes sociedades mercantiles en cuyo capital sea mayoritaria la participación directa

o indirecta de las Administraciones públicas o de sus organismos autónomos o entidades de derecho público, se ajustarán en su actividad contractual a los principios de publicidad y concurrencia, salvo que la naturaleza de la operación a realizar sea incompatible con estos principios.

Aunque con la reforma operada por este Real Decreto se incluye ya como aplicable la normativa de contratación pública a las fundaciones de interés público, en verdad dicha normativa ya gozaba de aplicabilidad con anterioridad en aplicación de la citada Directiva comunitaria y en este sentido se expresa la propia exposición de motivos del Real Decreto de Reformas Urgentes para el impulso de la productividad y para la mejora de la contratación pública, explicando que.. "Se incorpora al ámbito subjetivo de la Ley a las fundaciones del sector público para solucionar los problemas derivados de la ausencia de aplicación por éstas de las normas contenidas en las directivas comunitarias sobre procedimiento de adjudicación de los contratos cuando tales fundaciones gestionan proyectos financiados con fondos europeos, sin alterar su régimen contractual sujeto al derecho privado.

"En cuanto a los principios de contratación en el sector público, se significa, se pretende reintegrar a la legalidad anterior al 1 de enero de 2004 a un conjunto de sociedades públicas –de ámbito estatal, autonómico y local– que en estos momentos, según se clarifica en la exposición del motivos del Real Decreto, no están sujetas a la obligación legal de ajustar sus contratos a los principios de publicidad y concurrencia, incluyendo en tal supuesto a las fundaciones del sector público.

La actividad contractual, aclara el Legislador, es una faceta importante de la gestión económica de las sociedades mercantiles estatales y de las fundaciones del sector público cuyos presupuestos forman parte de los Presupuestos Generales del Estado. La modificación propuesta tiende, por tanto, a garantizar que la ejecución de dichos presupuestos se realice en unas coordenadas de mayor publicidad y transparencia que contribuyan al cumplimiento del principio constitucional de eficiencia en la asignación del gasto. La urgencia de la reforma legislativa explicitada se deriva de la reciente Sentencia del Tribunal de Justicia de las Comunidades Europeas, de 13 de enero de 2005, que obliga a España a reformar su normativa referente a la adjudicación de contratos públicos, además de derivarse de la correcta adaptación al derecho español de los principios y criterios jurídicos en materia de contratación pública".

Al respecto del concepto de fundación de interés público –aunque en nuestro caso las fundaciones firmantes de los contratos son de ámbito local-, conviene tener en cuenta lo dispuesto en el artículo de **la Ley Estatal de fundaciones 50/2002, de diciembre**. Dicho artículo define que se consideran fundaciones del sector público estatal aquellas fundaciones en las que concurra alguna de las siguientes circunstancias:

a) Que se constituyan con una aportación mayoritaria, directa o indirecta, de la Administración General del Estado, sus organismos públicos o demás entidades del sector público estatal.

b) Que su patrimonio fundacional, con un carácter de permanencia, esté formado en más de un 50 por 100 por bienes o derechos aportados o cedidos por las referidas entidades.

Resulta también de aplicación la Directiva 2004/18/CE del Parlamento Europeo y del Consejo, de 31 de marzo de 2004, sobre coordinación de los procedimientos de adjudicación de los contratos públicos de obras, de suministro y de

servicios (vigente hasta el 18 de Abril de 2016).

Según esta Directiva en suart 1.9 al referirse a las“Definiciones”,… son considerados «poderes adjudicadores»: el Estado, los entes territoriales, los organismos de Derecho público y las asociaciones constituidas por uno o más de dichos entes o de dichos organismos de Derecho público.

Es considerado «organismo de Derecho público» cualquier organismo:

a) creado específicamente para satisfacer necesidades de interés general que no tengan carácter industrial o mercantil,

b) dotado de personalidad jurídica y

c) cuya actividad esté mayoritariamente financiada por el Estado, los entes territoriales u otros organismos de Derecho público, o bien cuya gestión se halle sometida a un control por parte de estos últimos, o bien cuyo órgano de administración, de dirección o de vigilancia esté compuesto por miembros de los cuales más de la mitad sean nombrados por el Estado, los entes territoriales u otros organismos de Derecho público.

Respecto a la normativa de contratos, además del aspecto subjetivo, en cuanto a los sujetos o entidades a los que le eran aplicables la normativa reguladora, habría de tenerse en cuenta lo dispuesto en el **artículo 11 de Ley 2/2000**, referido a los requisitos de los contratos (…):

“**1.** Los contratos de las Administraciones Públicas se ajustarán a los principios de publicidad y concurrencia, salvo las excepciones establecidas por la presente Ley y, en todo caso, a los de igualdad y no discriminación.

2. Son requisitos para la celebración de los contratos de las Administraciones Públicas, salvo que expresamente se disponga otra cosa en la presente Ley, los siguientes:

a) La competencia del órgano de contratación.

b) La capacidad del contratista adjudicatario.

c) La determinación del objeto del contrato.

d) La fijación del precio.

e) La existencia de crédito adecuado y suficiente, si del contrato se derivan obligaciones de contenido económico para la Administración.

f) La tramitación de expediente, al que se incorporarán los pliegos en los que la Administración establezca las cláusulas que han de regir el contrato a celebrar y el importe del presupuesto del gasto.

g) La fiscalización previa de los actos administrativos de contenido económico, relativos a los contratos, en los términos previstos en la Ley General Presupuestaria (RCL 1988, 1966 y 2287) o en las correspondientes normas presupuestarias de las distintas Administraciones Públicas sujetas a esta Ley.

h) La aprobación del gasto por el órgano competente para ello.

i) La formalización del contrato…”.

En orden al objeto de los contratos administrativos el artículo 13 del RD 2/2000, establecía que el objeto de los contratos que realice la Administración deberá ser determinado y su necesidad para los fines del servicio público objeto correspondiente se justificará en el expediente de contratación. De igual modo y en cuanto al precio el **artículo 14**, especificaba que: “Los contratos tendrán siempre un precio cierto que se expresará en moneda nacional (…), y se abonará al contratista en función de la prestación efectivamente efectuada y de acuerdo con lo convenido. En todo caso los órganos de contratación cuidarán de que el precio de los contratos sea el adecuado al mercado.

Y por lo que respecta a la perfección esta se preveía mediante la adjudicación realizada por el órgano de contratación competente, según rezaba el **artículo 53**, cualquiera que fuese el procedimiento o la forma de adjudicación utilizados, y expresamente **el artículo 55** sancionaba al respecto de la formalidad que la Administración no podría contratar verbalmente, salvo que el contrato tuviera carácter de emergencia.

Por lo que se refiere a la normativa de contratos **el artículo 3 del RD 2/2000, en su apartado d)**, establecía que quedaban excluidos de su ámbito objetivo de aplicación: “Artículo 3. Negocios y contratos excluidos (…): **d)** Los convenios de colaboración que, con arreglo a las normas específicas que los regulan, celebre la Administración con personas físicas o jurídicas sujetas al derecho privado, siempre que su objeto no esté comprendido en los contratos regulados en esta Ley o en normas administrativas especiales. Quedarán asimismo excluidos de la presente Ley los convenios que sean consecuencia del artículo 296 del Tratado Constitutivo de la Comunidad Europea (LCEur 1986, 8) .

De acuerdo con este precepto tanto las administraciones entre sí como las entidades públicas o instrumentales (sociedades mercantiles, entidades públicas empresariales y fundaciones de interés público) sujetas al Derecho privado cuando contratan con particulares podían celebrar convenios de colaboración. La regla general, conforme al criterio residual que incorporaba el Real Decreto, – actualmente la materia se halla contemplada en el artículo 4 de la Ley de contratos vigente - y aunque no define los contratos de colaboración sí deja fuera de los mismos a aquellos que tengan por objeto a cargo del particular una obligación de dar o de hacer, fijando la causa de tales contratos en la colaboración recíproca entre la entidad pública contratante y el particular, viniendo ambas partes obligadas a la consecución de un fin común que habrá de ser de interés público – era y sigue siendo la de considerar excluidos del ámbito de la contratación administrativa y, por tanto, sin sujeción a las reglas de contratación, a aquellos convenios que además de establecer un cauce de colaboración, su objeto no estuviera comprendido dentro de los previstos como típicamente administrativos.

Conviene precisar que en la normativa vigente en la fecha de los hechos como en la actual se admite la posibilidad de que la administración y los entes públicos instrumentales puedan celebrar contratos de colaboración con particulares y tales contratos están y estaban excluidos de la Ley de contratos, siempre y cuando objetivamente considerados su objeto no estuviera o esté dentro de los previstos en la normativa reguladora.

Ello no obstante el artículo 4.1.d) TRLCSP de la ley reguladora vigente en la actualidad expresamente proclama la prohibición de que a través del cauce del convenio

se celebren verdaderos contratos, marginando con ello la aplicación de las reglas de la publicidad y concurrencia en la selección del contratista.

Sobre este concreto particular y en punto al uso abusivo de los convenios de colaboración, nos recuerda el Tribunal de Cuentas en su resolución de la Comisión Mixta para las Relaciones con el Tribunal de Cuentas en relación a la Moción a las Cortes Generales sobre la necesidad de establecer un adecuado marco legal para el empleo del convenio de colaboración por las Administraciones Públicas, fechada el 30 de noviembre de 2010 – la cual se halla incorporada en las actuaciones, si bien se pueda acceder a ella consultando directamente Internet, por si algún interesado quisiera leerla en su totalidad, ya que no tiene desperdicio y resulta harto interesante en un momento como el actual en que se pretende dotar de mayor transparencia a la Administración en su actuación diaria…-"que por tratarse de una figura no específicamente regulada como tal, en cuanto a su definición y diferenciación entre convenios interadministrativos y aquellos celebrados entre administraciones y particulares –entre los que el Tribunal de Cuentas incluye a los celebrados entre las administraciones instrumentales y particulares-, se ha venido abusando de este tipo de concertación para eludir las normas de los contratos públicos y el cumplimiento de los principios que rigen este tipo de contrataciones y en ocasiones cuando se utilizan como vehículo para canalizar subvenciones, incumplen la Ley que regula su concesión",… en la cual se establece como criterio general el de que las subvenciones públicas han de respetar los principios de publicidad y concurrencia, a no se que trate de subvenciones nominativas que venga establecidas en la ley de presupuestos o aquellas que se concedan por Ley.

A este respecto conviene reproducir algunas de las consideraciones y comentarios que al hilo de los convenios de colaboración hizo el Tribunal de Cuentas en la moción indicada de noviembre de 2010, en la medida en que son trascedentes a la hora de examinar los convenios de colaboración suscritos por el IN con las entidades públicas que concertaron los convenios Illes Balears Forum, Valencia Summit, preparación de los Juegos Europeos y el suscrito con la Fundación M-16 (aunque este convenio se firmó con la Fundación Deporte Cultura e Integración Social) al respecto comenta el TC: que… "en lo que atañe a los convenios celebrados con personas sujetas al derecho privado, los hechos puestos de manifiesto, en todos o en varios de los mencionados informes, y las conclusiones más significativas obtenidas de su examen han sido los que se exponen (solo recogemos algunas de ellas):

- Los convenios, por regla general, se celebran sin una norma habilitante específica, es decir, sin la previa aprobación de "las normas específicas que los regulan", a que se refería el art. 3.2 del Texto Refundido de la Ley de Contratos de las Administraciones Públicas (TRLCAP) -en la actualidad, art. 4.1 d) de la **Ley de Contratos del Sector Público, aprobada por Real Decreto Legislativo 3/2011, de 14 de noviembre (LCSP)**- o de una disposición que prevea su "alcance, efectos y régimen jurídico" a que se refiere la Ley de Régimen Jurídico de las Administraciones Públicas y del Procedimiento Administrativo Común (LRJ-PAC) (art. 88.1).

- Por regla general, no se realizan actuaciones tendentes a dar publicidad o a promover la concurrencia de sujetos distintos de aquellos con los que los convenios se suscriben, por loque no puede decirse que se hayan aplicado, como es obligado, estos principios que rigen en la contratación pública, y que son de obligada aplicación en la actividad convencional (art. 3.2 TRLCAP y art. 4.2 LCSP), sin perjuicio de que en algunos de ellos puedan concurrir circunstancias que justifiquen la elección directa del otro suscriptor.

- Bajo la apariencia formal de convenios de colaboración se han tramitado auténticos

contratos administrativos, eludiéndose así la aplicación de la legislación contractual.

- En ocasiones los convenios de colaboración constituyeron, "de facto", subvenciones públicas, otorgadas sin atenerse a lo dispuesto en la Ley 38/2003, de 17 de noviembre, General de Subvenciones (LGS) y normativa de desarrollo, y, en particular, al procedimiento de concesión.

Otras veces la naturaleza subvencional ha resultado cuestionable, por la omisión de una cláusula que concrete a qué sujeto corresponde la titularidad de los resultados, lo que, además de la deficiencia que supone en el plano estrictamente convencional, genera inseguridad en el plano presupuestario ya que es determinante de que el gasto tenga naturaleza de gasto real o de transferencia.

- En líneas generales, es escasa la especificación del objeto de los convenios y, a veces, también resulta excesivamente genérica la descripción de las actividades a realizar, careciendo del nivel de concreción suficiente para determinar con precisión su verdadero alcance o la adecuación a su valor de la financiación que aporta la Administración.

- En otros casos, no constan en los expedientes los criterios para determinar la cifra de la cantidad a aportar por la Administración. No es infrecuente, a partir de los datos contenidos en los expedientes, desconocer por qué se fija una determinada aportación y no otra superior o inferior, lo que reviste especial importancia, al no existir una pluralidad de ofertas que permitan la depuración del precio o, en su caso, del coste de la actividad.

- En relación con la ejecución de lo convenido se aprecia, entre otros extremos: **a)** La falta de constancia expresa del cumplimiento de los compromisos que asume la Administración, excepto en lo que atañe a la aportación financiera; **b)** La frecuente justificación del gasto, excepto en los convenios destinados a canalizar subvenciones, mediante la presentación, por el sujeto privado, de la factura por el importe de la aportación financiera a cargo de la Administración, pero no de los gastos en que se ha incurrido. Esta forma de justificar, cuando no se parte de una estimación rigurosa del costo de la actividad, no ofrece garantías de un correcto empleo de los fondos..."

Termina su informe el Tribunal de Cuentas haciendo una serie de propuestas dirigidas a las Cortes Generales, y entre ellas sobresale la solicitud de que se adopten medidas eficaces en orden a la efectiva aplicación de los principios de la LCSP cuando se acuda a este tipo de concertación, en los casos de ausencia de normas especiales, según contempla su art. 4.2, teniendo en cuenta el distinto alcance que estos principios tienen en relación con los convenios interadministrativos (entre administraciones para una mejor cogestión de los servicios públicos) y con los convenios entre entidades publicas – sociedades mercantiles públicas y Fundaciones de interés público y general - sujetas al Derecho privado con administrados.

Es suma y a tenor de cuanto acabamos de decir, la configuración legal de los convenios de colaboración supone que su campo de actuación, ya tomemos como punto de partida la fecha en que sucedieron los hechos objeto de revisión, como en el momento presente, si bien del contenido de la Ley actual cabe obtener un concepto de convenio de colaboración y la prohibición de su uso para encubrir auténticos contratos, termina siendo de una enorme amplitud. Y así viene demostrándose en la práctica. Lo que importa es que su objeto no coincida con el de los contratos administrativos, es decir, con el de los contratos típicos o nominados, el de los contratos especiales vinculados al giro o tráfico específico de la Administración, el de los que satisfacen de

forma directa o indirecta una finalidad específica de la finalidad de aquélla o el de los establecidos por una norma administrativa especial, pues de lo que se trata es de que la administración y sus entes de derecho público no abusen de esta figura para eludir los principios de la contratación, ni tampoco, que se utilicen como cauce para encubrir subvenciones directas, pues en esos casos la transparencia viene determinada por la exigencia de una Ley que las establezca, ya presupuestaria o de otro tipo. Pero, respetado el señalado límite y siempre que el convenio responda a una finalidad lícita, el convenio se viene utilizando como un medio hábil para que la Administración pueda colaborar con los particulares facilitando y favoreciendo las actividades que éstos pretendan desarrollar, por cuanto, sin dejar de ser actividades privadas, se considera que las mismas convienen a los intereses generales, partiendo por su puesto de la premisa que se trata de un sistema de concertación o de efectiva cooperación.

Otra norma a tener en cuenta y que es objeto de cita y comentario por parte de algunas de las defensas es la **Ley General de Publicidad, Ley 34/1988, de 11 de noviembre**, a propósito del contrato de patrocinio, el cual a tenor de su objeto quedaría fuera del ámbito de la normativa de contratos. Ahora bien, es sabido que la naturaleza del contrato viene determinada por el objeto del mismo y contenido de sus prestaciones y no por la denominación que las partes hayan querido otorgarles.

El artículo 22 de la Ley General de Publicidad define este contrato como aquél por el que el patrocinado, a cambio de una ayuda económica para la realización de su actividad deportiva, benéfica, cultural, científica o de otra índole, se compromete a colaborar en la publicidad del patrocinador.

El contrato de patrocinio publicitario se regirá por las normas del contrato de difusión publicitaria en cuanto le sean aplicables".

Otro tanto ocurre con la naturaleza jurídica de las entidades públicas o privadas contratantes, que no viene establecida exclusivamente por lo que puedan declarar al respecto sus estatutos o escritura de constitución, sino por su aspecto funcional, grado de dependencia y de control que sobre dicha entidad o fundación pueda ejercer la administración vinculada y naturaleza de los fondos que maneje, y si estos son principalmente de procedencia pública.

Finalmente y en lo que respecta a los aspectos de orden tributario son de tener en cuenta los siguientes preceptos:

.- Artículo 15 de la LGT que regula el conflicto en la aplicación de la norma tributaria cuando se evite total o parcialmente la realización del hecho imponible o se minore la base o la deuda tributaria mediante actos o negocios. Su apartado 3 dispone que "en las liquidaciones que se realicen como resultado de lo dispuesto en este artículo se exigirá el tributo aplicando la norma que hubiera correspondido a los actos o negocios usuales o propios o eliminando las ventajas fiscales obtenidas, y se liquidarán intereses de demora, sin que proceda la imposición de sanciones".

.- Artículo 16 de la LGT, en el que se regula la simulación tributaria y en estos casos se dispone que "el hecho imponible gravado será el efectivamente realizado por las partes".

. - Artículo 41 de la LGT. En este precepto se contempla la responsabilidad tributaria y en el siguiente se especifica quiénes son responsables solidarios de la deuda y entre ellos se encuentran: **a)** Las que sean causantes o colaboren activamente en la realización de una infracción tributaria (su responsabilidad se extenderá a la sanción)…y,

también, según se dispone en su apartado 2, serán responsables solidarios del pago de la deuda tributaria…**a)** las que sean causantes o colaboren en la ocultación o transmisión de bienes o derechos del obligado al pago con la finalidad de impedir la actuación de la administración tributaria.

En lo que se refiere al ámbito de las Comunidades Autónomas resulta de aplicación el **Real Decreto Ley de 26 de junio de 1991, por el que se aprueba el Texto Refundido de la Ley de Hacienda Pública de la Generalitat Valenciana**, dicha norma se remite al **Decreto 20/1993, de 8 de febrero, del Gobierno de Valenciano, por el que se regula el Reglamento de Convenios** y se establece el régimen jurídico-presupuestario de los Convenios que suscriba la Generalitat Valenciana.

Este Decreto al tratar el contenido de estos Convenios de colaboración establece en su artículo segundo…:" que sólo podrán constituir objeto de los convenios y acuerdos de cooperación a los que se refiere la presente norma, en el supuesto de que se suscriban con personas físicas o jurídicas privadas, aquellas actividades negociales que, por razón de los sujetos, objeto o causa, no sean susceptibles de sujetarse a las normas sobre contratación administrativa. Expresamente por tanto distingue entre contrato y convenio, prohibiendo que este último contemple prestaciones que han de ser establecidas por vía de contrato.

Dispone además quelos instrumentos en que se formalicen los convenios y acuerdos de cooperación deberán especificar, como mínimo:

-"Las partes que los conciertan y la capacidad jurídica con la que actúa cada una de ellas.

- El objeto del convenio o acuerdo de cooperación, así como las obligaciones que asume cada una de las partes.

- Su financiación, en el caso de que del mismo se derivasen prestaciones de carácter económico para alguna de las partes, incluyéndose el detalle de la aplicación económica.

- La previa aprobación del proyecto de convenio o acuerdo de cooperación por el Gobierno Valenciano, en el caso de que los mismos fuesen a suscribirse con entidades o instituciones públicas.- El plazo de vigencia, lo que no impedirá su prórroga si así lo acuerdan las partes firmantes del convenio o acuerdo.

- Las cláusulas a que se refiere el artículo 7 del presente decreto.

Con carácter previo a la formalización de los convenios y acuerdos de cooperación deberá solicitarse del Registro de Convenios informe sobre su contenido, a los únicos efectos de evitar posibles coincidencias con los ya suscritos. El mencionado informe deberá emitirse en un plazo máximo de diez días…".

Contempla este Decreto de la Generalitat Valenciana en su artículo quinto la regulación de los convenios que se articulan a través de subvenciones, tal y como se prevé en los artículos 45 a 48 del texto refundido de la Ley de Hacienda Pública de la Generalitat Valenciana, y dispone que "tendrán carácter subsidiario respecto a la fórmula de convocatoria abierta, **de tal forma que sólo se podrá recurrir a su suscripción en la medida en que se justifique su oportunidad y conveniencia**. Así mismo, tendrán carácter subsidiario, en materia de subvenciones, respecto a los sistemas de concesión directa previstos en la legislación vigente"…; Es decir que si

estamos ante una subvención directa no cabe acudir al convenio como cauce para la misma.

"En aquellos supuestos en que, a juicio del informe a que se refiere el artículo 6.1.b) del presente decreto, no se considere suficientemente justificada la oportunidad y conveniencia de la suscripción, será el Gobierno Valenciano, a propuesta de la conselleria o entidad interesada, el órgano competente para apreciarla…".

El artículo sexto, recoge la exigencia de elaborar una serie de informes y al respecto dispone que: todos los convenios y acuerdo de cooperación a los que se refiere el presente decreto requerirán, con carácter previo a su suscripción, dos informes que deberán acompañarlos en su tramitación hasta la suscripción:

a) Uno de carácter preceptivo, del secretario general u órgano asimilado de la entidad afectada, sobre los siguientes extremos:

- Adecuación de la periodificación y previsión del gasto, si lo hubiere, a lo realmente ejecutable.

- Adecuación de su contenido a los objetivos y acciones del programa con cargo al que se ejecute.

- Cumplimiento de las previsiones recogidas en los artículos 2.2 y 7.3 y 4 del presente decreto.

- Aspectos jurídicos del convenio y cumplimiento de los trámites de carácter preceptivo.

b) Otro, preceptivo igualmente, que emitirá la intervención delegada correspondiente, en el supuesto de que se derivasen obligaciones económicas para la Generalitat Valenciana o sus entidades autónomas, sobre los siguientes extremos:

- Existencia, en el ejercicio en curso, de crédito presupuestario adecuado a la naturaleza económica de las obligaciones.

- En el supuesto de convenios o acuerdos de alcance plurianual, su adecuación a la normativa vigente en la materia.

- Adecuación de la fórmula de pago a la legalidad vigente.

- En el caso de convenios a suscribir con personas físicas o jurídicas privadas, adecuación de los mismos a lo previsto en el artículo 5.2 del presente decreto.

2. Igualmente requerirán informes de la misma naturaleza las modificaciones del convenio que afecten a cualquiera de los apartados anteriores.

3. En el supuesto de que la suscripción del convenio implicase una previa modificación presupuestaria, los informes a que se refiere el apartado 1 del presente artículo formarán parte presupuestaria…". del correspondiente expediente de modificación.

Finalmente, en cuanto al convenio de los Juegos Europeos además de la normativa autonómica Valenciana antes citada, ha de tenerse en cuenta **la ley 38/2003, de 17 de noviembre, General de Subvenciones**.

QUINTO.- *Examen concreto de cada uno de los convenios de colaboración a los que se*

refiere el auto apelado suscritos entre las entidades públicas intervinientes y el Instituto Noos o la Fundación Deporte Cultura e Integración Social (FDCIS), así como el relativo a la Preparación de los Juegos Europeos y contrato de patrocinio con el equipo ciclista entre Fundación I lesport y ABARCA Sport y contrataciones vinculadas a dicho patrocinio: creación de una oficina proyecto y el seguimiento del equipo ciclista.

a) *Convenio de colaboración entre CACSA (Sociedad Anónima Ciudad de las Artes y las Ciencias), Fundación Turismo Valencia Convention Bureau (FTVCB) Y EL INSTITUTO NOOS*.

Se trata del convenio suscrito en fecha 8 de noviembre de 2004. Hubo dos ediciones más firmándose sendas adendas (3 de octubre de 2005 y 8 de mayo de 2006).

Desde el punto de vista subjetivo no parece haber duda que dicha contratación se hallaba sujeta a la normativa de contratos públicos, por cuanto CACSA se trata de una entidad pública perteneciente a la Generalitat Valenciana, siendo la Generalitat su único socio. Asimismo la FTVCB, aunque sus estatutos establecía que se trataba de una fundación de naturaleza privada, lo cierto es que en la medida en que el Ayuntamiento de Valencia ostentaba mayoría de votos en el Patronato, actuando de Presidenta de Honor la Alcaldesa de Valencia y como Presidente el Vicealcalde Sr. Grau Alonso, así como porque la dotación anual de fondos provenía de forma mayoritaria del Ayuntamiento y porque la gestión era llevada a cabo por el Director de la Fundación nombrado por el Ayuntamiento y así se consideraba por los restantes miembros del patronato, aunque éste estaba integrado también por entidades privadas como la confederación de empresarial Valenciana, la Cámara de Comercio de Industria y Navegación y la Feria de Valencia, vinculada al Consistorio, la verdadera naturaleza jurídica de dicha fundación era pública y por tanto sujeta a la normativa de contratación pública.

La naturaleza pública de la FTVCB, vino siendo reconocida por el Tribunal de Cuentas a la hora de clasificar la fundación y obra en las actuaciones un informe de la Intervención General del Estado que en coincidencia con el informe del TC considera también que en la fecha de los hechos la FTVCB era una fundación de interés público. Ostentaba además en 2009 dicha clasificación por la Intervención General del Estado en aplicación del Real Decreto 1463/2007, de 2 de noviembre, por el que se aprueba el reglamento de desarrollo de la ley 18/2001, de 12 de diciembre, de Estabilidad Presupuestaria.Sino hubiera sido así no se explica la razón por la que en noviembre de 2009 se procedieron a modificar los estatutos de la Fundación con el objeto de que el peso del Ayuntamiento de Valencia en el patronato dejase de ser mayoritario y lograr así que la calificación de la Fundación variase y por eso a partir de la modificación operada en sus estatutos el 26 de noviembre de 2009, es cuando esta fundación es considerada una unidad institucional bajo control privado.

Ciertamente, la firma del primer convenio de colaboración tuvo lugar antes de que por el Real Decreto Ley 5/2005, de fecha 11 de marzo (vigente desde el 15 de marzo) de 2005, de Reformas Urgentes para el impulso a la productividad y para la mejora de la contratación pública se modificase la Ley de contratos del sector público, equiparando a las fundaciones de interés público a las sociedades mercantiles públicas, pero como hemos expuesto más arriba en aplicación de la normativa comunitaria, la FTVCB venía obligada a respetar la normativa de contratos y, en todo caso, como firmante del convenio de colaboración tenía que saber que dicha normativa tenía que ser respetada, toda vez que en la firma del convenio de colaboración intervenía, haciendo una aportación económica o canon idéntico al suyo, una entidad mercantil pública que venía

inexorablemente obligada a cumplir la normativa de contratos.

De lo que no hay ya duda es de que cuando se firman las adendas al contrato y se acuerda la celebración de la segunda y tercera edición del Valencia Summit (octubre de 2005 y mayo de 2006), ya se había modificado la Ley de contratos y que a partir de ese momento las fundaciones de interés público en la contrataciones que tuviesen por objeto alguno de los previstos entre los contratos administrativos: obras, servicios, consultoría… etc, quedaban sujetas al procedimiento de contratación administrativa y por tanto debía de respetar los principios de concurrencia competitiva.

En cuanto al objeto de los contratos de colaboración suscritos entre CACSA, FTVCB y NOOS, aparentemente se trata de la celebración de unos eventos o congresos internacionales sobre ciudad y deporte. Al margen de que con ello se quiera publicitar y dar a conocer la ciudad de Valencia con ocasión de habérsele adjudicado a la celebración de la 32 Copa América de vela, parece obvio que el objeto del contrato consistía en la prestación de un servicio consistente en la organización del citado congreso. Se titula contrato de colaboración, pero en verdad no se describe cual sería la colaboración que para la celebración del evento iban a efectuar las entidades públicas intervinientes. En verdad el único compromiso al que se obligan los entes administrativos instrumentales que firman el convenio era realizar una aportación económica de 552.000 euros, IVA incluido, cada una de las dos entidades (en total 1.044.000 euros). Es significativo que la aportación realizada se denomina canon, término típicamente administrativo que se suele utilizar en el ámbito de las concesiones públicas. Conviene precisar que los gastos de organización, estancias y viajes se facturaban aparte y que existía el compromiso por parte de NOOS de que se reduciría la aportación económica de los entes públicos contratantes en la medida en que se sumasen a la colaboración patrocinadores ajenos a las administraciones instrumentales intervinientes. A pesar de que hubo otros patrocinadores, NOOS ocultó este extremo y no dedujo tales aportaciones al citado canon.

Se sostiene por la mayoría de las defensas que estamos ante un contrato de patrocinio y no ante un contrato administrativo con lo cual no era necesario acudir al procedimiento de contratación.

A este respecto cabe recordar que la regla de exclusión en la aplicación de la normativa de contratos, cuando uno de los sujetos que interviene es una administración o un ente administrativo público sujeto al derecho privado, es restrictiva y que solo se pueden eludir las normas de la contratación que rigen los contratos administrativos en aquellos casos en los que el objeto del contrato no encaja entre los típicamente administrativos. Como hemos dicho antes, el encargo de la organización de un evento no es más que una prestación de servicios. Si el contrato hubiera sido de patrocinio el patrocinado recibiría una determinada prestación simplemente para publicitar durante la celebración del evento la imagen del patrocinador, pero en este caso, tal y como explica el Juez a quo, el aporte económico iba dirigida a sufragar el coste del proyecto mismo y no a promocionarlo.

Al margen de ello y aunque a efectos dialécticos se pudiera sostener que el contrato pudiera ser mixto o que fuera discutible su calificación jurídica, lo cierto es que antes de su suscripción por parte de los responsables de los entes de contratación se deberían de haber pedido los correspondientes informes suficientemente motivados a fin de que quedase constancia de extremos tales como: la necesidad y conveniencia de llevar a cabo la colaboración, que la misma pretendía un interés público que justificase la concertación, la legalidad de la misma y las razones por las que no era preciso cumplir

la normativa de contratos, el modo en como se había determinado el pago del canon y que objeto tenía, cómo debía de justificarse el gasto y los costes por parte del patrocinado, la forma en que se había de controlar el cumplimiento del contrato y la aplicación de la dotación efectuada por las entidades públicas; y, de modo específico y por último, las razones por las que no era necesario respectar los principios de concurrencia, publicidad y sobre todo el por qué dicho convenio debía de adjudicarse a NOOS y no a otra entidad distinta.

La normativa que al respecto rige en la Comunidad Valenciana, aunque vaga e imprecisa en algunos aspectos, no dejaba lugar a dudas. Eran necesarios informes económicos y jurídicos previos, tanto sobre el gasto como sobre la legalidad de la contratación, estableciendo que la regla general es que la contratación ha de verificarse conforme a las normas de procedimiento administrativo a no ser que la naturaleza del contrato impida la concurrencia competitiva. Además, en este caso intervenía una sociedad mercantil propiedad exclusiva del Gobierno Valenciano y era necesario un acuerdo del Consell de Gobierno, acuerdo que no se tomó y que no puede estimarse suplido por la mera firma del convenio.

Con todo, y como luego se verá al analizar los recursos, la presunta prevaricación no se justifica únicamente en que los convenios de colaboración para la celebración de este evento denominado Valencia Summit se suscribieran prescindiendo de las normas de procedimiento (a este respecto llama la atención al declaración del Consejero delegado de CACSA Gerardo Camps, el cual reconoció que la firma de los convenios de colaboración para la celebración del Valencia Summit exigían cumplir las normas que rigen la elaboración de los contratos públicos y que al parecer no se respetaron), sino en otros aspectos.

Más adelante nos referiremos en profundidad a las presuntas irregularidades concretas que se produjeron el proceso de contratación, a partir de las cuales es posible sostener no solo su abierta ilegalidad sino su posible consideración delictiva.

De cualquiera de las maneras, y al margen de que exista discrepancia al respecto de si este convenio encubría un contrato o en verdad cabía considerar que se estaba ante un patrocinio, ha de significarse que la propia Sindicatura de Comptes en sus informes de fiscalización de las cuentas de la Generalitat Valenciana de los ejercicios 2004, 2005 y 2006, vino a señalar, por ejemplo, en el último de sus informes: tal y como se indicaba en el informe del ejercicio de 2005, en relación al este convenio (el aquí comentado entre CACSA y Noos), se considera necesario que en el expediente quede acreditado suficientemente la necesidad del gasto, así como las razones que motivan esta colaboración y que excepcionan de la aplicación de los Principios de publicidad y de concurrencia”.

En este punto este informe de Fiscalización indica que el informe elaborado a este respecto por la entidad CACSA es de 20 de abril de 2007, por tanto, posterior a la celebración de los eventos Valencia Summit.

En cuanto al gasto comprometido por CACSA, en el informe de fiscalización se señalaba, “… ya sea de forma directa o a través de entidades colaboradoras, debe someterse a los principios de publicidad y concurrencia, justificando, en su caso, la excepcionalidad.

Tal y como expone el Juez Instructor en el auto apelado las anteriores conclusiones a las que llega la Sindicatura de Comptes en sus informes de fiscalización, en los que

concluye que la entidad CACSA, en su actividad contractual, se halla sujeta a la normativa de contratos públicos tratándose de contratos administrativos típicos, han sido refrendados por la Unidad de Apoyo a la Fiscalía Especial contra la Corrupción y el Crimen Organizado, integrada en la Intervención General de la Administración General de la Administración del Estado.

b) *Convenio de colaboración para la celebración del evento Illes Balears Forum*.

En este caso no hay duda tampoco de que desde el punto de vista subjetivo la entidad firmante del convenio, Fundación Illesport, es una fundación de interés público, y que al igual que en caso de Valencia Summit, el objeto del contrato consistía en la celebración de un evento, en este caso sobre deporte y turismo.

El objeto del contrato, al igual que ocurre en el caso del Valencia Summit, parece consistir en la organización de un evento y no de un patrocinio deportivo. Este es el parecer de la Intervención General del Estado en el Informe que se le pidió y que emitió a este respecto.

De todos modos lo relevante es que, en coincidencia con lo razonado por la Sindicatura de Comptes Valenciana, era exigible la incoación de un expediente en el que quedase patente y reflejado el interés público y general que suponía la celebración de un evento de este tipo, la legalidad de la contratación al margen de un procedimiento de concurrencia y transparencia, cómo y por qué se establecía un determinado precio por la organización del evento, el cual debería de venir establecido conforme a criterios de mercado y, sobre todo, el por qué la adjudicación del contrato debía de hacerse a un determinado beneficiario –NOOS – y no a otro u otros que estuvieran en condiciones de asumir el mismo encargo y en mejores condiciones económicas. Nada de eso se hizo.

Igual que con el convenio de colaboración para la celebración del Valencia Summit, el Juez Instructor para construir el carácter presuntamente delictivo e ilícito de esta contratación no acude exclusivamente a tomar en consideración que la contratación pudo haberse realizado incumpliendo las normas de procedimiento y por órgano incompetente – ya que sostiene que la aprobación del convenio la realizó el entonces Presidente del Govern verbalmente y no fue hecha por el patronato de la Fundación Illesport -, sino por otras circunstancias que sobre las que posteriormente entraremos al examinar los distintos recursos.

c) Convenio para la celebración de los Juegos Europeos

En este convenio, suscrito el 23 de diciembre de 2005, entre la Generalitat Valenciana, la Sociedad Gestora para la Imagen Estratégica y Promocional de la Comunidad Valenciana, S.A, y Noos ya se dispone que se halla sujeto a la normativa autonómica sobre convenios de colaboración que se canalizan a través de subvenciones y a la Ley Estatal general de subvenciones. El juez a quo reprocha a este convenio que por su objeto: la realización de un estudio para la organización de los primeros Juegos Europeos a celebrar en la Ciudad de Valencia, debió de haber sido un contrato.

En realidad y aún aceptando que el objeto del convenio era más propio de un contrato de prestación de servicios que el de un convenio de colaboración, más bien parece que la presunta irregularidad que rodeó su suscripción se circunscribe a que su firma se verificó sin cumplir con las exigencias de los informes previos de la Secretaría General y de la Intervención Delegada– estos informes se emitieron a posteriori, pero para firmar la adenda al contrato de fecha 25 de mayo de 2006, relativa a concretar la aportación que iba a efectuar la Genaralitat, la cual ya figuraba en la propuesta inicial,

pasando esta de seis a tres millones de euros -, y que en verdad dicho convenio incumplió la normativa de subvenciones, ya que como reza el propio Decreto 20/1993 de 8 de febrero, del Gobierno Valenciano, por el que se aprueba el Registro de Convenios y se establece el régimen jurídico-presupuestario, el convenio será subsidiario siempre a la subvención directa y en el caso presente en realidad aparentemente estamos ante una subvención directa, la cual tendría que venir aprobada nominativamente en los presupuestos generales de la Comunidad Valenciana o por Ley del Parlamento Valenciano. En lugar de eso, se aprueba una dotación presupuestaria a favor del Instituto Noos, corriendo a cargo de la entidad Gestora para la Imagen Estratégica y Promocional de la Comunidad Valenciana, S.A, la fiscalización de la subvención concedida.

Al igual que ocurre en el caso de CACSA, si bien antes de firmar la adenda al convenio – a los solos efectos de reducir el compromiso de pago de la Generalitat para el proyecto de 6 a 3 millones de euros - se emiten informes jurídicos, nada se dice al respecto de la regularidad de la forma elegida para la concertación, ya que su objeto es propio de una prestación de servicios o de una consultoría, y no de una subvención y esta, tal y como hemos dicho, podría contravenir la Ley General de Subvenciones y lo dispuesto en el Decreto 20/93, ya que el convenio contempla en realidad una subvención directa, que excluye la justificación de la concurrencia competitiva en la elección del beneficiario de la subvención, dato importante si se tiene en cuenta el importe comprometido y la ausencia de elementos que permitan conocer qué criterios se siguieron para la fijación del importe de la subvención y por qué esta se concedía a Noos y no a otro beneficiario.

El acuerdo del Consell de Gobierno a la hora de explicar el objeto del convenio nada dice al respecto de las razones por las que se elude la concurrencia competitiva en un proyecto tan ambicioso, ni tampoco el por qué se elije como vía para canalizar el convenio una subvención directa al Instituto Noos, fijando una aportación del Govern muy elevada que habría requerido el cumplimiento de los presupuestos de publicidad y transparencia en la elección del beneficiario.

De todos modos, el juez a quo en el auto apelado no atribuye responsabilidad alguna a los responsables de las entidades firmantes del convenio y sí, en cambio, a los Sres. Torres y Urdangarín, a quienes les imputa sumariamente la comisión de un presunto delito de estafa (extensible también al resto de los eventos y convenios suscritos con base a que para la firma de estos convenios se habrían valido como engaño típico para eludir las normas de contratación, de la utilización de una entidad que se publicitaba y figuraba inscrita como entidad sin ánimo de lucro, cuando en realidad operaba como un entramado societario o grupo de entidades dirigidas a la obtención de lucro ilícito), por cuanto percibieron a cuenta de la preparación de estos Juegos una factura librada por la entidad mercantil Lobby & Comunicación por importe de 241.971,30 euros con cargo a la oficina proyecto, que según explica la Agencia Tributaria se trata de trabajos no realizados o hechos con corta y pega de internet, y gastos varios no justificados – sumando estos conceptos y la factura anterior la cantidad de 382.203,70 euros-, además de que se intentaron cobrar una serie de certificaciones emitidas por Marcos Tejeiro – encargado de la facturación del grupo NOOS -, que fueron rechazada por no estar justificadas y en algunos casos porque contenían conceptos duplicados.

d) *Convenio de colaboración entre la Fundación Madrid 16 y la Fundación Deporte Cultura e Integración Social.*

Este convenio que fue suscrito el 7 de octubre de 2007, tanto subjetivamente

considerado por la naturaleza pública de la Fundación Madrid 16, ya que en la misma participan tanto la Administración General del Estado a través del Consejo Superior de Deporte, como la Comunidad y el Ayuntamiento de Madrid, aunque también forma parte de su patronato el COE y otras entidades privadas, como por qué la dotación provenía de dinero del Ayuntamiento de Madrid, se trataba de una fundación de interés público. Además la Fundación era propietaria a su vez de la sociedad Madrid 16 SAU, perteneciente el Ayuntamiento. El cuanto a su objeto, al ir dirigido éste a la contratación de la Fundación para la prestación de servicios consistentes en promocionar entre miembros del Comité Olímpico Internacional la candidatura de Madrid 16, como ciudad que se postulaba para la celebración de los Juegos Olímpicos del 2016, sería un contrato de prestación de servicios en el área de comunicación que habría requerido el cumplimiento de los requisitos de publicidad y concurrencia, sobre todo en lo atinente a las razones que justificaban la contratación de la Fundación y no en cambio de otro beneficiario que perfectamente podría haber sido el COE, integrante del Patronato.

Este convenio se suscribió sin cumplir norma alguna de procedimiento. Sucede, además, que el objeto del contrato – que era vago e impreciso en su formulación -quedó pendiente de concretar en un convenio específico posterior en el que habría que detallarse el tipo de colaboración que habrían de llevar a cabo las partes, pero que no llegó a firmarse.

Según se argumenta por el Juzgador, si bien el objeto que figuraba en el contrato era uno, en la realidad lo que se concertó fue un servicio de Lobby de presión sobre los miembros del COI con el propósito de trasladarles las bondades de la candidatura de Madrid 16, procurando así su apoyo y adhesión.

A cambio de estos servicios, que podrían calificarse de comunicación o información, la Fundación Deporte Cultura e Integración Social obtuvo un donativo durante aproximadamente dos años de 6.000 euros mensuales, sin que en el expediente se justificasen en modo alguno las labores de comunicación y servicios realizados para potenciar la candidatura entre los miembros del COI.

Tal fue la falta de justificación de estas disposiciones denominadas donativos, que a raíz de una intervención parlamentaria a cargo de un representante del partido UPYD, el Delegado del Área de Gobierno de las Artes del Ayuntamiento de Madrid dirigió un escrito a la Fiscalía General del Estado denunciando en enero de 2013, las presuntas irregularidades cometidas a la hora de suscribir este convenio a cargo de la Fundación Madrid 16 y pago a la Fundación Deporte, Cultura e Integración Social de la suma de 120.000 euros, en concepto de donativo sin justificar.

e) *Contrato de patrocinio de la Fundación Illesport y ABARCA SPORT*.

Ciertamente el objeto del contrato queda fuera del ámbito de la normativa de contratos por tratarse de un contrato de patrocinio sujeto a la Ley General de Publicidad, pero el Juez a quo duda de la legalidad de dicho contrato, en tanto en cuanto el mismo podría surgir y obedecer a la influencia ejercida por Iñaqui Urdangarín sobre el entonces Presidente del Govern Balear y de la Fundación Illesport, Sr. Matas Palou, a través del Director General de Deportes del Govern Balear.

De facto, el mismo día que se firmó dicho convenio Noos Consultoría – empresa del Grupo Noos –suscribió un contrato con Abarca Sport para encargarse de la promoción del equipo ciclista. En dicho contrato ya se indicaba, sin que ni siquiera se hubiera suscrito el contrato de patrocinio,que de la suma establecida por esa promoción,

200.000 euros, el 75% sería sufragado por la Fundación Illesport.

f) Finalmente, en el auto se hace referencia a los contratos suscritos entre la Fundación Illesport y el Ibatur, que guardan relación con el patrocinio del equipo ciclista y que tenían por objeto la creación de la Oficina del Proyecto y el seguimiento del Equipo Ciclista por parte de la entidad SOFRES.

El Juez Instructor considera que estos contratos se verificaron ajenos a cualquier concurrencia y sobre todo porque la adjudicación se habría verificado sin que constase que Noos Consultoría tuviera derechos de exclusiva. A este respecto constaen las actuaciones que el Ibatur disponía y conocía el borrador del contrato entre Abarca y Noos Consultoría, pero la ilicitud de esta contratación, atendiendo al relato que contienen el auto recurrido, obedecería a que traería causa de un contrato de patrocinio cuya celebración habría sido fruto de la influencia ejercida sobre el Presidente del Govern Balear para patrocinar el equipo ciclista, así como y por petición expresa de Urdangarín para la creación de una Oficina del Proyecto que se encargase de la promoción de dicho equipo, proyecto que asumiría NOOS consultoría. Como veremos la constatación de irregularidades en el expediente permitiría avalar esta conclusión.

SEXTO.-*Recursos formulados por cada una de las partes y respuesta concretada dada por la Sala*.

Para un mejor estudio sistemático y ordenado de los distintos recursos, dado que las actividades presuntamente ilícitas que narra el auto recurrido guardan relación con los distintos contratos y convenios de colaboración suscritos por el InstitutoNoos o la Fundación Deporte Cultura e Integración Social con entidades y fundaciones públicas, ya de ámbito autonómico o local, analizaremos las conductas delictivas que el Juzgador considera se han podido cometer en el marco de estas contrataciones o convenios y la intervención que en las mismas han podido tener los imputados recurrentes y apelados, según cada caso.

Una vez estudiado estos extremos, procederemos al examen de los recurso interpuestos por los hermanos Marcos y Miguel Tejeiro, encargados del área contable y financiera del grupo Noos, a los cuales el Juzgador les atribuye haber cooperado con los Sres. Urdangarín y Torres en sus actividades delictivas.

Llegados a este punto estudiaremos el recurso del Sindicato Manos Limpias solicitando la imputación de otros trabajadores del Noos como Mario Sorribas y de Salvador Trinxet como presunto autor intelectual de la estructura fiduciaria extranjera.

Dejaremos para el final la respuesta a los recursos interpuestos por Diego Torres y su esposa Ana Tejeiro y el de Iñaki Urdangarín y la Infanta Doña Cristina, trayendo a colación el recurso del Ministerio Fiscal y las alegaciones hechas por la Abogacía del Estado.

Para terminar haremos unas consideraciones finales.

Al hilo de ir comentando estos recursos iremos dando respuesta a los recursos interpuestos por las Acusaciones populares, algunos de los cuales entroncan con la celebración de determinados eventos, ya que se solicita se amplíen las imputaciones a otras personas que se considera han podido participar activamente en dichos contratos, con comportamientos presuntamente delictivos y con trascendencia penal. Mención aparte, y cuando tratemos el recurso de la Infanta Doña Cristina, traeremos a colación la solicitud de Manos Limpias de que se deje sin efecto el sobreseimiento acordado

respecto de Don Carlos García Revenga, secretario de la Infanta.

En primer lugar, nos referiremos al contrato de patrocinio celebrado por la Fundación Illesport y la entidad Abarca Sports, así como vinculado con dicho patrocinio la creación de la oficina del proyecto y el seguimiento mediático del equipo ciclista.

De acuerdo con el auto apelado el principal responsable y artífice de esta contratación habría sido el entonces Presidente del Govern Balear y Presidente a su vez del Patronato de la Fundación Illesport Don Jaume Matas Palou. A tenor del planteamiento del Juez a quo todas estas contrataciones tendrían causa en la voluntad del Sr. Matas que habría venido determinada o inducida por la influencia ejercida por el yerno del Rey Juan Carlos I, don Iñaki Urdangarín. La persona que habría actuado de gancho o de contacto para lograr esa influencia y que actuó como intermediario para recomendar al Sr. Urdangarín y a sus empresas habría sido el que fuera Director General de Deportes del Govern Balear Don José Luis Ballester Tuliesa.

La razón de esa presentación obedecía a que Iñaki Urdangarín y José Luis BallesterTuliesa (conocido coloquialmente y entre sus conocidos por Pepote) eran amigos por haber convivido juntos en la Residencia Blume de Barcelona, dada su condición de deportistas de élite y por haber coincidido los dos en distintas Olimpiadas. Urdangarín como miembro del equipo olímpico español de balonmano y Ballester como integrante del equipo de vela.

Describe el auto apelado, como José Luis Ballester en el verano de 2003 comenta al Sr. Matas la oportunidad y conveniencia de patrocinar al equipo ciclista Banesto, y como también en septiembre de ese mismo año se produjo el encuentro en el Palacio de Marivent entre Iñaki Urdangarín, Jaume Matas, Pepote Ballester y una cuarta persona, amenizado con un partido de pádel, siendo entonces cuando Iñaki Urdangarín traslada a Matas la propuesta de promocionar el equipo ciclista Banesto y de crear la oficina proyecto como instrumento para promocionar la contratación del equipo ciclista, siendo su empresa Noos Consultoría la que podría desarrollar y ejecutar dicho proyecto.

Comenta el Juez que aunque el contrato de patrocinio fue suscrito por la Fundación Illesport y aprobado por su patronato. Se trato de una decisión personal del Sr. Matas, el cual habría cedido a la influencia que sobre él y con relación a esta contratación habría ejercido el Sr. Urdangarín, auxiliado por la intermediación de Pepote Ballester, atendida la vinculación de amistad existente entre los dos.

En el ámbito de este patrocinio se habría acordado la creación de la Oficina Proyecto y aunque también la decisión de la puesta en marcha de esta oficina se acordó por la Comisión Ejecutiva de la Fundación Illesport el 12 de enero de 2004, se trataría igualmente de un contrato que Matas se habría dispuesto conceder a Noos Consultoría, a raíz de laconversación mantenida con Iñaki Urdangarín que tuvo lugar en el Palacio de Marivent, que habría sido quien le trasladó la idea del patrocinio del equipo ciclista y de la creación de la oficina proyecto.

En cuanto a la organización del evento Illes Balear Forum a cargo de la entidad Instituto Noos, El Juez considera igualmente que dicho convenio de colaboración estaría teñido de ilegalidad por cuanto de nuevo habría sido fruto de la influencia ejercida por los Sres. Urdangarín y Torres y a tal efecto antes de su firma se habría celebrado una reunión en el Consulat de la Mar, al que habrían asistido junto al Sr. Matas los Sres. Diego Torres y Urdangarín. En dicha reunió el presidente Matas habría dado el visto bueno y su aprobación a la celebración de dicho evento.

La firma de este convenio, suscrito el 17 de julio de 2005, habría venido precedida de un acuerdo de la Comisión Ejecutiva de la Fundación Illesport de 30 de mayo, pero se trataría de una mera formalidad, ya que el convenio ya había sido verbalmente acordado.

Ciertamente, examinando las circunstancias que rodearon este convenio y la contratación del patrocinio del equipo ciclista son varios los indicios que apuntan a la aparente ilegalidad de estos contratos y a la posibilidad de su trascendencia penal y ello es así por cuanto:

a) La idea del patrocinio y de la celebración del evento Illes Balears Forum, no nace de la entidad pública contratante ni de sus responsables, sino que es fruto de contactos y reuniones previas que además son propiciadas por el Director General de Deportes del Govern Balear, amigo personal del Sr. Urdangarín.

b) Esos primeros contactos son seguidos de reuniones que mantienen el Sr. Matas e Iñaki Urdangarín y en un entorno (el palacio de Marivent, residencia de verano de la Familia Real) que podría calificarse de inadecuado para que se tratasen asuntos de negocios y en los que estaba interesado el propio Urdangarín.

c) El mismo día que se firma el contrato de patrocinio del equipo ciclista Banesto, el 27 de noviembre de 2003, con un coste comprometido para las arcas públicas de 18 millones de euros, distribuido en tres ejercicios económicos, junto con otros gastos, Noos Consultoría suscribe con la entidad ABARCA SPORTS (Miguel Echevarri) propietaria de los derechos sobre el citado equipo, un contrato para promocionar su imagen. En dicho contrato ya se especificaba que el 75% del precio establecido correría a cargo de la Fundación Illesport, que ni tan siquiera había entonces aprobado la creación de la Oficina Proyecto, la cual tenía por objeto promocionar la imagen del equipo ciclista.

d) El patrocinio del equipo ciclista efectivamente se trata de una contratación que por el objeto mismo del contrato no precisaba cumplir con la exigencia de la concurrencia competitiva y someter dicha contratación a concurso, pero sí precisaba que la fundaciónIllesport al aprobar dicho patrocinio explicase motivadamente las razones que justificaban dicha contratación, en cuanto a su conveniencia y necesidad para los intereses públicos, así como el por qué del importe acordado para ese patrocinio y la posibilidad de hacer frente a su pago; y a este respecto era claro que la fundación Illesport no disponía de fondos para ello por cuanto hubo de solicitar una aportación económica a cargo del Consell de Gobierno para suscribir dicho convenio (la petición se produjo en Junta de fecha 19 de noviembre y el acuerdo del Consell de Gobierno es del día 21 de noviembre).

e) Ocurre sin embargo que los componentes del Patronato de la Fundación Illesport han declarado que la reuniones de dicho patronato y de la Comisión ejecutiva eran una mera formalidad, ya que las decisiones que se hubieran de adoptar ya habían sido tomadas de antemano y las trasmitía el propio Sr. Ballester siguiendo las instrucciones y lo acordado con el Presidente de la fundación. A este respecto es de significar que a través de la declaración prestada por los testigos patronos se ha venido en conocimiento de que la mayor parte de las reuniones que constan celebradas en las actas extendidas en prueba de su realización no se llevaron a cabo, y, si lo fueron, fue para ratificar una decisión que ya había sido adoptada verbalmente por el Presidente de la Fundación y el de la Comisión Ejecutiva el Sr. Ballester Tuliesa, en tanto él era quien trasladaba a la Fundación los deseos del Sr. Matas

f) Se añaden a estas consideraciones una serie de irregularidades que rodearon la contratación de la Oficina Proyecto y del seguimiento del equipo ciclista:

- Illesport abonó 4 facturas por importe de 177.093,72 euros con cargo a la colaboración promocional entre Illesport yNoosConsultoria, que fueron abonadas por el Director de la Fundación, el Sr. Bernal, sin que se hubiera incoado expediente al respecto y tampoco sin que conste existencia documental del destino del gasto realizado. Ha de tenerse en cuenta que en el acuerdo de la Comisión Ejecutiva que se decide aprobar la creación de la Oficina del Proyecto no se hace constar la entidad beneficiaria del mismo.

- Ibatur abona dos facturas por colaboración en imagen promocional del equipo ciclista consistentes en elaboración de página web y por diseño, elaboración, suministro y distribución del equipo ciclista. El abono de ambas facturas, cuyo pago es informado favorablemente por el Jefe del departamento, existiendo resolución favorable al mismo a cargo del Gerente del Ibatur (el Sr. Alía Pino), se justifica con base a un derecho de exclusividad que Noos Consultoría tenía concedido para la explotación de la imagen del equipo ciclista, que no constaba en el expediente acreditado documentalmente, existiendo únicamente un pos-it que aludía a tales derechos de exclusividad.

- En enero de 2004, se firma un contrato de seguimiento mediático del equipo ciclista Banesto Illes Balears, entre la Fundación Illesport y la entidad Sofres Audiencia de Medios (TNS Media Inteligencie). Con antelación a suscribir este contrato Gonzalo Bernal (Gerente de la Illesport), recibe de Juan Pablo Molinero (trabajador de Noos), tres presupuestos desde un mismo fax, indicando a Gonzalo Bernal que el presupuesto que hay que aceptar es el de TNS Media Inteligencie por importe de 47.000 euros más IVA…"Gonzalo te mando presupuesto de SOFRES". Dicho presupuesto es finalmente aprobado, los otros dos presupuestos, como se ha dicho, fueron remitidos al Sr. Bernal desde el mismo fax y fueron elaborados por las entidades del grupo Noos: Virtual por importe de 58.000 euros y AIZOON por 60.000 euros. Estos dos presupuestos fueron enviados por Juan Pablo Molinero a petición del propio Gonzalo Bernal para cubrir el expediente, puesto que la adjudicación estaba ya concedida a TNS Media a solicitud de Noos Consultoría y a petición suya según se desprende de los faxes que obran en la causa, lo que incide en que ésta operaba con un trato de favor en Illesport.

Por lo que se refiere al evento Illes Balears Forum, la ilicitud de su contratación y posibilidad de que la misma fuera fruto de la influencia ejercida sobre Matas y que se tratase de una decisión personal suya sin consideración al interés general (y buscada con el único propósito de agradar al Sr. Urdangarín y a la Casa Real, por ser esta institución la que parecía estar interesada en los proyectos, al formar parte del órgano de dirección del instituto Noos el propio Sr. Urdangarín y su esposa la infanta Cristina, así como su secretario personal), hay que examinarla teniendo en consideración que la realización de dicho evento tuvo por antecedente próximo el contrato de patrocinio del equipo ciclista Banesto y por tanto los previos encuentros y entrevistas entre el Sr. Urdangarín y Jaime Matas, favorecidos por la intercesión del Director General de Deportes, el cual además ostentaba el cargo del Presidente de la Comisión ejecutiva de la Fundación Illesport.

Como hemos visto la suscripción del referido contrato de patrocinio se halla teñida de dudosa legalidad, al margen de que la contratación no precisase de observar el cumplimiento del requisito de concurrencia.

Con independencia de que el convenio de colaboración surge y nace precedido de un

contexto dudoso de concertación entre Noos e Illesport y entre la fundación y la entidad ABARCA, y de ésta con Noos Consultoría, con la que había firmado un contrato promocional que, al fin y a la postre, presumiblemente, no era otra cosa que el pago de una comisión por influir en el patrocinio, existen datos e indicios que avalan que el convenio de colaboración suscrito para la celebración del evento Illes Balear Forum y de su segunda edición, pudo ser delictivo, ya en su origen, al nacer la voluntad de contratar no del interés de la administración, sino de la arbitrariedad de quien actuó como órgano de contratación y, en consecuencia, fue fruto de un fraude a la administración como titular de los fondos públicos de los que se nutría la fundación.

Nuevamente existen elementos indiciarios que apoyan esta sumaria conclusión tales como: **a)** Que para llevar a cabo la realización de estos eventos se utilizó la fórmula del convenio de colaboración huyendo del contrato administrativo, cuando por el objeto que pretendía dicha concertación se trataba de la prestación de un servicio y no de un contrato de patrocinio; **b)** que dicho convenio, al menos el primero, no vino precedido de informes jurídicos y de gestión, en los que se hiciera constar de forma motivada cuales habían sido los criterios para la determinación del precio convenido y si éste se fijó en consideración a valores de mercado o se dejó a la voluntad de la entidad organizadoracuál era el interés público de la Administración autonómica que aportaba los fondos a la fundación que justificaba la realización de estos eventos, sobre todo el segundo, ya que se requería un seguimiento del primero de sus costes reales y el por qué no era preciso cumplir las normas de contratación pública, así como y especialmente, cuáles eran las razones de oportunidad y conveniencia que justificaban la no aplicación de los principios de objetividad y concurrencia en la elección de la entidad beneficiaria del convenio, o, lo que es igual, la imposibilidad de que la contratación fuera adjudicada a otra entidad que pudiera cumplir el mismo encargo y que lo hiciera a un coste más económico, más ventajoso; **c)** el hecho mismo de que el propio Director General de Deportes haya manifestado que esta contratación y la del patrocinio del equipo ciclista fue una decisión tomada personalmente por el Presidente del Govern y de la fundación Illesport, lo que vendría confirmado y ratificado por otros miembros de su Gobierno que a la sazón eran a su vez integrantes del Patronato de la Fundación, órgano que era el que legalmente tenía la facultad para celebrar estos convenios y que han manifestado que la mayoría de las reuniones del Patronato no se celebraban, ya que eran meramente formales porque las decisiones ya venía adoptadas de antemano a través de Presidencia y que era el Sr. Ballester quien en representación del Sr. Matas, por ser Presidente de la Comisión Ejecutiva de la Fundación, las trasladaba al Patronato y éste se limitaba a ejecutar y cumplir tales decisiones, si bien en la mayoría de las ocasiones ni siquiera las reuniones llegaron a tener lugar; **d)** Dato importante a tener en cuenta es, también, y en relación a la celebración de la segunda edición del evento Illes Balears, que la firma de este convenio y su aprobación por la comisión ejecutiva estuvo precedida de actas denominadas “de contacto” entre Pepote Ballester y Diego Torres, en las que se acordaron y materializaron pagos a cuenta de la celebración de la segunda edición del Illes Balears Forum, asunto que ni siquiera había sido tratado en la Comisión Ejecutiva de Illesport que acordó la firma de un nuevo convenio y aunque en este caso existe un informe jurídico en el que se quiere justificar la suscripción de este convenio en razones de patrocinio y promocionales para las Illes Balears en razón a que se trataba de la organización de unos encuentros internacionales sobre Deporte y Turismo, dicho informe jurídico no aparece firmado y la única persona que podría haberlo hecho que era el Jefe del departamento de la fundación Illesport negó su autoría.

Estamos ya en situación de proceder al estudio del recurso interpuesto por la representación de **Don Jaume Matas Palou, en el momento de los hechos**

President del Govern Balear y de la Fundación Illesport (*Recurso número I*). Este es el único recurso que guarda relación con este convenio de colaboración, con el patrocinio del equipo ciclista, la creación de la Oficina proyecto y del contrato suscrito con SOFRES, para el seguimiento del citado equipo.

En esencia, éste y al igual que otros recursos dirigidos a atacar la ilicitud del Convenio de colaboración para la celebración del evento Valencia Summit, pivotan sobre la afirmación de que estas concertaciones por razón de su objeto, el patrocinio deportivo, se hallaban excluidas del cumplimiento de la normativa de contratos públicos.

Ciertamente que ello pudiera ser discutible, más como hemos explicado más arriba la presunta ilicitud de las contrataciones no procedería, única y exclusivamente, del incumplimiento de las normas de procedimiento, sino en que tales convenios y los de patrocinio, y los que por razón de este llevaron a contratar a Noos Consultoría, no fueron fruto de la voluntad de la entidad administrativa contratante, ni de la Administración que dotaba de fondos a aquella, sino que nació de la voluntad personal y política del Presidente de Gover pudiendo constituir ello un acto de desviación o de abuso de poder.

No olvidemos que la jurisprudencia construye la prevaricación, entendida como resolución administrativa injusta dictada a sabiendas de su injusticia, tanto en situaciones en las que la decisión es clamorosamente contraria a la legalidad y a su correcta interpretación, como aún respetando las normas y procedimientos, se utilizan estos y aquéllos para encubrir una resolución injusta y desviada que no es fruto o manifestación del interés general, sino particular.

En efecto, la arbitrariedad, según reiterada doctrina jurisprudencial, puede manifestarse, bien porque se haya dictado la resolución sin tener la competencia legalmente exigida, bien porque el fondo de la misellas ma contravenga lo dispuesto en la legislación vigente o suponga una desviación de poder, o dicho de otra manera, puede venir determinado por diversas causas y entre se citan: la total ausencia de fundamento, si se ha dictado por órganos incompetentes, si se omiten trámites esenciales del procedimiento; si de forma patente y clamorosa desbordan la legalidad; si existe patente y abierta contradicción con el ordenamiento y desprecio de los intereses generales (STS 755/07 y 49/10).

En referencia a la desviación de poder como manifestación de una decisión prevaricadora dice la doctrina que se ejerce arbitrariamente el poder, proscrito por el artículo 9.3 de la CE, cuando el funcionario dicta una resolución que no es efecto de la aplicación de la Constitución y del resto del ordenamiento jurídico, sino pura y simplemente de su capricho, de su voluntad convertida irrazonablemente en aparente fuente de normatividad (STS 861/08, de 15 de diciembre y 49/10, de 4 de febrero).

Pues bien, ya hemos comentado que la existencia de encuentros previos y ociosos entre el Sr. Matas y el Sr. Urdangarín precedieron a la celebración de estos contratos y eventos; que la idea de llevar a cabo estos contratos y concertación no surgió de la entidad administrativa contratante, que para la realización de estos contratos se utilizó una administración instrumental en lugar de recurrir a la Consejería correspondiente, lo cual favorecía que no hubiera control previo del gasto, ni informes jurídicos serios a cargo de funcionarios de carrera, que dicha administración era presidida por el propio Sr. Matas y en la que formaban parte como patronos personas integrantes de su administración autonómica y por tanto de su confianza, que no existieron informes jurídicos previos para justificar estos contratos y realización de los eventos y, sobre

todo, no se hicieron estudios para cuantificar el coste de los mismos y las razones por las que se elegía a una determinada empresa beneficiaria y no a otra – extremo muy importante si se tiene en cuenta que no se tomaron en cuenta criterios de mercado u objetivos para la determinación del precio-, lo que sugiere que vino impuesto desde el Instituto Noos, existiendo razones para sospechar que dicho precio en modo alguno fue objeto de discusión teniendo en cuenta el perfil del Presidente del Instituto y de las personalidades que formaban su órgano de dirección. Sin olvidar que no existió seguimiento de los eventos en cuanto a la fiscalización del gasto y prueba de ello son los informes de la Agencia Tributaria con relación a la facturación y cantidades pendientes de justificar, sin olvidar que la persona encargada de la llevanza de la facturación del entramado Noos, Marcos Tejeiro, ha reconocido que estaba manipulada para justificar el sobrecoste de los eventos, manifestación que confirma las conclusiones de la Inspección de Tributos.

El Sr. Matas insiste en que se limitó a dar le visto bueno a una contratación, pero que no era su cometido vigilar el cumplimiento de las formalidades legales, ni estaba en condiciones por tanto de conocer cuáles eran las que se debían de observar.

Se trata esta de una alegación reiterativa en responsables políticos. No negamos que en el ámbito de la administración existen parcelas que no pueden ser objeto de control por los tribunales, ya que en las decisiones administrativas siempre existe un margen de discrecionalidad. Pero una cosa es que el responsable político vea con buenos ojos un proyecto y otra que antes de autorizar el mismo o dar órdenes para su realización exija y requiera de sus subordinados y responsables del área que corresponda los informes necesarios, tanto jurídicos como económicos, que avalen la viabilidad del proyecto, su conformidad con la normativa aplicable, cuidando de que se fije el importe del gasto comprometido y se asegure de que el mismo va a ser fiscalizado. Solo entonces cuando se dispone de la información necesaria y no antes, es decir, cuando se cumple la legalidad, es cuando la decisión política ha de tomarse.

Constituye fácil recurso escudarse en los técnicos y subordinados para atribuir a éstos el error en las decisiones. Sin embargo, estas han de ser no solo voluntarias sino informadas y ajustadas a la legalidad, más aún cuando tienen por objeto el compromiso de fondos públicos y para su gestión se acude a la utilización de instrumentos, que si bien pueden ser útiles en casos muy concretos, como son los convenios de colaboración (imaginemos un convenio de colaboración entre el GovernBalear y la Universidad de las Illes Balears para impartir un curso de derecho Civil foral, que aparece justificado que para su realización no resulte necesario un concurso público), en muchas ocasiones se abusa de ellos para eludir las normas de contratación públicas permitiendo que los conciertos que haga la administración a través de estos entes instrumentales se verifiquen sin trasparencia, objetividad y favoreciendo a un determinado beneficiario concreto con exclusión de otro u otros.

Ocurre, además, que como ya hemos dicho al hablar de los convenios de colaboración, en muchos casos y en la medida en que la colaboración que ofrece la administración se limita a una determinada prestación económica, en verdad a través de tales convenios se encubren además de auténticos contratos públicos, que habrían exigido el respecto a los principios de concurrencia y publicidad, en realidad subvenciones públicas. Y en el ámbito de las subvenciones, también y por imperativo legal, rige la exigencia de concurrencia en la elección del beneficiario de la subvención, a menos que sea directa y para que lo sea es imprescindible que la elección nominativa del beneficiario venga establecida por Ley de la Comunidad Autónoma o aprobada en sus Presupuestos Generales, fórmula que garantiza publicidad, ya que la aprobación de

tales subvenciones ha de autorizarse en los correspondientes Parlamentos autonómicos o en las Cortes, si se trata de subvenciones estatales.

Se presenta sorprendente que el recurrente alegue que actuó guiado en la creencia de que el Gerente de Illesport le alertaría sobre la ilegalidad de la contratación, pues éste argumenta que lo único que hizo fue cumplir las instrucciones de sus superiores, lo que se comprende, aunque no justifica su proceder, si se tiene en cuenta que su cargo era de designación política. No parece creíble que en ese contexto el Sr. Matas pensase que sus decisiones iban a ser cuestionadas por subordinados suyos y menos aún si estos no eran funcionarios de carrera, sino que prestaban servicios para una fundación de interés público.

Con todo, fue el Sr. Matas quien al tomar personalmente la decisión de la concertación y en las condiciones de presumible ilegalidad en que esta se verificó, que debía o pudo conocer y si no lo hizo fue por deliberada ignorancia – no le importó o no le interesó, en tanto en cuanto los fondos dispuestos no eran suyos sino de sus administrados-, generó un elevado riesgo de defraudar a la administración y puso en claro peligro la malversación de fondos públicos, tal y como al parecer pudo haber ocurrido y en este sentido han sido reveladoras los informes de la Inspección de tributos y manifestaciones por escrito que verificó el imputado Marcos Tejeiro, una vez concluida la instrucción referidas a los sobrecostes de los eventos.

Consciente la defensa del recurrente de que la gravedad de las imputaciones que el auto apelado vierte sobre su defendido –conocedor de que la prevaricación administrativa se halla penalizada únicamente con pena de inhabilitación y no con pena de privativa de libertad, resultando intrascendente ya la primera, puesto que su representado no ostenta en la actualidad cargo público ninguno-, se ciernen sobre los delitos de fraude a la administración, tráfico de influencias y especialmente malversación de caudales públicos, al respecto alega que este último ilícito no pudo en modo alguno haberse cometido, en la medida en que los eventos se han realizado con éxito y producido efectos beneficiosos para el interés público.

Es verdad que los eventos se organizaron pero las irregularidades habidas en la determinación de su coste y justificación del gasto y que en tales circunstancias tuviera lugar la celebración de un segundo evento, sugiere que el recurrente, por ser el que propició la ilegal contratación, al haberse plegado a la influencia ejercida sobre él por el Instituto Noos y en concreto por su Presidente el Sr. Urdangarín, al no haber dado instrucciones precisas para que la contratación se verificase escrupulosamente conforme a los procedimientos establecidos, justificando la exclusión de la concurrencia y valorando la prestación de la administración conforme a valores de mercado y no a los que fijase unilateralmente el beneficiario de la contratación, concede verosimilitud a la posibilidad de que el Presidente del Govern y de la Fundación Illesport, al dar el visto bueno a dicha concertación y en las condiciones de ilegalidad en que se verificó al excluir la concurrencia competitiva y la publicidad en la elección del beneficiario, al no haberse fijado el precio conforme a criterios objetivos, sino que éste, según parece, lo habría establecido la entidad contratada, al producirse descontrol en el gasto y suscripción de un nuevo convenio sin valorar la repercusión económica y coste del anterior y su justificación, con su injusta decisión de llevar a cabo dicho contrato en tales condiciones, pudo causar fraude a la administración y propiciar en beneficio del Instituto Noos la defraudación de fondos públicos, siendo la causa de esta concertación el tráfico de influencias y no el interés público, pues para la satisfacción del interés general no habría sido necesario realizar tales eventos, o aunque fuera interesante, en modo alguno lo era en atención al coste que suponía dicha concertación que, insistimos,

por la forma en que se hizo, sobre todo, en cuanto a la determinación del precio, sugiere la hipótesis que éste se dio a fondo perdido, como mero donativo o subvención.

Llama a este respecto la atención que por parte de algunas de las defensas y con relación a este extremo, se insiste en que el delito de malversación no se pudo cometer por cuanto no había obligación de justificar el precio o canon establecido para la organización del evento, dado que estas sumas se dieron en concepto de pago de honorarios o de patrocinio, sin que por ello exigieran justificación ninguna, alegación exculpatoria que en verdad incide en la idea de que aunque el objeto del contrato consistiera en una obligación de hacer - la organización de un evento promocional -, al haberse limitado la colaboración de las entidades instrumentales únicamente al pago de la prestación establecida por Noos, sin otra colaboración, esta no deja en realidad de encubrir una verdadera subvención ilegal, en tanto en cuanto en el fondo dicha subvención era nominativa, aunque este extremo se suplió utilizando el mecanismo de que la subvención se efectuaba de la administración de la que dependía la fundación o sociedad pública y de aquella iba a parar al particular.

En verdad que a cualquier espectador ajeno debería sonrojar el abuso de este tipo de entes administrativos y de los convenios de colaboración para el derroche y fácil dispendio de fondos públicos sin control, ni contable ni jurídico, siquiera imprudente (antiguamente estaba penado), cuestión que debería de llevar a reflexionar al legislador sobre la conveniencia de volver a incluir en el Código Penal la figura de la malversación por imprudencia grave, reflexión que no tiene otro alcance que el de ser una opinión obiter dicta, aunque intrascendente para lo que viene al caso, pero que no queremos dejar de apuntar si en verdad lo que se quiere conseguir por nuestros responsables políticos es atajar la corrupción e introducir criterios de trasparencia y control en el manejo de fondos públicos.

La impugnación formulada por la defensa de Jaume Matas, por tanto, ha de perecer.

SÉPTIMO.- En el ámbito de la contratación del evento Valencia Summit suscrito en fecha 8 de noviembre de 2004 por CACSA, la FTVCB y el Instituto Noos y sus adendas de 3 de octubre de 2005 y de 8 de mayo de 2006, el Juez a quo atribuye indicios de conducta delictiva en los Directores Generales de CACSA los Sres. Aguilar Colás y Jorge Vela Bargues, que fueron quienes respectivamente suscribieron el primer convenio de colaboración y la adenda de los otros dos. Asimismo atribuye posible participación en estos hechos al Sr. Lobón, secretario de eventos de la Generalitat, que sería la persona que abría ordenado llevar a cabo la concertación de CACSA con Noos y a su vez trasladado al Presidente de la FTVCB la necesidad y conveniencia de implicarse en el proyecto para compartir los gastos de la concertación.

Ninguna responsabilidad en cambio atribuye el Juez a quo al Presidente de la FTVCB ni a su Director, por considerar que podía resultar dudoso el sometimiento de la Fundación a las reglas de contratación pública y porque el Patronato de dicha Fundación no habría participado en las negociaciones para la formalización del convenio sino que este habría corrido a cargo de CACSA, por lo que los responsables de la Fundación podían actuar en la creencia de que CACSA había cumplido con las normas de procedimiento exigibles.

Al respecto de esta contratación procedemos al estudio de los siguientes recursos:

.- *Recurso de José Miguel Aguilar Colás (recurso II)*

El recurrente era en la fecha en que se suscribió el primer convenio de colaboración entre CACSA, FTVCB y NOOS, director general de CACSA.

Alega su defensa la falta de motivación del auto apelado ya que orilla entrar a analizar cuestiones jurídicas determinantes de la atipicidad de la conducta que en el auto se atribuye a su representado.

El recurrente cita una serie de precedentes respecto del deber de motivación de las resoluciones judiciales, sin embargo no puede esgrimir la infracción del derecho a la tutela judicial efectiva para pretender el sobreseimiento, máxime cuando existen indicios de conducta criminal en su representado por ser quien intervino en esta presunta ilegal contratación y en una reunión previa con el Secretario de Eventos de la Generalitat en la que participó, también, el Sr. Torres, que fue en la que se convino la concertación remitiendo la elaboración posterior del convenio al Gerente de CACSA y al Vicedirector de la Fundación Valencia Turismo Convention Bureau, el cual actuó siguiendo las instrucciones del Presidente de la misma y de su Director.

La consecuencia de la falta de motivación alegada sería la nulidad de la resolución para que se dictase otra dando respuesta a la incongruencia que se denuncia cometida, pero nunca para postular el sobreseimiento. Estos argumentos son suficientes para desestimar la invocada falta de motivación.

El recurrente incide en que ha de examinarse la legalidad del convenio de colaboración en el contexto en que éste se suscribe. Que es el aprovechar el tirón que representaba para la ciudad de Valencia haber sido designada sede para la celebración de la 32 edición de la copa América de vela a celebrar en el 2007 y por eso para promocionar la imagen de la ciudad se decide organizar el Valencia Summit: simposio internacional sobre deporte y ciudad.

No negamos que fuera interesante la celebración del Valencia Summit a efectos promocionales. Pero no olvidemos que lo que es objeto de discusión en esta causa son las razones que efectivamente llevaron a concertar dicho evento– si en verdad fue por interés público o se debió a la influencia que el Sr. Urdangarín ejerció sobre responsables políticos de la Comunidad Autónoma y el Ayuntamiento de Valencia para que le fuera concedida esta concertación-, así como el por qué esta contratación se verificó al margen de los procedimientos ordinarios de formación de la voluntad administrativa y, sobre todo, la razón por la cual la celebración de tales eventos se concedió a una entidad concreta y no se verificó antes un concurso público de ideas. Es importante resaltar que la idea de la celebración del evento, y su contratación, al parecer no surge de la administración contratante sino que nace del Sr. Urdangarín y de su socio el Sr. Torres los cuales se reúnen con la Alcaldesa de Valencia y con el Secretario de eventos de la Generalitat. El mismo recurrente así lo admite en su recurso.

Parece lógico que si hubiera existido un verdadero interés público en la celebración del evento Valencia Summit, la idea habría partido de la propia administración. Aquí no fue el caso. La idea promocional partió de Noos, y CACSA y FTVCB la asumieron al margen de cualquier publicidad, concurrencia y no discriminación.

Cuestiona el recurrente que la entidad CACSA tuviera que someterse a la normas de la contratación. Desde el punto de vista subjetivo no hay discusión que CACSA se trata de una sociedad mercantil de la Comunidad Valenciana participada con capital 100% público. Y en aplicación de lo dispuesto en el artículo 2.1 y disposición adicional 6ª de la LCS vigente en la fecha de los hechos, CACSA venía obligada a respetar en la contratación la normativa de la Ley reguladora de contratos. En este sentido se pronunció la Sindicatura de Comptes en su informe de gestión de los ejercicios 2004,

2005 y 2006, por mucho que se trate de una entidad pública regida por el Derecho privado. Esto ni siquiera lo cuestionan otras defensas. Y el propio Presidente del Consejo de Administración de CACSA afirmó que la entidad estaba obligada a cumplir la normativa de los contratos públicos, pero excusándose dijo que él no era el responsable de verificar que así fuera, delegando toda responsabilidad en el Director General de CACSA. Precisamente en el ahora recurrente, en cuya defensa esgrime que se limitó a cumplir las ordenes dadas por el Consejo de Administración y a ejecutarlas. Por tanto, según él mismo admite, tuvo en todo momento el condominio de la aparente ilegal contratación y en consecuencia pudo haberla impedido o, puesto reparos. Nada de eso hizo.

Obra también informe de la Intervención General del Estado suscrito en fecha 8 de mayo de 2014, por dos funcionarios que apoyan las conclusiones del Informe de Fiscalización de la Sindicatura, en punto a que tanto CACSA como la Fundación TVCB se hallaban sujetas a la normativa de la Ley de Contratos y que el convenio Valencia Summit, por su objeto, al consistir éste en la prestación de un servicio de asistencia técnica se hallaba recogido expresamente dentro de los contratos administrativos, refiriéndose en su informe expresamente a lo dispuesto en el artículo 196 de la entonces vigente Ley de Contratos del Sector Público, en el que se definían como contratos de asistencia técnica aquellos que tenían por objeto “estudiar, elaborar informes, estudios, proyectos de carácter técnico, organizativo, económico…”, definición que encajaría en el Anexo II de la Directiva 2004/18 de la CE, en el que se incluye como contratos de servicios los de “esparcimiento, culturales y deportivos”.

Estos funcionarios recalcaron que durante todos sus años de dilatada experiencia profesional jamás habían visto que la Administración Central del Estado o sus organismos o entidades públicas pertenecientes a dicha administración concertasen un contrato de patrocinio deportivo. Indicaron que lo que sí es habitual es que la actividad patrocinadora sea realizada por los particulares y que el patrocinado pueda ser la administración, pero no al revés. En el caso del convenio Valencia Summit les llamó poderosamente la atención que aunque Noos afirmaba encargarse de la organización de los eventos, los gastos por espacios, servicios de catering, viajes y alojamientos corrían a cargo de las entidades patrocinadoras y no el patrocinado, que ya había cobrado un canon, denominación que tampoco habían visto nunca jamás antes como pago a unos servicios de asistencia técnica. Insistieron en que se trató de un contrato bajo la fórmula de convenio y que por tal motivo, según su opinión fundada, infringía la Ley de contratos del sector público, conclusión esta que asumía también la Sindicatura de Cuentas en sus informes de gestión de las anualidades antes citadas concurrentes con la celebración de los eventos Valencia Summit.

La exclusión de los contratos de colaboración fuera del ámbito de la normativa reguladora, según tuvimos ocasión de comentar supra, es excepcional y restrictivo – las defensas quieren dar a entender que es general –, y en tal sentido y dado que a las entidades instrumentales le son de aplicación las normas de la ley de contratos, era obligado que antes de contratar se emitieran los informes jurídicos y económicos pertinentes dirigidos tanto a acreditar el interés público en llevar a cabo la contratación, esto es su conveniencia, oportunidad y necesidad, como la legalidad del modelo elegido, la exclusión de la aplicación de las reglas de la concurrencia y, sobre todo, la justificación del por qué y por exigencia del principio de no discriminación y de igualdad el beneficiario del convenio iba a ser el Instituto Noos y no otro beneficiario. Además de eso se requería la justificación del gasto y aplicación del dinero público recibido a la celebración de los eventos. La exigencia de transparencia pública era mayor si cabe atendida la personalidad que se hallaba a cargo de la gestión de los intereses de NOOS

y por formar parte del su órgano de dirección miembros de la entonces Casa Real.

Omite en su recurso esta defensa toda referencia a la propia normativa autonómica representada por el Decreto 20/1993 de 8 de febrero, por el que se aprueba el Registro de Convenios y se establece su régimen jurídico-presupuestario que – aunque muy laxa sobre todo en el tema subvencional -, establece con relación a los convenios de colaboración y cuando en ellos interviene la Generalitat Valenciana o una sociedad de su propiedad, una serie de controles respecto de la exigencia de informes jurídicos – que no de gestión o de imagen para justificar el objeto del contrato -, que no se cumplieron en este caso. Entre estos informes, y cuando se trata de empresas públicas de la Generalitat, era necesaria que se justificase por el Consell de Gobierno la conveniencia y oportunidad de celebrar este convenio y siendo el beneficiario una persona jurídica privada era necesario justificar las motivaciones por las que en atención a los sujetos, objeto negocial o causa, no eran susceptibles de sujetarse a las norma sobre contratación administrativa (art. 2.2). Además eran precisos dos informes (art. 6): uno por parte del Secretario General o del órgano asimilado de la entidad, con el objeto, entre otros, de adecuar el contenido del contrato al gasto previsto, así como sobre los aspectos jurídicos del convenio y cumplimiento de los trámites de carácter preceptivo; y otro por la Intervención delegada correspondiente sobre la existencia de crédito. La exigencia de ambos informes era preciso para cualquier otra modificación y por tanto para la suscripción de las adendas (apartado 2 del artículo 6). Ninguno de estos informes se emitió, al menos antes de la firma de contrato, pues el informe de gestión que se elaboróen el año 2004 se verificó con ocasión de la segunda edición del Valencia Summit y en el mismo, si bien se pretende justificar la firma del convenio en la promoción de la Ciudad de Valencia, en coincidencia y en la línea de las actividades que desarrolla el Instituto Noos, el cual habría sido quien habría diseñado el proyecto Valencia Summit, dicho informe omite toda consideración al respecto de la legalidad de la fórmula elegida por la contratación, cuál era la colaboración que iba a desplegar CACSA distinta del pago de un canon y las razones jurídicas que justifican la adjudicación directadel convenio a Noos, en detrimento de otras entidades, así como tampoco se emitió informe económico en relación al coste de los eventos, el motivo por el cual se fijó un precio alzado o canon sin incluir el detalle de la aplicación económica y la adecuación del precio acordado para cumplir la finalidad prevista, lo cual precisaba de una valoración económica del coste de la organización.

Con todo, conviene recordar que la propia Sindicatura de Comptes al fiscalizar la actividad de la entidad CACSA señaló al realizar el informe de fiscalización del año 2006 y con mención expresa del convenio Valencia Summit, reiterando lo dicho en informes precedentes… "se considera necesario que en el expediente quedase acreditado suficientemente la necesidad del gasto – concebido como canon y por tanto como cantidad alzada -, así como las razones que motivan esta colaboración y que excepcionan la aplicación de los principios de publicidad y de concurrencia. No se elaboró informe alguno a este respecto y el que emite la sociedad, según la Sindicatura, era de fecha 20 de abril de 2007, lo que ahonda en que el informe de gestión que lleva fecha de 2004, no se confeccionó entonces, sino con ocasión de la adenda del convenio de 2005, el cual no debía de constar unido al expediente, ya que la Sindicatura no aludió a que existiera y sí en cambio hizo referencia al elaborado en abril de 2007.

Orilla la defensa también y en relación a su representado que fue él quien presuntamente y siguiendo instrucciones del Secretario de Eventos (Sr. Lobón), dio órdenes concretas a la que entonces se hallaba al frente de la asesoría jurídica de CACSA (M. Ángeles MallentAñon), para volcar en el ordenador y pasar a formato oficial el borrador de contrato que había facilitado la entidad NOOS. Según la declaración

prestada por esta asesora las condiciones económicas del contrato ya venían dadas y si bien se hicieron algunas precisiones a solicitud del Sr. Aguilar estas tenían por objeto recalcar e incidir en el carácter promocional y de patrocinio de la concertación (tanta preocupación por ese extremo concreto y no por otros, como el de la determinación del precio, predispone sumariamente en contra de la legalidad de la contratación). La Sra. Mallent reconoció que no hubo informe jurídico previo y en un momento dado vino a admitir que daba la impresión que el informe de gestión de 2004 se hizo en el 2005 "para vestir el santo" y dar apariencia de legalidad.

Tales incidencias parecen sugerir la preocupación por eludir las normas de contratación y los presupuestos de publicidad y concurrencia. Todo esto sin antes solicitarse los informes necesarios a fin de justificar el interés público, conveniencia y necesidad de que el evento se celebrase, la forma jurídica de cómo se tenía que materializar, si era preciso o no un concurso de ideas, las razones por las que no era necesario observar los principios de concurrencia, qué criterios se siguieron para la determinación de la aportación que realizaba CACSA y, sobre todo y muy especialmente, por qué razón o motivo el convenio debía de firmarse con NOOS y no con otra entidad distinta. A parte de esto, no se realizó un estudio del conste económico (basta examinar la declaración del Director de la Fundación TVCB que dijo que el precio eran honorarios estimados y que a los patronos le sonaron correctos).

Llama la atención que la misma asesora jurídica dijera que CACSA no estaba obligada a verificar la legalidad de la contratación, ya que por ser una entidad sujeta al derecho privado no estaba sometida a la Ley de contratos, afirmación que abunda en que dentro de CACSA, posiblemente, se despreciaban de modo consciente y con absoluta ligereza el cumplimiento de las formalidades legales, tal que así, dicho incumplimiento hubo de ser censurado desde la propia Sindicatura de Cuentas y no fue aparentemente observado hasta abril de 2007, una vez ya celebradas las tres ediciones del Valencia Summit.

La defensa insiste también en que el contrato de colaboración se trataba de un contrato de patrocinio (Ley 34/98, General de Publicidad) no sometido a las normas de contratación.

Los mismos argumentos que esgrime esta defensa y la cita de la norma que regula el patrocinio deja claro que no estamos ante un patrocinio deportivo, por cuanto la entidad NOOS recibió un canon anual no para promocionar la imagen de las entidades colaboradoras y en el contexto de un evento determinado, sino para la realización misma de dicho evento y en consecuencia para la prestación de un servicio, conclusión que viene avalada por la Intervención General del Estado en sus varios informes y declaración a judicial presencia de sus autores. Con todo, la justificación de que no eran aplicables las normas de contratación pública por tratarse de un contrato de patrocinio regulado por la ley General de Publicidad, exigía que constase en los informes jurídicos y estos no se hicieron, al menos antes del contrato y no a posteriori para justificar una contratación convencional sobre la que existen indicios de criminalidad y de participación del recurrente, tanto en las negociaciones previas dirigidas a apoyar un convenio, que ya contaba con las bendiciones de la Generalitat y el Ayuntamiento de Valencia, como por haber sido él como Director General de CACSA quien lo suscribió.

Se queja finalmente el apelante de que el Juez no hubiera atendido sus argumentos para acordar el sobreseimiento, ya que en idéntica situación a la suya se hallaría el coimputado Alfonso Grau, Presidente de FTVCB y en cuanto a este si se ha dispuesto el sobreseimiento de las actuaciones.

A esta cuestión nos referiremos al tratar el recurso formulado por los Concejales del Partido Socialista en el Ayuntamiento de Valencia y por el Sindicato Manos Limpias, en solicitud de que se deje sin efecto el citado sobreseimiento respecto del Teniente de Alcalde del Ayuntamiento de Valencia Sr. Grau.

- *Recurso de José Vela Bargues (recurso III).*

Según razona la defensa de este imputado, resulta de todo punto imposible que su representado pudieran haber cometido delito de prevaricación con cita en la sentencia del Tribunal Supremo sobre el caso denominado BITEL.

De acuerdo con dicha sentencia, si bien una entidad pública sujeta al Derecho privado debe cumplir las normas de contratación pública regidas por los principios de publicidad y concurrencia y es funcionario quien ejerce funciones directivas y son públicos sus fondos, sin embargo considera que al no ser administración, las contrataciones que llevan a cabo estas entidades no pueden ser consideradas asunto administrativo a los efectos de cometer el delito de prevaricación. STS 974/2014, de 28 de febrero.

De acuerdo con el planteamiento de su defensa, el Sr. Vela era Director general de CACSA, su cualidad era la de mero apoderado y no administrador de hecho o consejero delegado. CACSA se configura como una empresa de la Generalitat de Valencia (Decreto legislativo de 26 de junio de 1991). Adopta la forma mercantil de una sociedad.

De acuerdo con los Estatutos de la entidad CACSA el Director General puede asistir a las sesiones del Consejo y tiene voz pero no voto.

Es el consejo de administración el que asume la representación y administración de la sociedad y puede designar un Director General, y le asigna sus funciones por apoderamiento, atribuyéndole el ejercicio permanente y efectivo de aquellas facultades que tenga por convenientes, todo dentro de los limites y directrices señalados por el Consejo – art 10 a 15-.

La Generalitat es el socio único de CACSA, regida por el Consejo de Administración, que es en quien recaen las facultades y competencias administrativas y de representación (que puede asistirse de un órgano consultivo: la comisión consultiva). El Director General es un simple apoderado sin facultades de administración y gestión autónomas y actúa por delegación del Consejo. El Presidente del Consejo era el Sr. Gerardo Camps.

Y era al Presidente del Consejo de administración, que lo será de la sociedad, a quien le correspondía el nombramiento y separación del Director General.

El socio único de CACSA –GENERALITAT– aprobó un plan de acción de la Generalitat para la AMERICA´S CUP en virtud de acuerdo del Consell de 30 de mayo de 2005 – folios 27848 a 27904 – resultando que el primer convenio firmado por el apelante lo fue en fecha 3 de octubre de 2005.

El recurrente, con consentimiento y conocimiento del Consell de la Generalitat, a través de Conselleria de Economía (siendo Gerardo CampsDevesaConseller y Presidente Ejecutivo de CACASA) se limitó a ejecutar el acuerdo del Consell como socio único de CACSA.

Fue por tanto suscrito el convenio como apoderado voluntario de la sociedad. Y por tanto como medio mandatario.

Había un plan de acción de la Generalitat, dentro de la Conselleria correspondiente y la Conselleria de Economía y Hacienda debía de dar el aporte económico.

A Jorge Vela le fue trasmitida la orden precisa dentro del Plan de Acción – en el que estaba incluido el Valencia Summit – de firmar las adendas a través de la Secretaría Autonómica de Eventos y Proyectos (SAEP), dependiente de la Conselleria de Economía y Hacienda, cuyo titular Gerardo Camps, era a su vez Presidente del Consejo de Administración de CACSA., representante de la Generalitat y en calidad de Vicepresidente en el CONSORCIO VALENCIA 2007, COPA AMÉRICA (según Acuerdo de 9 de enero de 2004, delConsell, folio 24895 a 24936).

La actuación de Jorge Vela se encuadra en un apoderamiento voluntario y no basado en representación orgánico, insiste la parte apelante.

La firma en el convenio que suscribió se trató de una adenda, de un convenio ya decidido (declaración de Emilio Pérez folio 269995). Había que cumplir el Plan de acción. En el primer convenio de 8 de septiembre de 2004, ya se expresa que ha sido diseñado para su celebración anual entre 2004 y 2007.

El acusado firma el convenio de 8 de octubre de 2005, que es una adenda. Se trata de un mero apéndice de un añadido o de un anexo.

Vela se limitó a ejecutar un mandato cierto. Para no firmar la adenda debería de haber recibido una orden en tal sentido por su mandante.

Finalmente alega que la presunta falsedad que se le atribuye por vía de inducción al haber encargado a la Sra.Maldonado (Directora de Gestión de CACSA, un informe en el 2005, para justificar el evento del 2004) sería inocua e intrascendente, por cuanto aunque el documento fuera pos-datado la falsedad deviene atípica por no lesionar el bien jurídico de la seguridad del tráfico, ya que dicho informe no era necesario.

El recurso no puede ser acogido:

En punto al delito de prevaricación administrativa. Cierto es que las sociedades instrumentales de carácter público sujetas al derecho privado no son administración, pero en materia contractual se hallan sometidas a las normas de la contratación administrativa y por tanto a los principios que las rigen, además, los fondos que reciben y administran son públicos con lo que difícilmente se puede afirmar que la contratación no es asunto administrativo. De facto la normativa de contratos - tanto la anterior como la vigente - a las entidades instrumentales de carácter público y sujetas al Derecho Privado las consideraba administración a los efectos del sometimiento a las normas de contratación pública. La sentencia citada no la compartimos. Es la única que conocemos sobre el particular – de modo que no sienta precedente - y nos parece contradictoria. Esperamos que el Tribunal Supremo revise su criterio y una oportunidad para hacerlo podría ser la sentencia que se dicte en el caso presente.

Debe tenerse en cuenta, por otra parte, que en ámbito de la Comunidad Valenciana resulta de aplicación lo dispuesto el Decreto 20/93, tantas veces citado sobre Registro de Convenios. En dicho decreto se exigen determinados requisitos e informes previos a la hora de suscribir convenios de colaboración entre el Gobierno Valenciano y sus entidades públicas con particulares, de lo que se colige que en el ámbito de la Comunidad Valenciana estos convenios eran y son considerados por su normativa reguladora asunto administrativo y concernientes a las administraciones vinculadas a las sociedades y entidades públicas de la Generalitat.

En cuanto a que el recurrente era apoderado sin facultades de gestión, no lo negamos, pero lo cierto es que el recurrente a raíz de la participación que presuntamente se le atribuye al firmar las adendas de los contratos de Valencia Summit para las anualidades de los años 2005 y 2006, pudo haber participado en la actividad ilícita que en dicha contratación le atribuye el Juez a quo, por cuanto seguramente conocedor de las conclusiones de la Sindicatura de Cuentas referidas a los ejercicios de los años 2004 y 2005, o alertado por otra vía de la irregularidad de la contratación de CACSA con Noos, dio orden a la Directora de Gestión de CACSA en su condición de asesora jurídica de la entidad para que elaborase un informe de gestión (que no de contenido jurídico) en 2005 aparentando que había sido realizado el año anterior – de ahí que esté manipulada la fecha -, para justificar la suscripción de dicho convenio; y no compartimos que la falsedad resulte, en principio y sin perjuicio de lo que definitivamente se pueda decidir en el acto del juicio oral, inocua e intrascendente, por cuanto para suscribir dicho contrato y evitar que su celebración comportarse el principio de no discriminación y concurrencia, era preciso elaborar los correspondientes informes, tanto relativos al interés público de la contratación, como a las razones jurídicas que justificaban que se eludiese la contratación pública concurrente, así como los motivos por los que el único beneficiario del contrato tenía que ser necesariamente el instituto Noos, dato importantísimo si tenemos en cuenta que la determinación del canon o precio del contrato –que al parecer cubría honorarios profesionales de los promotores del evento, dado que los gastos iban a parte-, vino impuesto desde el propio Instituto, ya que en otro caso se hubieran emitido los informes de Intervención que exigía el Decreto 20/93.

El recurrente, presuntamente y al margen de si tenía o no poderes, con su participación a posteriori al suscribir en representación de CACSA las adendas al convenio de 2005 y 2006, se sumó en calidad de autor adhesivo al presunto fraude a la administración, y a la prevaricación continuada, y dio orden para falsear la realidad del expediente para aparentar la legalidad de una contratación, sobre la que existen fundadas sospechas de ilegalidad, dado que atendido al absoluto desprecio a las normas de procedimiento al atribuir la celebración del Valencia Summit a la entidad Noos, de manera directa y sin concurso público o sin justificar suficientemente las razones por las que este se eludía y cómo y por qué se establecía el pago de un canon o precio por la organización de los eventos que se fijó sin previa valoración económica, lo que abona la posibilidad de que fuera fijado unilateralmente por NOOS. Esta forma de proceder, junto a otros datos, como son: la existencia de contactos previos entre el Sr. Urdangarín y los responsables políticos de las administraciones vinculadas a los entes públicos contratantes y el descontrol del gasto comprometido, dando así por sentado que el canon era una cantidad dada sin necesidad de ser justificada y entregada a fondo perdido, lo que no puede ser aceptado tratándose de fondos públicos. La utilización para la concertación de la fórmula del convenio de colaboración y el que se acudiera a entidades instrumentales de las administraciones a ellas vinculadas, lo que permitía eludir los controles administrativos de intervención previa del gasto y jurídicos respecto a una motivación objetiva de la necesidad de la contratación y su legalidad teniendo en cuenta lo anómalo e inusitado que a simple vista resulta que una administración concierte un contrato de patrocinio con un particular, ya sea persona física o jurídica. Todas estas circunstancias avalan la posibilidad de que la organización del evento Valencia Summit y su concesión directa a la entidad Noos se debiese a que se pretendió otorgar un trato de favor a la misma, por ser su Presidente el yerno de su Majestad el Rey y dar la impresión de que contaba con el apoyo de la Casa Real. Tal vez por eso la propia Alcaldesa de Valencia impulsó la contratación derivando esta al seno de la Fundación TVCB y a la entidad CACSA, de ahí los contactos previos y personales que mantuvo los Sres. Urdangarín y Torres con la Sra. Barberá –propiciados al parecer por

el fallecido Sr. Samaranch le habría recomendado a NOOS – y con el mismísimo Presidente de la Generalitat, encuentros que admite y reconoce el propio TSJV en el auto que denegó la imputación de ambos aforados.

Como hemos comentado más arriba, la citada contratación y el concierto existente para su materialización al haberse establecido el aporte de fondos públicos atendiendo a criterios subjetivos y no de mercado y sin que se controlase el destino de los fondos aportados y su aplicación efectiva a la organización de los eventos, entre otras cosas porque el precio se fijó en concepto de "canon" y posiblemente sin que hubiera de ser justificado, lo que resulta de todo punto inaceptable y contrario a la legalidad tratándose de la disposición de fondos públicos (a no ser que estuviéramos ante una subvención que, por ser directa a través de un convenio, también habría sido irregular), pudo generar un riesgo elevado y probable de malversación, y de facto parece que así fue, por cuanto según la fiscalización realizada por la Agencia Tributaria después de examinar la facturación aportada, revela que el coste de los eventos pudo ser muy inferior al real y en este extremo redundan las manifestaciones efectuadas por Marcos Tejeiro al respecto y reconociendo el referido sobrecoste en un escrito presentado dictado ya el auto transformador.

En punto a la justificación de los gastos del evento la defensa insiste en que no existe el descuadre o posible malversación que se atribuye, ya que el concepto de canon no exigía justificación. En cualquier caso el citado canon se estableció sin criterio económico ni jurídico alguno y fue simplemente, al parecer, la exigencia de los responsables de Noos que trasladaron a los políticos y sus subordinados y estos lo aceptaron. No debía ser un concepto muy trasparente desde el momento en que utilizaron la expresión canon, absolutamente inexistente en el ámbito de la contratación, salvo cuando se trata de concesiones públicas y que nunca se supo a que obedecía, hasta que ahora esta defensa apunta a que se trató del pago de patrocinio por publicidad, alegación que se descalifica por sí sola dado que el pago de 1.000.000 de euros en tal concepto por la celebración de un congreso de dos días de duración con el objeto de promocionar la ciudad de Valencia, sino comprende el coste de la organización,aparece a simple vista de todo punto elevado.

Cierto es que obra en las actuaciones el Auto de fecha 21 de abril de 2010 del Tribunal de Cuentas, que acuerda el archivo de las actuaciones por presuntas irregularidades contables denunciadas por la Sindicatura de Cuentas en su informe de fiscalización del ejercicio de 2007, referidas al Grupo de las Artes y las Ciencias, pero la decisión jurisdiccional contable de dicho Tribunal se contrajo o limitó a cuestiones que nada tienen que ver con las que son objeto de revisión en esta alzada, ya que las irregularidades observadas por la Sindicatura y sobre las que el Ministerio Fiscal solicitó la incoación de expediente de enjuiciamiento a cargo del TC y luego se mostró a favor de su archivo, se referían a la adenda de 26 de septiembre de 2007, por la que se aplicó la revisión de precios a todas las certificaciones emitidas con posterioridad a dicha fecha y porque en el 2008 quedaba pendiente de prestarse el servicio a la Sra. Martín i Soler, una de las afectadas por las inundaciones del Palacio de las Artes. Nada que ver, por tanto, el contenido de esta resolución con lo que aquí estamos tratando.

.- *Recurso de Elisa Maldonado (Recurso IV)*.

Se señala por la Directora de Gestión de CACSA que los convenios de colaboración no eran contratos administrativos y como tales no estaban sujetos a los requisitos de la contratación administrativa. Además, ella no tenía la condición de funcionaria pública. En cuanto al delito de falsedad que se la atribuye, sostiene que la misma sería

intrascendente e inocua y atípica. Ambos informes: uno el de 2004 se confecciona en el 2005 y se altera la fecha para dar la apariencia de que había sido elaborado en 2005 y, el segundo, aunque se elabora en el año 2007, tiene por objeto justificar a posteriori el convenio de 2006.

Es verdad que son adendas pero con su actuación se suma y coopera a la presunta prevaricación y comete falsedad puesto que con la elaboración de tales informes se pretende dar apariencia de legalidad a la contratación y se quieren suplir la omisión y la observancia de trámites esenciales en aquella.

Si la elaboración del informe de 2005 se pide para justificar el convenio de 2004 ya celebrado, obvio resulta que necesariamente su contenido tenía que ser favorable a su antecedente celebración y si se trataba de una adenda no tenía sentido formular propuesta en sentido opuesto o formular reservas, a pesar de que la renovación de los convenios por afectar a cuestiones jurídicas y de compromiso del gasto precisaban de los informes preceptivos que imponía el Decreto 20/93.

Resulta llamativo que la Directora de gestión alegue el no sometimiento de los contratos de colaboración suscritos entre CACSA y NOOS a las normas de contratación administrativa, cuando el propio Presidente del Consejo de Administración, Gerardo Camps, no tuvo duda ninguna a la hora de declarar y afirmar que tales contratos debían de cumplir los requisito de procedimiento y que había que incoar un expediente. Lo curioso del caso es que se despachó diciendo que ese no era su cometido, sino del Director de CACSA, precisamente nombrado por el Consejo que él presidía.

Nuevamente nos remitimos a las consideraciones de la Sindicatura y de la Intervención General del Estado en cuanto al sometimiento de CACSA a la normativa de contratos públicos y a que el convenio de colaboración por contemplar y ser su objeto un servicio de asistencia técnica no podía adoptar tal forma si no la de contrato y en tal caso tenían que haberse concertado con respeto al principio de concurrencia competitiva.

Se sabe que el CP recoge en su artículo 24, un concepto amplio de funcionario público y en este encajaría la labor de la recurrente, en tanto asesora jurídica de una entidad propiedad de la Comunidad Autónoma, nombrada por los responsables de la misma para el cargo y cuyos fondos públicos que manejaba y disponía provienen de aquella.

Concurren pues indicios de criminalidad en la conducta de la recurrente como asesora jurídica de CACSA.

- Recurso de LUIS LOBÓN – Secretario de eventos.- (Recurso V)

Este recurrente se queja sobre la base de los mismos argumentos que esgrime la defensa del Sr. Aguilar – que ya hemos examinado y rechazado -, pero respecto a la justificación de los gastos insiste en que no existe el descuadre que indica el auto apelado, por cuanto el canon estipulado en el contrato y en las ulteriores adendas no era necesario justificar – reconoce pues que el convenio fue instrumento de una subvención. En tal caso su concesión debía sujetarse a los principios de concurrencia y de justificación del gasto y ninguna de ambas cosas se cumplió. La subvención directa solo es posible si viene establecida nominativamente por Ley del Parlament o en los Presupuestos Generales de la Comunidad Autónoma.

Se queja también de que no se hubiera sobreseído las actuaciones respecto de él ya que los argumentos tenidos en cuenta para el coimputado Don Alfonso Grau son los

mismos que deberían de motivar el sobreseimiento de las actuaciones en lo que a él se refiere– luego trataremos esta cuestión.

Conviene precisar que el recurrente fue la persona que en calidad de Secretario de Eventos de la Generalitat antes de la firma del convenio de Valencia Summit, se entrevista con Diego Torres y J.M Aguilar; en esa reunión se le traslada a éste que ha de colaborar en el proyecto. Dicha reunión vino precedida de otras anteriores entre Iñaki y Doña Rita Barbera, Alcaldesa de Valencia. La Sra. Barberá declaró que vio con buenos ojos la propuesta del Valencia Summit teniendo en cuenta la relevancia de la persona que le presentó el proyecto y que fue ella quien derivó al Sr. Urdaganrín a las instituciones que podía desarrollar dicho proyecto: FTVCB y CACSA.

Debe recordarse que la Sra. Barberá declaró que antes de recibir a los Sres. Urdangarín y Torres, su proyecto ya venía recomendado por el difunto Sr. Samarach (Presidente del COI durante muchos años), del cual recibió una llamada telefónica para felicitarla por la concesión de la 32 edición de la Copa América. La Sra. Barberá declaró que el Sr. Samarach le trasladó la opinión o el consejo de lo conveniente que podía ser para la ciudad de Valencia organizar algún tipo de evento deportivo para promocionar la ciudad y aprovechar la publicidad de la Copa América y que le habló de que el Sr. Urdangarín tenía una entidad que desarrollaba este tipo de proyectos. Es en esta conversación en la que la Sra. Barberá pide al Sr. Samarach que le trasmita a Urdangarín que le llame para concertar un encuentro.

Resulta ingenuo pensar que la Sra. Barberá en atención a la relevancia del Sr. Urdangarín se limitase a recomendarle que se dirigiera él a FTVCB y CACSA, sin concertar la cita o arreglar previamente el encuentro que luego se produjo entre el Secretario de Eventos Sr. Lobón y el Sr. Aguilar Colás, Director General de CACSA. De igual modo resultaría extraño que no hubiera tratado la cuestión con el Vicealcalde el Sr. Grau, en tanto en cuanto Presidente de la Fundación y concejal encargado del área de Turismo (el Sr. Grau y la Sra. Barberá admitieron haber tratado este asunto en sus múltiples y casi diarias reuniones y comentado que el proyecto “sonaba bien”).

Según reconoció el propio Lobón le pareció buena idea la organización del evento y de las condiciones del contrato se encargó el Sr. Aguilar. Fue éste quien firmó el contrato por CACSA, pero no hay duda que el Sr. Lobón, como interlocutor de la Generalitat, en tanto en cuanto los fondos públicos de los que se nutría CACSA venían de allí, hubo de conocer el contenido del Convenio y saber que el mismo se suscribía sin previos informes que justificasen su conveniencia y la legalidad de la contratación elegida, así como sin emisión de los informes previos a cargo de la Intervención. Todo ello teniendo en cuenta además que existía normativa específica que en materia de convenios de colaboración vinculaba a la Generalitat Valenciana como único socio de CACSA y que como Secretario de Eventos estaba obligado a conocer. Es Lobón, también, quien tras el encuentro con Urdangarín traslada al Sr. Grau la conveniencia de llevar a cabo la contratación y es éste quien comunica al Director de la Fundación que se iba a implicar en el proyecto.

Las irregularidades que han quedado expuestas sobre este convenio y sus adendas, que también fueron impulsadas por el recurrente, y el que se insista por los implicados en la contratación que ésta se vio con buenos ojos al ver que detrás de la propuesta estaba el yerno del Rey y el Instituto Noos, en el que estaba integrado su esposa y su Secretario personal, abunda en la idea de que este convenio pudo haberse suscrito en atención a la influencia ejercida por el Sr. Urdangarín, de ahí que la firma de este convenio se verificase sin cumplir las normas de procedimiento en cuanto a su

adjudicación y de control del gasto, lo cual vino favorecido por haber externalizado la contratación a través de entidades públicas sujetas al derecho privado, abusando de la fórmula del convenio de colaboración como patrocinio para encubrir un auténtico contrato de asistencia técnica y estableciendo como prestación a cargo de tales entidades el pago de un canon, asimilando el mismo a una entrega a fondo perdido y que no requería de justificación, aspecto éste que los funcionarios de la Intervención General del Estado consideraron inusitado e inaceptable cuando se trata de la gestión de fondos públicos, cualquiera que sea el organismo o entidad de los que provengan.

El Sr. Lobón como partícipe de las negociaciones previas al convenio de colaboración y a sus adendas tuvo el dominio y control, siquiera funcional, sobre la concertación, cuya suscripción provocaba un riesgo elevado de malversación y de fraude a la administración en atención a que se realizó sin observar las normas de procedimiento, ni de control del gasto. Tales patentes inobservancias pudieron deberse a una causa ilícita en la contratación, cual sería la influencia ejercida por Noos a través del Sr. Urdangarín y de éste sobre los responsables políticos a los que estaban vinculadas FTVCB y CACSA; nos referimos a su Alcaldesa y al entonces Presidente de la Comunidad Autónoma, ya que ambos decidieron que el proyecto se realizase a través de ambas entidades, las cuales por no estar integradas en las administraciones por ellos gobernadas favorecía que la contratación del Valencia Summit a Noos se verificaría ajena a los principios de publicidad y concurrencia que han de presidir toda contratación con fondos públicos o, al menos no se aseguraron de que ello no fuese así.

En su momento el Tribunal Superior de Justicia de la Comunidad Autónoma de Valencia estimó que si bien los antes aforados citados habían impulsado la contratación teniendo entrevistas privadas con el Sr. Urdangarín y Torres, incluso en el Palacio de la Zarzuela o con ocasión de algún otro encuentro oficial, no existían indicios de que hubieran participado directamente en la elaboración de las condiciones del contrato y en el control de su legalidad. Lo trascedente sin embargo, a nuestro entender, es que su visto bueno al proyecto fue traslado a los responsables de CACSA y Fundación TVCB, de modo que es factible que su opinión hubiera sido determinante en la contratación, pues de facto todos los implicados han mantenido que el motivo por el que se concertaron estos eventos con Noos y no con otra entidad era porque detrás del proyecto se encontraba el yerno del Rey, afirmación que convierte en plausible que dicha contratación se verificase con el objeto de conceder al Sr. Urdangarín y a su entidad un trato privilegiado o de favor, de ahí, todo el cúmulo de irregularidades a las que nos hemos referido y que se vierten en el auto recurrido.

- *Recursos de los Concejales del Ayuntamiento de Valencia y de Manos Limpias solicitando se deje sin efecto el sobreseimiento acordado respecto del Vicealcalde del Ayuntamiento de Valencia Don Alfonso Grau Alonso (Recurso VI y VII)*.

Ambas acusaciones pretenden que se mantengan las imputaciones contra el apelado Alfonso Grau Alonso – Teniente de Alcalde del Ayuntamiento, concejal del departamento de Turismo y Presidente de FTVB-.

La Alcaldesa de Valencia, Doña Rita Barberá, admitió que en uno de los múltiples despachos diarios que tiene con el Vicealcalde le comenta lo del proyecto y que ya le ha llegado lo de CACSA y que quedan en que hay que valorarlo.

Los recurrentes entienden que existen indicios de responsabilidad criminal en el ahora apelante, por cuanto en representación de la FTVCB fue quien impulsó la contratación y como Presidente del Patronato propuso colaborar en el proyecto Valencia Summit.

Discrepan del auto judicial por dos razones: la primera, porque la FTVCB, si bien desde el punto de vista de sus estatutos fundacionales era una Fundación de carácter privado, teniendo en cuenta que la gestión era Municipal, así como la representación del Patronato en su mayor parte era de responsables del Ayuntamiento con un total de 34%, y los fondos de la Fundación se nutrían del Ayuntamiento, se trataba de una Fundación de interés público y, por tanto, subjetivamente sujeta a la normativa de contratos. De otra parte, discrepan del auto judicial por cuanto de este se da a entender que la firma de los convenios le vino dada a la Fundación, ya que las negociaciones del convenio ya habían sido realizadas por parte de CACSA, por lo que es posible que los responsables de la fundación actuasen en la creencia de que CACSA había observado los procedimientos legales.

El recurso ha de tener favorable acogida. Y ello por cuanto:

1.- No hay cuestión respecto a que en las fechas en que tuvieron lugar la firma de los convenios Valencia Summit y sus adendas la entidad FTVCB se trataba de una fundación de interés público. La naturaleza jurídica de la entidad no es la que determinen los estatutos, sino la que deriva de la realidad de las cosas y a estos efectos tanto la normativa comunitaria como a través de la Jurisprudencia del TJCE se desprende que las administraciones instrumentales se hallaban en la fecha de estos convenios obligadas al sometimiento de la normativa de los contratos públicos, siempre que este tipo de entidades administrativa sujetas al derecho privado, tuvieran un interés público, dependieran funcionalmente de modo principal de la administración o de sus organismos autónomos y en cuanto a sus fondos más del 50% procedieran de una administración pública.

Pues bien, la FTVCB se trataba de una fundación de carácter local, que por la mayor participación que en la gestión y en el patronato tenía el Ayuntamiento de Valencia, ya directamente, como a través de la Feria de Valencia, como porque la mayoría de los fondos eran de origen y procedencia Municipal, el control de dicha entidad correspondía al Ayuntamiento y los fondos de que estaba dotada eran prioritariamente públicos.

Obran en las actuaciones informe de Intervención General del Estado de fecha 8 de mayo de 2014 – ratificado a presencia judicial - pronunciándose a favor de la naturaleza pública de la Fundación TVCB y de facto hasta que en 2009 se produjo la modificación de sus estatutos la IGAE tenía clasificada dicha fundación como de interés público. En el mismo sentido tuvo oportunidad de pronunciarse el Tribunal de Cuentas en su informe de fiscalización de las Fundaciones de carácter local emitido en febrero de 2012, en él incluye a FTVCB como fundación de interés público.

A este respecto, y si no fuera así cuanto afirmamos, la Fundación por iniciativa del Presidente de su patronato y apelado no hubiera precedido en noviembre de 2009 a modificar sus estatutos, ya que hasta entonces estaba clasificada por la Intervención General del Estado como fundación de interés público. A través de esa modificación se reformó la composición del patronato quedando integrado, además de por los fundadores, por 30 protectores, para de este modo conseguir que el peso en el patronato no fuera mayoritario del Ayuntamiento. A partir de ese momento la clasificación de la FTVCB paso de Fundación de interés público a Unidad Institucional bajo control privado.

Siendo por tanto que la FTVCB era una fundación de interés público se hallaba sujeta a las normas de contratación administrativas. Con todo y aunque se cuestione lo anterior, al menos en cuanto a la firma del primer convenio – ya que por lo que a los

otros dos se refiere la ley de contratos había sido ya modificada para declarar que la misma resultaba aplicable a las fundaciones de interés público-, al intervenir en la firma del convenio una sociedad pública de la Comunidad Autónoma, la normativa contractual era de obligado cumplimiento.

Pese a ello no se observaron las reglas de procedimiento en cuanto a la adjudicación de este convenio de colaboración y la utilización del canon como precio de los servicios contratados, sin que por parte de las entidades instrumentales se hubiera acordado en que consistía dicha colaboración, advertía que con dicho convenio se pudiera encubrir una subvención nominativa, infringiendo las normas que regulan su concesión.

No estamos ante un problema de tipicidad o de legalidad respecto a las dudas que pudieran existir en cuanto a la naturaleza pública de la fundación, pues las fundaciones de interés público en la fecha de los hechos venían sujetas a las normas de contratación, tanto por aplicación Directa de la Directivas comunitarias y de la jurisprudencia que las interpreta, como porqué conforme a la modificación operada en la Ley de Contratos en marzo de 2005 las Fundaciones de interés público sujetas al Derecho privado venían obligadas a respectar la normativa de contratos, indudablemente a partir de esa fecha. Se trata de un problema de dolo o más bien de error como aspecto negativo al mismo – creencia de que la fundación por ser entidad privada no estaba sujeta a la normas de la contratación pública-, mas esta cuestión, como todas aquellas afectantes al dolo, por lo general han de ventilarse y decidirse en el acto del juicio, recayendo la prueba del error en quien lo alega.

El auto apelado y el Ministerio Fiscal, así como la defensa parten de la premisa – y éste en verdad constituye el fundamento de la decisión sobreseyente respecto del apelado), de que FTVCB intervino de un modo accesorio en el convenio, de modo que ya vino dado por CACSA, pudiendo ocurrir que FTVCB creyera que CACSA había observado las normas de procedimiento.

La defensa explica que el convenio fue suscrito con el acuerdo del Patronato. Lo que hizo el patronato fue mostrar su conformidad a la colaboración en la sesión celebrada en mayo de 2004, pero el convenio en ese momento no había sido elaborado ya que es de fecha posterior. Los patronos pertenecientes al sector privado manifestaron que la gestión era Municipal y que se aprobaban por sistema todas las propuestas que hacían sus gestores – el Vicealcalde y el Director de la Fundación - porque entendían que era lo mejor, lo que indica que las decisiones del Patronato venían ya determinadas por las propuestas de los representantes del Ayuntamiento, por ser ellos quienes ostentaban la representación de la fundación y dotaban a esta de la prácticamente totalidad de los fondos públicos. De hecho, por la declaración de los patronos asistentes a las Juntas del patronato que aprueba la colaboración con Noos, se desprende que dicha propuesta no fue realmente discutida ni votada. Además, existen correos electrónicos entre Noos – JP Molinero y FTVCB – por mediación del Subdirector Jaume Mata - de los que se desprende que la fundación intervino en la elaboración del convenio y que se estaba trabajando sobre una propuesta. La fundación lo que hizo fue aprobar en noviembre el informe de gestión de 2004 y en el 2005 la memoria. Pero el convenio es de septiembre de 2004, lo que indica que dicho convenio, una vez elaborado y antes de ser firmado, no se sometió a debate de la Fundación en cuanto a su objeto y compromiso económico al que se obligaba FTVCB.

En cuanto a la no intervención de Grau, si bien no fue él en persona el que suscribió el convenio – ya que lo rubricó el Director de la Fundación –su descarte resulta imposible, tanto por el compromiso económico del Ayuntamiento, como porque para llevar a cabo

el proyecto era necesario la participación del Ayuntamiento y esta estaba ya comprometida desde el momento en que Rita Barberá remite a Urdangarín y a Diego Torres a la Fundación y a CACSA y luego el Secretario de eventos pide al Sr. Grau que se sume al proyecto, cosa que hace y a tal efecto da instrucciones al Director de la Fundación y éste al subdirector, el cual mantiene correspondencia electrónica con Noos a los efectos de documentar el convenio cuya suscripción ya venía verbalmente dada una vez Lobón convenció a Grau y Aguilar de la conveniencia de apoyar el proyecto, el cual venía avalado por la intervención de una entidad de la que era su Presidente el yerno del Rey y estaba integrada en su órgano de dirección por su esposa e hija del Rey, Cristina de Borbón y por su secretario que figuraba aparecía como secretario de la Casa del Rey.

Por la defensa del Sr. Grau se insiste en que su defendido podía albergar dudas al respecto de que la FTVCB hubiera de someterse a las normas de contratación. Podía ser, pero estaba en su mano despejarlas ya que contaba con servicio jurídico externo a la Fundación para solicitar asesoramiento o demandarlo de CACSA y en todo caso no consta que diera instrucciones al Director de la Fundación para que fuera escrupuloso con el procedimiento a seguir. Todo lo contrario, de lo actuado se podría llegar a inferir que la fundación se refugiaba en su naturaleza jurídica privada, pese a que en realidad era de interés público, para burlar las normas de contratación, las cuales, cuando menos a partir de marzo de 2005, le eran de obligado cumplimiento. Con todo, como hemos dicho, CACSA sin duda alguna venía legalmente obligada a cumplir las normas de procedimiento por exigencias del Decreto 20/93 y no se observaron y el apelado debía o podía conocer tal omisión. En todo caso la segunda y tercera edición del Valencia Summit se celebraron tras la modificación operada en la Ley de contratos que incluía entre las fundaciones de interés público la aplicación de las normas de contratación y tampoco entonces se cumplieron, lo que indica que pudo haber una deliberada ignorancia en su inaplicación, tal vez porque como se ha venido quejando el Grupo Socialista del Ayuntamiento con reiteración y obran en la causa en prueba de ello intervenciones en el seno de la Corporación que lo confirman, que por la Corporación Municipal se ha venido utilizandodeliberadamente la FTVCB como instrumento o vehículo para externalizar del Ayuntamiento el Área de turismo y dificultar el control de la gestión municipal en ese ámbito de actividad y en la aplicación de los fondos que FTVCB recibe del ayuntamiento y que aplicaría con la opacidad denunciada por el Grupo Socialista.

El recurrente, en cuanto impulsor de la concertación y en la medida en que trasladó al Patronato las bondades del proyecto Valencia Summit a realizar por Noos, tras recibir indicaciones del Sr. Lobón para que FTVCB se sumase al proyecto, logrando así su aprobación antes de que el contrato se suscribiera, habiendo reconocido que su principal aval y garantía era que detrás del mismo se encontraba el yerno del Rey, opinión esta compartida con la misma Alcaldesa con la que el apelado departía casi a diario por razón de sus funciones, de modo que sabía que la Sra. Barbera avalaba, respaldaba y se mostraba conforme con que dicho evento se llevase a cabo, aunque no intervino directamente en la firma de los convenios, dispuso del dominio y control sobre la concertación y sobre el gasto a ella destinada, de modo tal que participó en la misma tanto de modo activo como por omisión, ya que pudo haber formulado reparos o exigido que los convenios se sometiera a previos controles jurídicos y contables y nada hizo, pese a que ostentaba una posición de garante de los fondos públicos que manejaba la FTVCB, en tanto Presidente de su patronato y a su vez Vicealcalde del Ayuntamiento y al tiempo concejal de turismo.

Insistir, al igual que hemos hecho en el caso del Sr. Lobón, que por mucho que los responsables de las administraciones vinculadas no hubieran intervenido en la

determinación del contenido de los convenios de colaboración, existen razones para pensar que su apoyo al proyecto hubo de influir decididamente en que finalmente la concertación se verificase, ya que como hemos dicho la causa determinante de su aprobación por los responsables de la FVTCB y CACSA, y así en esencia lo han venido declarado,fue que el Valencia Summit contaba con el respaldo del yerno del Rey, extremo éste que se omitió, no sabemos si deliberadamente, a los miembros del Patronato con ocasión de la aprobación del proyecto, probablemente porque no era preciso revelar este extremo sabiendo que en el Patronato por sistema se aprobaban las propuestas del Ayuntamiento al ostentar el control sobre la entidad por tener mayoría de votos en el órgano directivo y proceder la mayor parte de sus fondos y dotación de la aportación municipal, tal que así, su gestión corría a cargo del Vicealcalde del Ayuntamiento y de la persona que como director de la fundación dependía de él.

Como hemos comentado existen correos entre el Subdirector de la Fundación Jaume Mata y JP Molinero, fechados entre junio y agosto de 2004, que revelan y ponen de manifiesto, contrariamente a lo mantenido por el Auto apelado, que la FTVCB colaboró en la redacción del convenio de colaboración y que no es verdad que viniera determinado desde CACSA. Otra cosa es que fuera ella la primera en sumarse al proyecto por las recomendaciones y visto bueno que al mismo le concedió el Secretario de Eventos en la entrevista que éste mantuvo con Diego Torres y con Director de CACSA Miguel Ángel Aguilar, a quien el primero le solicitó que apoyase el proyecto de Noos, solicitando después dicho apoyo al Sr. Grau, según este mismo reconoció y este se lo dio, influido, posiblemente, porque dicho proyecto era conocido por altas instancias de la Generalitat y por la misma Alcaldesa y sabía que los responsables de ambas instituciones eran favorables a la concertación al estar la entidad implicada, en apariencia, relacionada con la Casa Real.

Ambos recursos han de ser estimados y revocado en este punto el auto recurrido.

OCTAVO.- Analizaremos a continuación el convenio de colaboración suscrito en fecha 7 de octubre de 2007, entre la Fundación Madrid 16 y la Fundación Deporte Cultura e Integración Social y los recursos interpuestos con relación a este convenio, tanto por parte de la imputada Doña Mercedes Coghen, como de la acusación popular Manos Limpias, que solicita se amplíe la imputación por esta concertación al Director Financiero de la sociedad anónima unipersonal Madrid 16 y al Director General de Deportes del Ayuntamiento de Madrid, que fue quien en representación de la Fundación M 16 suscribió el referido convenio.

-Recurso de Mercedes Coghen, Consejera delegada de la Fundación Madrid 16 (recurso número VIII)

Se queja de que a la Fundación Madrid 16 se le conceda la condición de fundación de interés público. Es verdad que a tenor de sus estatutos se trata de una fundación de interés privado. Pero el carácter de fundación de interés público surge tanto del fin público por el que se constituye – preparar y promover la candidatura de Madrid para los Juegos Olímpicos, juntamente con el COE- como de la composición de su patronato, ya que mayoritariamente está constituido por órganos administrativos: tanto de la administración central, a través del Consejo Superior de Deportes, como de la local – ayuntamiento de Madrid - y la autonómica, aunque también actuaba como patrono el COE. Además, la dotación de sus bienes procede de fundamentalmente de la aportación municipal. Por otra parte,la persona que gestiona la Fundación en calidad de Director General, Miguel de la Villa Polo, compatibiliza dicho cargo con el de Director General de Deportes del Ayuntamiento de Madrid.

La Sra. Coghen tenía el cargo de consejera delegada de la sociedad anónima unipersonal Madrid 16, que a su vez era propietaria al 100% de la fundación Madrid 16 y por tanto en atención a los fines de la misma, a tenor del artículo 24 del CP, tendría o podía ostentar la condición de funcionaria pública.

En cuanto a los fondos, claramente eran de titularidad pública por cuanto la dotación provenía de la entidad fundadora – el Ayuntamiento de Madrid-.

Señala la defensa que es cuestionable que la administración local pueda constituir fundaciones locales, pero el Tribunal de Cuentas, si bien ha reconocido la problemática, ha admitido tal posibilidad cuando en ellas concurran determinados criterios que sí se daban en la fundación MADRID 16, por cuanto la dotación de la misma era mayoritariamente de procedencia municipal y en el patronato la representación de las distintas administraciones intervinientes era mayoritaria, aunque hubiera también patronos privados.

Sentado que la Fundación Madrid 16 era una fundación de interés público, se hallaba sujeta en el ámbito de la contratación a la normativa de la Ley de Contratos que incluye a los contratos de colaboración, salvo que el objeto de los mismos se hallase excluido de los contratos administrativos.

En el caso del contrato de colaboración suscrito por Madrid 16 y la FDCIS, es claro que se incumplió abiertamente la normativa administrativa:

1.- El convenio de colaboración resulta indefinido en cuanto a su objeto, pues se pretendía inicialmente la promoción del deporte entre grupos sociales desfavorecidos, así como la creación de sinergias institucionales para favorecer la participación de Madrid 16 en aquellas instancias que FDCIS estimase convenientes y en su encuentro anual. En su cláusula segunda se dejó la concreción de las actividades en las que iban a colaborar y emprender conjuntamente, a la realización de un posterior convenio de colaboración específico, que se iba a incorporar como anexo al convenio, pero que no llegó a suscribirse. Además, no se establecían prestaciones económicas y se fijaba un periodo de vigencia de dos años, hasta octubre de 2009.

La firma de ese convenio de colaboración vino seguido de un contrato verbal suscrito entre la Fundación M 16 -hecho éste no cuestionado- , que tenía por objeto la realización de un servicio de lobby o más bien de relaciones públicas. Concretamente la fundación a través de Iñaki y Diego Torres intentaría buscar apoyos y votos entre miembros del COI. Como consecuencia de ese acuerdo M-16 acordó unos honorarios mensuales a la fundación DCIS de 6.000 euros, abonados en concepto de donativo, todo ello en virtud de un pacto verbal, pues como se acaba de señalar no se documentó.

La suscripción de este acuerdo verbal se verificó al margen de cualquier contratación administrativa, eludiendo cualquier informe que justificase los motivos de efectuar una contratación directa sin concurso y, sobre todo, los motivos por los que dicha labor de Lobby solo podía ser realizada con exclusividad por la FDCIS.

En cuanto al objeto del contrato verbal la defensa insiste en que se trataba de servicios que quedaban al margen de la normativa contractual por su peculiaridad, pero en realidad la labor de lobby a desplegar entre miembros del COI para trasladar los aspectos positivos que representaba la concesión de la Olimpiada de 2016 a la ciudad de Madrid, no es otra cosa que un labor de comunicación o de prestación de servicios – así lo admite el propio Sr. De la Villa Polo, que dijo que de no haber sido fundación, en lugar de donativo, el concepto hubiera sido el de contrato de servicios -y hay que tener

en cuenta que los motivos que al parecer impulsaron la concertación eran dos: que Iñaki Urdangarín había sido deportista olímpico y miembro del COE– cualidad que no era exclusiva suya– y, el segundo era su vinculación con la Familia Real, aspecto éste que unido a la circunstancia de que fuera el Sr. Urdangarín quien propuso sus servicios a la recurrente, abona la posibilidad de que la contratación obedeciera y tuviera por causa la influencia ejercida por el Sr. Urdangarín sobre la Sra. Coghen, a quien conocía por haber sido deportista olímpica y miembro del COE. Por cierto, a través de un contrato en el que su objeto no se correspondía con el realmente pactado y en el que no se estableció precio documentado.

La suscripción del citado acuerdo verbal permitió obtener a fundación, a través de donativos, la cantidad de 120.000 euros.

La defensa insiste en que tales fondos eran privados, pero no es verdad ya que la dotación de la fundación se nutría de subvenciones del ayuntamiento de Madrid que concedía a la fundación y de facto el ayuntamiento verificó una fiscalización posterior, aunque al parece sin otro justificante que el donativo. Es lógico que el ayuntamiento de Madrid no hubiera emitido facturas a FDCIS y así lo ha certificado, ya que estas eran abonadas por la fundación M16, pero a cargo de las subvenciones que a su vez ella recibía del ayuntamiento y que como concedente venía obligada a fiscalizar en cuanto al gasto y realización del objeto para el que éste se autorizó.

La defensa entiende que la fundación M 16, aún aceptando que pudiera ser de interés público, se sujetaba al derecho privado en cuanto a las disposiciones sin contraprestación -disposición adicional 16 de la Ley de Fundaciones-, pero en este caso, por mucho que el pago se justificase como donativo, no estamos ante una disposición sin contraprestación, ya que la relación entre la Fundación M16 y FDCIS era de arrendamiento de servicios de comunicación o de lobby.

La defensa señala que existe documentalmente justificación de los trabajos realizados por FDCIS; sin embargo, los trabajos aportados no queda claro que guarden relación con el objeto del contrato verbal suscrito entre las partes y de hecho en los archivos de la Dirección General de Deportes del Ayuntamiento de Madrid, respecto a este expediente, solo se encontraron las facturas referidas a las donaciones hechas a FDCIS por importe de 120.000 euros que recoge el auto apelado en su folio 81, y un informe realizado por la recurrente fechado el 2 de diciembre de 2011, aparentemente para justificar tales pagos, ya que el indicado informe fue realizado a raíz de una intervención parlamentaria de UPYD sobre la contratación de Noos y en fecha muy posterior a tales pagos. Ello avala la posibilidad de que estos trabajos, aunque se hubiera hecho, no constituían el objeto del contrato - no olvidemos que fueron plurales las actividades y trabajos realizados para la preparación de la candidatura olímpica de Madrid 16, con cargo al Patronato Madrid 16 -.

No puede pasarse por alto que fue el Delegado del Área del Ayuntamiento de Madrid, Francisco Villalonga Campos, el que como consecuencia de una interpelación parlamentaria sobre el contrato de Madrid 16 con la FDCIS puso en conocimiento de la Fiscalía General del Estado que sobre la base de dicho convenio se habían producido pagos por valor de 120.000 euros no justificados bajo el concepto de donativo.

En fin, en tanto en cuanto la recurrente fue la que intervino y participó en el convenio suscrito con FDCIS, por las irregularidades existentes y pagos realizados como donativo, cabe la posibilidad de que dicho contrato se hubiera concertado en razón a la influencia ejercida por Iñaki Urdangarín sobre los responsables de la Fundación Madrid 16 y en

concreto sobre la Consejera delegada de la sociedad anónima unipersonal Madrid 16, a quien conocía por ser ambos miembros del COE.

La propia consejera relató que era a ella a quien Iñaki le rendía cuentas de las gestiones realizadas -por tanto el pago del suelo era por relaciones públicas y no otro tipo de actividades-, al respecto de las cuales no existe dación de cuentas amparándose en que se trataba de actividades intangibles y de difícil cuantificación, lo que no era óbice para que la Fundación Deporte Cultura e Integración Social rindiera informes escritos mensuales o con cierta periodicidad de cuales eran las gestiones y reuniones realizadas y actividades de comunicación dirigidas a promocionar la candidatura de Madrid 16. Esa falta de justificación podría deberse al compromiso que podía suponer requerir rendición de cuentas cuando el que tenía que verificarlas debía de ser el Sr. Urdangarín, si es que el contrato se suscribió por ser la única persona que podía lograr los apoyos necesarios y realizar la labor de comunicación y de presentación de la candidatura de Madrid 16 entre miembros del COI. Lo cierto es que las actividades realizadas no fueron transparentes y de su presunta ilegalidad habla mucho que el propio Urdangarínniegue tener nada que ver con la Fundación Deporte Cultura e Integración Social (todo lo más como colaborador en el departamento estratégico del Noos, entidad que ya había abandonado), cuando para los responsables de M 16 era su cabeza visible y en tal calidad así se presentó.

Existen pues indicios de que la recurrente ha podido incurrir en un delito de prevaricación administrativa por haber suscrito el convenio marco antes citado, que presuntamente habría sido celebrado en razón a formar parte de la entidad FDCIS el entonces yerno y hoy cuñado del Rey y porque dicha concertación quebrantó abiertamente la normativa de contratos y permitió el dispendio de fondos públicos, ya que se dieron sin control de ningún tipo y prueba de ello es que se facturaron como donativo, sin posibilidad de exigir compromisos ni obligaciones a la parte receptora.

Por lo que respecta a la cualidad de funcionaria de la recurrente como elementos del tipo, es sobradamente conocida que el concepto de funcionario del CP se aparta del administrativo. Se atiende a la materialidad: el nombramiento y el ejercicio de funciones públicas es lo relevante (SSTS 1292/2000 o 68/2003 , 866/2003, de 16 de junio : lo decisivo es la función realizada dentro de un organigrama de servicio público). Puede verse en particular la STS 876/2006, de 6 de noviembre.

En principio y aunque la recurrente se hallaba vinculada a la entidad Sociedad Anónima Unipersonal Madrid 16 en virtud de un contrato de alta dirección suscrito por el Director General - por cierto dotado con un sueldo sustancioso, algo más de 12.000 euros mensuales-, la persona que le contrató ostentaba el cargo de Vicealcalde del Ayuntamiento de Madrid. La actividad de la recurrente estaba dirigida a la gestión de actividades de interés público, como eran la preparación de la candidatura olímpica de la ciudad de Madrid y la entidad pertenecía en su totalidad a una fundación de ámbito local, pero de interés público, por mucho que sus estatutos declarasen que su naturaleza era privada.

El recurso se rechaza y el auto ha de ser confirmado.

Llegados a este punto procedemos a examinar la impugnación que formula la acusación popular Sindicato Manos Limpias contra el sobreseimiento de las actuaciones respecto de Miguel de la Villa Polo y Gerardo Corral Cuadrado.

El recurso, pese a la oposición de la defensa de ambos imputados y del Ministerio

Fiscal, ha de prosperar.

En efecto, Miguel de la Villa Polo, en su calidad de Director General de la Fundación Madrid 16 - era la mismo tiempo Director General de Deportes del Ayuntamiento de Madrid - es quien firma el contrato marco de colaboración entre FCDIS y FM16. Estuvo en la reunión con Diego Torres y Urgangarín, juntamente con Mercedes Coghen, Antonio Fernández Arimany y a la que luego se sumó Gerardo Corral, en la que se decide y acuerda la colaboración con FCDIS consistente en prestar servicios de relaciones públicas. No hay duda de que interviene en calidad de funcionario público ya que se trata del Director General de Deportes del Ayuntamiento de Madrid. El convenio se firma sin cumplir norma alguna de procedimiento y sobre todo sin concretar el precio de los servicios contratados, lo que se deja en manos de la Sra. Coghen y del Director General de la Madrid 16 SAU Antonio Fernández (que pertenecía íntegramente a la Fundación M 16). Dio su opinión a la contratación, aunque viniera determinada por la responsable del área internacional de la fundación la Sra. Coghen. Se dejó inducir por Mercedes y seducir por la intervención de Iñaki Urdangarín en el proyecto, pero no puede decirse que se trate de un actor pasivo y sin responsabilidad, pues fue quien firmó el convenio sabiendo que su objeto no era el contemplado y que el mismo era dudosamente legal porque establecía una prestación de servicios que se iba a satisfacer como donativo.

Gerardo del Corral era director adjunto de la Sociedad Madrid 16 e intervino en las negociaciones para la fijación del importe de los servicios de consultoría y de asesoramiento, los famosos 6.000 euros. Era al mismo tiempo director financiero y ordenó los pagos. Es verdad que lo hizo por orden de MercedesCoghen, pero pudo haber impedido dichos pagos al comprobar que se verificaban sin constar otra justificación que una factura en concepto de donativo. También se le pidió consejo a la hora de suscribir el convenio y de cuantificar el importe de los servicios.

La defensa de este imputado insiste en que se defendido no tenía, al igual que Mercedes Coghen, la condición de funcionario público, así como tampoco la fundación Madrid 16 era una fundación de interés público.

El apelado era Director adjunto de la entidad Madrid 16 SAU, que era propiedad de la fundación M16, mayoritariamente de titularidad municipal.

Ciertamente el apelado, dado que estaba unido por contrato de trabajo, podía albergar dudas sobre su condición de funcionario a efectos penales e incluso puede que ello sea discutible, mas prestaba servicios para una entidad propietaria de una fundación de interés público y manejaba fondos públicos, con lo cual no se puede decir que en este momento resulte absurdo e irrazonable atribuirle la cualidad funcional de funcionario público a los efectos del artículo 24 del CP, teniendo en cuenta el concepto extensivo que a la cualidad de funcionario proclama la Jurisprudencia penal, sin perjuicio de que tratándose de una cualidad que podría ser discutible, su examen en profundidad ha de verificarse en sede de plenario.

De igual modo la ignorancia –error de tipo– que el apelado podía albergar sobre tal condición -cuya prueba habría de recaer sobre la defensa-, es otra cuestión que habrá de ser objeto de debate en el acto del plenario.

Ello en cualquier caso, siempre queda a salvo el filtro que el Juez Instructor pueda verificar al dictar el auto de apertura de juicio pronunciándose en sentido negativo por razones de atipicidad de determinadas conductas. Distinto es si existen indicios de criminalidad y en verdad que se aprecian respecto del aquí apelado.

Debemos recordar nuevamente como hemos comentado al tratar el objeto y alcance del auto de transformar que la decisión sobreseyente es de carácter residual y solo opera en situaciones en las que no existen indicios fundados de criminalidad. Los supuestos dudosos requieren enjuiciamiento. Solo tras el plenario cabe acudir al principio in dubio pro acusado.

Ello no obstante, se hace necesario recordar que la Jurisprudencia nos enseña que a los efectos de la aplicación del artículo 24 del CP, puede presentarse la participación en el ejercicio de funciones públicas tanto en las del estado, entidades locales y comunidades autónomas, como en las de la llamada administración institucional que existe cuando una entidad pública adopta una forma independiente, incluso con personalidad jurídica propia, en ocasiones de sociedad mercantil, con el fin de conseguir un más ágil y eficaz funcionamiento, de modo que "cualquier actuación de estas entidades donde exista un interés público responde a este concepto amplio de función pública" (STS de 27 de enero de 2003).

Y en lo que se refiere al acceso al ejercicio de tales funciones públicas, tiene declarada la doctrina que nada importan en este campo ni los requisitos de selección para el ingreso, ni la categoría por modesta que fuere, ni el sistema de retribución, ni el estatuto legal y reglamentario ni el sistema de previsión, ni aun la estabilidad o temporabilidad (SSTS de 4 de diciembre de 2001 y11 de octubre de 1993), resultando suficiente un contrato laboral o incluso el acuerdo entre el interesado y la persona investida de facultades para el nombramiento (STS de 27 de enero de 2003, 22 de abril de 2004 y 166/2014, de 28 de febrero).

Las consideraciones expuestas nos han de conducir a la estimación del recurso interpuesto por el Sindicato Manos Limpias (*Recurso número VII*).

NOVENO.- A continuación y concluido el estudio de los recursos que afectan al ámbito de los convenios de colaboración suscritos por el Instituto Noos y la Fundación Deporte Cultura e Integración Social, con las sociedades públicas y fundaciones locales de interés público a las que nos hemos referido en Fundamentos anteriores, pasamos al estudio de los recursos promovidos por los hermanos Marcos y Miguel Tejeiro Losada, a quienes el Juez a quo atribuye haber participado en el grupo Noos y colaborado en el plan y las actividades delictivas achacadas a los principales responsables de la constitución de Noos, de su aprovechamiento como entidad sin ánimo de lucro para obtener contratos públicos al margen de toda concurrencia, apoyándose en la influencia ejercida en la contratación por la vinculación aparente de Noos con la Casa del Rey, y colaborando en el apoderamiento de fondos públicos.

- *Recurso de Marcos Tejeiro Losada (Recurso número IX)*

La defensa de este imputado, en esencia, se queja de la insuficiente motivación del auto de transformación en cuanto a la descripción de la participación de su representado en las ilícitas actividades de NOOS, señalando que el único elemento que utiliza para incriminarle es que intervino en la constitución del entramado societario y participaba en el mismo, pero sin describir qué clase de actuación realizaba, de lo que no se puede desprender que fuera un partícipe en el sentido exigido por el código, el cual para ser considerado responsable en tal concepto es necesario la presencia de un doble dolo; además de que es posible que su actuación lo fuera en calidad de simple administrativo, realizando tareas neutras de elaboración de facturas siguiendo las instrucciones de sus jefes y sin que tuviera conocimiento de que la mismas eran falsas o simuladas. Igualmente su intervención en la constitución de las sociedades fiduciarias fue neutra

por cuanto tal intervención no puede considerarse por sí misma ilícita ni inadecuada, pues sería necesario conocer la finalidad para que las mismas se constituyeron. En cuanto a las certificaciones libradas a Generalitat Valenciana para el cobro de servicios prestados a la citada administración en cumplimiento del contrato de colaboración suscrito por Noos para el diseño de la candidatura de Valencia para unos Juegos Europeos, el recurrente indica que se limitó a emitir tales facturas por orden de Diego Torres Pérez. En todo caso estima que el delito que habría cometido su representado habría prescrito.

El recurso desde la óptica de la finalidad y alcance del auto transformador carece de todo fundamento.

Como hemos dicho supra, el auto transformador no tiene otro objeto que verificar un juicio probable de acusación, referido a la posibilidad de que en este caso el imputado apelante haya podido realizar los hechos que el instructor le atribuye.

Hay que reconocer que el auto apelado se presenta insuficiente para describir la concreta conducta que atribuye al recurrente, más allá de haber participado e intervenido en la constitución y funcionamiento como administrativo de la entidad Instituto Noos y de las filiales de esta, empero la consecuencia de esa insuficiente explicación sería solicitar la nulidad del auto y no la revocación del mismo con una consecuencia sobreseyente que no se comparte, por cuanto de lo actuado efectivamente existen indicios de participación criminal por parte del recurrente, por cuanto éste presuntamente se encargaba del área contable y financiera –junto con su hermano Miguel– del InstitutoNoosy de las sociedades filiales a éste. Precisamente, por ser el encargado de la confección de facturas y de su giro y libramiento cruzado entre dichas sociedades, era o debía ser consciente de que las misma en la mayoría de las ocasiones, no tenían otro objeto que desviar los fondos que había obtenido NOOS de las entidades públicas. Esa misma elaboración habría permitido conocer que el libramiento de las facturas tenía por objeto justificar el sobrecoste de los eventos realizados por Noos y con ello lograr la malversación de los fondos públicos.

La defensa del recurrente pretende dar a entender que su defendido fue un mero administrativo, mas existen testimonios y documentación correspondiente a anotaciones manuscritas elaboradas por el propio recurrente, de las que se desprendería que era conocedor de la contratación de falsos empleados para obtener beneficios fiscales -libertad de amortización -, así como que el libramiento y cruce de facturas entre empresas del grupo tenía por objeto simular servicios irreales para desviar fondos de Noos y obtener ventajas fiscales.

El recurrente, además, en esa labor de giro de facturas, emitió facturas a las sociedades fiduciaria extranjera De Goes Center LTD y concretamente a quien gestionaba de facto la misma, Don Salvador Trinxet, para que este a su vez las anotase en la contabilidad a través de un despacho radicado en Londres. El recurrente conoce la existencia de la estructura fiduciaria precisamente porque se reunió con la persona que facilitó la adquisición de las empresas (Salvador Trinxet), así como porqué éste favoreció la apertura de una cuenta en Luxemburgo a nombre de la misma. Tenía que conocer que las empresas fiduciarias eran irreales y una mera pantalla.

Marcos Tejeiro es la persona que emite certificaciones falsas para cobrar servicios irreales a la Generalitat Valenciana y no se limita a emitir estas certificaciones, sino que se reunió con personal de aquella para gestionar personalmente su cobro.

Resulta inviable en este momento -por razones de calificación, labor que no compete a esta Sala -, pronunciarse sobre la prescripción del delito de falsedad, pues es conocedor el Letrado recurrente que en comportamientos delictivos complejos, como aquí ocurre, la prescripción viene establecida por el delito más grave, a menos que este se cometa cuando el delito antecedente hubiera ya prescrito, lo que no parece haya ocurrido.

Por lo demás, conviene decir que la falsedad, por lo general, es un delito instrumental y que en el caso presente todo indica que el recurrente formaba parte de la organización empresarial de las sociedades del grupo NOOS que formaban una sola entidad en la realidad. Su labor era la de contabilidad y financiera y aunque no intervino en la firma de los contratos de colaboración que abusivamente se concertaron con las entidades públicas contratantes, con su labor de libramiento consciente de las facturas falsas emitidas y con el cruce de estas colaboró en la malversación de fondos públicos y al mismo tiempo posibilitó el lavado y blanqueamiento de estos, sirviendo la emisión de tales facturas a una doble finalidad: justificar el sobrecoste de los eventos y posibilitar que el dinero recibido apareciera en las cuentas del grupo y luego fuera remitido al extranjero aparentando que se trataba de dinero lícito, cuando en verdad era sucio por provenir de la malversación de fondos.

Ciertamenteque el auto apelado no atribuye al recurrente la participación en un delito de blanqueo, mas la verdadera intervención del apelante sugiere tal posibilidad, debiendo ser ésta concretada en su caso por las partes acusadoras, sin que ello comporte indefensión ninguna al apelante, pues ésta solo se produce en sede fáctica, debiendo de tener en cuenta a este respecto que de la lectura completa del auto combatido resulta y se desprende, como luego se comentará al tratar el recurso de Manos Limpias, que el juez admite la existencia de un delito de blanqueo, aunque estima que en la fecha en que se cometieron los hechos el auto-blanqueo no se hallaba castigado, entendiendo que quien malversaba no podía blanquear, conclusión ésta que, con matices, no es la que mantiene la doctrina mayoritaria.

Con todo, el peso del recurso decae, conocedora esta Sala de que con posterioridad al auto transformador el recurrente suscribió para su presentación a la Fiscalía anticorrupción de un escrito en el que reconocía su participación en los hechos, empero con matices, que en su caso habrán de ser analizados en el juicio.

- *Recurso de Miguel Tejeiro Losada (Recurso número X)*

Se queja Miguel, al igual que su hermano Marcos, de que el Juez a quo ha dictado el auto de acomodación sin exponer, en su caso, los motivos por los que en su opinión, podía efectuarse vinculación entre el hecho delictivo y la participación del recurrente, que si la hubo fue neutra, como mero asesor dentro de un asesoramiento adecuado y propio de su actividad externa como encargado de llevar la contabilidad y la fiscalidad. Dentro de este asesoramiento estuvo la puesta en contacto de Diego Torres con Salvador Trinxet, a propósito de la adquisición de una sociedad extranjera DE GOES CENTER LTD, acción que se enmarcaba en la expansión del grupo por la organización de eventos internacionales y la necesidad de contar con asesores de países extranjeros, pero sin que el recurrente conociese que con la creación y adquisición de esas entidades se pudieran cometer o estar cometiendo ilícitos penales. Se queja el recurrente de que el auto le atribuye una serie de ilícitos al respecto de los cuales no es posible que el recurrente hubiera cometido y podido ser su autor.

Reproducimos lo dicho respecto de la motivación con ocasión de lo antes manifestado

respecto de Marcos Tejeiro. Lo trascedente es que el recurrente tenga conocimiento de los hechos por de los que se le acusan y por los que el Juez considera que ha de ser sometido a juicio. Normalmente el contenido de estos hechos y el traslado de los mismos, a no ser que la instrucción haya derivado en conductas o actuaciones nuevas desconocidas que pudieran atribuir nuevas imputaciones con trascendencia penal, se verifica en el momento mismo de la toma de la declaración del sujeto imputado (art. 118 de la Lecrim). Ello no quita que el Juez venga obligado con el dictado del auto de transformación a efectuar una relación fáctica dirigida a concretar formalmente los hechos imputados y a permitir al destinatario conocer si estos son esencialmente los que le fueron traslados en la toma de su declaración.

En el caso presente esto es lo que ocurre. Los hechos que se atribuían al recurrente al inicio de las investigaciones son esencialmente los que ahora se le imputan, si bien no suficientemente detallados en cuanto a la participación típica del recurrente, empero lo relevante es que tal omisión no ha producido indefensión al apelante y buena prueba de ello es el contenido del recurso y su brillante fundamentación.

Es verdad que la participación delictiva ha de ser consciente. Y el partícipe puede ser principal o accesorio y en el primer caso a título de coautor o de cooperador necesario, atendiendo al momento en que tiene lugar el dominio del hecho.

En el caso presente es verdad que el recurrente no intervino en la firma y negociación de los contratos de colaboración que supuestamente otorgados desviadamente y con abuso de poder permitieron a Noos beneficiarse de fondos públicos, pues aunque estos eventos se realizaron lo fueron por costes notablemente inferiores a los reales y para justificar ese sobrecoste los principales acusados se habrían valido del libramiento de facturas falsas de las sociedades filiales de Noos a la matriz Instituto Noos y de aquellas entre sí. Pero no cabe duda que el recurrente por formar parte integrante de la Asociación Instituto Noos y ser el encargado del área financiera y contable de esta sociedad y de sus filiales y por la misma relación de confianza y de asesoramiento que ejercía, podía o tenía que saber de la existencia de ese giro de facturas falsas y que las mismas permitían a las entidades obtener beneficios fiscales irregulares y al mismo tiempo malversar fondos públicos. No en vano era el asesor fiscal del grupo. El recurrente ostentaba un claro dominio funcional de estos hechos y no solo estaba en la entidad origen del dinero y de la actividad, en calidad de vocal, sino que asesoró a Diego Torres para que a través de un experto en fiscalidad internacional – sobre todo porque Miguel no domina el inglés – adquiriesen las sociedades fiduciarias De GOES CENTER inglesa, a su vez controlada por BLOSOOMHILL ASSETS INC; y fue él quien dio instrucciones a Mario Sorribas para que constituyera la filial española (DE GOES CENTER SL), todo lo cual iba a posibilitar el entrecruzamiento de facturas entre ambas para que el dinero procedente del grupo Noos - en el 50% de la participación que en los beneficios correspondía a su cuñado -, pudiera ser transferido al extranjero, ocultando por la existencia de una sociedad matriz en Belice, administrada por un hombre de paja elegido al efecto, la titularidad del dinero que pertenecía a Diego Torres y a su mujer Ana Tejeiro.

Es importante destacar que el notario con el que trabajaba el grupo de empresas y amigo personal de Miguel Tejeiro manifestase que éste era el asesor financiero de todo el conglomerado y que diseñó toda la operativa y que no se hacía nada sin su asesoramiento. La documentación hallada en el registro del despacho con documentos manuscritos sobre triangulaciones y operaciones de cruce de facturas y de utilización de sociedades fiduciarias opacas en paraísos fiscales indiciariamente avala estas manifestaciones. El mismo Iñaki explica que era asesor suyo y el notario señala también

que fue el propio Miguel Tejeiro, quien para utilizar a la Infanta de escudo fiscal, hizo que participase en Aizoon al 50%, desoyendo la recomendación del notario, en el sentido de que si lo que se quería era que ella percibiera el 50% de los ingresos que su marido canalizase a través de Aizoon, era mejor que se modificase el régimen económico al de gananciales (ya que el matrimonio se casó en régimen de separación de bienes), bastando con constituir una sociedad mercantil unipersonal en la que solo figurase como socio Iñaki Urdangarín. El perfil de Miguel, en calidad de abogado especialista en temas tributarios y no su hermano Marcos – farmacéutico de profesión – y la vinculación y conocimiento que Miguel tenía respecto de Salvador Trinxet (Grupo Braxton, anteriormente integrado en su bufete Medina-Tejeiro), redundan en la idea que la actuación de asesoramiento prestada por el recurrente Miguel, no fue en absoluto neutra sino que pudo haber intervenido como inductor con un dolo compartido con Iñaki Urdangarín y Diego Torres, no lo olvidemos, su cuñado.

Ambos recursos, pues se rechazan.

DÉCIMO.-La acusación popular ejercida por el Sindicato Manos Limpias (*Recurso VII*) postula el mantenimiento de la imputación del Sr Salvador Trinxet y no le falta la razón a la parte apelante cuando expone que existe indicios de que el apelado Salvador, ha podido incurrir en un delito de blanqueo de capitales, por cuanto fue la persona a la que se dirigió Miguel Tejeiro para constituir la estructura de las sociedades fiduciarias que iban a permitir, al menos a Diego Torres y a su mujer, transferir al extranjero el dinero presuntamente malversado a través del InstitutoNoos, en la mitad que a ellos correspondía, dado que la facturación del grupo estaba a cargo de Miguel Tejeiro y era éste el encargado de distribuir por mitad los beneficios entre los socios y jefes del grupo Noos.

Salvador Trinxet es un experto en fiscalidad internacional y con anterioridad había trabajado en el bufete Medina-Tejeiro. El propio Trinxet reconoce que recibió el encargo de Miguel Tejeiro de adquirir dos sociedades en el extranjero, una en Londres y la matriz de esa en Belice. Explicó que también le encargó que ambas compañías tuvieran un mismo administrador. La administración recayó a cargo de la entidad Corporate Directores Services Ltd, que según la secretaria del Sr. Trinxet pertenecía al grupo Braxton, que era propiedad del propio Trinxet. El mismo Trinxet admitió que la persona que físicamente ejercía la administración de las sociedades era un individuo panameño, Gustavo Alberto Newton Herrera, que era administrador de docenas de sociedades. Reconoció, también, que junto con ese encargo, por el que recibió la suma de 12.000 euros, se comprometió a gestionar las facturas que le remitía Noos a la empresa Inglesa DE GOES CENTER LTD a través de su despacho y que él a su vez se las remitía para su tratamiento a un despacho de abogados en Londres - que es la que según su secretaria se encargaba de la contabilidad del grupo Braxton en el extranjero -.Trinxet también reconoció que ayudó a Miguel Tejeiro a solucionar unos problemas con la banca de Luxemburgo en donde Miguel Tejeiro abrió sendas cuentas a nombre de las sociedades de Belice y Londres. La empleada de Trinxet señaló que ella recibía las facturas del Instituto Noos de Ana Tejeiro y de Marcos Tejeiro y que se las remitía a la firma de abogados Ingleses Center Ford Satkeholders Management LTD, que se encargaba de llevar la contabilidad. Esta testigo admitió que la facturación era tanto de Noos a De Goes Center Ford como de BlossomhillAssetsInc a de Goes.

Por otra parte, se ha de tener presente que las sociedades Blossomhill AssetsInc y De Goes Center Ford Stakeholder Management LTD eran virtuales y que no operaban en la realidad. De facto el propio Trinxet dijo que de Goes tenía un domicilio del grupo Braxton en Londres para recibir la información bancaria. Atendiendo a todas estas

circunstancias hay que pensar que Salvador Trinxet al aceptar el encargo y durante la gestión de la facturación, era consciente, o debía de serlo, de que con su actuación se generaba un peligro de que la emisión de las facturas y la constitución de las sociedades opacas, dado que a través de las mismas se pretendía ocultar a sus verdaderos titulares, así como quién estaba detrás de sus cuentas en Luxemburgo, tuviera por objeto blanquear dinero procedente de actividades delictivas, en tanto en cuanto aquél se pretendía lavar a través de facturas falsas.

No parece muy convincente que el Salvador Trinxet dijera que creyó que la constitución de las sociedades tenía por objeto el que el Instituto Noos fuese a operar en el extranjero, pues en tal caso no era necesario constituir sociedades filiales. Además, Salvador Trinxet sabía que la entidad DE GOES LTD y su administrador no eran los verdaderos gestores de las citadas sociedades, sino que en realidad tras de ellas se escondía Diego Torres y los ingresos obtenidos a través de una entidad sin ánimo de lucro (IN). De igual modo tenía que resultar altamente sospechosa la apertura de sendas cuentas bancarias en Luxemburgo. Parecía bastante claro o altamente sugestivo que lo que se pretendía era ocultar los fondos que recibían ambas sociedades y si ello es así al Sr. Trinxet, dada su condición de experto en fiscalidad internacional, tenía que representársele como altamente posible o previsible que, atendiendo a la anormalidad de la operativa, la procedencia de tales fondos pudiera provenir de actividades delictiva y cuando menos de la emisión de facturas falsas, así como que a través de dicha estructura se estuviera eludiendo el pago de impuestos, por mucho que estos no hayan sido devengados en dicho momento al estimar la Agencia Tributaria que los imputados no tenían obligación de declarar los ingresos ilícitos provenientes de la malversación por razones de non bis in idem y porque respecto a determinadas anualidades su punición, a tenor de la fecha en que el procedimiento se dirigió a los imputados por estos ilícitos, ya habían prescrito – nos referimos a las anualidades de 2005 y 2006 –.

Finalmente, Salvador Trinxet es quien actuando con poderes de Gustavo Alberto Newton (De Goes Center inglesa) entre finales de 2009 y principios de 2010 vende a la Fundación Deporte Cultura e Integración Social todas las participaciones de DeGoes (la española), menos una, que pertenece a Mario Sorribas y, en momento posterior, actuando con un poder de Mario Sorribas (Administrador de DeGoes S.L.), vende esa única participación a la Fundación Deporte Cultura e Integración Social, de modo que esta acababa siendo propietaria de DE GOES. La operativa concluye cuando de la totalidad de las participaciones de la que era titular FDCIS, Ana Tejeiro acaba comprando una de su marido Diego Torres.

El recurso, por tanto, ha de ser estimado.

- *Recurso de Sindicato Manos Limpias solicitando la imputación de Mario Sorribas Fierro (Recurso número VII).*

La Acusación sostiene que Mario Sorribas actuaba como mano derecha de Iñaki Urdangarín, como lo demuestra que intervino en la realización de los eventos de Illes Forum, Valencia Summit y Fundación M-16, además acabó adquiriendo la sociedad de Goes S.L., siendo su administrador y quedándose con una participación para posteriormente y mediante un poder otorgado a Salvador Trinxet, vender dicha participación a FDCIS.

La acusación atribuye a Mario Sorribas al menos su participación en la estructura fiduciaria. Sin embargo de lo actuado lo que se desprende es que Mario Sorribas era empleado del Instituto Noos y de Aizoon, entidad de la que fue administrador en una

ocasión. Con su actuación, conforme a los correos que la parte recurrente refiere, su aportación en las actividades de Noos consistía en colaborar en la organización de eventos y el ámbito de comunicación de los mismos. No olvidemos que los eventos se organizaban. No hay constancia de que hubiera intervenido en las negociaciones para la contratación. Es verdad que hay correos en los que solicita a colaboradores y ponentes de Noos que determinados trabajos por la organización de eventos fueran facturados a entidades distintas de la que la que se prestaron los servicios, y en concreto a De Goes S.L., pero la emisión de estas facturas, que fueron giradas a instancias de sus jefes y en concreto de Diego Torres, carecen de trascendencia penal por cuanto los servicios facturados por ponencias o consultorías, según se desprende de la documentación y declaraciones testificales y referidos a esas facturas, fueron efectivamente realizados. A partir de ahí, no cabe deducir que tuviera el dominio de los hechos que se atribuyen cometidos a sus jefes.

Era un empleado más del Grupo Noos, aunque con mayor proyección y predicamento seguramente debido a su preparación y por eso tenía parking propio. Sin embargo, no consta que tuviera autonomía ni que entre él y sus jefes y los hermanos Tejeiro, encargados de la contabilidad y del giro de facturas entre empresas filiales y Noos, existiera un dolo compartido y que conociera que con su participación en los hechos estaba cooperando en la comisión de delitos de prevaricación, de malversación o de tráfico de influencias. Sí sabía, al igual que otros trabajadores, que las sociedades formaban un conglomerado y que funcionalmente eran en verdad una sola, así como que, precisamente y por eso mismo, la facturación iba a cargo de las filiales, aunque solo una era la matriz y la que realmente operaba (Instituto Noos), pero de ahí no cabe extraer -porque entonces habría que imputar a otros trabajadores con funciones parecidas -, que cooperase en el plan urdido por sus jefes y principales colaboradores. Sabía que se cometían irregularidades en la facturación y en la contratación, pero podía pensar que era temas fiscales, si bien no delictivos.

Es verdad que procedió a la adquisición de la sociedad De Goes S.L, pero lo hizo por orden de su jefe y socio de Iñaki Diego Torres. Y aunque operó como testaferro suyo ya que él no era el administrador de la sociedad, su labor se concretó en solicitar que los trabajos o ponencias encargados por Noos a consultores o colaboradores externos en lugar de que fueran giradas a dicha compañía lo fueran a De Goes, mas al margen de esa puntual intervención y referida a la emisión de facturas, si bien falsas, intrascendentes, pues los servicios que contemplaban se habían realizado (siendo la falsedad de orden doméstico o interno), no hay constancia de que tuviera conocimiento de la existencia de la empresa matriz De GoesLtd, ni del cruce de facturas entre esta y la filial De GoesS.L.. De hecho el grueso de la facturación y giro de las facturas corría a cargo de los hermanos Marcos y MiguelTejeiro y de Ana Tejeiro que también las giraba a Salvador Trinxet.

Debe tenerse en cuenta que para Mario Sorribas, como existía una única organización, de Goes Center no era otra cosa que el propio Instituto Noos y de hecho él mismo era trabajador de DeGoes S.L.

El Sr. Sorribas explica su condición de testaferro en cumplimiento de las exigencias y confianza debida a su jefe Diego Torres, y en este mismo contexto se explica que siguiendo sus indicaciones, cuando el Sr. Torres tuvo por conveniente, le solicitó que le cediera la participación que él tenía en De Goes S.L y que otorgase poder a SalvadorTrinxet para que la FDCIS procediera a adquirir De Goes S.L – lo que comportaba adquirir a su vez De Goes LTD -. No consta que por tal operación Sorribas hubiera recibido contraprestación alguna en pago de sus servicios, por lo que no hay

porque pensar que su labor no fuera la de mero testaferro o mandatario, pero sin conocimiento de que estaba participando en la operativa de blanqueo ideada por Diego Torres, su cuñado y Salvador Trinxet y en la que intervenían Marcos y Ana Tejeiro.

La declaración de responsables de Fundación M-16, Illes Balears Forum y de Valencia Summit indica que las actividades realizadas por Mario Sorribas consistían en la organización de eventos y tareas de comunicación.

El propio Salvador Trinxet explica que a Mario Sorribas ni siquiera lo conocía y que en lo que se refiere a la adquisición de DeGoes inglesa y BH (la que controlaba la anterior radicada en Belice) lo que hizo fue cumplir el encargo que le hicieron Diego Torres y Miguel Tejeiro y que ocurrió lo mismo por lo que se refiere a la compra por parte de la FCDIS de De Goes Center.

Existen, es verdad, sospechas respecto a la participación de Mario Sorribas Fierro en los hechos cometidos, y más específicamente en lo que se refiere a su aportación en la adquisición del entramado fiduciario, pero tales sospechas no alcanzan la entidad y suficiencia mínima para poder formular un juicio de acusación, de modo que consideramos ajustada la decisión sobreseyente respecto de este imputado.

El recurso, por tanto, se desestima y se confirma el auto apelado.

DÉCIMO.-*Recurso de Manos Limpias en el que se solicita se amplíe la imputación de Iñaki Urdangarín y de Diego Torres y su mujer por delito de blanqueo de capitales y en el que cuestiona el sobreseimiento dispuesto respecto de Carlos García Revenga.*

-De la imputación a Iñaki Urdangarín, Diego Torres y Ana Tejeiro Losada de un delito de blanquero de capitales.

Convenimos con la parte recurrente -pero sin que sea necesario practicar ulteriores diligencias de investigación- que aparece perfectamente factible formular esta imputación. El Juez instructor la rechaza, no por razones fácticas, sino estrictamente jurídicas o sustantivas al considerar que en la fecha de los hechos el autoblanqueo no era típico al no haber sido incorporado al CP hasta la reforma operada por la LO 5/2010, que concedió al tipo penal del blanquero de capitales la redacción actual.

Se trata de una cuestión de calado jurídico y, por tanto, en la medida en que el Juez a quo admite que se utilizó un entramado societario y giro de mendaces facturas entre las sociedades vinculadas a Noos (todas ellas sin estructura, propiedad unas del matrimonio Torres-Tejeiro y otra – Aizoon – propiedad del matrimonio Urdangarín-Borbón) tanto para repartir los beneficios, como para ocultar el sobrecoste de los eventos y para distribuir el dinero malversado entre los socios Sres. Urdangarín y Torres en proporción del 50%, utilizando sociedades instrumentales o de segundo nivel, algunas de ellas radicadas en paraísos fiscales, que a su vez cruzaban facturas falsas y que parte de estos fondos acabaron remansando en cuentas de Andorra, Luxemburgo y Suiza, resulta factible que sobre estos hechos, en el trámite correspondiente, se pueda formular acusación por blanqueo de capitales, pues tales acciones encajarían en el tipo penal del artículo 301 del CP, ya que, insistimos, la fuente de tales beneficios no provendrían directamente de la malversación sino de actos de ocultación o de transformación posteriores.

La punición del auto-blanqueo respecto de hechos anteriores a la reforma operada por Ley Orgánica 5/2010, en verdad, y contrariamente a lo sostenido en el auto apelado, no era un problema de legalidad o de tipicidad.

La Jurisprudencia del TS aceptó a partir del Acuerdo de su Pleno no Jurisdiccional de 18 de julio de 2006, la figuradelautoblanqueo y de hecho en la Sentencia del TS número 974/2012, de 5 de diciembre, dictada en el conocido caso de Ballena Blanca y al tratar el delito fiscal como posible antecedente al blanqueo de capitales, resuelve expresamente la cuestión y señala que el Legislador al introducir en el Código el autoblanqueo lo que hizo fue despejar las posibles dudas que había en la doctrina sobre la interpretación legal, explicando que no existe inconveniente para que el autoblanqueo tenga incluso como delito antecedente un delito contra la hacienda pública cuando lo que es objeto de blanqueo es la cuota defraudada, siempre que ésta, de forma inobjetable, pueda ser identificada, y que la mayor parte de ella sea la que se destine a la adquisición de bienes receptados, porque si estos se adquieren con dinero que en su mayor parte no proviene de la cuota no ingresada no se podrá considerar cometido el blanqueo con antecedente en el delito contra la hacienda pública.

Con todo, la punición del blanqueo de capitales respecto del autor del delito antecedente obedece más a una problemática de cuál es el tipo de concurso que rige ambas infracciones, en aquellos casos en que se produce (pues si el delito antecedente no ha sido castigado no hay problemas para su punición): si estamos ante un concurso de normas, de manera que el delito de blanqueo queda absorbido por el delito antecedente, ya que en caso contrario ello infringiría la teoría de los actos co-penados o el non bis in ídem,puesto que los actos de blanqueo se corresponderían entonces con la fase de agotamiento o disposición de los beneficios derivados del delito antecedente ya penado, o si estamos ante un concurso de delitos en relación de concurso real y ambos tipos pueden ser castigados en atención a que su bien jurídico es distinto.

No vamos a anticipar ahora un debate propio del acto del plenario, pero lo que sí cabe señalar es que el TS se ha venido decantando desde el citado Acuerdo del Pleno no Jurisdiccional de 2006, aunque con alguna inflexión; y recientemente ha incidido en ello, ratificando la aceptación del autoblanqueo antes de la reforma operada por LO 5/2010, de 22 de junio, en que la convivencia de ambos tipos lo es en relación de concurso real y que ambos delitos son compatibles, al no lesionar el mismo bien jurídico, incluso cuando el autor no es un tercero, sino el mismo que ha incurrido en el delito base precedente causa del blanqueo.

El parecer del TS no hace sino seguir la línea marcada por el GAFI (Grupo de Acción Financiera) – en su última recomendación de 2012, que ha postulado que el delito fiscal grave, al margen de discusiones sobre el origen ilícito de los fondos no declarados, debe ser considerado delito previo al blanqueo de capitales - y los criterios en los que actualmente esta trabajando la Unión Europea, que está elaborando una nueva Directiva en la materia.

Claro exponente de esta línea Jurisprudencial es la doctrina que incorpora la Sentencia dictada en el caso conocido por "Ballena Blanca" (también cabe citar, aunque el TS en este caso casó la sentencia de la Audiencia por no haber concretado la Audiencia la cuota defraudada la 182/2014, de 11 de marzo.). Nótese que esta sentencia (nos referimos a la primera de las nombradas) comenta y cita la normativa español administrativa vigente en la materia de prevención del blanqueo de capitales (Ley 10/2010), en la que expresamente se recoge como bienes susceptibles de ser objeto de blanqueo la cuota defraudada en el caso de los delitos contra la hacienda pública.

Volviendo a la cuestión de la punición del autoblanqueo la posturas jurisprudenciales pueden diferenciarse en dos (y la distinción la recoge nítidamente la STS 279/2013, de 6 de marzo): las anteriores al Acuerdo del Pleno no jurisdiccional del 2006 y las

posteriores a dicho acuerdo que, aunque con algunas en sentido contrario, se decantan mayoritariamente por la punición del auto-blanquero (STS 796/2010, 884/2012, 997/2012 y la 974/2012 – caso "Ballena Blanca" – que consolida esta interpretación. Como más recientes y correspondiente al año en curso podemos citar la 245/2014, de 24 de marzo), aunque es digno de reconocer que la mayor parte de ellas se refieren al delito de tráfico de drogas como delito precedente (la de Ballena Blanca admite por vez primera que el delito fiscal puede ser causa de blanqueo) y en estos casos lo que suele ocurrir es que las ganancias de estos delitos suelen comprender o abarcar periodos de tiempo más amplios o distintos de los que han sido objeto de condena por el delito contra la salud pública, por lo que no en esos supuestos difícilmente resulta de aplicación la teoría de los actos co-penados.

Con todo, la punición del auto-blanqueo, y sobre todo cuando el delito antecedente es un delito contra la hacienda pública, para que ambos delitos concurran en relación de concurso real, sí parece necesario que las ganancias procedentes del delito antecedente vaya precedido de un acto de ocultación o de transformación previa, el cual generalmente convive con otro tipo de infracciones - falsedades -. Se trata de evitar principalmente que la mera utilización o posesión de las ganancias obtenidas del delito anterior puedan ser consideradas actos de blanqueo, de ahí que se requiera algún acto de conversión o transformación precedente para deslindar la fase de agotamiento del delito anterior del posterior lavado del dinero sucio.

En el supuesto a examen las ganancias presuntamente obtenidas por los Sres. Urdangarín y Torres de la actividad contractual supuestamente ilegal y fraude a la administración, no procederían directamente de dicha actividad o de la estafa que también es objeto de imputación, sino de actos de ocultación posteriores mediante la utilización de un entramado societario ficticio con empleo de facturación falsa, lo que habría posibilitado encubrir el sobrecoste de los eventos y lograr que parte de esos beneficios remansasen en el extranjero. Igualmente la estructura fiduciaria simulada habría permitido la ocultación de los fondos y de sus verdaderos titulares.

Por tanto, cuando el dinero malversado entra en las cuentas de las sociedades instrumentales estaría ya previamente lavado.

El motivo se estima.

Mantenimiento de la imputación a Carlos García Revenga.

Insiste esta parte apelante en que existen indicios de participación en la gestión de NOOS como miembro de su órgano de dirección al figurar como tesorero de la asociación y porque hay correos que avalarían que estaba al corriente de las actuaciones llevadas a cabo por Iñaki Urdangarín.

Lo cierto es que este imputado no es más que una figura decorativa en el Instituto Noos y, como dijimos, la posible influencia que su aparente participación en el órgano de dirección de IN trasladaba a terceros a través del folleto del instituto constituye una actuación de acompañamiento impune. De facto, no ha sido la existencia del folleto en el que se identificaba la Asociación Noos y como integrantes de la misma a la infanta y a Carlos García Revenga, que se significaba como secretario de la Casa Real, lo que influyó, ni determinó la celebración de los convenios de colaboración a los que se ha hecho referencia en fundamentos pretéritos, sino que ello obedeció a las entrevistas y contactos mantenidos por Iñaki Urdangarín con políticos y representantes de las entidades públicas contratantes.

En cuanto a los correos mencionados, a través de ellos se evidencia, ciertamente, una estrecha vinculación personal y relación con Iñaki Urdangarín, pero el contenido de estas comunicaciones indica más bien que la intervención del Sr. Revenga en la organización de los eventos realizados por Noos tuvo que ver con actuaciones de tipo protocolario y de corrección de estilo. No hay evidencias que acrediten que intervino en la gestión de Noos, ni de que se hubiera beneficiado con ello. No vemos razones para alzar el sobreseimiento. En este sentido nos ratificamos en el contenido y en cuanto afirmábamos en nuestro auto de fecha 7 de mayo de 2013 y en el posterior de fecha 29 de noviembre (Rollo 430/13), en el que si bien no decretamos el sobreseimiento de las actuaciones en contra de la solicitud del Sr. Revenga, ello fue debido a razones procesales y conforme al criterio que ha venido mantenido esta Sala - coherente -entendemos, con el espíritu que impregna la ley de enjuiciamiento, relativo a que la Ley adjetiva criminal no reconoce un derecho a la defensa a solicitar un pronunciamiento anticipado de sobreseimiento, pues el momento oportuno para que éste pueda tener lugar es cuando el procedimiento llega a su conclusión, ya que es entonces cuando el instructor ha de efectuar un juicio positivo o negativo de imputación, lo cual requiere la determinación de unos hechos como colofón de las investigaciones.

La determinación de esa base fáctica resulta imprescindible para que el Tribunal de apelación pueda revisar la corrección del juicio de acusación, ya sea positivo o negativo.

De todos modos, la solicitud de imputación formulada por la acusación recurrente resulta de todo punto incoherente atendida la actitud procesal desplegada. Decimos esto porque se pretende conseguir la imputación del Sr. Revenga por su participación en Noos y en cambio no se postula la imputación de la Infanta (extremo éste que revela lo inconsistente del incidente de recusación). No olvidemos que la posición de la Sala en nuestro auto de 7 de mayo de 2013 fue la de suspender tal imputación, pero no hubo pronunciamiento sobreseyente al respecto, aunque el Juzgador tácitamente así lo ha considerado, lo que no imposibilitaba que la parte apelante, en caso de estar en desacuerdo, lo cuestionase nuevamente con ocasión de su apelación. No lo ha hecho y, por tanto, no tiene sentido, por razones del principio de igualdad, que la acusación popular solicite que se deje sin efecto el sobreseimiento de Don Carlos García Revenga por los mismos hechos que finalmente admite – por no cuestionarlo – que no fueron cometidos por la Infanta Cristina.

El motivo se rechaza.

UNDÉCIMO.- Nos corresponde ahora entrar en el examen del recurso promovido por la defensa de Don Iñaki Urdangarín (*recurso número XI*).

Se queja en primer lugar la defensa de Iñaki Urdangarín de que se ha producido la vulneración del derecho de defensa recogido en el artículo 24 de la CE, por abuso sistemático, bien del secreto de las actuaciones, o de que estas han sido sustanciadas y seguidas a espaldas del recurrente.

El secreto de las actuaciones constituye una herramienta útil y necesaria para la instrucción. No es la extensión temporal del secreto por un plazo determinado o su recurso en determinados momentos lo que determina su proscripción, sino su justificación y sobre todo que de ello se derive efectiva y material indefensión.

Por tanto, si la declaración del secreto, total o parcial, de la instrucción, incluso para las partes personadas, se halla justificada y razonada y una vez alzada dicho secreto no se causa indefensión, en tanto en cuanto se de oportunidad al imputado o afectado de

solicitar o intervenir en otras diligencias de investigación, ya de cargo o de descargo, no cabe invocar que ello le haya provocado indefensión constitucionalmente relevante y lesiva para su derecho a la defensa.

El recurrente alega una indefensión que no explica, ni motiva y de facto llama la atención que pudiendo hacerlo, si le conviniere para su defensa, no aprovecha su recurso para demandar la práctica de aquellas diligencias de investigación no efectuadas que estime necesarias para su descargo o de aquellas otras que, siendo de cargo, quisiera reiterar para su desacreditación o puesta en entredicho o simplemente para que se practicasen de modo contradictorio.

Conviene precisar que nuestro Tribunal Constitucional tiene declarada con reiteración la constitucionalidad del secreto de las actuaciones y la conceptúa como una medida jurídicamente admisible, sin más restricción que la de que su adopción no deberá prolongarse más allá del tiempo del que sea estrictamente necesario para preservar el fin legítimo de la investigación judicial de los hechos y permitir, mediante su levantamiento progresivo o de una sola vez, que las partes procesales puedan tener conocimiento de todas las diligencias practicadas en la causa antes de que se acuerde la conclusión del sumario, o de la fase de instrucción para poder instar lo que a su derecho convenga.

La Jurisprudencia del TS y la doctrina del TC y del TEDH son concordantes en esta materia.

Así el TC -por todas SSTC 174/2001, de 26 de Julio y 176/1988, de 4 de Octubre ver lastc155/2004, que declara la Constitucionalidad de esta medida y su compatibilidad con los derechos fundamentales-, añadiendo que el tiempo de duración del secreto del sumario no es dato relevante en orden a apreciar si se ha producido o no indefensión. Así, ésta vulneración se producirá con independencia de tiempo más o menos prolongado de duración de la medida si su adopción no fue razonable o si no aparece debidamente justificada y, en todo caso, si no se concede la oportunidad posterior para defenderse frente a las pruebas que en el sumario y bajo la vigencia del secreto hayan sido practicadas (en el mismo sentido se pronuncian las Sentencias del TS de 26 de Diciembre de 2005 y de 11 de Julio de 2003).

En suma, lo esencial no es si el secreto se extiende durante más o menos tiempo sino si estaba justificado (al respecto de lo cual ya se pronunció esta misma Sala en recursos precedentes), y si se produjo con posterioridad indefensión, lo que dependerá de que puedan o no pedirse y llevarse a cabo diligencias de investigación por los imputados o encausados.

Con todo, si finalmente del secreto se hubiera derivado indefensión, esta sería achacable a la actitud negligente de la parte recurrente, ya que pudiendo atacar el auto transformador a fin de solicitar nuevas probanzas ha optado por desistir y no hacerlo.

En cualquier caso, el examen de esta cuestión se ha de ubicar, necesariamente, en la audiencia previa prevista en el artículo 786.2 LECrim, para el procedimiento abreviado, que no impide su traslación funcional, por vía analógica, al ámbito del procedimiento ordinario como ha tenido oportunidad de afirmar el Tribunal Supremo (SSTS 11.10.2006, 22.4.2002, 17.9.2001), rectificando una rigorista línea interpretativa que rechazaba dicha posibilidad.

El motivo, por consiguiente, se rechaza.

Critica, de otra parte, el recurrente que su defendido haya podido cometer delitos de prevaricación, fraude a la administración, tráfico de influencias y de malversación, por cuanto según explica si bien desde el punto de vista subjetivo los contratos se celebraron con empresas y entidades públicas sujetas al derecho privado (CACSA, FTVCB, IBATUR, ILLESTUR), a excepción de la preparación de los Juegos Europeos (en donde interviene la Comunidad Autónoma), por el objeto de tales contratos – de colaboración y patrocinio – se hallaban excluidos de la aplicación de la normativa reguladora de los contratos administrativos y por tanto eran del todo ajenos a los presupuestos de publicidad y concurrencia competitiva.

Al respecto de esta cuestión nos remitimos a lo ya resuelto al tratar de los contratos de colaboración y a la contestación dada sobre el particular a otros recurrentes que utilizaron en su descargo esa misma tesis.

Debe recordarse, sin embargo, otra vez, que obran en la causa informes de la Intervención General del Estado sobre el particular, pronunciándose a favor de que los convenios de colaboración celebrados por el Instituto Noos y la FDCIS sometidos a enjuiciamiento por su objeto: asistencia técnica y prestación de servicios, debían de haberse sustanciado conforme a las normas de contratación que rigen los contratos públicos, rechazando la posibilidad y nunca antes lo habían visto que una administración, siquiera instrumental, pudiera concertar un contrato de patrocinio con un particular, ya que lo normal, conforme a este tipo o clase de contratos, es que ocurra lo contrario: que el particular patrocine al ente público.

Este tema seguro que se reiterará en el acto del juicio oral y allí deberá de existir un pronunciamiento definitivo sobre el particular. Ahora basta y es suficiente con que quepa realizar un juicio probable de acusación y éste aparece colmado con creces.

En el fondo la misma parte recurrente lo reconoce y es consciente de que a partir del contenido del auto apelado existe fundamento para una acusación, quedando relegado a la sentencia y al debate del juicio, si esa acusación y las pruebas que se articulen, tanto de cargo como de descargo, permitirán enervar la presunción de inocencia. Por consiguiente habrá que estar a lo que allí acontezca.

Reiteramos que el delito de prevaricación puede cometerse tanto porque la resolución - en este caso el convenio-, se hubiera convenido con clamorosa infracción de la legalidad, de tal modo que se tratase de un convenio suscrito a sabiendas de su injusticia y conociendo que a través del mismo se encubría un contrato o subvención, como aún respetando aquella y estimando que los convenios no estaban sujetas a las normas de contratación pública, si se considerase que dicha concertación no vino propiciada o surgió de la necesidad de satisfacer el interés público que permitiría justificar esa concertación, sino que habría sido manifestación de un acto de desviación o de abuso de poder, surgido del tráfico de influencias. Hipótesis esta que es la que vierte y recoge el auto apelado y mantienen también las acusaciones personadas, tanto la oficial como las populares.

Por tanto, el respeto o no a las reglas de la contratación podría constituir un indicio de su ilegalidad y del fraude a la administración y haber servido de cauce para dar lugar a la malversación, pero no sería la causa determinante de tales comportamiento, a tenor de la versión judicial que contempla y describe el auto apelado en su extensa narración, sino que estos se justificarían presuntamente en el tráfico de influencias, el cual explicaría que para la contratación se hubiera acudido a la utilización de administraciones instrumentales y a la figura de los convenios de colaboración, en los

cuales el importe de la prestación económica a satisfacer al Instituto Noos, atendido el carácter subjetivo en que se fijó y elevado coste económico del compromiso contraído de fondos públicos, en consideración al objeto de estos convenios, así como la falta de control en el gasto por parte de las entidades a través de las cuales se habrían canalizado los fondos públicos, que eran las obligadas a la fiscalización, por mucho que luego ellas fueran a su vez fiscalizadas por las administraciones de las que dependían, podría hacer suponer que dichos importes y prestación en que constituía la colaboración de los entes públicos se habría fijado, no atendiendo a los serios y rigurosos criterios que han de regir la disposición de los fondos públicos, sino en consideración a la entidad beneficiada de los mismos, por aparentar que se trataba de una entidad sin ánimo de lucro y por las personas relevantes que figuraban estar en su organización. De ahí que la suscripción de tales convenios y en la fijación de los fondos públicos a destinar hubiera podido incurrirse en trato de favor o privilegiado, circunstancia de la que se habrían aprovechado los gestores y socios de Noos para lucrarse ilícitamente.

El único aspecto reseñable, en lo que a los convenios de colaboración se refieren y que precisaría de un cierto comentario por nuestra parte, con relación a las alegaciones que hace la defensa del Sr. Urdangarín y que incide, como hemos dicho, en cuestionar que por el objeto de los convenios de colaboración estos hubieran de cumplir las normas de contratación pública (si bien no cuestiona que desde el punto de vista subjetivo las entidades públicas intervinientes les afectase la Ley de Contratos), guarda relación con el papel del recurrente en la FDCIS.

Sobre este extremo concreto, la defensa del Sr. Urdangarín niega que después de abandonar en marzo de 2006 el Instituto Noos, su representado hubiera participado en la constitución de esta fundación para seguir dedicándose a los negocios, a pesar de que la Casa Real le habría solicitado que abandonase tales actividades y en concreto que dejase de contratar con Administraciones públicas y entidades a ellas vinculadas.

Sin embargo, tal y como señala el auto apelado, existen indicios que confirmaría que el Sr. Urdangarín y Diego Torres crearon la fundación Deporte Cultura e Integración Social en el año 2006, para continuar contratando con entidades públicas y ello con el objetivo de dejar de utilizar la Asociación InstitutoNoos, debido a la mala imagen que dicha entidad podría haber suscitado en la opinión pública.

En relación a esta cuestión el Sr. Boixareu ha reconocido que actuó como testaferro del Sr. Urdangarín para la constitución de la fundación – “me pidió el favor de si yo podía ser fundador porque él no podía aparecer, sin que me explicase la razón y yo no se la pedí” - y manifestó que el día de su constitución en la notaría acudió acompañado de Urdangarín y de Diego Torres. Explicó Boixareu Antolí que los responsables de la fundación iban a ser Diego Torres como Director General e Iñaki Urdangarín como Presidente del Consejo Asesor.

Las manifestaciones del Sr. Boixareu vinieron confirmadas por el testigo Francisco J. Nieto Santa, en cuanto a la participación activa y al máximo nivel del Sr. Urdangarín en todos los avatares de la FDCIS, ya que dicho testigo, que fue Presidente de su Patronato hasta octubre de 2008 (órgano que al parecer nunca se reunió), el cual ha declarado que las personas que le solicitaron ostentar este cargo fueron, primero Diego Torres, y dos o tres meses después, Iñaki Urdangarín y por lo que se refiere a las negociaciones que presidieron la firma del convenio marco suscrito con la Fundación Madrid 16, todos sus partícipes en ellas manifestaron que Iñaki Urdangarín se presentó ante ellos como la cabeza visible y responsable de la FDCIS.

Constan en las actuaciones, también, que la dotación aportada por el testaferro Boixareu le fue luego devuelta como consecuencia de la disolución y liquidación de la fundación ARETÉ, la cual cedió todos sus activos, fondos y pasivos a la FDCIS. La cantidad aportada para la constitución de ARETÉ a partes iguales por Diego Torres e Iñaki Urdangarín fue de 30.000 euros. De ahí, que el Sr. Boixareu recuperase su aportación mediante la emisión de dos facturas por ese mismo importe contra el Instituto Noos.

Basta añadir la existencia de un correo electrónico que resulta muy ilustrativo a la hora de concluir sumarialmente que el recurrente Iñaki se hallaba tras la gestión de la FDCIS.

Nos referimos al correo que puede examinarse en el folio 11.298, que Mario Sorribas – trabajador de Noos –remitió el 20 de diciembre de 2006 a Diego Torres e Ignacio Urdangarín, en el que dice textualmente:

"… adjunto propuesta para que Iñaki pueda explicar su implicación en la fundación en un momento dado. Por favor, Iñaki, dime si la slide 22 te parece suficientemente suavizada o si todavía "chirría".

En cuanto a las imputaciones por delito fiscal admite irregularidades administrativo-tributarias, pero en modo alguno que la cuota defraudada llegue a superar los límites del delito fiscal y menos aún en el impuesto de sociedades.

De acuerdo con este alegato se acepta por el recurrente que existe un fundamento para formular acusación por sendos delitos fiscales en el impuesto de la renta de los ejercicios de 2007 y 2008.

La determinación definitiva de la cuota tributaria, y si esta superó o no el límite del delito fiscal, es cuestión a decidir por el Tribunal sentenciador a partir de la prueba a practicar en el juicio oral, bajos los principios y garantías procesales de publicidad, inmediación y contradicción.

Se desestima el recurso.

DÉCIMOSEGUNDO.-Corresponder ahora el turno al recurso interpuesto por la defensa de Diego Torres y su esposa Ana Tejeiro (*Recurso número XII*).

Aunque el recurso y la previa reforma son extensísimos en su exposición y cita de doctrina, cabe sistematizar su contenido del modo siguiente:

Respecto de Ana Tejeiro se queja su defensa de aunque fuera socia o miembro del órgano de administración de algunas de las entidades que coparticipaba con su marido, ello no es suficiente para su imputación. Se hace necesario que hubiera participado en los hechos, dado que a tenor del principio de culpabilidad la responsabilidad es personal.

A tal efecto, indica, los informes de la Agencia Tributaria son concluyentes (informe avance 4) respecto a que Ana Tejeiro no participaba en la toma de decisiones del Instituto Noos, ni en las sociedades del grupo, ni en la elaboración de proyectos, ni en su presentación y venta a determinados clientes. Ni era ella quien elaboraba la facturación, ni la que determinaba los importes o personas o entidades a quienes se debían girar las facturas.

Es por ello por lo que que Ana Tejeiro ha de ser excluida de este procedimiento y ha

de recibir el mismo trato que la Infanta Cristina dado que su papel fue el mismo -formar parte de entidades vinculadas al Instituto Noos, que libraban facturas a la entidad matriz, pero sin participación en la gestión y en la toma de decisiones -. Ver informes avance a los folios 19354 a 59 y la transcripción de la comparecencia de los peritos informantes - folios 26691 a 26740 TOMO LV-.

Con todo, insiste la parte apelante, tanto Diego Torres como su esposa Ana Tejeiro actuaron en todo momento en la creencia de que su actuación era legal y correcta por cuanto contaban con el amparo y tutela de los aparatos del Estado y concretamente de la Casa Real, cuya participación resultaba evidente de la composición misma de la Junta Directiva del Instituto Noos, ya que en el órgano de dirección figuraba el yerno del Rey como Presidente, así como su mujer de vocal y de tesorero el secretario de la Infanta el Sr. García Revenga.

El sobreseimiento de la causa respecto de Ana Tejeiro se impone, denuncia, por cuanto no era socia del Instituto Noos, ni realizaba labores de gestión ni de administración. Simplemente, se trataba de una administrativa que trabajaba como una empleada más. Es vedad que en 2007 adquirió el 50% de las participaciones sociales del Instituto Noos, pero lo hizo a requerimientos de su marido. En todo caso ella nunca intervino en la gestión.

Respecto a la contratación llevada a cabo por el Instituto Noos y cuya ilegalidad se predica en el auto combatido, la de patrocinio deportivo se halla fuera del ámbito de la contratación administrativa, al igual que el resto de contratos de colaboración que, por su objeto, no estaban sujetos a las exigencias del respecto a los principios de concurrencia y publicidad.

En todo caso, la cabeza visible y quien realizó la influencia para la contratación y trató directamente con funcionarios y responsables políticos fue su socio Iñaki Urdangarín, debiendo de tener en cuenta que éste en Noos contaba con mayor número de apoyos: su esposa y el Sr. García Revenga. Diego Torres Pérez ninguna intervención tuvo en los contratos ni en las negociaciones previas y si se incurrió en conductas delictiva en la contratación nada tuvo que ver. Diego Torres no es funcionario, ni fue él quien ejerció influencia sobre los mismos, ni se concertó para defraudar a la administración. De ser así ello sería imputable al entorno de Iñaki Urdangarín, ya que era él y su gente quienes ostentaban la mayoría de integrantes de la Junta Directiva del Instituto Noos.

En cuanto a la creación de la Oficina del Proyecto y contratos de colaboración corporativa y de imagen vinculados al patrocinio del equipo ciclista Illes Balears Banesto, de las actuaciones se deduce que NOOS consultoría ostentaba los derechos de imagen del equipo ciclista Banesto.com y, por tanto, si hubo irregularidades en la contratación éstas no serían trascedentes, pues aunque se hubiera omitido en el expediente hacer constar la exclusividad, aquella en verdad existía.

Lo que está claro, para la parte apelante, es que no se puede imputar a Ana Tejeiro Losada un delito de prevaricación, ni tampoco de fraude a la administración, ni tampoco de malversación, atendido que se trata de delitos especiales propios que solo pueden ser cometidos por funcionarios. Y el extraneus solo puede ser partícipe como cooperador necesario o inductor, pero, se insiste, Ana Tejeiro no intervino, ni el auto dice de qué modo colaboró en tales conductas. No hubo por parte de Ana ni de Diego Torres aporte causal alguno que permita la atribución de los delitos de prevaricación, fraude ni de malversación.

Quien propició las relaciones y encuentros con políticos y responsables de las entidades contratantes fue el yerno y hoy cuñado del Rey.

Protesta la defensa del trato hiriente que dice haber recibido Ana Tejeiro en comparación a la Infanta Cristina y de otros imputados al respecto de los cuales se ha decretado el sobreseimiento. Ana Tejeiro, al igual que la infanta, supuestamente formaban parte del entramado societario. La infanta estaba en Aizoon a la que se derivaron fondos presuntamente malversados, empero a ella no se le imputa participación ninguna en los hechos.

Cómo se puede hablar de malversación si el dinero recibido tuvo el fin encomendado y los eventos se realizaron, se lamenta el recurrente.

Insiste en la existencia de error de prohibición y en la no conciencia de la antijuridicidad de la conducta delictiva que se les atribuye a Diego Torres y a Ana Tejeiro.

Se remite en cuanto al cumplimiento de las normas de contratación por no ser objeto de los contratos administrativo, a lo alegado por otros recurrentes – Luis Lobón–

Basta examinar los razonamientos y alegaciones que hace la parte apelante para comprobar que principalmente el recurso tiene por objeto obtener un pronunciamiento de sobreseimiento respecto de la esposa del Sr. Torres.

Parte la defensa de Ana Tejeiro, el papel en el entramado societario de su patrocinada y de la Infanta Cristina fue coincidente y la respuesta jurídica en ambos casos debería ser la misma.

Esa afirmación no se corresponde con la realidad de lo actuado. La confusión ha sido propiciada por el propio Instructor que ha querido equiparar la conducta de ambas.

Resulta innegable, pues ha sido comentado hasta la saciedad, que la Infanta formaba parte del órgano de gestión y dirección de la Asociación Instituto Noos, en cuanto era vocal del Instituto.

Ahora bien, a partir de ahí y a salvo de su papel decorativo y utilización de su nombre en el órgano de dirección del Instituto para hacer aparecer que el mismo contaba o podía contar con el respaldo de la Casa del Rey, no existe evidencia ninguna que acredite que la Infanta participó en modo alguno en la gestión del Instituto.

Por el contrario, la Sra. Tejeiro sí que trabajaba para dicha entidad y para las sociedades del grupo, en tanto en cuanto era la que se encargaba personalmente de labores de recursos humanos y de la contratación y selección del personal. Físicamente prestaba servicios para el Instituto Noos y las sociedades vinculadas a ella y su marido.

Ocurre, además, que Ana Tejeiro y su hermano Marcos se encargaban de remitir la facturación a la sociedad fiduciaria de Goes Inglesa a través del despacho de Salvador Trinxet, para que éste a su vez la reenviase al despacho de abogados de Londres que se encargaba de la llevanza de la contabilidad. Luego le remitían a ella, por mediación de la Secretaria de Trinxet, la facturación de esa sociedad y de la matriz que estaba en Belice (BH).

En su recurso la defensa de Ana Tejeiro orilla por completo la cuestión relativa al dinero remansado en bancos de Andorra, Luxemburgo y Suiza, con cuentas corrientes a

nombre de la recurrente, siendo ella cotitular de los fondos custodiados en Suiza.

Por tanto, su papel no es en modo alguno equiparable sumarialmente hablando al de la Infanta, que efectivamente era socia al 50% de la entidad Aizoon, sociedad instrumental utilizada por Iñaki para desviar el dinero presuntamente malversado, y como instrumento para repartirse al 50% los beneficios obtenidos por Noos y su grupo con su socio el Sr. Torres.

Es innegable que Ana Tejeiro no participó en la concertación con las entidades públicas, pero cooperó con su marido en el apoderamiento de los fondos públicos obtenidos de la actividad ilícita de Noos, en la que ella trabajaba, a través del entramado societario que sirvió para desviar y ocultación de tales fondos y conseguir que todos, o parte de ellos, quedasen ocultos en el extranjero al ser titular de los mismos una sociedad opaca de la que su marido tenía poderes y los dos manejaban sus fondos a través de Internet.

Dicha participación es causal y esencial, tanto para el apoderamiento de los fondos de Noos, en tanto en cuanto como entidad sin ánimo de lucro no podía repartir beneficios, como para ocultar el origen de los mismos y conseguir aparentar que parte de ellos eran lícitos y en consecuencia para blanquearlos, beneficiándose de ello como lo demuestra que todos o parte de las ganancias obtenidas acabaron recalando en cuentas en el extranjero de la que la recurrente era cotitular juntamente con su marido.

Por su condición de jefa y responsable directa de recursos humanos la recurrente sabía y participaba en ello, que el entramado NOOS era una estructura meramente formal en la que los empleados que realmente trabajaban en las varias sociedades -los había ficticios con la finalidad de aplicar la libertad de amortización - en realidad lo hacían para una sola, a través de la cual lo único que se buscaba era canalizar los beneficios obtenidos por su marido e Iñaki Urdangarín obtenidos principalmente de contrataciones públicas.

Todo ello pone de manifiesto la existencia de un acuerdo de voluntades entre ambos esposos y de un dolo compartido en el apoderamiento del dinero presuntamente malversado para su posterior blanqueamiento y disfrute de los beneficios ilícitamente obtenidos, pues de no ser así no se hubiera intentado ocultar su origen y pertenencia.

Por lo que se refiere a la participación que a la recurrente le atribuye el Juez a quo en un delito contra la hacienda pública cometido por su marido, la defensa se apoya para solicitar el sobreseimiento por estos hechos sobre la base del informe Avance 4 emitido por la Agencia Tributaria.

Trataremos esta cuestión en profundidad al dar respuesta a los recursos interpuestos por el Ministerio Fiscal y la defensa de la Infanta con respecto a esta misma cuestión, aunque referida a la defraudación de los impuestos de la renta de su marido Iñaki Urdangarín en las anualidades de 2007 y 2008.

Para salir al paso, basta decir ahora que esta imputación en modo alguno se presenta absurda por mucho que la esposa de Diego Torres no participase en la gestión del Instituto Noos y de las entidades pantalla a él vinculada, pues la clave de la imputación no está en quien de los dos era el que generó las rentas, sino que estas se ocultaron a través de sociedades pantalla de las que la recurrente era socia al 50%.

Se trata, como seguidamente comentaremos al abordar esta misma cuestión con relación a la Infanta Cristina, no de un problema objetivo de participación o cooperación

en la defraudación, ya que si esta tuvo lugar fue porque la renta personal obtenida por Diego Torres en lugar de ser declarada como tal se ocultó utilizando sociedades instrumentales que carecían de estructura alguna para pagar menos a través del impuesto de sociedades, y en las que la aquí recurrente participaba como socia al 50% y en algunos casos era incluso administradora, sino de un problema de dolo. Esto es, si la recurrente conocía el propósito defaudatorio de su marido y si conociéndolo sabía que cooperaba en él.

Por lo que respecta a las alegaciones que hace Diego Torres respecto a que la concertación de Noos se debió principalmente al papel de su socio y no al suyo. Probablemente es verdad, pero de lo actuado y de la declaración de multitud de testigos y de los responsables de las entidades públicas contratantes y de otros imputados, cabe indiciariamente colegir que entre ambos socios existían un reparto de papeles o de roles, así mientras Iñaki Urdangarín era la cara visible de la asociación Instituto Noos, esto es, quien se encargaba de las relaciones públicas, o lo que es igual el socio comercial o de influencia, Diego Torres era la persona que se encarga del aspecto organizativo y del funcionamiento interno del grupo Noos. Era él el quien daba ordenes a sus cuñados para la llevanza de la facturación indicando cual de las sociedades del grupo debía de emitir facturas a Noos, o de ellas entre sí, e impartía instrucciones a Marcos Tejeiro sobre cómo había que distribuir entre él y su socio Iñaki el importe de los beneficios obtenidos.

Diego Torres firmó los convenios de colaboración e intervino en algunas de las reuniones previas a estos o a otros contratos (se entrevistó con Rita Barberá y con el Secretario de Eventos de la Generalitat, y con Mercedes Coghen y su equipo en relación al convenio de colaboración suscrito con la fundación Madrid 16). También se reunió con Marcos Tejeiro y Miguel Tejeiro con Salvador Trinxet para el diseño de las entidades opacas y utilizó a Mario Sorribas para que actuase como administrador fiduciario de DE GOES CENTER S.L (la compañía española).

En suma, existen indicios que avalan las imputaciones que el auto apelado describe del recurrente Diego Torres Pérez, quien habría podido incurrir en los delitos de prevaricación por inducción, tráfico de influencias, fraude a la administración, estafa, malversación, delito contra la hacienda pública y blanqueo de capitales.

Resulta difícil sostener, ante la existencia de los relacionados indicios de criminalidad, que el recurrente mantenga no haber tenido conciencia de la antijuridicidad de su conducta, al confiar que de haber actuado irregularmente habría sido alertado y puesto en aviso por los servicios de seguridad del estado que tutelaban el proceder diario de su socio y de la mujer de éste. Más bien parece que actuó confiado en por ser socio de Urdangarín y hallarse éste emparentado con la Familia Real y utilizar a la Infanta como escudo fiscal, siguiendo la idea diseñada por su cuñado Miguel, en tanto asesor fiscal de Noos y que éste hubo comentado al notario con el que el grupo trabajaba, jamás iba a ser sujeto a investigación penal.

En todo caso la acreditación del error, por ser él quien lo alega, compete a la defensa y será en el juicio donde deba acreditarlo.

El recurso ha de perecer.

DECIMOTERCERO.- Recursos del Ministerio Fiscal y de la defensa de la Infanta Cristina. Abordaremos también conjuntamente las alegaciones de la Abogacía del Estado, cuya posición procesal como comentaremos se presenta mucho más coherente

y conforme con la finalidad del auto transformador y consecuencias que dicha decisión procesalmente comporta (Recursos número XIII y XIV).

Haremos un resumen de las alegaciones que realiza cada parte:

El Ministerio Fiscal:

De acuerdo con el planteamiento del Ministerio Fiscal, el Juez Castro atribuye a la infanta Cristina haber cooperado en el delito fiscal cometido por su marido Iñaki Urdangarín en los ejercicios fiscales de 2007 y 2008, recogiendo dos hipótesis: que se considere Aizoon una sociedad pantalla o, que no lo fuera, así como de delito de blanqueo por haberse beneficiado del dinero malversado y defraudado que recibió Aizoon de NOOS y de la actividad profesional de Iñaki Urdangarín en entidades privadas a partir del año 2006. El blanqueo habría consistido en destinar fondos de Aizoon en determinados gastos familiares y personales que se analizan en el recurso.

En esencia, el Fiscal después de criticar el cambio de parecer operado por el Juez a quo en el auto de fecha 5 de marzo de 2012 – que denegó la imputación – y en el posterior que la acordó – no lo olvidemos, siguiendo la línea de investigación trazada por esta Sala en nuestro auto de 7 de mayo del pasado año – se opone a que la Infanta pueda ser juzgada por un delito fiscal y de blanqueo de capitales. Respecto del delito fiscal, alega el Ilustre Ministerio que solo sabemos que la Infanta conocía que su marido canalizaba los ingresos de su actividad profesional a través de Aizoon, pero ello no es suficiente para deducir que fuera conocedora de que su marido defraudaba en el impuesto de la renta de él. La Infanta no participaba en la gestión de Aizoon, nos recuerda el Ministerio Público.

El instructor utiliza tres datos inocuos para atribuir a la Infanta imputada cooperación en la defraudación: ser socia deAizoon, ser la esposa de Urdangarín y haber realizado gastos personales con cargo a Aizoon. Pero ser socio mayoritario no puede ser confundido como socio de control. El asesoramiento fiscal lo llevaba despacho Medina-Tejero. Y la declaración de la renta un asesor de la Casa Real. Aunque conociera y participase en la forma de contratación del personal doméstico, dicha conducta no sería delictiva. La Infanta ni conocía el origen de los fondos de Aizoon, y menos aún conocía cual era su adecuada tributación. No es posible atribuir delito fiscal a una persona ajena al control de la sociedad y afirmar que colaboraba en el fraude fiscal es una mera conjetura.

El Juez recoge una doble defraudación en la renta de él y en sociedades de la sociedad familiar Aizoon, pero esta segunda hipótesis debe ser desechada, por cuanto el propio Juzgador admite y reconoce que Aizoon es una sociedad pantalla y por tanto simulada.

Aizoon entre los años 2006 y 2008 no recibió ingresos procedentes del NOOS, ni de sus sociedades vinculadas. Los únicos ingresos que le constan provienen y traían causa de compañías privadas. Se trata por tanto de ingresos lícitos.

Respecto del delito de blanqueo con base en un delito antecedente contra la hacienda pública por defraudación del IRPF de su marido, lo justifica el Instructor por los gastos familiares y personales con cargo del patrimonio de Aizoon. Por supuesto, ha de tratarse de disposiciones posteriores a julio de 2008, ya que los fondos dispuestos han de provenir de la cuota defraudada de los ejercicios de 2007 y 2008 y por tanto con posterioridad a junio de 2008, que es cuando finaliza el plazo para la presentación del impuesto correspondiente al ejercicio de 2007.

El delito no lo ha podido cometer Doña Cristina: los fondos de Aizoon desde el año 2006 provienen de entidades privadas para las que prestaba servicios profesionales el marido de la Infanta y los gastos personales supuestamente imputados a Cristina son mínimos: poco más de 17.000 euros en el año 2008 y de 11.000 en el 2009.

Además, no concurría dolo en el proceder de la Infanta, ni directo ni eventual. El primero requiere conocimiento de la omisión de la declaración correcta y aceptación del resultado. En el dolo eventual el resultado no se busca directamente, pero se representa como altamente probable o posible.

Todo lo anterior lo predica de Ana Tejeiro porque el delito fiscal que se atribuye a Diego Torres lo es como gestor real de todo el entramado societario.

Termina el Fiscal su alegato defensivo, denunciando que el Juez Castro ha actuado como Juez y parte, habiendo asumido funciones acusatorias que no le corresponden.

La defensa de la Infanta

Destaca el Letrado Sr. Silva que los informes de la AEAT posteriores a nuestro auto pusieron de manifiesto que la Infanta no había participado en el delito contra la hacienda pública. Informe pericial de parte - folios 25.444 a 25.545, también ratificado folios 26.741 a 66-.

Lo que esta defensa espera, se dice, es un análisis y revisión estrictamente jurídica de los argumentos de la decisión adoptada y, en general del material, pretendidamente incriminatorio.

La representación Letrada de la Infanta desarrolla sus alegaciones sobre la inexistencia de indicios de delito en la actuación de su representada.

1.- DE LA INEXISTENCIA DE INDICIOS EN RELACIÓN AL DELITO FISCAL:

Para empezar discrepa y critica el auto por contemplar un escenario de doble defraudación alternativa, cuando debería de haber fijado el hecho imputado.

Como es un delito especial propio, su participación solo pudo haber sido a título de cooperador, pero hay que tener en cuenta que Cristina no tuvo intervención en el entramado societario, ni era administradora de hecho ni socia de control, ya que no participaba en la gestión.

- En su aspecto objetivo: Ser socio mayoritario sino ejerces el control no puede ser considerada partícipe activo. Es necesario que estemos ante un administrador de hecho o ante un socio que tenga una mínima intervención en el efectivo dominio de la compañía.

No hay motivos para pensar que la compañía - constituida en 2003- fuera creada para cometer un delito fiscal en el año 2008. En la práctica un socio no administrador de hecho o de Derecho no es jamás objeto de querella del Fiscal o de la Agencia Tributaria.

Jurisprudencialmente tampoco basta la condición de cónyuge y administrador para responder penalmente como autor o cooperador en el delito cometido como autor por el esposo. Ella, es verdad, que se hubo beneficiado de gastos y percibido bienes o servicios pero no hay indicios de que fuera ella quien los contrató ni quien verificó la imputación como gasto deducible.

Tampoco cabe participación omisiva achacable a Cristina, pues el socio no se halla en posición de garante con respecto a la actuación de los administradores por la gestión de la sociedad. No recaen sobre él especiales deberes de control o de vigilancia o investigación sobre la gestión del administrador de hecho o de derecho – tiene simplemente unos derechos, pero no obligaciones con relación al control a ejercer sobre el administrador–.

Su posición jurídica se ciñe a instar determinados derechos.

- No hay indicios en su aspecto subjetivo.- Al analizar este punto la defensa admite y reconoce sin ambages, que la mayor parte de los Tribunales del país sostienen que la concurrencia o no de indicios que apunta a la existencia del dolo o del elemento subjetivo del tipo de que se trate es una cuestión que debe dilucidarse en el acto del juicio oral. Sin embargo pide a la Sala que se pronuncie sobre la cuestión sin necesidad de relegarla al acto del plenario, asumiendo, paladinamente, que ya en el auto de 7 de mayo se abordaron cuestiones de similar calado.

Al tratar el dolo del que coopera en un delito ajeno, nos recuerda el Letrado recurrente, que se hace precisa la concurrencia del doble dolo: conocimiento de los rasgos esenciales del hecho realizado por el autor y que el partícipe contribuye causalmente a la realización de la conducta.

Sobre ambos elementos del doble dolo del partícipe, se argumenta que:

a) No existe dato ninguno que apunte a que Cristina estuviera al corriente de las irregularidades tributarias de su marido - no olvidemos que Iñaki Urdangarín no omite la declaración sino que la que realiza, al parecer, resultó ser inveraz-. La participación en una sociedad familiar puede ser entendida como medio legítimo de ahorro fiscal. La aplicación de fondos a gastos familiares tampoco es un dato que avale el conocimiento de las irregularidades tributarias, ya que no es ella la que imputaba esos gastos. A ello, se añade, que ella no tenía conocimientos de fiscalidad y dada la relación de confianza existente no había razones para sospechar que el marido estuviera incurriendo en irregularidades fiscales.

b) Tampoco se le puede atribuir una ignorancia deliberada – teoría que asimila ciertas situaciones de desconocimiento al dolo -. Se exige una representación suficiente de los elementos que definen en tipo delictivo - sospecha de la anormalidad de la actuación y una indiferencia del autor hacia lo bienes jurídicos penalmente protegidos, pese a representase el riesgo que su conducta le puede aparejar -. Como segundo elemento se hace preciso la decisión del sujeto de permanecer en la ignorancia, hallándose en condiciones de disponer, de forma directa o indirecta, de la información que se quiere evitar. Y un comportamiento motivacional, inspirado en el propósito de beneficiarse del estado de ignorancia.

Para la defensa, si la Infanta se mantuvo en la ignorancia fue debido a su falta de capacitación y porque actuaba confiada en la relación matrimonial. Desde esta perspectiva el desconocimiento por parte de la Infanta de los aspectos contables y fiscales de Aizoon resulta explicable y de ahí el contenido de su declaración que es analizada por el Juzgador como un elemento en su contra.

2.- SOBRE LA INEXISTENCIA DE INDICIOS EN RELACIÓN AL DELITO DE BLANQUEO DE CAPITALES.- Concurren razones procesales y sustantivas para rechazar el delito de blanqueo de capitales, en opinión de la parte apelante.

Así, en primer lugar, ha de tenerse en cuenta que el tipo penal que castiga el blanqueo de capitales las conductas o acciones típicas que describe exige y requiere una desvinculación entre el delito antecedente del que provienen los bienes receptados y el acto posterior de blanqueo, de tal modo que este ha de ir dirigido a ocultar el origen ilícito de tales bienes. Esto es, a lavarlos o blanquearlos, convirtiendo el dinero sucio – por diferenciación al negro, que es el no declarado, pero de origen lícito – en aparentemente de curso legal. A parte de eso es necesario, desde el punto de vista del elemento subjetivo del tipo, el conocimiento y procedencia ilícita de los bienes que son objeto de blanqueo.

Para referirnos al blanqueo incide en que han de tomarse en consideración y analizarse dos periodos o ámbitos temporales diferenciados:

a) Antes de marzo de 2006: Sería necesario que constase cuál fue el dinero malversado que Aizoon recibió de NOOS. Si las fuentes de sus ingresos eran todas ilegales o Aizoon tenía ingresos de otro tipo, así como la realización de alguna de las conductas de blanqueo y que estas se verificasen con ánimo de ocultación. A este respecto se insiste en que Cristina no tuvo participación en las actividades ilegales de NOOS y que desconocía las mismas al menos hasta el mes de marzo de 2006.

b) Hechos posteriores a marzo de 2006: Aizoon recibe ingresos provenientes de entidades privadas por la actividad de asesoramiento de Iñaki Urdangarín. Téngase en cuenta que la infanta había sido alertada de las actividades de su marido en Noos y en sociedades vinculadas, pero a causa de la mala imagen, y no porque fuera debido a conductas irregulares.

De acuerdo con los informes de la AEAT Aizoon, entre los años 2006 y 2008, los únicos ingresos que le constan proceden de compañías privadas (informes de 14 de enero y de 18 de junio de 2013 -folios 19284 -). El examen de la facturación revela que AZ no facturó a NOOS, ni a ninguna otra entidad vinculada a partir de finales de 2005, pero el examen de las cuentas bancarias demuestra que Aizoon recibió transferencias de NOOS, pero por facturas emitidas y contabilizadas antes, con posterioridad a marzo de 2006.

Ahora bien, lo que no dice el auto objeto de recurso es el saldo que arrojaba la cuenta de Aizoon a partir de marzo de 2006. No sabemos cuánto numerario había y ello es importante porque si Aizoon funcionaba como un matrimonio y caja única, no repartía beneficios – dividendos pasivos –.

En suma, no todos los ingresos de Aizoon provenían de la malversación – ya que se giraron facturas por empresas particulares – y no sabemos exactamente cuánto dinero había en las cuentas y en concreto de la facturación librada por Aizoon a NOOS, facturación que habría permitido no solo sacar el dinero malversado de NOOS sino al mismo tiempo blanquearlo. Ese dinero se mezclaría con dinero lícito. Esto es importante porque aunque AZ no repartía dividendos los fondos se gastaban.

Entre marzo de 2006 y junio de 2008 se realizan gastos pero en la cuenta hay dinero proveniente de la malversación y de servicios por compañías privadas, pero al no diferenciar las fuentes de ese dinero y existir confusión y contaminación entre dinero lícito y malversado no es posible determinar que las disposiciones se verifiquen con dinero proveniente de la malversación.

Respecto del blanqueo con antecedente en un delito fiscal, los activos que tendrían un origen delictivo serían las conductas descritas en el tipo penal que contempla el artículo

301 del CP, cuando estas se realizasen con las cuotas indebidamente dejadas de ingresar entre junio de 2008 y junio del 2009, y efectivamente hay gastos realizados entre esas fechas. Se podría aceptar que Cristina, que era partícipe en la simulación –Aizoon– sabía que su marido defraudaba a la Hacienda al declarar por sociedades los ingresos familiares cuando estos deberían tributar por IRPF, pero atendiendo a que la cuota defraudada supera escasamente el límite objetivo que separa el delito de la infracción tributaria (120.000 euros) y teniendo en cuenta que se declaraba a Hacienda, aunque no se hiciera utilizando el impuesto correcto (IRPF), parece dudoso que el dolo llegase a abarcar el conocimiento de que la defraudación superase el límite del delito, pero, en todo caso, lo que es indiscutible es que los gastos realizados con cargo a la cuota defraudada no pueden nunca constituir conductas de blanqueo, ya que exige intención de ocultación.

En cuanto al blanqueo cometido por imprudencia. Su aplicación es restrictiva ya que está previsto para sujetos activos a los que afecta un especial deber de diligencia por realizar su actividad en sectores concretos. El desvalor de la conducta se halla en infringir gravemente un deber de diligencia o de investigación respecto de indicios o sospechas reveladores del origen ilegal de los bienes, en cuanto procedente de actividades delictivas.

En el caso concreto Doña Cristina no es uno de los operadores jurídicos sobre los que recae un especial deber de diligencia. Por eso se exigirían indicios claros reveladores de que los fondos de AZ eran sucios.

Nos encontramos ante una sociedad Aizoon, de carácter familiar y de reducidas dimensiones. La gestión le correspondía al marido en el marco de la confianza y por eso no es posible sostener la presencia de indicios reveladores de una hipotética vulneración grave de los deberes de cuidado en cuanto a la determinación del origen ilícito de los ingresos de Aizoon.

DECIMOCUARTO.-Para dar solución a los recursos interpuestos hemos de partir necesariamente de las conclusiones de los informes de la Agencia Tributaria.

Para empezar, hemos de decir que la Agencia Tributaria, según expondremos a continuación, ha ido cambiando de criterio y ello se ha producido a partir de nuestro auto de 7 de mayo de 2013.

En dicho auto señalábamos que no entendíamos las razones por las que la Agencia Tributaria efectuaba un levantamiento parcial del velo. Ciertamente en el informe del mes de enero se justificaba la imputación únicamente a Iñaki Urdangarín de sendos delitos fiscales en el impuesto de la renta. Dicha atribución en exclusiva obedecía a que levantando el velo societario era él únicamente el que percibía las rentas que obtenía a través de Aizoon. En ese mismo informe la Agencia calificaba a Aizoon como una sociedad pantalla o instrumental que carecía de estructura empresarial y que únicamente tenía por objeto canalizar las rentas del trabajo de Iñaki Urdangarín, dado que a partir del año 2006 este había abandonado el Instituto Noos y desde ese año solo realizaba actividades de asesoramiento y cobraba por participar y formar parte de varios consejos de administración, ingresos que tributó como sociedades y que debería de haber tributado como renta, cometiendo defraudación por el beneficio que le reportaba la diferencia de los tipos aplicables y gastos que dedujo y que no podía deducir como libertades de amortización u otros gastos familiares que no habían sido generados en el ejercicio de la actividad.

Entonces, a la vista de aquél incompleto informe, nos pareció extraño que la Agencia Tributaria solo hubiera hecho un levantamiento parcial del velo. Nuestro planteamiento fue criticado posteriormente por la Agencia Tributaria en un informe del mes de mayo, queriendo trasladar la idea o impresión - eso sí, con todo respeto -de que la Sección Segunda de esta Audiencia había incurrido en un error interpretativo o de concepto y no había comprendido el alcance de su informe del mes de enero.

Tal vez no lo supimos explicar con claridad entonces, pero la idea que trasladábamos en aquél auto era sencilla y a nuestro juicio perfectamente comprensible.

En efecto, no discutíamos entonces, ni lo hacemos ahora, que el perceptor de las rentas fuese el Sr. Urdangarín, sino que lo que pensábamos era la posibilidad de que existiera un acuerdo entre los socios de Aizoon, en virtud del cual se habría convenido que el dinero procedente de las rentas del trabajo de Urdangarín y percibidas por AZ fuera para los socios por mitad y por eso factura Aizoon y no el Sr. Urdangarín como persona física. De ahí, la razón por la que la Infanta fuera socia al 50% de AZ cuando dicha sociedad perfectamente podía haber sido constituida de forma unipersonal. Ese acuerdo o pacto entre socios podía explicar el motivo por el cual el Sr. Urdangarín prestaba servicios de asesoramiento o de consultoría para determinadas empresas y sin embargo en algunas de ellas no existe constancia de que hubiera contrato escrito, ni tampoco reflejo de qué tipo de actividades documentadas hubiera realizado como asesor.

Téngase en cuenta que la hipótesis que se barajaba entonces, en función de su resultado, hubiera posibilitado considerar a la Infanta como socio de influencia y en tal caso si así fuera de alguna manera habría participado en la obtención de la renta generadas por su marido. En otras palabras, se podía llegar a pensar que algunos de los trabajos que el Sr. Urdangarín desempeñó para empresas particulares pudo haberlos conseguido gracias al apoyo o influencia de su mujer. Conclusión esta que venía abonada por la participación de Cristina en la sociedad al 50% y porque los trabajos efectuados por Iñaki, para algunas de esas compañías, no tenía reflejo documental alguno, tanto con relación a la vinculación mercantil, como al asesoramiento prestado.

Nótese que de haberse admitido esta posibilidad, a día de hoy, no estaríamos en un escenario de defraudación tributaria con contornos típicos, puesto que en ese caso si la Infanta hubiera cooperado de ese modo en la obtención de la renta del marido, la cuota defraudada habría que dividirla por dos, por ser ambos esposos los que habrían generado los rendimientos del trabajo y, en tal caso, el importe de cada mitad resultante no superaría los límites del delito fiscal, perolo curioso y llamativo del caso, es que ni tan siquiera el Sr. Urdangarín habría llegado a cometer delito contra la Hacienda pública. Sea como fuere la Agencia Tributaria desechó esa hipótesis y por tanto nosotros la abandonamos.

Siguiendo con el informe de enero de 2013, éste planteaba incongruencias, pues después de afirmar a lo largo de la causa que el Instituto Noos era un conglomerado de sociedades liderado por los Sres. Urdangarín y Diego Torres, que en realidad eran todas una y la misma compañía o marca NOOS, a pesar de que en el año 2006 Iñaki se hubiera desvinculado solo formalmente del Instituto Noos, si bien seguía cooperando con Diego Torres, no se comprendía la razón por la cual mientras que a Diego Torres se le atribuía la comisión de un delito contra la hacienda pública por defraudar en el impuesto de sociedades del 2007 – en aquellas fechas ambos seguían siendo socios y gestores del IN -, sin embargo a Iñaki Urdangarín se le atribuía dos delitos de fraude fiscal en el impuesto de la renta de los ejercicios del 2007 y 2008.

Tal y como lo veíamos entonces el tratamiento tributario de la situación permitía básicamente dos escenarios o hipótesis distintas:

La primera: la de que Noos y las sociedades pantalla a él vinculadas eran todas una misma cosa y por tanto la liquidación de los impuestos debía de hacerse en sede de sociedades y atribuirse a aquellos sujetos que integrando el órgano de administración de derecho o de hecho participaban de la gestión. La segunda, que por existir un acuerdo entre los socios y sus esposas habría que considerar a NOOS como una simulación y a las sociedades vinculadas o de segundo nivel, como las denomina la Inspección de Tributos, como el instrumento o la herramienta para repartirse sus beneficios a través de las mismas, en las cuales se hallaban las esposas para, de este modo, distribuirse las ganancias entre los matrimonios, como si ambos actuasen bajo el sistema de gananciales – esta posibilidad se corresponde con las manifestaciones que vertió el Notario Don Carlos Macià, cuando a judicial presencia abiertamentedeclaró que en su opinión si la Infanta quería participar de la actividad profesional de su marido, en lugar de actuar como socia al 50% en Aizoon, debería de haber modificado el régimen económico del matrimonio. Nótese que el notario jamás dijo que estas reflexiones se las hubiera trasladado a la Infanta - aunque podría ser -. Sí dijo haberlas realizado a su asesor Miguel Tejeiro, el cual le habría respondido que la intervención de la Infanta en Aizoon no tenía otra finalidad que la de servir de escudo ante Hacienda y para que no fueran objeto de ningún tipo de investigación tributaria. El exceso de confianza en los comportamientos alude algo a la presencia de este pensamiento en algunos de los imputados y confirma que lo que Diego Torres denomina error, no fue más que exceso de confianza.

Pues bien, la Agencia Tributaria finalmente, en los informes avance 2, 3 y 4, ha optado por una tercera vía con la que no habíamos contado – en absoluto criticamos ese método de trabajo a la hora de establecer los posibles sujetos tributarios y la determinación de las cuotas, pero nos lleva a conclusiones que no podemos desconocer y que son esenciales para la resolución del caso -. Según esa hipótesis la Agencia considera que tanto el Instituto Noos como las sociedades satélites constituidas para vaciar de fondos el Instituto, son todas ellas una simulación.Se trataría de sociedades sin estructura. Según esto y levantando el velo de todo este entramado y conglomerado de sociedades, lo que ve la Agencia es que existiría un acuerdo entre los Sres.Urdangarín y Torres, los jefes y gestores de grupo Noos, para utilizar todo este entramado societario con la finalidad canalizar las rentas de su trabajo, ya que lo que recibían por su actividad era un sueldo o cantidad mensual. De estos pagos se encargaría el fiscalista Miguel Tejeiro a través de las sociedades instrumentales y dichos pagos se habrían efectuado dividiendo o repartiendo los beneficios netos al 50% entre Diego Torres e Iñaki Urdangarín, aunque el saldo final arrojaría una pequeña diferencia a favor del segundo.

La Agencia Tributaria en estos informes hace la cuenta de los ingresos obtenidos por estas actividades, deduciendo los gastos y así calcula el importe de la cuota defraudada respecto de cada socio, superando el límite del delito fiscal en el caso del Sr. Urdangarín en las anualidades del 2007 y 2008 y positiva también para el Sr. Torres en cuanto a la anualidad del 2007.

Pues bien, con ello lo que nos está indicando la Agencia Tributaria es que las sociedades en las que las esposas de los Sres. Torres y Urdangarín eran socias al 50% con sus maridos eran entidades simuladas.

Por tanto, desde esta perspectiva, sí la sociedad familiar Aizoon y las que Ana Tejeiro

compartía a su vez con su marido al 50% de su capital social y en algunos casos era administradora incluso, eran simuladas, no hay duda que servían de instrumento o herramienta fiscal para ocultar las rentas obtenidas por sus maridos y en consecuencia para defraudar a hacienda, tanto en renta como en sociedades – por cuanto aplicaban el criterio de la libertad de amortización mediante contratos de trabajo falsos y se desgravaban gastos que no habían sido generados en el ejercicio del objeto de la sociedad, sino que se trataba de gastos personales y de los matrimonios -.

En tal situación resulta a nuestro juicio innegable e inobjetable que desde un punto de vista objetivo ambas esposas, desde el momento en que eran copartícipes de sociedades ficticias, estaban contribuyendo con su participación en dichas sociedades simuladas o meras pantallas a defraudar al fisco y además se beneficiaron de ello, ya que el dinero que recibía Aizoon no se quedaba en su cuenta, sino que se disponía del mismo por sus socios sin que tampoco estos declarasen esos dividendos en su impuesto sobre la renta, de manera que también colaboraron en la ocultación de esos beneficios.

Tomando como punto de partida cuanto se acaba de razonar, huelga todo comentario al respecto de las alegaciones que en sus recursos hacen el Ministerio Fiscal y la defensa de la Infanta al respecto de que la Infanta Cristina no era socio de control o de hecho. Ese mismo argumento, el de que Aizoon era una sociedad pantalla, es precisamente el que sido utilizado por las partes recurrentes para descartar, siquiera, que Aizoon hubiera podido cometer delito fiscal en el impuesto de sociedades - el Juez lo considera como alternativa a la defraudación por IRPF, en el caso de que AZ no fuera considerada una sociedad aparente -, peroese descarte opera sencillamente porque levantando el velo de la sociedad lo que se ve bajo ella, debajo de su manto, es pura y simplemente un matrimonio que mediante la utilización de esa ficción en sus relaciones económicas quiere operar de facto bajo el régimen económico de gananciales.

Se nos podría alegar que existen infinidad de sociedades de este tipo, como por ejemplo una patrimonial. Puede ser, pero el caso sometido a revisión es que la Agencia Tributaria no nos refiere que estemos en un escenario de fraude de ley, esto es, elegir una norma fiscal más ventajosa para obtener una ventaja fiscal eludiendo la aplicación de otra, cuando ambas podrían ser aplicables en una interpretación plausible o conforme a las normas de la adecuación social, hipótesis que en principio descartaría la comisión de un delito contra la hacienda pública. Sino que lo que concluye Hacienda es que estamos en sede de simulación y que la simulación se extiende a todo el entramado.

Conviene recordar que la técnica del levantamiento del velo en el ámbito tributario solo está prevista para la fase de liquidación del impuesto y no para la fase recaudatoria. Por eso la técnica del levantamiento del velo solo se ha utilizado para conocer que es lo que hay detrás de la sociedad y lo que hay detrás es un matrimonio que abusa de una sociedad para obtener beneficios fiscales y al mismo tiempo para modificar su régimen económico.

Y en esa situación, aún aceptando que el generador de las rentas hubiera sido el marido y que la mujer no tuvo nada que ver en su obtención, desde el momento en que para ocultar dichos ingresos como generados por el verdadero perceptor se utilizó una sociedad instrumental que era una pura ficción, no hay duda que el socio copartícipe en esa simulación, si la conocía y se beneficiaba de ella de modo consciente, de alguna manera ha podido contribuir a la defraudación, ya de modo activo como omisivo, pues la permanencia y utilización de una sociedad pantalla de alguna manera comportaba la generación de un peligro potencial de defraudar a Hacienda.

La responsabilidad por el comportamiento omisivo de la esposa del socio surge no por su condición de accionista, sino por el mismo riesgo creado al utilizar y participar en una sociedad familiar que no es mas que una mera pantalla o simulación.

Es posible que la Inspección de Tributos desde una perspectiva netamente fiscalista no considere estas variables, entre otras cosas porque una vez que detecta en su actividad de comprobación la posible existencia de una defraudación tributaria, cuya cuantía económica supera el límite del delito fiscal, abandona las mismas y pone éstas en conocimiento de los Tribunales de Justicia.

En verdad que desde esta perspectiva, admitido que desde el punto de vista objetivo las esposas de los Sres. Urdangarín y Torres han podido cooperar en la defraudación fiscal de sus maridos por la utilización de una sociedad pantalla que los matrimonios utilizaban para ocultar los beneficios obtenidos por la actividad de sus conyugues, la posible responsabilidad de la Infanta y de Ana Tejeiro descansa en la presencia o no del dolo o elemento subjetivo del delito contra la Hacienda Pública. Es decir, si ambas eran o no consciente de que eran socias de sus maridos en sociedades instrumentales que ellos utilizaban para canalizar sus ingresos personales y no los de las sociedades, ya que esta no tenían estructura por ser meras pantallas.

Tal y como reconoce expresamente la defensa de la Infanta en su escrito de recurso, por lo general y según criterio de casi la práctica totalidad de las Audiencias Provinciales del país y por tanto es criterio común y compartido, la concurrencia de los elementos objetivos de un determinado tipo penal constituye por sí mismo y sin mas aditamentos base bastante, en sede de auto de transformación, para considerar que existe fundamento para una acusación. En el presente caso por delito fiscal. Entre otras razones porque la acreditación del dolo o elemento tendencial del delito precisa, generalmente, de prueba indirecta o indiciaria y esa inferencia comporta una profundidad en su análisis que escapa de los límites y contornos de una resolución con el alcance limitado que tiene la presente y por eso mismo la apreciación del aspecto subjetivo del tipo penal de que se trate se relega al acto del juicio oral, por ser allí el momento y el lugar en que se puede realizar un debate profundo y contradictorio sobre esta cuestión.

Con todo y dado que para la comisión del delito contra la hacienda pública basta con el dolo eventual o conocido como dolo de representación, creemos que es sostenible afirmar que tanto la Infanta Cristina como Ana Tejeiro, tenían que ser conscientes, sobre todo esta última en tanto en cuanto trabajaba para Noos, que formaban parte de sociedades instrumentales, carentes de actividad y de vida propia y que por la irregularidad misma que comportaba la anormalidad de esa situación, la permanencia en ella suponía aceptar un peligro probable y no descartable de que con dicha entidad se pudiera defraudar a Hacienda ocultando ingresos que debieron de haberse declarado en renta y deduciéndose gastos indebidos.

A este respecto y como la propia defensa reconoce, AZ apenas celebraba juntas, el personal que tenía no era apto para el desempeño de su actividad, dentro del personal se incluía el servicio doméstico de la familiaUrdangarín-Borbón, la sociedad funcionaba como caja única, ya que no repartía dividendos y sus ingresos se empleaban en gastos familiares que realizaba el matrimonio y la sociedad tenía radicadas sus oficinas en el mismo domicilio familiar y este era alquilado por el matrimonio a la misma sociedad, alquiler que cobraban los esposos por mitades y la Infanta incluso fue la que suscribió el contrato locativo.

En ese contexto y situación, fácilmente se adivina que si la Infanta sabía y así lo declaró, que Aizoon la constituyó con su marido para canalizar su actividad profesional y si esta sociedad no tenía estructura ni personal suficiente para desarrollar su actividad y, sobre todo, la Infanta manejaba las cuentas de la entidad al cargar en ellas los gastos de sus tarjetas bancarias, cuyos comprobantes debía de guardar por pura lógica para justificar los gastos a deducir, debería representársele como posible o probable que desde el momento en que Aizoon era una sociedad pantalla o ficticia, carente de vida y estructura propia, su marido estaba actuando de modo irregular con el fisco, ya que estaba tributando impuestos por una sociedad que no existía y sí en cambio un matrimonio y beneficiándose ambos ya que el marido tributaría menos por sociedades que por renta, aplicaba deducción de gastos indebidos (entre otros por personal ficticio), además de que se gastaban los fondos de la sociedad, en lugar de permanecer en sus cuentas y distribuyendo ordenadamente los dividendos y sin tampoco siquiera tributar por aquellos al efectuar su propia declaración del IRPF.

La permanencia de la Infanta en la sociedad Aizoon, siendo esta una simulación, comportaba la creación de un elevado riesgo de defraudación por lo que las imputaciones por cooperación en el fraude fiscal cometido por su marido gozan objetivamente de sustento.

Lo mismo cabe decir respecto de Ana Tejeiro, cuya participación es mayor y más patente desde el momento en que trabajaba para el InstitutoNoos encargándose del área de recursos humanos, a diferencia de la Infanta que ninguna participación tuvo en Noos, ni como gestora ni tampoco como trabajadora del Instituto.

Es verdad y no podemos ignorarlo, que el dolo de la Infanta debía de abarcar la posibilidad o probabilidad de que la defraudación pudiera superar el límite del delito fiscal, pues no olvidemos que Iñaki declaraba a la Hacienda, aunque lo hacía indebidamente a través del impuesto sociedades para ocultar su renta, beneficiándose por el menor tipo impositivo y por la deducción de gastos personales que no podía desgravar por no haber sido generados en la actividad societaria, pero atendido el volumen de ingresos y gastos del matrimonio, algunos de ellos posiblemente concertados por la propia recurrente, la cual hubo de guardar los resguardos bancarios, siquiera de los justificantes de las tarjetas, la Infanta podía llegar pensar o creer que los beneficios de operar por vía de esta simulación que era AZ serían elevados. En cualquier caso parece que se desentendió de ello y del peligro que ella misma generó, a pesar de que estaba en situación de haberlo evitado y tenía el deber jurídico de hacerlo al ostentar el 50% del capital social y ser ella la corresponsable del riesgo de defraudación generado, y contar con asesores externos a los que fácilmente podría haber acudido, los cuales tal vez deberían de haber aconsejado la posibilidad de haber regularizado su situación con anticipación suficiente.

Las alegaciones que en su escrito efectuó la Abogacía del Estado en contra del mantenimiento de la imputación por delito fiscal a la Infanta y a Ana Tejeiro descansaron sobre los informes de la Agencia Tributaria, alusivos a que ellas no eran socias de control y no participaron en la gestión de Noos, ni en el entramado societario. Pero ya hemos comentando que la cooperación en el fraude fiscal deriva de la constitución y permanencia como socias al 50% de sociedades ficticias e instrumentales que utilizaban sus maridos para ocultar sus ingresos y de los que ellas se beneficiaron.

Al finalizar la exposición del delito de blanqueo haremos una referencia más a la posición procesal de la Abogacía del Estado.

Conforme hasta aquí se ha razonado, el motivo del recurso ha de ser desestimado y confirmada la imputación de la Infanta Cristina y de Ana Tejeiro por cooperación en el delito fiscal presuntamente cometido por sus maridos.

Conviene precisar, sin embargo, que el delito contra la hacienda pública es un delito especial propio, cuyo sujeto activo solo puede ser el obligado tributario. En el caso sometido a revisión de esta Sala los sujetos tributarios serían Iñaki Urdangarín y Diego Torres, pero se admite la participación un delito ajeno por la vía de la inducción y de la cooperación necesaria.

Generalmente estas figuras de cooperación están pensadas para el asesor fiscal o el socio que tiene control de la sociedad, en situaciones de levantamiento de velo tributario cuando en fase de liquidación del impuesto el socio colabora en alzarse con los bienes a fin de evitar la responsabilidad personal universal del socio administrador de hecho o de derecho. Ello no obstante, no hay razón para descartar otras formas de cooperación y la propia normativa tributaria así lo contempla (nos remitimos a los preceptos de la LGT que transcribimos al inicio de esta resolución al tratar de la normativa aplicable).

Solo un apunte más antes de terminar el tratamiento del delito fiscal. Sin querer asumir en absoluto funciones de parte, sí queremos precisar que, tal vez y en la medida en que la utilización de las sociedades pantallas ha sido el instrumento mismo y causa del fraude, cabría pensar que la calificación correcta y adecuada a esta situación sería la de estimar cometido un delito contra la hacienda pública en su modalidad básica y no el agravado de uso de sociedades instrumentales.

Las esposas imputadas además se podrían ver favorecidas por la aplicación de la circunstancia atenuante del artículo 65.3 del CP, prevista para los cooperadores e inductores en los delitos especiales propios.

DÉCIMOQUINTO.- Así, si bien hemos concluido que las imputaciones por cooperación en el delito fiscal que el auto apelado atribuye sumariamente a la Infanta y a Ana Tejeiro gozan de cierta virtualidad a los efectos de poder realizar un juicio de acusación y estimar que concurren argumentos para el sometimiento de este hecho al escrutinio del juicio oral.En cambio, formamos convicción de que no resulta factible atribuir a la Infanta Cristina la presunta comisión en un delito de blanqueo de capitales, ya consideremos como delito antecedente la malversación o el delito fiscal.

El delito de blanqueo de capitales previsto en el artículo 301 del CP dirigido a sancionar actos de conversión o de transformación y de ocultación o favorecimiento de patrimonio que provenga de una actividad delictiva antecedente, requiere de los siguientes requisitos

Objetivos:

1.- Acreditación de la procedencia de los bienes receptados, que han de tener su origen en una actividad delictiva.

2.- El delito antecedente puede ser cualquiera, incluso el delito fiscal cuando lo que se blanquea es la cuota defraudada. En ese caso se precisa la identificación de la cuota defraudada y en el caso de que las disposiciones se haga con patrimonio de origen diverso – sucio y negro o declarado -, es necesario que el acto de disposición se verifique en su totalidad o mayor parte con el dinero procedente de la cuota defraudada.

La Jurisprudencia ya admitido la posibilidad de que el delito fiscal sea antecedente del

blanqueo de capitales e incluso admite su consideración antes de la reforma operada en la Ley reguladora de prevención del blanqueo (Ley 10/2010), que incluye como susceptible de blanqueo la cuota defraudada en el delito contra la hacienda pública (nos remitimos a la Jurisprudencia citada en Fundamentos precedentes).

En relación a la cuota defraudada ningún problema se plantea cuando esta tiene su origen en dinero lícito pero que no se declara. Cuando se trata de ganancias ilícitas, el deber de declaración surge cuando ha operado su transformación o sustitución, es decir, cuando tales bienes no derivan directamente del delito antecedente.

3.- No es necesario que previamente se haya juzgado el delito base para el enjuiciamiento del blanqueo, ni tampoco es obstáculo para su punición el que hubiera recaído sentencia condenatoria. Como hemos comentado anteriormente en estos casos existe discusión al respecto de las conductas copenadas y si estamos ante un concurso de leyes o de delitos, habiéndose decantado la Jurisprudencia por la segunda opción, aunque este criterio parece haber sido matizado recientemente por la STS 858/2013, de 19 de noviembre.

4.- Es a la acusación a la que le corresponde probar el origen ilícito de los bienes, si bien cabe acudir con ese objetivo a la prueba de presunciones.

5.- El autor del delito de blanqueo puede ser asimismo autor del delito previo y esta posibilidad, como hemos apuntado en considerandos anteriores, era ya aceptada por la doctrina a partir del año 2006, después del Acuerdo del Pleno no Jurisdiccional del TS, aunque se halla recogido expresamente en el CP, por razones clarificadoras y para acoger lo que ya la doctrina admitía, como consecuencia de la reforma operada por la LO 5/2010.

6.- Desde el punto de vista de la acción típica el blanqueo abarca tanto conductas típicas de blanqueo dirigidas a convertir, adquirir o transformar el origen de los bienes conociendo su procedencia delictiva, como de favorecimiento personal al autor del delito precedente o de favorecimiento real.

En cuanto al elemento subjetivo se requiere el conocimiento de la procedencia de los bienes receptados. No bastan meras sospechas o suposiciones, pero tampoco se exige una certeza absoluta. Es suficiente con la conciencia de la elevada probabilidad del origen ilícito y delictivo del patrimonio, sin que quepa confundir el dinero negro o no declarado con el manchado o sucio proveniente de actividades criminales.

El código en el apartado 3 del artículo 301 del CP, regula la posibilidad de supuestos de blanquero por imprudencia grave respecto de la procedencia u origen delictivo de los bienes.

En este tipo no es exigible que el sujeto sepa la procedencia de los bienes, sino que por las circunstancias del caso esté en condiciones de conocerlas sólo con observar las cautelas propias de su actividad y, sin embargo, haya actuado al margen de tales cautelas o inobservando los deberes de cuidado que le eran exigibles y los que, incluso, en ciertas formas de actuación, le imponían normativamente averiguar la procedencia de los bienes o abstenerse de operar sobre ellos, cuando su procedencia no estuviere claramente establecida. Es claro que la imprudencia recae no sobre la forma en que se ejecuta el hecho, sino sobre el conocimiento de la naturaleza delictiva de los bienes receptados, de tal modo que debiendo y pudiendo conocer la procedencia delictiva de los bienes, actúe sobre ellos, adoptando una conducta de las que describe el tipo y causando así objetivamente la ocultación de la procedencia de tales bienes (su

blanqueo) con un beneficio auxiliador para los autores del delito de que aquellos procedan (en la misma línea, cfr. SSTS 1257/2009, 2 de diciembre ; 1025/2009, 22 de octubre ; 16/2009, 27 de enero,960/2008, 26 de diciembre, STS de y ATS número 1292/2014, de 4 de septiembre).

Al criminalizar el comportamiento imprudente, según nos enseña el TS en la Sentencia 257/2014, de 1 de abril, lo que persigue el legislador es que esa actividad de ocultación, encubrimiento o ayuda, cuando se realice sin conocimiento del origen delictivo de los bienes, pero con infracción grave del celo exigible para cerciorarse de la legitimidad de la inversión, sea igualmente castigada. Se trataría, en fin, de evitar la impunidad en aquellas ocasiones en que concurra un error de tipo vencible sobre el origen ilícito de los bienes o los fondos que se persiguen transformar (cfr. art. 14.1 CP).

La aplicación de esta modalidad imprudente generalmente para la doctrina suele quedar reservada para personas físicas que por su profesión o actividad están obligadas a cumplir ciertas normas de actuación. Sin embargo no faltan autores que admiten la posibilidad de que el sujeto activo puedo alcanzar a cualquier persona.

El TS aprecia que el delito de blanqueo es eminentemente doloso, admitiendo el dolo directo y el eventual. Y la apreciación de la imprudencia es restrictiva y se predica fundamentalmente de sujetos sobre los que por su actividad o dedicación recae una posición de garante.

Dicho esto, formamos convicción que el mantenimiento de las imputaciones por blanqueo no tienen suficiente sustento para justificar y mantener un juicio de acusación y ello por cuanto:

1.- Por lo que respecta a la malversación como delito antecedente al blanqueo, como ya tuvimos oportunidad de explicar en nuestro auto de fecha 7 de mayo y aprovechamos ahora para reiterarlo, la Infanta Cristina en lo que respecta a las actividades desarrolladas por el Instituto Noos no tuvo participación alguna. Su permanencia e inclusión en el órgano directivo no fue más que meramente decorativa y utilizada por los Sres. Urdangarín y Torres a modo de servir de ardid o añagaza para aparentar, frente a instancias públicas y oficiales con las que se proponían contratar, que la Infanta y la Casa Real compartían y avalaban los proyectos que desarrollaba el Instituto Noos, que se presentaba externamente como una entidad sin ánimo de lucro, cuando ello no se correspondía con la realidad.

Dijimos entonces, y reiteramos aquí y ahora, que a partir de marzo de 2006, debido a los requerimientos que la Casa Real trasmitió a Iñaki Urdangaríny a su esposa para que el primero abandonase sus negocios con el Instituto Noos y dejase de contratar con entidades públicas, cosa que así se produjo al haber cesado en sus cargos, al igual que el secretario de la Infanta el Sr. García Revenga, esta última pudo conocer entonces las irregularidad de sus actividades, empero como bien indica la defensa de la Infanta, el auto recurrido no indica de qué fondos disponía Aizoon en el año 2006 y en la medida en que a partir de esa fecha y ello lo explica la Agencia Tributaria en sus informes, los Sres.Urdangarín y Torres decidieron repartirse la cartera de clientes, quedándose Iñaki con los privados y Torres con públicos y privados, y los ingresos que recibe Aizoon a partir de ese momento provienen ya prácticamente en su totalidad – aunque algunas facturas por cobrar del IN de años anteriores se perciben en AZ en el 2007 – de origen privado y lícito, de ello no cabe concluir que la Infanta conociera o tuviera razones para pensar que el dinero que había en la cuenta de Aizoon, en tanto en cuanto en su mayor parte era de origen legal, mas aún por no haber participado en las actividades de Noos,

pudiera ser dinero procedente de la malversación.

Debemos insistir en lo dicho con ocasión de nuestro auto de mayo respecto a la idea de que los eventos organizados por Noos efectivamente se llevaron a cabo, y si bien presuntamente todo indica que existieron sobrecostes y se utilizaron las entidades instrumentales para drenar los fondos del Instituto Noos y fingir unos gastos no soportados, la Infanta no tenía porque conocer esa circunstancia, como también escapó a otras personas. No olvidemos que las subvenciones que Noos recibió por intermediación de las entidades públicas beneficiarias fueron objeto de fiscalización por parte de las administraciones vinculadas, aunque las beneficiarias no controlaron el destino de los gastos y su aplicación a la realización de los eventos.

2.- La posible comisión de un delito de blanqueo queda relegada pues a que éste tuviera como antecedente un delito contra la Hacienda pública.

Ahora bien, tampoco consideramos que ello tenga virtualidad para justificar una acusación por dicho ilícito, porque aunque efectivamente la Infanta destinó la cuota defraudada del IRPF de 2007 y 2008 de su marido en la realizar gastos de tipo familiar, la comisión de dicho delito de blanqueo, que operaría únicamente respecto de las disposiciones efectuadas a partir de junio de 2008 - ya que era ese el momento en el que su marido debería de haber ingresado la cuota del impuesto al presentar la declaración de la renta del 2007 -, atendido a que tales disposiciones no revisten notoria importancia cuantitativa y, sobre todo, en atención a cuál fue su objeto y finalidad: gastos familiares, en modo alguno cabe extraer ni concluir que tuvieran por finalidad blanquear u ocultar el dinero procedente de la cuota defraudada, y, sí en cambio, gastar dicho numerario beneficiándose con ello.

Sobre este particular –el ánimo tendencial que requiere el tipo penal del blanqueo que entendemos esencial para su interpretación habida cuenta del concepto expansivo que incorpora el tipo penal y al que aluden distintas Sentencias del TS, como son por ejemplo: la STS 279/2013 y la280/2014, de 11 de marzo – aunque los supuestos allí contemplados nada tienen que ver con el presente - (queremos traer a colación lo dicho por el TS en la Sentencia 1080/2010, de 20 de octubre – que casó una de esta misma Sala – uno de cuyos fundamentos, por su interés, reproducimos a continuación):

“La cuestión planteada es si cualquier acto de "adquisición, conversión o transmisión" del bien de ilícito origen es un comportamiento típico o, como para los demás actos a que se refiere el apartado 1 del artículo 301, se requiere también, para que la adquisición, conversión o transmisión sea típica, que se ordene por los autores a las finalidades antes indicadas. Es decir si una adquisición o transmisión de un bien generado en un delito es en sí mismo un acto "neutro" que requiere aquella doble eventual finalidad de ocultación de la ilicitud o ayuda a elusión de consecuencias para adquirir relevancia -típica penal. Y, en segundo lugar, más específicamente, si, cualquiera que sea la respuesta a la anterior cuestión, habría de excluirse la doble tipificación del acto de tal entrega de dicho bien de origen delictivo, cuando su entrega ya es también valorada para declarar cometido otro delito por razón de la misma.

Para responder a la primera cuestión la forma de expresarse el apartado 1 del artículo 301 del Código Penal suscita dudas. La posición de la coma después de la palabra delito, separando, por un lado, los actos de adquirir, convertir y transmitir, de, por otro lado, cualquier otro acto, parece sugerir que la exigencia de las citadas finalidades se contrae exclusivamente a los actos que sean diversos de aquellos que consisten en adquirir convertir o transmitir. Lo que implicaría que cualquier entrega de dicho bien sería

siempre, supuesto el elemento subjetivo de la consciencia o la temeridad en la imprudencia, un delito de blanqueo. Por tanto tendría pena de seis meses a seis años incluso la mera entrega a un tercero ajeno al delito de un bien por muy escaso que sea su valor, por la exclusiva y simple circunstancia de proceder de un robo violento.

No parece que tal sea la voluntad legislativa al tipificar este delito de blanqueo. Ni se compadece con la definición extrapenal. La ley 19/1993 definía: "A los efectos de la presente Ley se entenderá por blanqueo de capitales la adquisición, utilización, conversión o transmisión de bienes que procedan de alguna de las actividades delictivas enumeradas en el apartado anterior, o de participación en los mismos, para ocultar o encubrir su origen o ayudar a la persona que haya participado en la actividad a eludir las consecuencias jurídicas de sus actos, así como la ocultación o encubrimiento de su verdadera naturaleza, origen, localización, disposición, movimientos o de la propiedad o derechos sobre los mismos, aún cuando las actividades que las generen se desarrollen en el territorio de otro Estado".

Tampoco las definiciones dadas en el artículo 1.2 de la Ley 10/2010 coinciden con las conductas tipificadas en el artículo 301.1 del Código Penal, ni aún tras la reforma de éste por la Ley Orgánica 5/2010. Son significativas las definiciones de aquella Ley que en el artículo 1.2.b) y, sobre todo, **c)** incluyen comportamientos no trasladados al Código Penal. Así la nueva adquisición o posesión de bienes procedentes de actividades ilícitas no constituye el tipo del artículo 301.1, si no va acompañada de la finalidad que el precepto penal, a diferencia del administrativo, exige.

Con independencia de las divergencias con su traducción en el precepto penal, es claro que la finalidad ha de estar presente en todo acto de blanqueo. Incluyendo la adquisición, conversión o transmisión. En la Sentencia de 8 de abril de 2010, ya decíamos que: el comportamiento típico puede adoptar diversas modalidades: **a)** adquirir, convertir, transmitir un bien sabiendo de su origen en un delito grave, que es la modalidad típica de blanqueo por la que bienes en el mercado ilícito entran en el de lícito tráfico jurídico; **b)** realizar cualquiera tipo de acto que tenga alguna de las finalidades típicas consistentes en ocultar o encubrir aquel origen o -como modalidad de encubrimiento-, procurar que quien participó en la infracción no eluda las consecuencias de su responsabilidad penal respecto de dichos bienes.

No puede olvidarse que la razón de política criminal de estos tipos delictivos es evitar que los autores de delitos logren la incorporación al tráfico económico legal, de los bienes, dinero, ganancias y beneficios procedentes de sus actividades delictivas. Político criminalmente disminuye el incentivo del comportamiento delictivo que sus autores no puedan disfrutar de lo ilícitamente obtenido logrando la apariencia de licitud que haga jurídicamente incuestionable dicho disfrute.

En parecidos términos se pronuncia la STS 884/2012, de 8 de noviembre, en la que se puede leer al tratar del comportamiento del autor del delito de blanqueo que resulta "indispensable acreditar la voluntad de activar un proceso de integración o reconversión de los bienes obtenidos mediante la previa comisión de un hecho delictivo, logrando así dar apariencia de licitud a las ganancias asociadas al delito".

Con todo, predicando una interpretación estricta y litera del tipo penal, atendiendo a la literalidad de las conductas o acciones de blanqueo que incorpora el artículo 301 del CP, consistentes en convertir, adquirir o trasmitir bienes; de ellas parece desprenderse que lo que se persigue castigar es la introducción en el mercado de los bienes o el dinero procedente de actividades delictivos con conocimiento de su origen. Entre estas

conductas aparece discutible la inclusión de actos de disposición que no vayan dirigidas a la conservación o transformación del patrimonio receptado y si en cambio al simple gasto o consumo, especialmente cuando éste tiene por objeto el pago de servicios y estos tienen un carácter no especialmente suntuario y pueden considerarse de tipo corriente u ordinario, ya que en tal caso, cualquier gasto de esta naturaleza que realizase un delincuente con ganancias procedentes de su actividad delictiva, por mínimo o insignificante que este fuera e incluso dirigido a disposiciones corrientes: compras diarias, viajes, pago de la consulta del médico,...etc, podría considerarse en esa interpretación expansiva del tipo penal una conducta de blanqueo.

Lo mismo podría suceder, con los verbos utilizar y poseer, que ha incorporado el CP en la reforma de 2010. La aplicación expansiva del tipo podría llevar a situaciones absurdas, tales como, por poner un ejemplo el que un delincuente hubiera sustraído un televisor y que al utilizarlo su familia cometiera un delito de blanqueo.

Formamos convicción, pues que el elemento tendencial del tipo penal es necesario para una interpretación teleológica del precepto y acorde, sobre todo y especialmente, con la redacción administrativa del concepto de blanqueo.

Asimismo, los razonamientos expuestos nos han de llevar a descartar la modalidad imprudente del blanqueo, de restrictiva aplicación, dado que principalmente se halla reservada a sujetos que por razón de su profesión o especial posición de garante se hallan legalmente obligados a cumplir ciertas cautelas. Ha de recordarse a este respecto que si bien hubo defraudación y ocultación, el marido de la Infanta efectivamente declaró a Hacienda. No puede olvidarse tampoco que en cada periodo impositivo – años 2007 y 2008 – en la cuenta de Aizoon, junto al importe de la cuota defraudada no ingresada del año anterior se producían otros ingresos lícitos.

En el auto apelado el Juez alude a la compra por Urdangarín de acciones de la sociedad Mixta África, pero la anormalidad de dicha operación, no la utiliza para construir el blanqueo – pues al final no hubo entrega de dinero -, sino para señalar que se trata de un negocio simulado y de pago en especie.

Los recursos en consecuencia se estiman en cuanto a este motivo.

DECIMOQUINTO.- Consideraciones finales.

Solo tres cuestiones para dar por terminada y zanjar nuestra labor revisora, a saber:

1.- Constatamos que han quedado al margen del escrutinio judicial la posible participación que en los hechos sumarialmente enjuiciados y respecto de los convenios de colaboración suscritos para la celebración del Valencia Summit y de los Juegos Europeos, hubieran podido tener la Alcaldesa de Valencia y el que fuera Presidente de la Generalitat Valenciana Francisco Camps.

El TSJV no admitió dirigir la imputación contra estos aforados, si bien dejó la cuestión abierta.

Pensamos que, tal vez, esa decisión podría haber sido nuevamente revisada a la luz de la conclusión de la investigación, por cuanto el TSJV en su auto citado indicó que en ese momento procesal no había indicios para dirigir una imputación contra los citados aforados, pero tal declaración no fue terminante, ni dejó ya definitivamente cerrada o juzgada la cuestión.

A nuestro entender se pudo haber aprovechado la vía impugnativa de los recursos contra el auto transformador para solicitar nuevamente la imputación de estos aforados, si es que por algunas de las partes se estimaba que los mismos de alguna manera podrían haber ilícitamente participado en la contrataciones controvertidas, solicitud que nos hubiera hecho replantearnos nuestra competencia (debiendo decidir, en tal caso, si habría que remitir el procedimiento al TSJV para su resolución), pero ninguna parte acusadora ha suscitado esta cuestión y por tanto hemos de estar y pasar por lo dicho por el TSJV al denegar la imputación por insuficiencia de indicios contra la Sra. Barberá y el Sr. Camps, por lo que tal decisión se presenta ya inatacable.

2.- Apreciamos como dudosa la legitimación del Ministerio Fiscal a la hora de recurrir el auto de transformación a procedimiento abreviado.

En efecto, la finalidad del auto transformador es declarar conclusa la instrucción y conceder a las partes acusadoras el oportuno traslado para que soliciten la apertura del juicio oral o pidan el sobreseimiento. La Abogacía del Estado con ocasión de su recurso razona este extremo de modo adecuado.

De acuerdo con ese alcance, la actitud coherente del Ministerio Fiscal – como hizo la Abogacía del Estado– habría sido limitarse a manifestar que no iba a formular acusación contra la Infanta por los delitos de blanqueo y delito fiscal y no promover recurso de apelación contra el auto dictado por el Instructor, legitimación que correspondía en exclusiva a su defensa y en tal caso el Ministerio Fiscal podría haberse adherido a su recurso.

A este respecto resulta llamativo que el Ministerio Fiscal critique y censure la labor del instructor en lo que respecta a sus competencias y posicionamiento adoptado, quejándose de haber asumido funciones acusatorias y un papel que no le corresponde, cosa que no es verdad, pues el auto transformador es una resolución que compete en exclusiva al Instructor, cuando lo que verdaderamente puede resultar chocante o discutible es que el Fiscal recurra en apelación el auto de transformación, ya que el papel que le otorga la ley ante el mismo consiste en limitarse a formular acusación o, simplemente, a no hacerlo, solicitando en tal caso el sobreseimiento que corresponda.

A diferencia del recurso que en su momento dedujo el Fiscal contra la primera imputación de la Infanta, que venía sustentado en la posibilidad de recurrir – por inusual que resultare -, como cualquier otra parte, el auto judicial, en aplicación de las normas generales que regulan la sustanciación de los recursos contra las decisiones del Juez de Instrucción en el marco del proceso abreviado (art. 766 de la Lecrim), al no considerarlo ajustado a Derecho. Sin embargo, tratándose del auto transformador, cuando en este se realiza un juicio de acusación que no se comparte, no parece, a tenor de lo dispuesto en el artículo 780 de la Lecim y en atención al objeto mismo que tiene esta resolución, que las partes acusadoras estén legitimadas en formular recurso, ya que el traslado que les confiere el auto transformador va dirigido, única y exclusivamente, a abrir un debate en la fase intermedia y que manifiesten si van a solicitar la apertura del juicio oral o en otro caso el sobreseimiento o, excepcionalmente, la práctica de diligencias complementarias, cuando estas depende la calificación.

No sucede lo mismo cuando lo que se combate es la no imputación o cuando aquella, por pura lógica, es impugnada por la defensa del imputado.

Ni que decir tiene que lo dicho no tiene otra pretensión que dejar sentado el posicionamiento procesal de esta Sala para otros asuntos que en el futuro se puedan

presentar, pero sin que ello haya tenido consecuencias sustantivas, puesto que el recurso de la defensa de la Infanta y el elaborado por el Fiscal, si bien pueden variar en algunos de sus argumentos, son coincidentes en el fondo.

El Fiscal, por consiguiente y es nuestra opinión, carecía de interés en recurrir y por consiguiente de legitimación o al menos esta resulta altamente discutible.

Con independencia de lo argumentado, tampoco deja de sorprender el que el Ministerio Fiscal y la Abogacía del Estado se muestren ambos de acuerdo en que existió delito fiscal y en cambio, contrariamente a la opinión judicial, entiendan que la deuda tributaria resultante, junto con los intereses y recargos que correspondan, ha de ser satisfecha por un solo deudor (Urdangarín o Diego Torres, según el caso), cuando probablemente lo razonable sería que esta cuestión se decidiera contradictoriamente en un juicio oral y por tanto con sometimiento a los principios de audiencia, inmediación, contradicción y publicidad.

3.- En nuestro auto de 7 de mayo de 2013, de constante referencia, ya nos posicionamos (Fundamento Jurídico Segundo, apartado 6, al tratar el estudio de las alegaciones previas y en alusión al invocado principio acusatorio – en su recurso el Fiscal en su último motivo alude a esta cuestión e modo tangencial) sobre la dificultad que supone el que a la luz de la doctrina aplicable y vinculante dictada en interpretación de los artículos 782 de la Lecrim – STS 1045/2007, de 17 de diciembre; 54/2008, de 8 de abril y 8/2010, de 20 de enero y STC 205/2013, en la que se examinaba la STS 8/2010 -, (a no ser que conocida esta resolución el posicionamiento de la Fiscalía y del Abogado del Estado pueda verse modificado), el Juez Instructor pueda acordar la apertura de juicio oral respecto de las acusaciones por delito fiscal contra la Infanta y Ana Tejeiro si tal acusación la verifica en solitario una acusación popular, ya que en tal caso la legitimación únicamente correspondería al perjudicado directamente por el delito: la Agencia Tributaria (supuesto que trata expresamente la STS 1045/2007), pues la legitimación de las acusaciones populares en estas situaciones de actuación en solitario como parte acusadora del proceso queda restringida a la protección y tutela de bienes jurídicos colectivos o difusos -criterio este que se sigue para evitar un uso hipertrofiado del ejercicio de la acción penal por los particulares no víctimas o perjudicados -, si bien comprendemos que en este caso y a diferencia del que examina la Sentencia del 2007, existe un matiz o aspecto a considerar (que a priori no tendría porqué afectar a la hora de observar el principio acusatorio) en cuanto a lo que allí decidido y resuelto, cual es que el Ministerio Fiscal y la Acusación particular, según se desprende de su posicionamiento acusatorio desplegado, piensan ejercer la acusación por delito fiscal (aunque no lo atribuyen a la Infanta).

En cualquier caso, esta es una decisión que con libertad de criterio ha de quedar reservada al Instructor, pues es a él, conforme a las competencias que le otorga la Lecrim, y no a esta Sala, al que le corresponde y viene atribuido el dictado del auto de apertura de juicio oral.

DECIMOOCTAVO.- Se declaran de oficio las costas de esta alzada.

PARTE DISPOSITIVA:

LA SALA ACUERDA: Con relación a los recursos interpuestos por las partes a que se ha hecho referencia en el encabezamiento de la presente resolución, contra el auto de fecha 25 de junio de 2014, dictado por el Juzgado de Instrucción número 3 de Palma, en la causa DPA 2677/08 y contra el resolutorio de las reformas previas, lo siguiente:

1.- Estimar parcialmente los recursos de apelación interpuestos por el Ministerio Fiscal y la representación procesal de Cristina de Borbón y Grecia, en el sentido de disponer el sobreseimiento de las actuaciones por lo que al delito de blanqueo se refiere, manteniendo las imputaciones por su cooperación en sendos delitos contra la Hacienda pública referidos a los ejercicios económicos de las anualidades 2007 y 2008.

2.- Estimar el recurso de apelación interpuesto por el Grupo de concejales del PSOE del Ayuntamiento de Valencia y el que a su vez ha interpuesto sobre el mismo motivo el Sindicato Manos Limpias, acordando incluir en el auto de transformación como imputado al Vicealcalde del Ayuntamiento de Valencia Don Alfonso Grau Alonso.

3.- Estimar el recurso de apelación interpuesto por el Sindicato Manos Limpias e incluir como imputados en relación al convenio de colaboración suscrito por la Fundación Deporte, Cultura e Integración Social y la Fundación Madrid 16, a Miguel de la Villa Polo y Gerardo Corral Cuadrado.

4.- Estimar el recurso de apelación del Sindicato Manos Limpias, respecto a la posibilidad que concede al auto recurrido y sin necesidad al respecto de practicar nuevas diligencias de investigación o de tener que tomar de declaración, para poder formular acusación contra Iñaki Urdangarín Liebaert, Diego Torres Pérez y Ana Tejeiro Losada, por delito de blanqueo de capitales y en los términos expuestos en el cuerpo de esta resolución.

5.- Estimar el recurso de apelación interpuesto por el Sindicato Manos Limpias e incluir como imputado a Don Salvador Trinxet Llorca.

6.- Desestimar el recurso de apelación interpuesto por la representación de Don Iñaki Urdangarín Liebaert.

7.- Desestimar el recurso de apelación interpuesto por Diego Torres y Ana Tejeiro.

8.- Desestimar el recurso de apelación interpuesto por la representación procesal de Marcos Tejeiro Losada.

9.- Desestimar el recurso de apelación interpuesto por la representación procesal de Miguel Tejeiro Losada.

10.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Luis Lobón Martín.

11.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don José Manuel Aguilar Colás.

12.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Jorge Vela Bargues.

13.- Desestimar el recurso de apelación interpuesto por la representación procesal de Doña Elena Maldonado Garrido.

14.- Desestimar el recurso de apelación interpuesto por la representación procesal de Doña Mercedes Coghen Alberdingk-Thijm.

15.- Desestimar el recurso de apelación interpuesto por el Sindicato Manos Limpias contra el sobreseimiento dispuesto respecto de Don Carlos García Revenga y Don Mario

Sorribas Fierro.

16.- Desestimar el recurso de apelación interpuesto por la representación procesal de Don Jaime Matas Palou.

Quede el disco externo adquirido por la Gerencia Territorial a disposición de la Secretaria Judicial para su custodia, dándole el destino legal.

Notifíquese la presente resolución al Ministerio Fiscal y demás partes personadas y con certificación de la misma, que se unirá al rollo de Sala, devuélvanse las actuaciones al Juzgado Instructor de procedencia, solicitando acuse de recibo.

Así, por éste nuestro auto, lo pronunciamos, mandamos y firmamos.

LISTA DE EMPRESAS MULTINACIONALES QUE EVADEN IMPUESTOS A TRAVÉS DE LUXEMBURGO

Para facilitar la consulta, estamos listando aqui las empresas multinacionales investigadas por el *International Consortium of Investigative Journalists*, en orden alfabético, y con sus correspondientes enlaces a la informacion publicada sobre cada una de ellas en "Leaked Documents Expose Global Companies' Secret Tax Deals in Luxembourg".

El Confidencial, en el artículo Más de 300 empresas tienen acuerdos con Luxemburgo para pagar menos impuestos, explica:

(...) "340 empresas multinacionales han firmado acuerdos secretos con Luxemburgo que les permiten reducir drásticamente sus facturas fiscales globales pese a que su presencia en el Gran Ducado es testimonial. Estas compañías han desviado cientos de miles de millones de beneficios hacia el pequeño país centroeuropeo, una operación que les ha ahorrado miles de millones en impuestos, según la revisión de 28.000 páginas de documentos confidenciales realizada por el Consorcio Internacional de Periodistas de Investigación (ICIJ, por sus siglas en inglés) y un equipo de más de 80 periodistas de 26 países. A partir de este jueves, El Confidencial, único medio español que ha colaborado en esta investigación, publicará una serie de reportajes sobre las empresas y fondos que utilizan Luxemburgo para pagar menos impuestos en España."

PETICIÓN EN CHANGE.ORG: EVITEMOS SACRIFICIOS COMO EL DE EXCÁLIBUR

- **Petición dirigida a: Consejero de Sanidad Comunidad de Madrid**

Esta petición será entregada a: Franscico Javier Rodríguez, Consejero de Sanidad

Comunidad de Madrid:

Evitemos sacrificios como el de Excálibur #JusticiaparaExcalibur

Excálibur significaba mucho para Teresa y para mí. Por eso antes de nada quiero agradeceros, en nombre de Teresa y mío, el apoyo que hemos recibido y las iniciativas planteadas en esta misma plataforma para intentar parar el sacrificio de Excálibur. De verdad, muchas gracias.

Sentimos que **lo que se ha cometido con nuestro perro Excálibur es una injusticia**. Por eso ahora, con el consentimiento de Teresa, os pedimos vuestro apoyo **para que se haga justicia y las personas responsables de tomar la decisión errónea de sacrificar a nuestro perro dimitan**, ya que había otras posibilidades menos perjudiciales y que además servían a la comunidad científica para tener más conocimiento sobre esta enfermedad, su evolución y posibles tratamientos.

Además, en EEUU ha surgido un caso idéntico, y el resultado es que el perro ha estado en observación, se realizaron pruebas para saber si estaba infectado, y una vez que su dueña se ha recuperado han podido reencontrarse.

Excálibur ha sido la víctima de la improvisación y el desconocimiento de las autoridades. Queremos que las personas responsables del sacrificio vano de Excalibur sean destituidas. Y **que ningún otro animal, nunca, tenga que pasar por lo que pasó Excalibur**.

Por eso queremos aprovechar también esta petición para hacer ver la **necesidad de que los protocolos de actuaciónante casos de ébola**, tanto del estado como de las CCAA, i**ncluyan el trato que debe dispensarse a los animales domésticos** de las personas potencialmente infectadas, con formas de actuación menos perjudiciales que la que sufrió Excálibur.

Espero que ahora volváis a apoyarnos para que ningún otro animal tenga que volver a pasar por lo que pasó Excálibur. Por favor, **firma y difunde esta petición.**

EL CHALET DE NICOLÁS, POR DELANTE Y POR DETRÁS...

Nicolás cazafortunas,
criado por Legionarios
sin fronteras.
Capricho de asaltacunas,
delincuentes societarios,
y peperas.

Guarda un misterio muy grande
el chalet de Nicolás:
la trasera.
Si eres alguien que mande
irás y repetirás
como fiera.

Entran obispos y reyes,
entran ricos y más ricos.
Mucho gozan
sin agobio de las leyes
de nenes y guapos chicos
que retozan.

Solo hay un requisito
para el nuevo aspirante
—y no es huero—
ser pepijo señorito
—sea dante sea tomante—
y dinero.

En el precio van las fotos
de todas las francachelas
bujarronas.
Se pagan en grandes cotos,
con continuas corruptelas
y poltronas.

No digas que no te aviso:
si abusas de jovencitos
por Madrid,
en una calle de El Viso,
el que cobra los chorbitos
es el mismo CNI.

y es malo rimar con -ano

Si son dantes o tomantes
es polémica cuestión:
digamos "porculizantes"
y ya no habrá discusión.

CLOTILDE TAMBRONI: BALANCE

Enarbolé la soledad como un trofeo de guerra,
aún sangrante.
Viví ensayos generales de amor
y plagié algún monólogo
totalmente carente de talento.
Me declaré al margen,
ya de todo segura, vieja zorra,
sin nada que ofrecer,

sin pedir nada a cambio.
Inerme y despojada, salvo de lo esencial:
mi absurda euforia de estar viva,
mi cara de payaso, mi cojera,
y mi amor —*rara avis*—
partiéndose las alas contra un muro,
suavemente, sin pasión, sin violencia,
y sin mucha convicción, también es cierto.
Me pierde como amante de tragedia
esta tendencia a ser feliz,
que tanto engorda,
y la risa, que no sé reprimir.

JAVIER CORIA: CUANDO LA FOTOGRAFÍA ERA SÓLO UN SUEÑO

Hay autores y blogs dignos de leer, releer, y guardar en "favoritos" para esos días en los que esa gentuza que no pertenece a la raza humana, como los críminales del "Toro de la Vega", de Tordesillas, nos deja un saborazo amargo, y necesitamos restaurar el embeleso, la gratitud y la admiración que la verdadera humanidad puede inspirar.

Hoy, como en tantas ocasiones, ha sido Javier Coria quien me ha reconciliado con mi especie, con su artículo *"Cuando la fotografía era sólo un sueño".*

De nada, ya saben que me gusta ser útil.

ISIDORO ÁLVAREZ MURIÓ; PERO LOS LAMECULOS NO

Periodistas, políticos, sindicalistas, y comunicadores españoles, que no valen ni para tacos de escopeta, han dicho que Isidoro Álvarez era el Napoleón de la venta al detall, el Rommel de la estrategia financiera, el Alejandro Magno de los mostradores de formica y los vendedores encorbatados y encorsetados, el Leonardo da Vinci de la expansión y diversificación de El Corte Inglés; han abundado en la leyenda urbana de que se paseaba por los centros para comprobar que sus empleados y sus clientes estaban contentos, se ha hablado de su profunda sabiduría, con una analecta de sus frases de tendero, del género *"El cliente siempre tiene razón"*; han dicho que sus ojos, de besugo pescado en el pleistoceno, eran *tristes*, y han hablado de su profunda humanidad y preocupación por sus trabajadores, esa panda de tarados con la sonrisa calcada de una dentadura postiza en un vaso de agua, que huelen a rancio, a miedo y a la peor miseria laboral...

En economía y finanzas Isidoro Álvarez era un perfecto cretino, como demostró en Gottschalks; como empresario, un lila que descerrajó cualquier salida que pudiera tener El Corte Inglés, como patrón, un lastimoso dictadorzuelo que sólo supo captar a los más mediocres y los menos dotados, un trapacero contable sin ideas ni imaginación que le ha hecho más de un siete a la Hacienda Pública y a la Seguridad Social, un tendero con el peor surtido de tejidos y novedades de Europa; y lo que es peor, con un fondo de armario como para hacerlo comparecer con su sastre, "manu militari", en el Tribunal Internacional de Crímenes de Lesa Humanidad.

Para no repetirnos, aquí van los enlaces de los artículos donde hemos detallado las

In a statement, the chain said the new debt could take the form of a syndicated loan and could also involve securitising consumer loans from its finance arm.

The bank Morgan Stanley is leading the refinancing talks, a financial source said.

In this document you can discover that the overvalued assets and rhetoric of the company can hide the unavoidable bankruptcy.

BALANCE CONFIDENCIAL DE BANCA CATALANA DEL 31 DICIEMBRE 1979, REALIZADO POR EL BANCO DE ESPAÑA

Según Vozpópuli, El dinero de Jordi Pujol en Andorra, 1.200 millones de pesetas en origen, procede de la *quiebra* de *Banca Catalana*:

"El dinero que el molt honorable reconoció el pasado 25 de julio haber mantenido en el principado opaco a Hacienda procede en su mayoría de los restos del naufragio de Banca Catalana, de la que Pujol fue vicepresidente ejecutivo. La familia Pujol se embolsó 700 millones con la venta de las acciones de la propia entidad. Los otros 500 millones de pesetas tienen un origen todavía más rocambolesco."

Reproducimos aquí el Balance confidencial de Banca Catalana del 31 de diciembre de 1979, realizado por el Banco de España, que junto a otras auditorías, como la de RTVE, formaba parte del cartapacio que Alfonso Guerra esgrimió en el Congreso de los Diputados contra Suárez, cuando amanazaba con hacer público lo que denominaba "auditorías de infarto." Luego, el PSOE las escamoteó y las utilizó sin demasiados escrúpulos con fines poco legítimos en democracia, como es costumbre en nuestros gobernantes.

"En 1984, los fiscales Carlos Jiménez Villarejo y José María Mena presentaron una querella contra directivos de Banca Catalana, entre los que se encontraba el propio Pujol, por el supuesto desvío de fondos. En concreto, se les acusaba de la compra irregular de valores inmobiliarios, con dinero de la «caja b», para financiar distintas

operaciones gravosas para la entidad, que terminó siendo intervenida en 1982. Los fiscales también sostenían, entre otros hechos, que Pujol y el resto de consejeros habían repartido 516 millones de pesetas en dividendos entre 1974 y 1976, cuando el banco ya tenía importantes pérdidas.

El presidente catalán atribuyó la acción del Ministerio Público a una «inmensa mala jugada» del PSOE, que gobernaba en ese momento. Prenafeta, entonces secretario general de Presidencia, organizó una masiva manifestación de apoyo a Pujol.

El Tribunal Superior de Justicia de Cataluña archivó el caso, pero la posterior designación de Villarejo como fiscal jefe de Cataluña encendió a Pujol hasta tal punto que, en un acto institucional, reprochó al fiscal general del Estado, Javier Moscoso, su falta de sentido de Estado.

Pujol consiguió así que Banca Catalana pasara a la historia, pero no pudo evitar que a partir de ese momento salieran a la luz otros procesos judiciales que salpicaron a miembros de su Gobierno. En 1989, el ex director financiero de Casinos de Cataluña —holding que monopolizaba el dinero del juego— denunció que esta empresa había pagado unos 3.000 millones de pesetas a compañías afines a Convergència. El caso quedó archivado, no así el denominado «caso Planasdemunt», en el que el exconsejero de Economía, Jordi Planasdemunt, se vio implicado en un fraude de unos 6.000 millones de pesetas mediante pagarés falsos. Fue condenado a siete años de prisión. Los consejeros Jaume Roma y Josep Maria Cullell también dimitieron tras verse implicados en supuestos casos de corrupción.

Los disgustos judiciales afectaron asimismo a los socios de CDC, Unió Democràtica de Catalunya. Compañías del empresario andorrano Fidel Pallerols, vinculado a los socialcristianos, recibieron subvenciones inicialmente destinadas a cursos de formación. Por este caso dimitió el consejero de Trabajo, Ignasi Farreres. También fue investigada la gestión de Unió en el Consorcio de Turismo de la Generalitat. Cuando CiU ya estaba en la oposición, Pasqual Maragall desató una tormenta política al acusar a CiU de recibir comisiones ilegales en la adjudicación de obra pública.

El líder convergente nunca renunció a rodearse de una burguesía afín al ideario nacionalista que, al mismo tiempo, ofreciera apoyo económico a la construcción catalana. La quiebra de la compañía aérea Spanair es el último ejemplo de esa incapacidad de CiU de lograr un empresariado fiel. A mediados de los años noventa, los esfuerzos de Pujol comenzaron a dar resultado, pero a través de la persona equivocada. Javier de la Rosa, ungido por el dirigente autonómico como «empresario modélico», fue a la cárcel por la descapitalización de la empresa Grand Tibidabo. El caso salpicó a Prenafeta.

Las amistades peligrosas de Jordi Pujol incluían al juez Lluís Pasqual Estevill, denominado en su día el «azote de la burguesía» y que se convirtió en vocal del Consejo General del Poder Judicial a propuesta de CiU. Aseguran que, de esta forma, Pujol lanzaba una advertencia a Felipe González, pues el CGPJ designó a los miembros del Tribunal Supremo que debían juzgar el caso GAL. Estevill acabó en la cárcel acusado de prevaricación por dictar resoluciones injustas a cambio de dinero. Alavedra admitió haber intercedido entre el juez y varios empresarios.

Y si no fue fácil ganarse la confianza del empresariado, mucho más complicado fue garantizar la cohesión social de una Cataluña con un nivel alto de población procedente

de la inmigración de los años 50 y 60, residente en su mayoría en municipios metropolitanos gobernados por la izquierda. Es en este momento cuando Pujol pasa de ser el gran estadista a recibir el calificativo de «cacique» por su decisión de dar subvenciones a los barrios con vocación nacionalista. La red clientelar se extendió, neutralizando así la influencia socialista y el rechazo que podría generar la ley de política lingüística, génesis del reconocimiento del catalán como única lengua vehicular en la administración y en las escuelas."

*** Rafael del Barco, (autor del libro "Barcelona, 30 años de corrupción", publicado en bubok) escribe en el cap. 3 de "La gran corrupción", sobre el caso Banca Catalana**:

"En paralelo, entrelazados como las vías del tren, al unísono, el Bufete Piqué Vidal en la cresta de la ola. Si en cuanto a cifras y las "historias" de Javier de la Rosa la verdad duerme debajo de quilos de mierda y sobornos, las "verdades" de Piqué Vidal se ponen al descubierto poniendo toda la carne en el asador para exonerar al Honorable Pujol, continuando procesados los veintitrés de sus "empleados" y "colegas" en la Banca. ¡De locos!, el jefe, cerebro, mandamás, el capo, el bos, el primun del banco no delinquió, y sí sus obedientes empleados. Y si su estatus y fuero de Presidente de la Generalitat exige un pleno de magistrados de la Audiencia, se conseguirá una contundente mayoría. Tanto como los 1.347.047 votantes en 1984, o los 200 mil manifestantes reparándole por los insidiosos socialistas madrileños con los Fiscales José M. Mena y Carlos Jiménez Villarejo pretendiendo procesarle y de nuevo entre rejas.

Cuarenta magistrados, la mayoría "castellanos", ni actuarían con el corazón en la mano, alguno con la mano en la cartera, y cada uno un panorama de "personalidades". Es bien sabido que las "masas", lo decía Julio II, "ni de obispos", y una masa de magistrados se reorienta o reconduce con las cargas de profundidad de un puñado de "condicionales" o "condicionados". Y el puñado conocido con los años no era tan pequeño. ¡El conocido!.

Mi querido Jaume Reixach me permitirá reproducir unas páginas de su libro con José Manuel Novoa, año 2003, "Las mil caras de Jordi Pujol", y aún relatando 1986 debo anticiparme por la incidencia de esa defensa en la totalidad de los sucesos. Mientras Javier de la Rosa se partía el belfo en Madrid, provocando indigestiones y aumentando fortunas, su "alter ego" Piqué, consolidaba Cataluña para su asociación.

Pag. 219. "El abogado Juan Piqué Vidal, que encabezó el equipo de abogados que defendió a Pujol en el caso Banca Catalana, es un maestro en el arte de tejer espesas redes de amistad con aquellos que pueden sacarle las castañas del fuego. Así, por ejemplo, Piqué Vidal es propietario de dos pisos en la calle Enric Granados donde viven respectivamente, el presidente de la sala 7 de la Audiencia Provincial, Fernando Pérez Máiquez, y el ex presidente de la sala 13, Ezequiel Miranda de Dios, hoy jubilado. La situación es paradójica: Piqué Vidal, un procesado en libertad bajo fianza de 30 millones, acusado de actuar de intermediario en los presuntos sobornos de Luis Pascual Estevill (curiosamente, otro ex juez) tiene alquilados dos pisos a dos importantes magistrados del poder judicial en Cataluña". Detalla los pisos, y apunta que del hecho se informó al TSJC y a la Fiscalía Anticorrupción, y que preguntados responde solo Don Ezequiel. "Nunca supe que un asunto del despacho del Sr. Piqué...", y tras el ataque de farisea y amenazante dignidad, continúa, "me sabe muy mal que con insinuaciones como estas se puedan poner en duda 40 años de la carrera judicial". San Ezequiel se olvidaba de los dos casos más sonoros de los últimos años, el Consorcio y Banca Catalana, donde su participación total, clave, definitoria. !25 de los 40 años en el

franquismo y su peculiar Justicia!. De atenernos a las maneras del “Club”, con los dos casos iría sobrado de por vida un magistrado. ¿Y presidiendo una Sala “nunca supo” que el Bufete más importante de Barcelona tuviera “asuntos” en su competencia?, puede que no, porque nunca se inhibió de ningún asunto. Actuando las docenas de sus abogados, e interviniendo él bajo mano, los jueces no tenían “asuntos” de Piqué Vidal. Pero en Banca Catalana su presencia como abogado era tema de primer orden en Barcelona, y sin intermediario.¡Y tuvieron asuntos tan a miles como los millones y pisos repartidos!. Hoy en día es fácil saberlo cruzando ordenadores a través de Internet y Borme.

Alguien en defensa de los jueces comentó que en definitiva esa circunstancia se da con la CAIXA, proveedora de pisos a jueces y otros funcionarios. ¡Qué consolador para el ciudadano de a pie!. El mayor banquero y propietario de Cataluña proveyendo pisos. ¿Habría parcialidad en las miles de sus reclamaciones judiciales?. Quien pleiteó “de pobre” beneficiando a los jueces. ¿Cuántos tienen pisos de la CAIXA vendidos después de alquilarse a precios y circunstancias de favor?. Es un rumor a voces que así se han hecho verdaderas fortunas. Parecido a Núñez y Navarro con los inspectores de Hacienda.

Y sigue el libro de Reixach y Novoa; “es que estos dos magistrados participaron en un hecho relevante en la historia reciente de Cataluña: la exculpación de Jordi Pujol del caso Banca Catalana. Pujol se encontraba entre los 24 procesados en la querella presentada en 1984 por los fiscales Jiménez Villarejo y José María Mena. Pujol estaba acusado de los presuntos delitos de falsedad documental, apropiación indebida y maquinación para alterar el precio de las cosas. Por ser presidente de la Generalitat gozaba de la condición de aforado, decidiendo su inculpación el pleno de la entonces Audiencia Territorial de Barcelona. El 21 de noviembre de 1986, los 46 magistrados que formaban el pleno de la sala denegaron la solicitud de procesamiento de Pujol por 33 votos a favor y 8 en contra. La mayoría de magistrados no apreciaron indicios de criminalidad. Entre los votos favorables a la exculpación Miranda de Dios y Pérez Máiquez. El primero ya vivía en el piso de Piqué Vidal y el segundo a punto de hacerlo.

Sin embargo las coincidencias no se terminan aquí. Resulta que el resto del sumario, que afecta a los otros dieciséis imputados, recayó por sorteo al juzgado de instrucción n. 12, que dependía de la Sección segunda de la Audiencia. Por aquel entonces presidía dicha sección el juez Miranda de Dios y Pérez Máiquez era uno de los titulares de la misma. A su vez, el secretario judicial de esta sección había sido Javier Ibáñez Garmendia, que se incorporaría al Bufete Piqué Vidal y se integró en el equipo de abogados que defendió a Pujol en el Caso Banca Catalana. Actuando de abogado de Piqué Vidal en el caso Estevill.

La relación de jueces que votó a favor de la exculpación de Pujol en el caso Banca Catalana y que, a su vez, se relacionaban con Piqué Vidal no se agota con los letrados Miranda de Dios y Pérez Máiquez. Hay unos cuantos más: Adolfo Fernández Oubiña era magistrado de la Audiencia de Barcelona y durante un tiempo trabajó en el bufete de Piqué; Julio Selva Ramos es el padre del abogado Javier Selva Prieto, que trabajó varios años en el Bufete Piqué Vidal: José Francisco Valls Gomabau escribió el libro Los procedimientos penales con Piqué Vidal y otros dos autores. El ex secretario de Piqué afirma lo escribieron “unos negros”. Pero la coincidencia más espectacular se da en la persona de Santiago Raposo, que fue suspendido de sus funciones por un presunto delito de prevaricación: archivó una querella por un presunto delito fiscal de 450 millones de pesetas contra Jaume Sentis, el hombre que destapó el caso Casinos (financiación ilegal de CDC). Pues bien el defensor de Raposo fue Miquel Capuz, del

bufete Piqué Vidal. Además la sala séptima, la de Pérez Máiquez, asumió los casos pendientes de la octava.

El 21 de noviembre de 1986, el Tribunal hizo público el veredicto y Jaime Amigó declaró que la decisión se había tomado ateniendo estrictamente a criterios jurídicos y que no había habido presiones políticas. Sin embargo, y esto lo pone en entredicho, es que el primero en politizar todo el proceso fue Jordi Pujol, que lo presentó como un ataque contra Cataluña. El titular de una crónica de La Vanguardia del 22 de noviembre rezaba que "la defensa tenía una lista de 29 magistrados que votarían en contra del procesamiento de Pujol". Una información que se presta a toda clase de interpretaciones y que demuestra la ardua tarea de sondeo que el equipo de abogados capitaneado por Piqué Vidal realizó entre los jueces que tenían que resolver si se procesaba o no a Pujol".

Hasta aquí Reixach y Novoa, y añado a José Luis Barrera Cogollos compañero de Fernández Oubiña, en el Caso Consorcio, y sancionados después.

Si en el equipo intervenían de los más famosos catedráticos, y cada uno guardaba en su manga uno, dos, tres o cuatro magistrados, en una Audiencia de recta moral arduo trabajo nombrar a cuarenta. Nadie adujo "intereses contrapuestos" y ni los fiscales que tanto sabían sobre magistrados orientando los casos según la idiosincrasia de cada uno, no recusaron a ninguno. La palabra "recusar", ni menos auto excluirse por decencia, no forma parte de la filosofía judicial. Ni la política ni la amigocracia, ni los intereses espurios, participaron, ¡cretinos!. Para quien ha sido condenado por dos de los magistrados citados, y en la lista se encuentran los que en 1981 le negaron la libertad con fianza, por delitos menos graves que los de Pujol, José A. Oscáriz González y Vicente Navarro Verdejo, debe mesarse la cabeza cuando escribe porque amenaza su cerebro estallar en pedazos. Justicia de y para profesionales. El nombre de Javier Selva Prieto, me hiere en particular, por ser el letrado del bufete Piqué que atendió y firmó mis primeras declaraciones. Visto al paso de los años, torticeras declaraciones. La estafa, falsedad en documento público y privado, y alterar el precio de las cosas para los magistrados no tiene el mismo sentido que para al que unos días antes del estallido le han colocado unas acciones que no valían nada desde tiempo atrás. Se camuflan los activos y créditos irrecuperables, y lo saben con detalle los altos ejecutivos, actuando con "dolo", voluntad de engañar para continuar en el machito. Y vender acciones forzando la compra con crédito del banco a tres veces su valor es una estafa, aquí y en la China, o firmar balances escondiendo la verdad a base de renovar créditos o marear la perdiz pasando partidas de una cuenta a otra, falsear. Pues los mismos magistrados que me encarcelan tres años por "encubrir" un desfalco similar, opinan que no, "que no existe delito".

Salvado de la Banca Catalana el hombre providencial para Cataluña, Piqué rentabilizaría la enorme movilización de gran parte de su activo judicial, con operaciones de gran calado financiero, contando con De la Rosa, experto en multiplicar precios y repartir a buen escote. Lástima que su esfera no abarcara Madrid con la intensidad de Barcelona, la siempre posible resurrección del tema Banco Garriga, surgiendo en los navajazos por el podrido pastel del Banesto, amargaba. Algo se le ocurriría. La nueva Ley de Arbitrajes...

Entre los ocho magistrados "pro-procesamiento", o sea, que veían claro más allá de politiquerías los delitos de Jordi Pujol, figura uno para mi "especial", ya que formó equipo con Hernández Pardo en varios autos en el Caso Consorcio, aunque no en el juicio, Angel de Prada Mendoza. Uno de los ocho razonando con criterio propio. Quizá lo

demostrara en el Caso Consorcio y resultarán más "adecuados" para el juicio Fernández Oubiña y Barrera Cogollos."

Cuando saltó la liebre del saqueo del Palau de la Música, Jordi Pujol declaró a TV3: "no me parece oportuno tirar de la manta porque todos saldríamos perdiendo", frase indudablemente mafiosa dirigida a sus colegas de los diferentes gobiernos de la Generalitat y del Estado español. El tipo se quedó tan pancho, y el periodista no repreguntó, el expresident estaba en la cadena "amiga". Por cierto, la sede de CiU sigue embargada por este caso de corrupción del que los partidos catalanes recibieron dinero a espuertas. Hay un caso que pocos recuerdan, pero la aventura de del Partit per la Independència (PI), que señor Ángel Colom y el estómago agradecido de la "periodista" Pilar Rahola montaron tras salir de ERC, también se beneficiaron del saqueo del Palau. Cuando se disolvió la formación tras el fracaso electoral de 1999, las deudas del PI se saldaron con 72.000 € procedentes del Palau, eso sí, el dinero llegó vía una fundación, Espai Catalunya, método habitual para cobrar estas cosas. Luego, con el caso en los medios, se vieron obligados a devolver ese dinero, que todo hay que decirlo. Excelente trabajo, agüela.

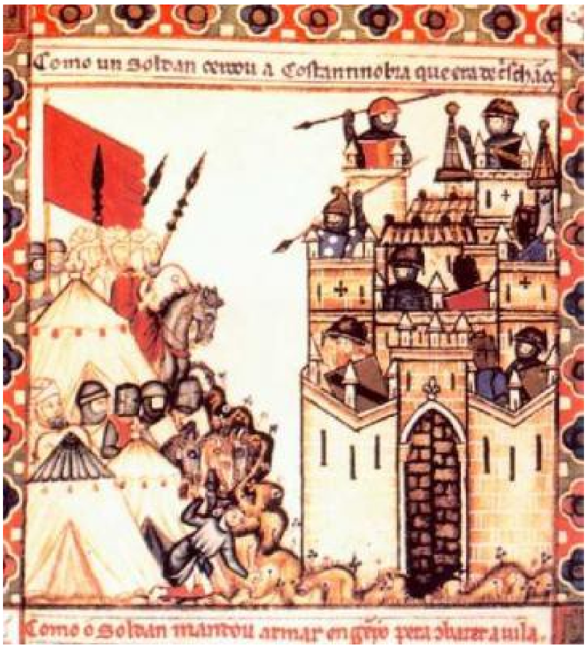
ROMANCE DEL CONDE DIRLOS



31 EL CONDE DIRLOS

a)

Estábase el conde Dirlos
    en su palacio real,
deleitándose en vestir,
    deleitándose en calzar,
deleitándose en las armas
    con que había de pelear;
cartas le vinieron, cartas,
    cartas de grande pesar,
que está rodeado de Moros
    castillo de Montalbán.
La mujer deja muy chica,
    no cesaba de llorar:
—¡Ayer nos casamos, conde,
    y hoy ya nos quieres dejar!
Ya se sale el conde Dirlos,
    ya se sale, ya se va,
tras él salió la condesa
    una legua y más de andar,
palabras iba diciendo
    que al conde hacen llorar:
—¿Oh qué años, oh qué tiempos,
    conde, os tengo que aguardar?

—¡Calla, calla, la condesa,
no muestres tanto pesar,
si a los siete años no vuelvo
o a los ocho a más tardar,
si a los ocho no viniere,
a los nueve vos casáis.—
Siete años estuvo el conde,
siete años estuvo y más,
ganara siete castillos,
a puertas de una ciudad.
Se cumplieron los siete años,
ya la tratan de casar.
Una noche el conde Dirlos
allá lo vino a soñar.
—¡Alto, alto, caballeros,
aquí no es tiempo de estar:
niños dejamos en cuna,
hombres vamos a encontrar,
quien tiene mujer bonita,
otro se la gozará!—
Alza velas el navío,
se vuelven a su ciudad.
Cuando llegara a sus tierras,
¿qué había de encontrar?
Ha encontrado las sus vacas
demudada la señal.
Preguntó por el pastor
y le respondió el zagal.
—¿De quién es este ganado,
con ese hierro y señal?
—Solía ser del conde Dirlos,
¡Dios le quiera perdonar!,
ahora es del conde Alarcos,
¡no se lo deje gozar!
Cuando era del conde Dirlos
vestía seda torzal,
ahora con el conde Alarcos
ando de roto sayal.
—Deténgase, el pastorcillo,
más le quiero preguntar:
¿dónde está aquel toro blanco
que entre ellas solía estar?
—El toro blanco vendieron,
la mañana de San Juan,
por él le dieron cien doblas
para las galas comprar.
—Di si ha dormido con ella
o la trae a su mandar.
—Ayer corrieron los toros
hoy les cocieron el pan;
ahora será la hora
que velándolos están.—
Metió la mano en el bolso,

una onza de oro le da;
    rienda le dio a su caballo
todo lo que puede andar.
    Cuando llegó a la iglesia,
ató el caballo a un rosal;
    tomó del agua bendita
y al coro se fue a sentar.
    La condesa, que lo vio,
a él se vino a abrazar:
    —Éste, éste es mi marido
y no el que me quieren dar.—
    Conde Alarcos, que lo oyó,
la fuera a abofetear.
    —¡Alto, alto, conde Alarcos,
no haya tanta libertad,
    tiempo que estuve con ella,
nunca le hice otro tal!
    Hemos de salir al campo,
por ver quién la ha de llevar.—
    La sacó de entre la gente,
como al pollo el gavilán.
    Unos dicen: "Maten, maten";
otros: "Dejadla llevar".
    Todos dicen: "Conde Dirlos
que es su esposo principal".

A fines del siglo XV, hubo una "escuela" de cantores profesionales públicos que compusieron larguísimos romances juglarescos situando la acción de ellos en la afamada corte de Carlomagno. Para algunos de sus temas, echaron mano de tradiciones "carolingias" conexionadas con la literatura novelesca descendiente de la épica tardía francesa; pero, en otros casos, adaptaron a ese ambiente fábulas que nada tenían que ver con los personajes que hacían actuar en ellas. Es éste el caso del romance de "El conde d'Irlos" o "Dirlos", con sus 1.366 octosílabos, en el que se "infla el perro" de un relato folklórico de tema odiseico hasta extremos increibles. Baste decir que la narración de la partida del conde a la guerra (con los dos motivos del pesar de la separación del conde y la condesa y el plazo de la ausencia, que en el texto aquí editado ocupan 18 octosílabos) se dilata hasta ocupar 266 octosílabos. No obstante, fue a partir de este texto juglaresco, impreso en pliegos sueltos desde comienzos del siglo XVI y reproducido encabezando el primer Cancionero de Romances, el impreso por Martín Nucio en Amberes, sin año (1548), como el romance se convirtió en texto de transmisión oral, adaptándose progresivamente al lenguaje poético tradicional, y se difundió por muy diversas comarcas, llegando a formar parte del Romancero del siglo XX.

Entre los sefardíes de Oriente (Salónica, Lárissa, Sofia, Rosiori, Sarajevo, Belgrado, Adrianópolis, Estambul, Tekirdadg, Çanakkale, Anatolia, Esmirna, Rodas, Jerusalén, Beirut) y de Occidente (Tetuán, Tánger, Alcazarquivir, Larache) adquirió vida tradicional independiente la escena inicial, la de la partida, con omisión del resto, siguiendo el gusto, tan extendido en el siglo XVI, por los finales abruptos, inconclusos, frente a la estructura del romance-cuento:

b)

Cartas le vinieron, cartas,
del rey su tío carnal,
que se le armaron guerras,
que le vaya a ayudar.
—¿De qué lloráis, blanca niña,
mi alma, de qué lloráis?
—Lloro por vos, caballero,
que os vais y me dejáis.
Me dejáis niña y muchacha,
chica y de poca edad;
tres hijicos tuyos tengo,
lloran y demandan pan.—
—Aquí tenéis cien ducados,
para empezar a gastar.
—¿Para qué me basta esto?,
para vino y para pan.
—Campos y viñas os dejo,
que vendáis y que comáis;
y, si esto no os basta,
empeñad media ciudad,
o vended mi nave armada
sin meterla por la mar.
—Ya que os vais, caballero,
decidme ¿cuándo tornáis?
—Si a los siete años no vengo,
a los ocho, os casáis;
tomaréis un mancebico
que sea mi parigual,
le daréis los mis vestidos
sin sudar y sin manchar;
¡quien a vos tome, señora,
mujer toma y capital!—
Ya se parte el caballero,
ya se parte, ya se va.

Pero, por otra parte, los sefardíes de Marruecos (al menos en Tánger) recordaron también el tema completo, en forma similar a la documentada en el Norte de España (en la montaña leonesa y en Cantabria), y en la Sierra de Béjar, donde, en 1946, 1948 y 1949, tuve ya ocasión de recoger, en Ribota (Sajambre), en Uznayo (Polaciones) y en Garganta de Béjar (Cáceres), algunas de las pocas versiones publicadas del romance tradicional de ”El conde Dirlos”. También se halla en El Bollo, en la Sanabria gallega, en Tras-os-montes y en Algarve. Dado que el viejo romance de “El conde Dirlos” no proporcionaba un desenlace adecuado para una narración no juglaresca, la tradición echó mano, en la Península, a recursos varios, acudiendo a menudo al tema análogo de “La vuelta del navegante”. Sólo en Tánger optó por un final abrupto, reducido al verso:

Embarcóse el conde Niño (‘Dirlos’)
y se volvió a desterrar.

Alza velas el navío,
se vuelven a sus ciudades,

al comprobar el conde, cuando retorna a su tierra, que su castillo o su ganado, que halla

cambiados de señal, han pasado a ser propiedad de otro conde, a quien “Dios le quiera hacer mal”.

El romance tradicional surgido del juglaresco conservaba, en un pasado no muy lejano, más motivos y expresiones dependientes del texto compuesto por un profesional del canto público que las documentadas en las muy escasas versiones de “El conde Dirlos” oídas por recolectores del romancero oral en el siglo XX. Nos lo evidencia el hecho de que algunas reminiscencias del texto juglaresco se hallen en versiones del romance de “La condesita”, del cual nos son conocidas cientos de versiones, ya que este romance (como a propósito de él dije) fue creado a partir de “El conde Dirlos” tradicionalizado, mediante la inversión de los papeles del conde y la condesa (esto es, haciendo que sea la condesa quien llega a tiempo para interrumpir la nueva boda del conde en tierras lejanas). Baste aquí citar como muestra la presencia en unas cuantas versiones de “La condesita” del motivo expresado en los octosílabos 71-72 y 101-106 del romance juglaresco:

—Mas, si vos queredes, conde,
yo con vos quería andare...
—Bien es verdad, la condesa,
que comigo vos queria levare,
mas yo voy para batallas
y no cierto para holgare;
cavallero que va en armas
de muger no deve cuurare,
porque, con el bien que os quiero,
la honra havría de olvidare.
